NORTH IDAHO COLLEGE

The College on the Lake

COEUR D'ALENE, IDAHO
Dear Students,

Thank you for showing interest in North Idaho College. You will find your experience here challenging, the employees helpful and the facilities modern and clean. These, coupled with your enthusiasm and hard work, will make for a positive educational experience for you and your fellow students.

This catalog will be the best tool you will have as a student. Most new students concentrate on class selection and what they will have to study as they prepare for college. Just as important, however, is learning how the college "works." It is important to learn how to change your class schedule, where the Business Office is located, and how to search other college libraries for reference materials. There are many details to learn to get the most out of your college experience and this catalog will provide you with many of those details.

Please read on and find out more about the fastest growing college in Idaho. I am very proud of this college and I believe you will be too.

Cordially,

David B. Lindsay
Dean of Students

North Idaho College Mission Statement

North Idaho College is committed to student success, teaching excellence, and life-long learning. As a community college, it provides quality educational experiences for its students and the community.

Goals

1. Establish student success as the primary focus in decision making.
2. Maintain and enhance instructional excellence.
3. Provide diverse educational experiences and services which are responsive to student and community needs.
4. Nurture a positive, supportive, and productive environment for all members of the college community.
5. Foster the partnership between the community and the college.

This year's catalog cover features a watercolor painting of the NIC Fort Sherman Officer's Quarters by Ramos Lakeside Kalina, BFA art instructor. The building is used for faculty offices and will re-open in the fall of 1997 after extensive refurbishing.

North Idaho College

Founded in 1933, North Idaho College is a comprehensive community college serving Idaho's five northern counties with a wide variety of programs for students of all ages. Located on the spectacular shores of Lake Coeur d'Alene and the Spokane River, North Idaho College offers the best of all worlds for learning and living. Quality instruction, small classes and a caring, talented faculty are the driving forces behind NIC's success.

NIC offers associate degrees in more than 35 transferable academic majors and associate of applied science/certificates of completion in 25 applied technology programs. Many credit courses are offered evenings and during the summer on the NIC campus and at outreach sites. NIC's enrollment in credit courses is approximately 3,700 students with classes averaging 15-20 students. NIC also includes a contemporary Workforce Training/Community Education Center which is located in the Riverbend Commerce Park in nearby Post Falls. Noncredit classes and workforce training programs serve another 6,000 students each year.

NIC's main campus in Coeur d'Alene is located amid the four-season beauty of North Idaho's world-famous recreation area. The best of outdoor fun is here, including mountain biking, boating, fishing, hunting, backpacking, hiking, camping, swimming, snowboarding and skiing.

The campus lies within the city limits of Coeur d'Alene, a 100-year-old city with a growing population of 30,500 residents.

In 1990 Coeur d'Alene was one of 10 cities in the country to be honored as an All America City. Cultural and social activities abound in this lakeside city, well-supplemented by the resources of nearby Spokane, Washington, a metropolitan area of 406,000.

Accreditation

North Idaho College is fully accredited in all instructional areas by the Northwest Association of Schools and Colleges and the Idaho State Division of Vocational Education. The Nursing Program is accredited by the National League for Nursing.

History

North Idaho College was first known as Coeur d'Alene Junior College, a private school that was started in 1933 and operated for six years. The state legislature, in January 1939, passed the Junior College Act, which permitted qualified areas to establish junior college districts by a vote of eligible electors. Coeur d'Alene Junior College became North Idaho Junior College in June of 1939, in compliance with the act. On July 31, 1971, the college changed its name to North Idaho College. NIC's service area is the Idaho Panhandle, which includes Kootenai, Benewah, Bonner, Shoshone, and Boundary counties.

Open Door Policy

NIC subscribes to the philosophy of the comprehensive community college, including an "open-door" admissions policy. To truly reflect its role as a community college, NIC accepts the fundamental responsibility to meet the varying needs of individuals with widely divergent interests and abilities. As a result, NIC seeks to respond to the needs of area businesses, industries, and governmental agencies by preparing competent, trained personnel.

The commitment to an open-door admissions policy is defined as providing all eligible students with access to an appropriate educational offering at the college. NIC enrolls students seeking a post-secondary education, but reserves the right to guide students into the courses and programs that will enhance their opportunities for success.

Certain designated courses of study have special requirements for admission. The college tests and evaluates entering students to place them in the appropriate level courses. Counseling and advising go hand-in-hand with all entrance procedures.

North Idaho College Website

North Idaho College maintains a homepage on the internet. Interested individuals are encouraged to visit NIC via the computer to get current and updated information about events, admissions, news and general information. The address for the North Idaho College site is:

http://www.nic.edu

E-mail may be sent to the Admissions Office at admit@nic.edu

Community Services

As a community college, North Idaho College strives to provide a quality educational environment and serve area residents through involvement in the community. Both goals are vitally important to NIC and are achieved in a wide variety of educational offerings, programs and services designed for the college community at large.

Concerts, theatrical productions, athletic competitions, convocation programs, "Popcorn Fridays," the NIC public television series and other events are offered regularly to encourage community participation and involvement. Special courses, programs and workshops meet the interests of individuals and community groups.

A free gold card program for senior citizens is available through the NIC College Relations Office. The gold card allows anyone 60 or older to enroll in credit classes at a 50 percent discount per credit hour and gives free admission to NIC-sponsored events. For more information, call phone (208) 769-3316.

NIC Foundation

The North Idaho College Foundation is an independent, non-profit corporation that raises and manages funds to
support the mission of North Idaho College.

Established in 1972, the Foundation is governed by a volunteer board and works closely with the NIC Trustees and staff to provide scholarships for students, purchase needed equipment, assist in building projects, and support programs for staff development, as well as other College activities.

The Foundation accepts and solicits both cash and non-cash gifts, investing and administering those funds to provide a growing source of additional support for North Idaho College, now and into the future.

Gifts to the Foundation are accepted through the Office of College Relations and Development. Further information about the Foundation is available by phoning (208) 769-3116 or writing to the Foundation at 1000 West Garden Ave, Coeur d’Alene, ID, 83814.

Use of NIC Facilities

Campus facilities are available for use by qualified off-campus organizations, agencies, or groups when use does not interfere with either curricular or extracurricular programs sponsored by the College or conflict with the mission of the College. Charges for use of facilities (if required) vary.

Requests for facility use should be directed to the NIC Campus Events Committee, in care of the College Relations Office, (208) 769-3116.

NIC Publications

Official North Idaho College publications such as catalogs, brochures, course and fee schedules, etc., are not to be considered as binding contracts between NIC and its students. NIC and its divisions reserve the right to: (1) withdraw or cancel classes, courses, and programs, (2) change fee schedules, (3) change the academic calendar, (4) change admission and registration requirements governing instruction and graduation from the College and its various divisions, and (5) change any other regulations affecting students. Changes shall be enacted for both prospective and presently matriculated students whenever deemed appropriate. Advance notice of such changes will be provided whenever possible.

Equal Opportunity

North Idaho College subscribes to the principles and laws of the State of Idaho and the federal government, including applicable executive orders pertaining to civil rights. The College is committed to the policy that all persons shall have equal access to programs and facilities without regard to age, color, creed, marital status, national or ethnic origin, handicap, race, religion, or sex.

North Idaho College does not discriminate on the basis of race, color, religion, national origin, sex, age, or disability in admission to, or operation of, its education programs and activities or employment. NIC’s equal opportunity nondiscrimination policy meets the requirements of Title IV and Title VII of the Civil Rights Act of 1964 as amended, Executive Order 11246 as amended, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and other pertinent state and federal laws and regulations.

Drug Free Campus

The Federal Drug Free Schools and Communities Act Amendments of 1989 require that all colleges and universities that receive federal funds develop a program to prevent the use of illicit drugs and alcohol by students and employees. Consistent with local, state and federal laws, the College will impose sanctions or seek legal remedy against students or employees who unlawfully possess, use, or distribute illicit drugs and alcohol on College property or as part of any College activity.

Idaho residents not from Kootenai County must file certificate with home county.
Operating as a comprehensive community college, North Idaho College accepts any student meeting minimum qualifications who can benefit from the credit-granting programs offered by the College. A diploma from an accredited high school or a G.E.D. is required to gain admission to the College as a matriculated student.

Students who intend to receive a degree or certificate from the College must submit all materials as listed below. Failure to do so will result in the student's status being changed to non-degree seeking.

Many students visit campus before applying for admission. During their visit, students can meet with an advisor to discuss academic and occupational plans. This is also a good way to learn about the requirements for various programs.

### Applying for Admission

- **Academic Transfer** ........................................ Page 12

- **Dual Enrollment Program** ................................. Page 18
- **Residency Information** .................................... Page 18

All applicants follow the steps listed below to enroll. Some programs have additional requirements or materials that must be submitted prior to being accepted into the program.

### Skills Assessment & Placement - ASSET

The Skills Assessment is an important part of enrollment and meets state and institutional requirements for student assessment and tracking. Since North Idaho College has an "open door" admissions policy, students are admitted with a wide range of entry skills. Entry levels in math, reading, and English skills are measured and results are used with other information in the advising process to assist students in selecting the most appropriate courses.

For further information on skills assessment, contact Student Services at (208) 769-3370.

You do not need to complete the assessment if:

1. You have completed the ASSET at NIC within the last two years, or,
2. You have successfully completed at least 26 college-level semester credits, including English and college-level math, or
3. You are enrolled only in exempt courses. (See the Class Schedule when available).

If you feel you are exempt from completing the ASSET, please call the Admissions Office at (208) 769-3311.

### Degree or Certificate Seeking

(Matriculating Students)

To apply for admission, the following items are necessary to complete your file:

1. **Application for Admission**
2. **$10 application fee** (Non-refundable, cash, check, or money order)
3. **OFFICIAL high school transcript** showing date of graduation. (Official transcripts are those sent directly from the issuing school to the Admissions Office. Any hand-carried transcript received in an unsealed envelope will be considered unofficial. Students currently enrolled in high school should wait until after their final grades are available at the end of the academic year. Students applying for the Associate Degree Nursing or the Licensed Practical Nursing Programs MUST have transcripts sent after completion of their seventh semester).
4. **QR** Official GED scores if non-high school graduate. Students who have not completed the GED or are non-high school graduates, contact the Office of Admissions.
5. **QR** OFFICIAL transcripts from all colleges and universities attended. (Official transcripts are those sent directly from the issuing school to the Admissions Office. Any hand-carried transcript received in an unsealed envelope will be considered unofficial)
6. **QR** Schedule appointment for the ASSET Placement Assessment.
7. **QR** Certificate of Residency. Required from Idaho students whose home county is NOT Kootenai County. Please refer to page 18 for details on determining residency status. Washington residents and Western Undergraduate Exchange Students submit a statement of residency for eligibility to receive a reduction of non-in-state tuition. Students eligible for these programs students must apply each year for this waiver before June 1st. Please refer to page 19 for further information.

### Non-Degree Seeking

(Non-Matriculating Students)

As an alternative education path for those who choose not to progress towards a degree, students 18 years of age or over may enroll in courses for their personal enrichment. The credits completed at North Idaho College will be maintained on a transcript. To enroll as a non-matriculating student, complete the following steps:

1. **Submit Application for Admission** prior to application deadline.
2. **Pay $10 application fee** (Non-refundable, one-time fee).
3. **Schedule an appointment for the ASSET Placement Assessment.
4. **File Certificate of Residency**. This is required from
Idaho students whose home county is other than Kootenai County. See page 18 for details on determining residency status.

Title IV financial aid and Washington Reciprocity, and the Western Undergraduate Exchange (WUE) programs are not applicable for non-matriculating students. These students are not allowed to participate in any intercollegiate activity. All non-matriculated students will follow the Academic Probation and Disqualification Policy that applies to regular matriculated students.

Those students who wish to change to matriculated status should notify the Admissions Office and complete the formal admissions process.

Applied Technology (ATEC) Admission Requirements

Effective Fall 1997

Many Applied Technology (ATEC) programs have limited enrollment and fill quickly. These programs are designated by an asterisk* on the list below. Students applying for ATEC programs are only considered for acceptance after receipt of the $10 application fee and results of the ASSET. Appointments for the ASSET are scheduled through the Admissions Office.

The ASSET is a standardized assessment of basic skills and is used for advising purposes. Assistance in improving math, language, and reading skills is available at no cost.

Decision letters (Acceptance or Wait List) for fall semester are usually mailed in the middle of April. Students accepted into a limited enrollment program must submit a non-refundable $100 program deposit by May 1. Any student accepted after May 1 should submit the program deposit within three (3) weeks of acceptance notification.

The following programs are funded by the State Board of Vocational Education. Therefore, students must satisfy the Applied Technology regular admission requirements detailed below:

- Auto Body Technology
- Automotive Technology
- Carpentry
- Computer Applications in Business
- Culinary Arts
- Diesel Technology
- Drafting Technology
- Electronics Technology
- Heating, Ventilation, Refrigeration and Air Conditioning
- Law Enforcement
- Machine Technology
- Maintain or Mechanic/Maintenance
- Marine Mechanics
- Office Information Specialist
- Office Assistant
- Secretarial Studies (Administrative, Legal, Medical)
- Small Business Management
- Welding Technology

* Limited Enrollment Programs

Applied Technology Regular Admission

(This policy was initiated and approved by the Idaho State Board of Education)

Students desiring Regular Admission to any of Idaho’s technical colleges must meet the following standards. Students planning to enroll in programs of a technical nature are also strongly encouraged to complete the recommended courses listed below. Placement in a specific technical program is based on the capacity of the program and placement requirements established by North Idaho College.

STANDARDS FOR HIGH SCHOOL GRADUATES OF 1997 AND THEREAFTER:

- High School diploma with a minimum 2.0 GPA
- Placement examination (the ASSET is currently used at NIC) and,
- Satisfactory completion of high school coursework that includes at least the following:

Mathematics: 4 credits from challenging math sequences of increasing rigor selected from courses such as Algebra I, Geometry, Applied Math I & II, Algebra II, Trigonometry, Discrete Math, Statistics, and other higher level math courses. Two mathematics credits must be taken in the 11th or 12th grade. (After 1998, less rigorous math courses taken in grades 10-12, such as pre-algebra, review math and remedial math will not be counted).

Recommended: Three years (6 credits) for students seeking admission to technical programs.

Natural Science: 4 credits including at least two credits of laboratory science from challenging science courses including applied biology/chemistry, principles of technology, applied physics), anatomy, biology, earth science, geology, physiology, physical science, zoology, physics, chemistry, and agricultural science and technology courses (500 level and above).

Recommended: 3 years (6 credits) for students seeking admission to technical programs with 2 years (4 credits) in laboratory sciences.

English: 8 credits. Two credits of Applied English in the Workplace may be counted for English credit.

Other: Vocational-Technical courses, including Tech Prep sequences and organized work-based learning experiences connected to the school-based curriculum, are strongly recommended. If High School Work Release time not counted to the school-based curriculum will not be considered.

STANDARDS FOR OTHERS SEEKING REGULAR ADMISSION:

Individuals who graduated from high school prior to 1997, and who desire Regular Admission to the technical colleges must complete:

- High school diploma with a minimum 2.0 GPA, or
- General Educational Development (GED) certificate,
- and Placement examination.
Applied Technology Provisional Admission

Students who do not meet all the requirements for Regular Admission to an applied technology program may be admitted to North Idaho College as a pre-technical student. Students admitted as pre-technical are required to successfully complete appropriate remedial, general and/or technical education coursework related to the technical program for which Regular Admission status is desired, and to demonstrate competence with respect to that program through methods and procedures established by NIC.

Students desiring provisional admission must complete:
- High school diploma or GED certificate, and
- Placement examination.

Applied Technology Placement Criteria

In addition to the requirements for admission to North Idaho College, students need to be aware that specific technical programs require different levels of competency in English, science and mathematics. Students must also be familiar with the demands of a particular occupation and how that occupation matches individual career interests and goals.

Before students can enroll in a specific program, the following placement requirements must be satisfied according to the State Board of Vocational Education:
- Each technical college in Idaho establishes specific program requirements (including placement exam scores) that must be met before students can enroll in those programs. A student who does not meet the established requirements for the program of choice will have the opportunity to participate in Basic Academic Development to improve their skills.
- Students must provide evidence of a career plan. (It is best if this plan is developed throughout high school prior to seeking admission to a technical college.)
- Students must possess competency in basic computer skills. (These competencies should be developed prior to seeking admission if possible.)

General Admissions Information

1. Application materials should be received by NIC at least one month prior to registration to allow for time to evaluate transcripts and notice of acceptance.

For students applying for financial aid beginning fall semester, admission applications should be received by March 15 to be considered for the first round of financial aid awards. After that date, financial aid will be awarded on a funds available basis.

2. Students transferring from another college or university, and whose cumulative grade point average is below 1.75, will be admitted on probation. See the Academic Probation section on page 33.

3. Idaho students not from Kootenai County must have certificates of residency sent to NIC from their County Auditor's Office. If the certificate is not received prior to registration, out-of-district fees will be charged to the student. If you have completed more than six full-time semesters at NIC, you may not be eligible for the tuition benefit from your county.

Students who exceed the tuition benefit will be charged non-district tuition. However, non-district tuition is significantly lower than out-of-state tuition. Please check with your county for further details.

4. Physical examinations are required for students accepted into the Registered Nursing (RН) and Practical Nursing (PН) programs. All students who take part in intercollegiate athletics are required to have annual physical examinations.

All required credentials should be sent to:
Office of Admissions
North Idaho College
1050 West 2nd Avenue
Coeur d'Alene, ID 83814
(208) 769-3111

Continuing Students

Any student who is currently enrolled at NIC in good academic standing will be allowed to register for the next semester (fall or spring) without re-applying for admission.

Students are responsible to notify the Registrar's Office of any change of name or address.

Former Students

Students who have been away from North Idaho College for one or more semesters must complete an application for admission. Any student who plans to be a matriculating (degree seeking) student and has attended other colleges since being enrolled at NIC, must submit those transcripts. Please review the definition of residency status on page 18. For those students whose status has changed, they are responsible to file the appropriate certification (Certificate of Residency, Washington Reciprocity or Western Undergraduate Exchange) with the Admissions Office. Without this certification, students may be overcharged on tuition.

Non-High School Graduate

A non-high school graduate (or a student who graduated from a non-accredited high school) may be admitted as a regular matriculating student upon passing the high school level General Educational Development (GED) tests. The student must receive a standard score of 35 or above on each test and an average standard score of at least 45 on all five tests. If a student has not completed the GED, they must complete the ASSET and receive a minimum score before being accepted for admission.

However, students who do not attain the minimum score are still allowed to enroll as a non-matriculating student. (Minimum ASSET scores required for matriculation are: Writing Skills 34, Reading Skills 34, Numerical Skills 31.) Please check with the Admissions Office for details.
Selective Programs

Admissions

The following NIC programs have a selective admissions process:
• Mental Health Technology (Allied Health)
• Paralegal
• Pharmacy Technology (Allied Health)
• Physical Therapist Assistant (Allied Health)
• Practical Nursing
• Registered Nurse

Application packets are available from the Admissions Office. Admission procedures and requirements for each program are listed below.

Mental Health Technology
Application Deadline: March 30, 1998 for acceptance into Fall 1997 Mental Health Technology field experience.

ADMISSION PROCEDURES:
1. Application for Admission (including current students). New and former students must complete formal admissions process as listed for Degree Seeking Students (Matriculating)
2. Three Allied Health Recommendation forms, completed preferably by an employer, teacher, counselor or volunteer supervisor
3. Completed Personal Statement form
4. Transfer applicants must submit official transcripts of work-in-progress from current college. Final transcripts are required when available. The Allied Health Department will determine if previous college work will transfer

ADMISSION REQUIREMENTS:
1. High school diploma or GED
2. Minimum cumulative grade of a "C" must be achieved. A grade of "C" in prerequisite courses may be accepted if currently enrolled, mid-term grades will be considered until final grades are available
3. No course may be repeated more than once to achieve a 2.00 grade point average
4. Completion of PSH Health Occupations Aptitude Examination. Testing will be scheduled in September and October, 1996. Phone (208) 769-1297 for an appointment. There is a $20 testing fee
5. Completion of ENGL 099, "Fundamentals of Writing" or equivalent with at least a "C" 12.00 grade or recent ASSET scores (within last two years) indicating placement in ENGL 101, "English Composition"

Paralegal

ADMISSION PROCEDURES:
1. Application for Admission (including current students). New and former students must complete formal admissions process as listed for Degree Seeking Students (Matriculating)
2. Three Paralegal recommendation forms, completed preferably by an employer, teacher, counselor or volunteer supervisor
3. Completed Personal Statement form
4. Transfer applicants must submit official transcripts of work-in-progress from current college. Final transcripts are required when available. The Department of Business and Professional Programs will determine if previous college work will transfer

ADMISSION REQUIREMENTS:
1. Cumulative GPA of 2.00 or higher
2. Completion of or currently enrolled in:
   BUSCH 171 Word Processing/Machine Transcription
   BUSCH 205 Legal Terminology/Transcription
   COMM 131 Introduction to Speech, or
   COMM 231 Interpersonal Communications, or
   COMM 236 Small Group Communications
   ENGL 101 English Composition
   PLEG 101 Intro to Law and Legal Practice
   PLEG 103 Legal Procedures
3. One year of legal office experience or completion of a legal secretarial (A.A.S. degree) program that contains at least 150 hours of identified legal office internship, practice or field experience.
   NOTE: Previous legal office experience or internship, practice, or field experience must have occurred within the past five (5) years

Pharmacy Technology

ADMISSION PROCEDURES:
1. Application for Admission (including current students). New and former students must complete formal admissions process as listed for Degree Seeking Students (Matriculating)
2. Three Allied Health Recommendation forms, completed preferably by an employer, teacher, counselor or volunteer supervisor
3. Completed Personal Statement form
4. Transfer applicants must submit official transcripts of work-in-progress from current college. Final transcripts are required when available. The Allied Health Department will determine if previous college work will transfer

ADMISSION REQUIREMENTS:
1. High school diploma or GED
2. Minimum grade of a "C" 12.00 must be achieved in prerequisite courses. (See program guidelines in the catalog). If currently enrolled, mid-term grades will be considered until final grades are available
3. No course may be repeated more than once to achieve a 2.00 grade point average
4. Completion of PSH Health Occupations Aptitude Examination. Testing will be scheduled in September and October, 1996. Phone (208) 769-1297 for an appointment. There is a $10 testing fee
ADMISSIONS

5. Completion of ENGL 099, "Fundamentals of Writing" or equivalent with at least a "C" (2.00) grade, or recent ASSET scores (within last two years) indicating placement in ENGL 101, "English Composition."

Physical Therapist Assistant

ADMISSION PROCEDURES:
1. Application for Admission (including current students). New and former students must complete formal admissions process as listed for Degree Seeking Students (Maturicating).
2. Transfer applicants must submit official transcripts of work-in-progress from current college. Final transcripts are required when available. The Allied Health Department will determine if previous college work will transfer.
3. Completion of PSE Health Occupations Aptitude Examination. (Testing dates are determined during Fall Semester. Phone (208) 769-3297 for an appointment. There is a $10 testing fee.

ADMISSION REQUIREMENTS:
1. High school diploma or GED.
2. Minimum cumulative grade point average of 2.75 must be achieved. If currently enrolled, mid-term grades will be considered until final grades are available.
3. No course may be repeated more than once to achieve a 2.00 grade point average.
4. Completion of the following prerequisites:
   a. ALTH 101 and 102
   b. ALTH 105
   c. COMM 233
   d. ENGL 101
   e. BIOL 227 and 228
   f. MATH 102
   g. BUSO 109
   h. PSYC 101
   NOTE: All science courses must have been taken within the last five years.
5. 80 hours of volunteer or paid experience in a physical therapy setting. These hours must be completed before fall semester begins.

Practical Nursing

In addition to the regular college admissions requirements, students applying for the Practical Nursing Program must complete a Nursing application and pre-admission assessment for practical nursing examination. (Current students should already have an application fee and transcripts on file. These students, however, still need to submit an admission application to apply to the nursing program).

The Application for the Practical Nursing Program may be picked up at the College Admission's Office after October 15. Students accepted into the practical nursing program must submit a $100 deposit by May 1 (or 15 days after receipt of acceptance letter) The PN program has a selective admissions process. Listed below are the guidelines for nursing applicants.

ADMISSION CRITERIA:
1. A high school diploma or a GED.
2. A cumulative grade point average of 2.50 or a 2.50 grade point average from the last 10-12 college credits, which includes four credits of science courses required by the Practical Nursing Program. The exam must be completed by the end of the spring semester prior to fall admittance with a C or better and an overall cumulative grade point average of 2.00 or above is required.
3. A minimum grade of C or 2.00 GPA must be achieved in prerequisites which include:
   a. Chemistry 101. This will be waived if the student has taken two years of high school chemistry, or one year of chemistry and one year of physics and received a grade of C or better. Science credits taken should be less than five years old.
   b. English 101 if high school English grades are less than C
   c. MATH 102
   d. PSYC 101
4. Minimum grades of C or 2.00 is required for the Practical Nursing Program.
5. No course may be repeated more than once to achieve a 2.00 grade point average.
6. The Practical Nursing Department will determine if previous college work will be acceptable for transfer. Science courses completed more than five years ago must be repeated.

Registered Nursing

In addition to the regular college admissions requirements, students applying for the Registered Nursing (RN) Program need to complete a Nursing application. (Current students should already have an application fee and transcripts on file. These students, however, still need to submit an admission application when applying to the nursing program).

1. Three (3) completed NC nursing recommendation forms preferably from an employer, teacher, counselor, or volunteer supervisor. Recommendations from family members will not be accepted.
2. A completed Personal Statement form on the student's own handwriting.

The Application for the Nursing Program may be picked up at the Admission's Office after October 15. Students accepted into the nursing program shall submit a $100 deposit by May 1 (or 15 days after receipt of acceptance letter).

ADMISSION CRITERIA:
1. A high school diploma or GED.
2. A cumulative grade point average of 3.00, but a cumulative of 2.75 is preferred. The last 12-14 college credits completed must reflect a GPA of 3.00 which includes eight credits of science courses required by the Associate Degree Nursing Program. The science courses must be completed by the end of the spring semester prior to fall admittance with a C or better and an overall cumulative grade point average of 2.00 or above is required.
3. Priority in selection for admission will be given to students who have completed all of the required general education requirements including science prior to the start of the nursing program with a cumulative GPA of 2.75; completed all science courses with a cumulative GPA of 2.75; completed all science courses with a cumulative GPA of 2.75; completed all science courses with a cumulative GPA of 2.75.
4. A minimum grade of 2.00 must be achieved in prerequisites which include

5. Completion of ENGL 099, "Fundamentals of Writing" or equivalent with at least a "C" (2.00) grade, or recent ASSET scores (within last two years) indicating placement in ENGL 101, "English Composition."
International Students

North Idaho College welcomes the enrollment of qualified international students. The college encourages meaningful participation in the educational, social, and cultural activities of the local community. Therefore, the college reserves the right to limit the number of students admitted from any one foreign country to allow for a diversified student body.

Admission Procedures

International students must meet the same standards as students applying from the United States. There are additional requirements which have been established by the college and/or the United States Immigration and Naturalization Service. Any non-citizen of the U.S. who has not received immigration status is considered an international student.

Requirements

1. Submit an application for admission.
2. Submit the $10 application fee (non-refundable).
3. Academic Records: Submit original or certified copies of transcripts or documents from all secondary or post-secondary schools attended. If credentials are not in English, a certified English translation must be attached. Course syllabi for all post-secondary transfer courses should be submitted in English. This will enable the college to provide a complete evaluation of credits to determine which courses fulfill degree requirements.
4. Evidence of English Proficiency: An international student whose native language is not English is required to supply official results of the Test of English as a Foreign Language (TOEFL). A total score of 500 or above is required for admission. To have scores submitted to NIC, please specify the NIC code number (4591) on all TOEFL registration materials. North Idaho College does not administer the TOEFL; however, the test is given worldwide. For further information write to: TOEFL, Box 899, Princeton, New Jersey 08540 USA.
5. Certificate of Health: International students must have a thorough health examination by a recognized medical agency before admission may be granted. A signed guarantee of health must be sent with the application for admission. Upon arrival on campus, students must provide documented results of TB skin test or chest X-rays along with immunization records for measles, mumps, rubella and tetanus boosters.
6. Health Insurance: International students are required to purchase the Student Health Insurance Plan (Plan B) available through the Associated Students of North Idaho College. Exemptions are only granted if the student can provide comparable evidence of financial responsibility for medical expenses. Students purchasing this insurance will be covered until the end of the coverage period. This policy includes medication and medical evacuation benefits.
7. Financial Declaration: International students must have sufficient financial resources to fully meet all institutional and personal expenses while studying in the United States. Students are expected to be supported by parents, an individual, a sponsoring organization, or a governmental agency. Applicants must certify that they have the funds to cover the costs covered by the insurance policy. All sponsorship must be verified in writing. The following is an estimate of the expenditures that the college will incur: tuition and fees $1,100, room and board $4,500, mandatory health insurance $205.
8. Guidelines for Returning Application Materials: International students applying from abroad should submit all required admission forms and transcripts at least six (6) months before registration to allow time for evaluation and notice of acceptance. In the case of international students applying from within the United States, application materials should be submitted at least one month before registration. All forms must be sent to:

Office of Admissions
North Idaho College
1000 West Garden Avenue
Coeur d'Alene, Idaho 83814 USA

Note: It is recommended that these students who have completed more than one year of college level work in their own country apply to a four-year institution. North Idaho College only offers a two-year curriculum.

9. Admitted Students: Academic success at North Idaho College is strongly dependent on students' proficiency in English. Therefore, upon arrival at North Idaho College, each student will be examined again with an English placement test. Results achieved will determine placement level in the English program.
Dual Enrollment

North Idaho College offers two programs for high school students who would like to enroll in college-level courses.

- The Dual Enrollment Program is suggested for juniors or seniors in high school who would like to complete courses as a dually enrolled student at North Idaho College.
- The Applied Technology (ATEC) Dual Enrollment Program is for seniors in high school who would like to explore options in the applied technology training arena. ATEC Dual Enrolled students do not receive credit towards a North Idaho College certificate of completion.

To participate in either program:
1. Complete an NIC Application for Admission. Indicate "Dual Enrollment" or "ATEC Dual Enrollment" on the top of the application.
2. Demonstrate successful ability to the Director of Admissions and Financial Aid. This is determined by related test scores, grade reports or class standing (usually those students in the top 25% of their class or subject area). Submit official transcript (in sealed envelope from high school) of work completed to date.
3. Submit a supporting recommendation from the appropriate high school guidance counselor with a statement indicating how the student will be able to handle the increased academic load and that the student has permission from the high school to participate.

Courses are normally limited to those classes not already filled or reserved for NIC students and those not requiring prerequisites. Students may participate in the following ATEC programs: Auto Body Technology, Automotive Technology, Criminal Justice, Culinary Arts, Marine Technology, Machine Shop, Diesel Mechanics and Welding. Only two spaces will be allowed for each program area with permission of the instructor.

Dual Enrollment students may be required to complete placement testing prior to registration for certain courses. ATEC students will be required to take the ASSET prior to enrolling. Participants must pay the applicable tuition and fees. (Financial aid is not available for those students in the Dual Enrollment Program).

Students should work closely with their high school counselor to ensure the classes they select will be beneficial.

Certificate of Residency

North Idaho College receives the major part of its funding from Kootenai County. An additional portion comes from state funding. Idaho students who do not reside in Kootenai County must file a Certificate of Residency with their home county auditor's office. Certificate forms are available from the Admissions Office or the county auditor's office.

Some counties may require additional information or have students complete additional forms. Please check with your county early before the semester begins, so that this process can be completed on a timely basis.

If you have completed more than six full-time semesters at NIC, you may not be eligible for the tuition benefit from your county. Students who exceed the tuition benefit will be charged non-district tuition. However, non-district tuition is significantly lower than out-of-state. Please check with your county for further details.

The county is obligated by state code to pay the out-of-district charge. Under current Idaho State Code, "...a student in a community college shall not be deemed a resident of the district, or of a county, or of the State of Idaho, unless such student shall have resided within said district, county, or state, at least one (1) year continuously prior to the date of his/her first enrollment in said community college." Additionally, "residents may not be acquired while attending, and enrolled in, a community college."

"Counties in Idaho are liable for the out-of-district tuition so long as the student is duly enrolled and attending the college. This liability shall be for six (6) semesters or the term of the curriculum for which the student is enrolled, whichever is lesser."

If verification is not received from the home county, the student must pay the non-resident fees. Exception: Students from the counties of Kootenai, Twin Falls or Jerome are not required to complete the Certificate of Residency. Those counties collect funds through assessed taxes to fund the community college in their district.

Resident Status

Residents of Idaho

Any applicant for admission who has been domiciled in Kootenai County for at least 12 months, but less than 18 months, will be asked to submit proof of Kootenai County residency. Until this documentation has been received and approved by the Admissions Office, out-of-state tuition will be charged at the time of registration.

The NIC district comprises all of Kootenai County. For tuition purposes, a student who is a permanent resident of the United States may be classified as a resident of the district by meeting one or more of the following qualifications:

1. Any student whose parents or court-appointed guardians are domiciled in the college district and provide more than 50% of his or her support. (Domiciled means an individual's true, fixed, and permanent home and place of habitation. It is the place where he or she lives without intending to establish a new domicile elsewhere.) To qualify under this section, the parents or guardian must have resided continuously in the college district for 12 months preceding the opening day of the term for which the student matriculates.

2. Any student who receives less than 50% of his/her support from parents or legal guardians who are not
residents of the college district for voting purposes, and who has continuously resided in the college district for 12 months preceding the opening day of the term for which the student matriculates.

1. The spouse of a person who is classified as or is eligible for classification as a resident of the college district for the purpose of attending the college.

4. A member of the armed forces of the United States stationed in the college district on military orders.

5. A student whose parents or guardians are members of the armed forces stationed in the college district on military orders and who receives 50% or more of support from parents or legal guardians.

The student, while in continuous attendance, shall not lose his/her residency when his/her parents or guardians are transferred on military orders.

6. A person separated, under honorable conditions, from the United States armed forces, after at least two years of active service, who, at the time of separation, designates the college district as his/her intended domicile or who has the district as the home of record while in service and enters the college within one year of the date of separation.

7. Any individual who has been domiciled in the college district, has qualified and would otherwise be qualified under the provisions of this statute, and who is away from the district for a period of less than one calendar year and has not established legal residence elsewhere, provided a 12 month period of continuous residence has been established immediately prior to departure.

Residents of Washington State Reciprocity

Matriculating students who are legal residents of the State of Washington may qualify for a reduction of out-of-state tuition under the terms of the reciprocity agreement between NIC and the State of Washington. While any student may enroll at North Idaho College, only a limited number of students are awarded Washington reciprocity rates.

New students are requested to apply for admission to the college and for the reciprocity waiver by June 1 to be considered for the school term beginning with the fall semester. Students continuing for their second year must submit their reciprocity application by April 1 and register for classes during the April pre-registration set aside for continuing students. Any student, new or continuing, applying for reciprocity will be considered on a space-available basis.

Western Undergraduate Exchange (WUE)

The Western Undergraduate Exchange Program (WUE) was established to financially assist individuals interested in attending college out of their home state. The WUE tuition status is available only to matriculated (degree seeking) students on a space available basis.

During the 1992/93 academic year the following western states are participating in this program for two-year institutions:

- Alaska
- Montana
- Oregon
- Colorado
- Nevada
- South Dakota
- Hawaii
- New Mexico
- Utah
- Idaho
- North Dakota
- Wyoming

New students are requested to apply for admission to the college and for the WUE tuition reduction by June 1 to be considered for the fall semester. Students continuing for their second year must submit their WUE application by April 1 and register for classes during the April pre-registration set aside for continuing students. Any student, new or continuing, applying for WUE will be considered on a space-available basis.

For information about Reciprocity or WUE call or write:
Office of Admissions, North Idaho College, 1000 West Garden Avenue, Coeur d'Alene, ID 83814, (208) 769-3311

Senior Citizens

Any individual 60 years old or older may obtain a North Idaho College Gold Card. The Gold Card allows the individual to enroll in credit classes at a 50 percent discount per credit hour. Materials, books, and special fees are full price. Noncredit classes require full fees regardless of age. The Gold Card may be picked up at the Office of Admissions in Lee Hall or the College Relations Office in the Sherman Administration Building.
Financial Costs & Information

Fees and Expenses

Expenses for attending North Idaho College will vary with the habits and financial means of the individual student.

Because tuition and fees and room and board rates are established annually, it is difficult to list or predict actual cost breakdowns in this area. The rates listed are an estimated projection to be used as a guideline only. All rates quoted are subject to change without notice.

Idaho residents not living in Kootenai County must submit a Certificate of Residency. Washington residents must submit a Washington Reciprocity Form. (Both forms are available from the Admissions Office).

Estimated Costs Per Year*

Academic Students

Kootenai County Resident

Tuition and Fees: $1,049
Room and Board: $3,380
Books and Supplies: $500
Total: $4,929

Out-of-District

Tuition and Fees: $1,049
(with approved home county assistance)
Tuition and Fees: $2,049
(without approved home county assistance)
Room and Board: $3,380
Books and Supplies: $500
Total with county assistance: $4,929
Total without county assistance: $5,929

1. Home county is responsible for out-of-district fees for those students who have established residency within that county.

Out-of-State

Tuition and Fees: $3,468
Room and Board: $3,380
Books and Supplies: $500
Total: $7,348

Western Undergraduate Exchange students pay $3,118
Washington Reciprocity recipients pay $2,468

More than 17 credits, additional fee:
- Idaho Residents: $63 Fall/Spring per credit
- Out-of-State/Country: $207 Fall/Spring per credit

Estimated Costs Per Year*

Applied Technology Programs

Idaho Resident

Tuition and Fees*: $1,049 - $1,262
Room and Board: $3,380
Books and Supplies: $100 - $2,300
Total: $4,529 - $7,142

Out-of-State

Tuition and Fees: $3,468 - $4,314
Room and Board: $3,380
Books and Supplies: $100 - $2,500
Total: $6,948 - $10,194

* These costs are estimates for the 1991-1992 year based on two semesters per year and 12 credits per semester.

** Tuition and fees vary with the length of program. The majority of programs are between 9 and 11 months.

*** This figure varies with programs. It includes the credits needed required in many of the programs. Tool costs vary from program to program.

These figures do not include personal expenses and transportation. This estimate reflects increases in educational costs based on anticipated increases in the basic cost of living.

Part-Time Enrollment

Students enrolling for seven semester credits or less are charged a per-credit fee.

Kootenai County Residents:
- Fall Semester: $271 first credit, $61 each additional credit
- Spring Semester: $271 first credit, $66 each additional credit

Out-of-County, Idaho Residents:

A. Students qualifying for county support:
- Fall Semester: $271 first credit, $61 each additional credit
- Spring Semester: $271 first credit, $66 each additional credit

B. Students not qualifying for county support:
- Fall Semester: $334 first credit, $126 each additional credit
- Spring Semester: $337 first credit, $129 each additional credit

Out of State or Country:
- Fall Semester: $215 first credit, $203 each additional credit
- Spring Semester: $233 first credit, $224 each additional credit

Special and Incidental Fees

Application Fee: $10
GED Testing Fee: $10 per test
Parking Fee (per year): $10
Special Course Fees: $2
Transcript Fee: $2
Summer Session:
Consult Summer Session Schedule for tuition and fees.

Noncredit Special Interest Classes:
Fees for noncredit classes differ for each class. A complete fee schedule is published in the non-credit course catalog.

Room and Board (Dormitory per year) $1,380
14 meals per week

FEES ARE SUBJECT TO CHANGE WITHOUT NOTICE
Deposits

Associate Degree Nursing Deposit ..................... $100

The Nursing program deposit is due by May 1. It will be applied to the tuition and fee charges for the initial semester or term of enrollment. Deposits may be refunded if notification of cancellation is officially given to the Admissions Office on or before July 1. No refund will be given if a student withdraws after the prescribed deadline.

Shepperd/Gridley Hall Room Reservation Deposit ........ $75

This deposit is refundable upon proper notice up to thirty (30) days prior to registration day for the contracted semester. When dormitory residence has been established, the $75 is applied as a damage deposit. A student will be charged for any abnormal damage caused by his/her actions. Students are encouraged to reserve rooms in early spring because of limited residence hall facilities.

Applied Technology Program Deposit ................. $100

Upon acceptance to a specific applied technology program, students must submit a $100 program deposit by May 1. Students accepted after May 1 must submit the deposit no later than 15 days after the date on the acceptance letter. The deposit will be applied to the tuition and fee charges for the initial semester or term of enrollment. See page 43 for those programs that require a deposit.

Tuition and Fees Payment Procedures

Tuition, fees, and any special fees must be paid at the time of registration, unless financial aid has been approved. Students failing to pay amounts due to NIC will be excluded from classes and their credits withheld. No student will be given a transcript of his/her record, nor will credits be issued on a degree or certificate awarded, until all accounts are settled in full. This includes any funds received through the Financial Aid Office involving overpayments, credits, or delinquency loans.

Payment of regular student fees entitles the student to the services maintained by NIC for the benefit of students. No reduction in fees can be made for students who may not desire to use any part of these services. Extra charges are made for special services and specific courses.

Students eligible for financial aid, but who have not completed the process prior to registration, will be expected to pay all required charges at the time of registration.

Veterans and other eligible persons receiving Veteran's Administration educational benefits must pay all required charges at the time of registration. Those who are depending on veterans educational benefit checks to pay fees must apply for advance pay at least one month prior to registration day.

Tuition, fees and college housing fees are established each year by the Board of Trustees. Interested persons may inquire at the Admissions Office for applicable rates and payment information.

NIC reserves the right at any time to change its charges. In the unlikely event that such changes become necessary, NIC will endeavor to give advance notice.

North Idaho College Refund Policy

A. Refund - Students who withdraw officially or unofficially from all classes at North Idaho College may be entitled to a refund of a portion of their tuition, fee, room and board charges. If financial aid paid a portion of these charges, then a portion of the refund must be returned to the federal financial aid funds.

B. Repayment - Students who withdraw officially or unofficially from all classes at North Idaho College and who have received financial aid in excess of the calculated costs of living expenses and other non-billed costs for the period they actually enrolled may be required to repay a portion of the financial aid they received to the federal financial aid funds.

Full-time or part-time students who withdraw from semester-length credit courses (day or evening) will, ON WRITTEN NOTIFICATION to the College Registrar AT THE TIME OF WITHDRAWAL, receive refunds as follows:

1. If withdrawal is made before the second day of the semester, 100% less $10 will be refunded.
2. If withdrawal is made before the second day of the semester, 75% will be refunded.
3. If withdrawal is made after the first week and within the second week, 50% will be refunded.
4. No refund will be allowed after the second week of the start of the semester.

Students who withdraw from short-term courses (less than 15 weeks in length) will, ON WRITTEN NOTIFICATION to the College Registrar AT THE TIME OF WITHDRAWAL, receive refunds as follows:

1. If withdrawal is made prior to the first class meeting, 100% less $10 will be refunded.
2. If withdrawal is made prior to the first class meeting, 75% will be refunded.
3. If withdrawal is made before the second day following the first class meeting, 50% will be refunded.
4. No refund will be allowed after the second day following the second class meeting.

Should a class be cancelled, students will receive a full refund for the class provided the student's enrollment drops below eight credits.

NOTE: Federal financial aid regulations require a pro rata refund of tuition and fee charges for the student who enrolls at North Idaho College for the first time and is receiving federal financial aid funds. For more information please see page 21.
Financial Aid - What is it?

Financial aid provides money to help students pay for the cost of a North Idaho College education. There are three different types of financial aid: grants or scholarships, loans, and student employment.

Grants and scholarships are considered gift aid because they do not need to be repaid. Loans, however, must be repaid when the student graduates or ceases to enroll. Student employment awards provide a part-time job. Students who apply for financial aid will be considered for all three types of help. Funding for financial aid comes from the federal government, state government, private sources, and North Idaho College.

Approximately 45 percent of the students attending North Idaho College receive some type of financial aid. Students who think they may need help to pay for college should apply for financial aid. Due to limited funding, the earlier in the year the financial aid application is completed the better the chances are for receiving the maximum financial aid for which they are eligible. The Pell Grant and the Stafford Loan are available all year so students who miss the preferred Financial Aid deadline of April 15 may still receive some type of assistance.

Students eligible for financial aid, but who have not completed the process prior to registration, will be expected to pay all required charges at registration.

Eligibility For Financial Aid

North Idaho College awards financial aid on the basis of merit and financial need. Merit-based awards consider the students' skills and abilities to determine eligibility. Examples of criteria for the merit-based scholarships or grants may include academic excellence, athletic ability, or interest in a particular college major.

Eligibility for need-based financial aid is determined by the student's computed financial need. Financial need represents the difference between the total cost of attendance and the amount the student and his/her family can afford to pay toward that cost—the Estimated Family Contribution. The total cost of attendance includes allowances for the cost of tuition and fees, books, supplies and tools, room and board (or rent and food), living expenses, and transportation from home. The Estimated Family Contribution is calculated by using information the student and his/her parents (if dependent on parents) or spouse (if married) provide on the Free Application for Federal Student Aid (FAFSA) and other documents.

There is NO income cut-off for need-based financial aid. A needs analysis formula established by the federal government is used and takes into consideration family size, number in college, unusual medical or dental expenses, as well as income and assets.

To be eligible for need-based financial aid, in addition to demonstrating financial need, the student must:
1. Have a high school diploma, GED certificate, or pass the ability to benefit test.
2. Be accepted for admissions into North Idaho College as a matriculated (degree seeking) student.
3. Not be in default on a Federal Perkins Loan, Federal Stafford Loan (formerly Guaranteed Student Loan), Federal Supplemental Loan for Students, Federal Parent Loan for Undergraduate Students made for attendance at North Idaho College, or any other educational institution.
4. Not owe a refund on a Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, Federal State Student Incentive Grant, or Federal Family Education Loan previously used for attendance at North Idaho College or any other educational institution.
5. Be an American citizen, national, or permanent resident.
6. Certify that, if required, he has registered with Selective Service.
7. Maintain satisfactory academic progress toward his/her North Idaho College degree or certificate as defined by the North Idaho College Satisfactory Academic Progress Policy.

Satisfactory Academic Progress Policy

The U.S. Department of Education requires students to maintain satisfactory progress toward their degree or certificate in order to be eligible for financial aid. This applies to students who apply for financial aid for the first time, as well as to those who are currently receiving aid. All semesters of attendance at North Idaho College, including periods when no financial aid was received are reviewed. To meet the Satisfactory Academic Progress requirements at North Idaho College, students must:

1. Achieve a minimum 2.0 grade point average (GPA) during the first semester of enrollment. A cumulative GPA of 2.00 or better must be earned after the first semester. If the cumulative is below 2.00, but the semester GPA is 2.00 or higher, students will be allowed to receive aid.
2. Complete a specified number of credits per semester based on the number of credits enrolled in during that semester.

Financial Aid Probation

Students will be placed on financial aid probation if they do not complete the GPA requirements OR do not complete the required number of credits per semester.

Removal From Financial Aid Probation

Students placed on financial aid probation must achieve a 2.00 GPA and/or make up any deficient credits to be in good standing.

Financial Aid Eligibility Suspension

Students will not be eligible for financial aid at North Idaho College and any current financial aid award will...
be cancelled if they:

1. Complete less than five credits during any semester.
2. Are on financial aid probation and do not earn a 2.00 GPA and/or complete the required number of credits during the semester.
3. Have not completed their degree or certificate within the maximum number of semesters.

**Appeal**

If the student’s financial aid award has been cancelled due to failure to maintain satisfactory academic progress, he/she may submit an appeal to the Scholarship and Financial Aid Committee to request reinstatement of aid eligibility. If the appeal is approved by the Scholarship and Financial Aid Committee, he/she will be placed on probation and asked to sign a Financial Aid Contract. The contract outlines the specific requirements the student must meet in order to maintain Satisfactory Academic Progress. Students who fail to meet the conditions of the Financial Aid Contract will not be eligible for financial aid from North Idaho College. Students will not be eligible to appeal until the completed six credits of core courses at their own expense.

**Applying For Scholarships**

Students who want to apply for a scholarship should complete the North Idaho College Scholarship Application and return it to the Financial Aid Office prior to April 15 for fall semester and prior to November 15 for spring semester. Scholarship Applications are available from the Financial Aid Office and from area high schools.

**Applying For Financial Aid**

To apply for all other types of financial aid, the student and his/her parent(s) (if dependent) need to complete the Free Application for Federal Student Aid (FAFSA). In addition to the FAFSA, the student may need to submit a copy of his/her U.S. Income Tax return and, in some cases, copies of his/her parent(s)’ U.S. Income Tax return.

The financial aid application process takes approximately two months from the time the student applies to the time he or she receives a check. The student applies the better the chances for receiving full financial aid funding. Students who complete the financial aid application process prior to the April 15 priority deadline will be considered for all types of financial aid. Those who apply after that date will be considered for the Federal Pell Grant, the Federal Stafford Loan and any other funds that are available.

**Financial Aid Information**

A Financial Aid brochure which outlines in greater detail the types of financial aid, eligibility requirements, and application procedures is available from the Financial Aid office.

**Bookstore Charges and Financial Aid**

Students who have been approved to receive financial aid through the NIC Financial Aid Office will be allowed to charge books and supplies at the NIC Bookstore beginning the week prior to the start of classes through the first week of classes, provided that he/she is matriculated (degree-seeking), enrolled in the correct number of credits, and has completed the admissions process.

Bookstore charges are allowed against a Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (SEOG), State Student Incentive Grant (SSIG), or a Federal Perkins Loan.

Bookstore charges are not allowed against Estimated Federal Pell Grants, Scholarships or Federal Stafford Loans.

**Other Financial Assistance Programs**

Financial aid through programs sponsored by Job Training Partnership Act (JTPA), the Training Rehabilitation Act (TRA), Social Security, State Board of Vocational Rehabilitation, and Veterans Administration is available from these agencies for qualified students attending NIC.

**Financial Aid Recipients Refund Policy**

Continuing Students and Former Students: Students receiving financial aid who are not enrolled in their first semester will have all refunds calculated by comparing the College Refund Policy and the Federal Refund Policy. NIC Policy: 100 percent before the second day; 75 percent within the first week; 50 percent within the second week.

Federal Policy: 100 percent before the second day; 90 percent within the first and second weeks; 50 percent within the third and fourth weeks; 25 percent within the fifth and eighth weeks.

New Students: Students receiving financial aid who are enrolled in their first semester at North Idaho College will have their refund calculated according to the Pro rata refund calculation established by the Higher Education Amendments of 1992.

Pro rata refund is a refund by the College to a student who is attending the College for the first time. The College must refund a percentage of the tuition/fees and room/board charges based on the student’s weeks of attendance. The pro rata refund policy does not apply to students whose date of withdrawal is after the 60 percent point in time in the period of enrollment for which the student has been charged (10th week of the semester).

**Repayment Distribution: Refund/Repayments that must be returned to the federal student aid programs will be returned to the programs in the following order:**
1) Loans for students (refund only); 2) Federal Perkins Loan; 3) Federal Pell Grant; 4) Federal Supplemental Educational Opportunity Grant; 5) State Student Incentive Grant-Washington State Need Grant; 6) Other scholarships.

How to Register for Classes

North Idaho College operates on a fall/spring semester system followed by an eight-week summer session. There are also some four- and eight-week technical programs blocks both before and after the regular semesters.

Students must register for each semester block they attend. Registration is the official process of enrolling in classes by completing a scheduling worksheet, conferring with an advisor, and paying tuition and fees. Check the calendar on pages 6 and 7 for information regarding application dates and registration dates.

Class Schedules are normally available in April for the summer session and fall semester, and in November for the following spring semester. Currently enrolled students receive priority in registering.

Registration for new and former students for both fall and spring semesters is by appointment only. Dates and time are determined by the date that Applications for Admission are submitted. Those who turn in applications early receive early appointment times. Specific steps for registration are included with appointment letters.

Payment of Tuition and Fees

Payment of tuition and fees is due at the time of registration. The only exception to this is when continuing students register for fall semester each April and tuition is due in June.

Adding/Dropping Classes

After initial registration, enrolled students may add courses, on a space available basis, with a Schedule Change Form. Using this same form, students may also drop a course and no record of the class will appear on the transcript. Classes may be added or dropped during the first week of fall and spring semesters and during the first two days of summer session.

Withdrawing from Classes

From the beginning of the second week until the first day of the eleventh week of each semester, students may withdraw from classes using a Course Withdrawal Form. Signature approval must be obtained from the form from both the class instructor and the student's advisor. A "W" will be recorded on the student's transcript. After the final withdrawal date, students may not withdraw from a class regardless of academic status.

Withdrawals from summer session are permitted beginning the third day of classes until the first day of the sixth week.

NOTE: Students cannot officially withdraw from a class either by ceasing attendance or by simply informing the instructor of the withdrawal. A Course Withdrawal Form must be processed through the Registrar's Office before the withdrawal is considered official. Failure to officially drop a class will likely result in a failing grade. Withdrawals will not be processed if students have a financial hold on their record.

Auditing a Class

In order to audit a class, students must select the audit option at the time of registration or during the first week of the semester or the first two days of summer session. Students auditing classes are not required to take final tests and will not receive a grade or credit, but they are expected to attend class regularly. Auditing students may not receive credit later for an audited course unless they repeat the course as a regularly enrolled student. Audit students are required to pay standard tuition and fees.

Independent Studies

Independent study classes are available in most academic disciplines and are designated by the class number 299. These classes are open to students with a 3.0 GPA and who have completed 24 semester credits. They cannot be used to fulfill associate degree core requirements.

Students may take no more than three credits per semester of independent study and no more than six credits per year. Students may register for independent study classes during the first four weeks of a regular semester or the first two weeks of a summer session. Forms and further information are available in the Registrar's Office.

Outreach Classes

North Idaho College offers a variety of classes in outreach sites to serve residents of North Idaho. Persons residing in Benewah, Bonner, Boundary, and Shoshone counties may obtain information on outreach offerings from their local coordinator and from area public libraries. Phone (208) 769-3400 for more information.

Concurrent Enrollment with Lewis Clark State College or the University of Idaho

Many students enroll for classes at both North Idaho College and Lewis Clark State College or the University of Idaho-Coeur d'Alene. Those students who enroll at NIC and one of the other two institutions and are receiving financial aid from that institution must clear their financial aid with NIC's Financial Aid Office prior to registration. Those who do not clear their aid will be expected to make full payment for their classes at NIC.

Name/Address Changes

Students' correct names and addresses are vital for college records since students often receive material from the college through the mail. Students who change their name or address during the year should file a change in the Registrar's Office.
Campus Services

Various services are provided by North Idaho College to help promote student success and develop an enjoyable, productive college experience. The Student Services Office is located on the north side of the Redwood Building. Students are encouraged to stop by and learn more about the services provided for them.

Advising • 769-3370

Advising can significantly help students with program planning, course and degree information, transfer review, program sequence, campus resources, college procedures, and services referral. Consultation with an advisor is provided for students at their initial registration when they receive important information about the NIC advising process. Students are then assigned to a specific advisor once the semester begins and are responsible for meeting on a regular basis with their assigned advisor. Supplemental advising support is also available in Student Services, including access to college catalog collections and transfer directories. Students are strongly encouraged to actively participate in advising as part of promoting their own college success.

Applied Technology Student Support Services • 769-3468

A Special Populations Coordinator is available to provide support services for Applied Technology students prior to and during enrollment in a technical program. The coordinator also serves as a liaison between faculty, students, and other on-campus departments on issues relating to advising, registration, transcript assessment, curriculum, and counseling.

Bookstore • 769-3364

The NIC Bookstore is temporarily located in the Redwood Building and is open weekdays with extended hours during the first few days of each semester. Textbooks and supplies are available, as well as learning and self-study aids, research paper handbooks, dictionaries, books for pleasure reading, computers, software, computer supplies and accessories, snacks, personal health items, backpacks, briefcases, imprinted caps, apparel, and gift items. The Bookstore also supplies textbooks for University of Idaho and Lewis-Clark State College courses.

Business Office • 769-3344

The Business Office is located in Lee Hall and is open weekdays. All payments to the school should be paid at the cashier’s window at the Business Office. All checks for students may also be picked up from the Business Office (advanced V.A. checks, however, are available through the Registrar’s Office).

Campus Emergency Phones

Six emergency phones are located throughout the campus grounds. These phones are mounted on freestanding poles and are identified with a flashing blue light. Each phone dials direct to the Campus Safety Office. These phones are for the use of students, staff or visitors in case of an emergency. Emergency phone location maps are available at the Campus Safety Office.

Campus Safety/Security • 769-3310 (24 hours)

All matters concerning parking, parking permits, campus safety, security, emergency response, special event set-up, room openings, lost and found, custodial and grounds services, and enforcement of all college regulations and rules, and applicable federal, state, city, and county laws and ordinances on college property should be directed to this office.

The Campus Security and Nightwatch Staff actively patrol the grounds, buildings and parking lots 24 hours a day and will respond to any emergency or problem. The Campus Safety Office, located in the River Building at 905 River Avenue, is open 8 a.m. to 5 p.m. Monday through Friday. Parking permits are required for the year beginning each fall semester and may be purchased at registration or at the Campus Safety Office. All motor driven vehicles operated on campus are required to be registered and display a parking permit.

Career Center • 769-3297

The NIC Career Center, temporarily located in Room 12 of the Siebert Building, offers a wide variety of services to help students and prospective students with all aspects of career planning and job hunting. Career assessments are available to provide students with ideas for making meaningful career choices. The Center also provides the latest information on career planning and job hunting, including information on careers related to every major offered at NIC. Names of community contacts are located in the Informational Interview notebook, which gives students an opportunity to ask career questions of someone working in a specific occupation. Assistance is also available to help students discover the hidden job market, write a resume that gets an interview, and then interview in a manner that gets the desired job. Students may explore full-time and part-time job listings, Job Service jobs, summer jobs, volunteer opportunities, and internships. Computers are available for student use to access the Internet for job searching and to gather career information.

Center for New Directions • 769-3445

The Center for New Directions (CND) provides services for single parents, displaced homemakers, and other adults in transition to help overcome economic barriers to education and employment, to help access training, educational, and employment opportunities, and to help become economically self-sufficient. The services include personal, career, and educational counseling and a variety of workshops and classes for personal and professional enhancement. CareerWise is a six-week modular program of instruction for adults changing careers or re-entering the workforce or an educational program. It includes building self-confidence, effective
communication, job-seeking skills, strategies for goal achievement, and opportunities to meet employers from the community. Students may choose the relevant weeks to attend. The Center for New Directions is located on the first floor of the Siebert Building.

**Children’s Center • 769-3471**

The NIC Children’s Center is located in the Lakeside Center behind the gymnasium and is open weekdays from 7 a.m. to 5:15 p.m. Students with children from 2 1/2 to 5 years of age may receive child care at very reasonable half-day or full-day rates. Child care is education-based with developmental activities provided by qualified and caring teachers. Applications can be obtained at the Children’s Center and should be submitted early since space is limited.

**Computer Labs**

Central Labs Library/Computer Center 769-3380
Macintosh Lab Boswell Hall, Rm. 204 769-3331

Computer labs are open Monday-Sunday; check the posted schedule for times and space available. Networked Windows and Macintosh computers and high-quality printers are accessible for educational use by all registered students except when labs are scheduled for class instruction. A system of priority use is incorporated to seat students at peak times. Tours are available and lab staff will work with instructors to assist students working on assignments in the lab.

**Counseling • 769-3370**

Counselors are available at various campus locations and can be reached through the above number or at Student Services in the north end of the Hedlund Center. Counseling can provide direction and support for enrolled students who want help managing the demands of college and personal life. This confidential assistance could include easy access to helpful information, casual chats, support groups, career counseling, personal counseling, or referral to appropriate community resources. A friendly staff of counselors are available to help with any concern that might interfere with student success or well-being.

**Disability Support Services • 769-3370**

Disability Support Services (DSS) was established in response to federal law and is available through Student Services at the north end of the Hedlund Center. Students who wish to voluntarily declare a permanent or temporary disability and receive support should contact DSS as early as possible. Any information regarding disabilities is confidential and will not adversely affect admission to the College. Qualifying students may receive accommodations such as interpreters, notetakers, tutors, readers, scribes, information in alternative formats, priority registration, and other reasonable provisions.

**Multi-Cultural Student Support • 769-3370**

Specialized support is available to American bicultural students through Student Services at the north end of the Hedlund Center. A qualified advisor can offer a friendly and sensitive exploration of culture-related needs and can coordinate assistance with scholarships, enrollment, academic advising, tribal support programs, cultural recognition activities, campus clubs, and more.

**Health Insurance • 769-7761**

Mandatory Accident Insurance is required for all students enrolled in one or more credits. The insurance covers accidents occurring only on the North Idaho College campus. The cost to the student is $8 per semester and will be charged at the time of registration. Health insurance can be purchased in addition to the accident insurance for students enrolled in one or more credits. The health insurance is an HMO/POSO plan with a $50 per accident deductible. It can be purchased for a semester or on an annual basis.

The student accident insurance is managed through the Associated Students of North Idaho College (ASNIC) and the insurance company, not the NIC administration. For policy and coverage information, please contact, or to purchase the insurance call the insurance coordinator at 769-7761.

**Health Services • 769-7818**

A nurse practitioner or registered nurse is available weekdays for health consultation for students. Services include evaluation of minor injuries and acute health problems such as colds, flu, bladder infections, sexually transmitted diseases, etc. Reproductive health and general physical exams may be scheduled as well. Immunizations and allergy shots may be scheduled by appointment.

Health education, information, counseling, and referrals about nutrition, stress management, relationships, sexuality, birth control, eating disorders, exercise, rape, date rape, HIV/AIDS and other topics are also available.

Health services exists free to all students and are not related to whether or not you carry student health insurance. Students are responsible for most laboratory charges as they do not have any health insurance coverage. Health services that extend beyond the scope of a nurse practitioner will be referred to a physician.

After-hours of emergency services can be obtained from a private physician, local emergency clinic, or hospital emergency room. The expense of off-campus health care is the responsibility of the student and/or their health insurance carrier.

Health Services is temporarily located on the second floor of the Hedlund Building. All services are available by appointment unless it is an emergency and can be scheduled by calling 769-7818.

**International Student Advising • 769-3381**

The International Student Advisor is the official advisor for all international students. International students must contact this advisor for help with the following types of situations: academic advising, class scheduling, add/drop, information regarding visa renewal, transfers to other schools, off-campus work permits, and off-campus work prospects. Validating student's I-20ID,
SUPPORT SERVICES

information regarding visits to neighboring countries, as well as interpretation and explanation of government laws and college regulations.

Job Location and Development • 769-3368
The Job Location and Development program assists students with full time and part time employment in the community. Current opportunities are posted in a display case in Lee Hall next to the Financial Aid Office and are on display all year. For additional information contact the Financial Aid Office at (208) 769-3368.

The Learning Center • 769-3450
The Learning Center is a friendly, caring environment for North Idaho College students and community members. Services are provided through courses, tutoring, supplemental instruction, workshops, computers and other instructional modes. Assistance is available for many different learning styles and abilities.

A variety of educational development classes are offered including reading, spelling, vocabulary, and mathematics. Enrichment classes such as Library Research Strategies, Study Skills, College Success Strategies and Rapid Reading are also available. Mini-courses or workshops may be offered in reading skills, note taking, test anxiety reduction and memory training.

The Learning Center also offers computer-assisted instruction and uses computers to identify student learning styles, explore and establish career goals, and assist with time management.

The Peer Tutoring Center provides free assistance through qualified peer tutors. NIC students may receive two hours of peer tutoring per class each week.

Supplemental instruction targets historically difficult classes for extra assistance. A trained student leader provides special sessions to students of all ability levels in a small group, structured setting. Sessions are available several times per week.

The Bridge Program is a program for students enrolling in applied technology programs who need assistance in required classes. An instructor is available to work individually and in small groups during scheduled hours.

Adult Basic Education offers free instruction for adults 16 years of age and older who did not complete high school or have a basic skills deficiency. Adult Basic Education students receive instruction in reading, writing, mathematics, careers and life skills. Students may also attain a GED or High School Equivalency Certificate.

Learning Resources
Library • 769-1355
Instructional Technology • 769-3429
Recognizing North Idaho College’s commitment to educational excellence as well as today’s increasing reliance on a vast array of information resources, the Learning Resources Department seeks to enhance the educational process by teaching critical thinking and information literacy skills which promote and encourage independent, lifelong learning. Striving for high-quality services through its dedicated staff, diverse materials and cutting-edge technologies, Learning Resources supports the College’s educational mission.

Learning Resources includes the Library and Instructional Technology. Its services are designed to foster a comprehensive and meaningful educational experience for NIC students.

To meet the increasingly sophisticated information needs of students, Instructional Technology offers the faculty creative services and materials for instructional design, such as video and television programming and computer-enhanced instruction. It also supports faculty through telecommunications services such as the recording of satellite and off-air programs and interactive teleconferences. Instructional Technology manages and maintains the campus auditory/visual systems and media duplication services.

The NIC Library gathers and disseminates information in support of the college’s educational mission, its various curricula and extension programs, its administrative initiatives, as well as the information needs of the local community. The Library provides quality services to enrich classroom instruction and develop skills that allow students to become independent, self-directed, lifelong learners.

The Library houses approximately 46,000 volumes and 450 periodical titles. Videos, audio cassettes, and compact discs play an important role in supporting NIC’s diverse curriculum. Enhanced computer and telecommunications capabilities include online databases, Internet access, CD-ROM databases, fax machine and telecommunications classroom.

The Library also offers a self-service copy center with copy machines, a transparency machine, paper cutters and other equipment needed to complete classroom assignments. A typewriter and color copier are also available for student use. Computers for student use are located in the second floor computer labs.

Legal Advice • 769-3370
The Associated Students of North Idaho College (ASNIC) retains a lawyer to provide advice to students. The advice is free, but legal counsel or official representation is the financial responsibility of the student. For information contact the ASNIC Advisor or the Dean of Students in Student Services.

Lost and Found • 769-3310
Lost and found items should be turned in or claimed at the Campus Safety Office located in the River Building at 905 River Avenue.

Outreach Credit Courses • 769-3400
North Idaho College offers a variety of courses in outreach sites to better serve residents of North Idaho. Persons residing in Benewah, Bonner, Boundary, and Shoshone counties may obtain information on outreach offerings from their local coordinator or from area
public libraries. Phone (208) 769-3400 for more information.

Registrar's Office • 769-3321

The Registrar's Office, located in Lee Hall, serves the students, faculty and staff of the college. The office registers students for credit and non-credit classes; records changes in student schedules; processes withdrawals from classes; maintains student transcripts and files; mails out grade reports; issues diplomas; and verifies enrollment for student loan guarantors and the Veteran's Administration.

Veterans Administration (VA) Educational Benefits • 769-3281

NIC provides veterans affairs services through the Veterans Technician located in the Registrar's Office. Students eligible to receive VA benefits should contact that office prior to registration to assure timely submission of their claim to the appropriate VA facility. To be eligible for benefits, students must be matriculated (working toward a degree). All VA recipients of educational benefits must follow the curriculum for their declared major as outlined in the college catalog.

Students receiving benefits should be aware that payment of benefits is based upon actual class attendance, not number of credits. Thus, if a student enrolls for 12 credits and one of the classes meets only eight weeks, the student will be considered full-time for benefits only during the time in which he/she is attending the eight-week class; at the end of the class, the student will be considered a three-quarter time student for benefit purposes only. This same regulation applies to courses such as ENGL 099A, 099B and 099C; even though the student is enrolled for three credits for the sequence, enrollment is considered as one credit for benefit purposes only.

It is the responsibility of the student receiving benefits to report to the Veteran's Technician all changes that may affect eligibility for educational benefits. Failure to report such changes may result in delayed or improper benefit payments.

As with all students, regular class attendance is expected of recipients of VA benefits. For those enrolled in college degree programs, an instructor may cancel the enrollment of a student who attends only sporadically or who has been absent for a period of three or more consecutive weeks. The termination will be effective the last day of attendance as reported by the instructor.

VA benefit counselors are available to each veteran, by phone, through the Veterans Administration Regional Office in Boise. That toll-free number is 1-800-827-1000. Specific information, such as eligibility for educational benefits, advance payment procedure, overpayment or underpayment of benefits, and program changes, can be obtained through that office.

Student Life

Throughout the year, numerous activities and functions are available to all students on the North Idaho College campus. Concerts, plays, and intramural and intercollegiate sports are just a few regularly scheduled opportunities provided.

Athletics plays a large role in providing students with an arena for exciting entertainment throughout the year. NIC competes in cross country, volleyball, men's and women's basketball, wrestling, baseball, softball and track. Students may attend any of the regular season home athletic events free of charge with their student identification card.

The Associated Students of North Idaho College (ASNIC) functions as the governing body and voice of the students. The student government is made up of a six-member senate, which is presided over by the ASNIC president and vice-president. Meetings are held on a weekly basis and are open to all students and staff.

Within the structure of ASNIC are two very important programs, Student Activities and ASNIC Clubs. Student Activities sponsors special events and activities that students can enjoy during breaks away from studies. Lecture series, slide presentations, barbecues, concerts, comedy nights, dances and other special events are scheduled by the ASNIC Activities Director. Student input is welcome regarding events to be provided.

Student clubs are another important part of the ASNIC system. The Intra-Club Council oversees more than 10 established clubs at NIC. Some of these organizations include the Engineering Club, Phi Club (philatects), Sailing Club, DEC, Rodeo Club, VICA, Welding Club, International Student Relations Club, and many more. Clubs participate in many student activities and also get involved in volunteer projects in the local community.

Intramural sports are provided with leagues for men, women, and co-recreational teams. Team sports such as softball, basketball, and volleyball are very popular. Racquetball, tennis, golf, ping pong, pool, and waterball are among the many individual and team sports in which students can participate.

Offices for ASNIC, Outdoor Pursuits, and Intramural Sports are temporarily located in the lower level of the Siebert Building.

Associated Student Body • 769-7844

The Senate of the Associated Students of North Idaho College (ASNIC) plans, directs, promotes, and distributes student funding for extra-curricular activities, publications, convocations, forums, social events and campus organizations.

Members of the board are the president and vice-president of the student body, three sophomore senators elected in the spring, and three freshmen senators elected in the fall. Weekly meetings are held throughout the year and are open to all students. Board members serve on various policy-making committees of the NIC College Senate.
**Student Handbook**

A student handbook is provided to all students registering at NIC. If a copy of this handbook is not received during the registration process, a student should obtain a copy from Student Services. The handbook outlines student organizations and includes the Constitution of the Associated Student Body, the North Idaho College Student Handbook, and Disciplinary Code, and a convenient calendar for use throughout the semester. All students are expected to read and comply with the rules and regulations contained in this publication.

**Student Identification Cards**

All students will be issued a Student Identification Card. This card is one of the most important items you will receive during the registration process. With it you are able to access numerous areas on campus and enjoy a variety of events at a discount or free of charge.

You must present your ID card to check out library books, use the computer labs, check out gym equipment, or rent equipment from the campus recreation office.

If your card is lost or damaged contact the Recreation Office located in the basement of the Student Union Building. There is a $5 replacement charge.

This card should be kept with you through your duration at North Idaho College. Your card will be updated each semester with a validation sticker. Student Identification Cards are the property of NIC and the use of this card is governed by college rules and regulations. This card is non-transferable and must be presented to college officials upon request.

**Crime Statistics**

The personal safety and security of students, staff and visitors, and the protection of property are a high priority at North Idaho College. By law, the college is required to report crimes that occur on campus. This information is provided as part of NIC's commitment to safety and security on campus.

**NIC Popcorn Forum**

The North Idaho College Popcorn Forum, sponsored by the Department of Political Science and the Associated Student Body, was created during the 1972-73 academic year and has presented more than 125 lectures by national and international speakers over the past 27 years. The campus lectures deal with a variety of topics including politics, Big Foot, theology, the Bill of Rights, mysteries, women's issues, nuclear war, world travel, evolution/creation, psychology, DNA, human sexuality, arts, humanities, journey through time, sciences and wildlife photography.

**NIC Convocations**

NIC Convocations entail various programs and events including outside speakers. The Convocation Committee often sponsors a week-long symposium in conjunction with the NIC Popcorn Forum.

**NIC-TV Public Forum**

Sponsored by the Learning Resources Department, the NIC-TV Public Forum is one of the longest running college produced TV programs in America. The "Public Forum" has aired since September, 1972. "Public Forum" is broadcast weekly and has produced more than 1,100 programs. It can be seen on PBS stations KSPS (Spokane), KUID (Moscow), KCTV (Coeur d'Alene), KAIU (Boise), KPTX (Twin Falls), and KSUT (Pocatello). The program can be received by viewers in portions of seven Northwest states, as well as British Columbia and Alberta, Canada.

**Sentinel**

Students, with NIC's sponsorship, publish the Sentinel, which is a bi-weekly student newspaper. Interested students are encouraged to join the staff by registering for Journalism 101. The Sentinel Staff has recently earned three national first-place awards: the Robert F. Kennedy Journalism Award for outstanding coverage of disadvantaged people, the "Story of the Year" from the Los Angeles Times and the "Newspaper of the Year" from the Associated Collegiate Press.

**Trestle Creek Review**

A literary magazine of prose and poetry is published under the sponsorship of the NIC English Division. Interested students are encouraged to enroll in English 201-A, Workshop. Trestle Creek Review, offered Spring semester.

**History and Folklore Center**

The centrally located 1878 Fort Sherman Officers’ Quarters, together with the powdery keg museum and chapel, are a link to the days when Fort Sherman occupied the present site of the College. The History and Folklore Center serves students and the community in several ways. It is a repository of publicly donated materials regarding history and folk culture of the region and ethnic groups within the community and is a center where these materials may be studied firsthand.
Directory Information

North Idaho College designates the following categories of student information as public or "Directory information." Such information may be disclosed by the institution for any purpose, at its discretion.

1. Student's name.
2. Student's address.
3. Student's telephone number.
4. Dates of attendance.
5. Class.
6. Previous institutions attended.
7. Major field of study.
8. Awards/honors (including Dean's list).
9. Degree conferred (including dates).
10. Past and present participation in officially recognized sports and activities.
11. Physical factors (height, weight of athletes).
12. Date and place of birth.

Currently enrolled students may withhold disclosure of any category of information under the Family Educational Rights and Privacy Act of 1974, as amended. To withhold disclosure, written notification must be received in the Registrar's Office prior to the fourth week of a semester. Forms requesting the withholding of "Directory Information" are available in the Registrar's Office. North Idaho College assumes that failure on the part of any student to specifically request the withholding of categories of "Directory Information" indicates individual approval for disclosure.

Housing

Shepperd/Gridley Hall

Shepperd/Gridley Hall houses 48 men in the Shepperd Wing and 48 women in the Gridley Wing on the NIC campus. Supervision is provided by the Housing Coordinator and a staff of student assistants. In addition to the 48 double-occupancy rooms, students share two TV lounges, a conversation lounge, four laundry rooms, two study rooms, and a recreation room. Shepperd/Gridley Hall is centrally located on the NIC campus and is surrounded by eight tennis courts, the Powder Keg Museum, the baseball field, the Edmund Student Union Building, and the soccer field. Yap-Keehn-Um Beach on Lake Coeur d'Alene and the banks of the Spokane River are a stone's throw away from the residence hall. Downtown Coeur d'Alene with its shopping, city parks, and beach, is less than a mile away.

Hall rooms are provided with beds, desks, chairs, study lamps, and closets. Storage room is also provided for storage of trunks and suitcases. Students must provide their own bedding, linens, and towels. Laundry facilities are available for resident use and include ironing boards and coin-operated washers and dryers.

Residence hall information can be obtained through the Housing Coordinator in Shepperd/Gridley Hall (769-3409) or through Auxiliary Services (769-3361).

Application

Since residence hall space is limited and in high demand, students desiring to live on-campus housing are urged to submit contracts and the $50 security deposit as early as possible. (Before March for Fall Semester). Applicants must also apply for admissions to the college. Contracts may be obtained by writing to the Auxiliary Services Secretary, North Idaho College, 1600 W. Garden Avenue, Coeur d'Alene, ID 83814-3999.

Applicants will be required to contract for at least one semester at a time. A room deposit of $50 will be required to reserve the rooms at any time. This will be refunded: (1) if requested by July 20 or prior to the Fall Semester, (2) if requested by Nov. 20 or prior to Spring Semester. In this case, the contracted residence period, except for damage charges assessed by the Coordinator of Housing and Residential Life, students will be charged for abnormal damage if it occurs.

Food Service

A 14-meal per week plan is part of the board and room program for residents living in campus housing. This plan includes lunch and dinner Monday through Friday and brunch and dinner on Saturdays and Sundays. Meal times and locations are posted for all participants. In addition, the "Cardinal Cafe," located in the Gymnasium and the "Educated Cup," located in the Hecox Building, are available to provide breakfast and snack items.

Every effort is made to serve all students with special class schedules. Meal service begins on the day before classes begin each semester and ends at dinner on the last day of the semester. Meals are not served during the regularly scheduled vacations which are Thanksgiving Break, Semester Break and Spring Break.

In the establishment of food service rates, full-time status has been made for normal absences not credits not given for occasional meals missed.

On-campus meal service is also available to students living off campus.

Room and Board Costs

As with tuition and fees, room and board costs are set on an annual basis by the College Board of Trustees. The room and board costs for the 1997-98 school year are $3,380 (14 meal/week - double room).

A $10 activity fee is included in each semester's payment costs, in order to support special hall services and activities.

Off-Campus

Students who choose to live off-campus are urged to find housing prior to the day of registration. The area house rental market becomes strained due to the influx of students during the first week of classes. The Director of Housing and Residential Life maintains a list of off-campus housing. Copies are available from Auxiliary Services (769-3361), Student Services (769-3370) or the Director of Housing (769-3409).
Workforce Training and Community Education

NIC's Workforce Training and Community Education Department is located in the Riverbend Commerce Park in Post Falls and offers courses that are designed with "something for everyone." Over 7,000 students enroll annually in a wide variety of courses which offer personal and professional development opportunities. Workforce Training and Community Education courses and programs are open to anyone over the age of 16. Courses are non-credit and do not require diploma, residency restrictions, or instructors. Students may choose their own courses with hands-on practical information.

Workforce Training

The goals of Workforce Training are to promote economic progress by meeting employer needs for trained workers, providing students with skills and personal capabilities required for occupational success in technical and skilled occupations, meeting student needs for specific vocational training in selected occupations, and providing access to training for all participants and individuals.

Workforce Training includes pre-employment training, entrepreneurship training, job placement training, and upgrading for employed persons. Training opportunities are available for displaced workers, related instruction for apprentices in carpentry, electrical, sheet metal, and plumbing, and skill development for personal enrichment.

Examples of recent non-credit, open enrollment course offerings include training for nurse assistants, dental assistants, occupational-physical therapist aides, EMTs, real estate professionals, as well as courses in welding, drafting, small engine repair, machining, and many computer software programs.

Customized Training

NIC offers training and development programs that can be customized to suit the specific needs of businesses and non-profit organizations. Training is offered in large groups or small work groups on or off campus at the work site. These programs consist of training possibilities from basic classes to completely customized training programs designed to bring a company into the Continuous Quality Improvement Generation.

Past offerings have included computer classes, technical skill development, interpersonal skills, sales training, new employee orientation, continuous quality improvement, customer service management leadership, and frontline employee training.

Fees vary with the nature and/ or length of the course. Phone (208) 769-1444 for more information.

Community Education

The Office of Community Education offers special interest, non-credit courses to residents of the community. Class participants may cultivate a hobby, develop a skill, learn about an interesting subject, or simply enjoy a new activity. The wide range of courses is a result of requests from the community and are specially designed to be practical and enjoyable learning activities.

Community Education classes are offered year-round in the categories of Art and Literature, Health, Nutrition, Personal Growth, and Recreation.

The Community Education Office also coordinates the annual Elderhostel program and sponsors a variety of events and classes designed at the requests of students and instructors.

Student cultural exchanges are offered through International Studies. Through a sister college agreement students from Korea and NIC participate in educational exchanges each year. Community Education offers year-round opportunities for travel and education throughout the world via affiliation with the TravelLearn program.

Idaho Small Business Development Center (ISBDC)

The mission of the Idaho Small Business Development Center is to provide direct consulting and training services to individual small businesses in Idaho through a sustained and increasingly effective higher education network.

The ISBDC's purpose is to serve as a focal point for linking together the resources of higher education, the private business community, and federal, state, and local governments. The ISBDC also serves as a business assistance program serving prospective and existing small businesses in Idaho focusing on areas of consulting, skill training, and information research. The Center serves small business owners and managers; expanding and start-up businesses; home-based businesses; as well as manufacturing, retail, wholesale, service, and value added agriculture businesses.

The ISBDC develops and presents seminars, conferences, and short courses tailored to the needs of the business community. For more information, phone (208) 769-1444.

Continuing Education Unit

Learning activities for which regular college-level credits are not awarded may be evaluated by a system of uniform continuing education units (CEUs). Such units are granted in accordance with the following guidelines set forth by the National Task Force on the Continuing Unit.

Each CEU represents 10 contact hours of participation in an organized community education experience under responsible sponsorship, capable direction, and qualified instructors. Community education, as used in this definition, includes all learning experiences in organized formats that impart noncredit education to individuals who meet participation requirements. These properties of community education may be applied equally under the system regardless of the teaching-learning format, program duration, source of sponsorship, subject matter, level, audience, or purpose.

The number of units to be awarded is determined by...
considering the number of contact hours of instruction, or the equivalent, included in the educational activity. Reasonable allowance may be made for activities such as required reports, laboratory assignments, field trips, and supervised study.

**Intensive English Language Program (IELP)**

NIC's Intensive English Language Program (IELP) includes five eight-week sessions throughout the year.

The three levels of instruction are: Intermediate I, Intermediate II and Advanced. A TOEFL (Test of English as a Second Language) test is not required to enter the program. Students who successfully complete the program may become full-time regular academic students.

Students spend 15-18 hours per week in the classroom where studying:
- Listening and Speaking;
- Writing;
- Grammar;
- Reading;
- and Conversation.

To apply to the IELP, a prospective student must submit the following:
- Application for Admission;
- Transcripts from all high school and colleges attended;
- Health Certificate;
- Financial Statement;
- Student Profile Sheet;
- $10 Application Fee

Applicants must also have studied English for at least four years and have a limited understanding of English syntax and phonetics. For admissions and fee information see the Admissions section, page 17.

For more information and applications contact:
- Office of Admissions
- North Idaho College
- 1000 West Garden Avenue
- Coeur d'Alene, Idaho, 83814 USA
- (208) 769-3311  FAX (208) 769-3431
- Homepage: http://www.nic.edu
- E-mail: admit@nicc.edu

**Distance Learning "Going The Distance"**

North Idaho College, the University of Idaho, Idaho Public Television and Independent Study in Idaho are cooperating to bring this educational opportunity to the state. As the degree granting institution, NIC plans and implements all course offerings for Going the Distance.

Students pursue a blended curriculum which includes telecourses, traditional independent study courses, and on-campus courses. Courses are developed on campus and administered through the Independent Study in Idaho office in Moscow.

Courses are broadcast through Idaho Public Television station KUID. The University of Idaho has provided administrative support for Going the Distance.

**Correspondence/Independent Study**

Correspondence study in Idaho is coordinated and administered by the Correspondence Study Office located at the University of Idaho. The University of Idaho's correspondence study catalogs are available from NIC's Admissions Office.
Definition of Credit
A credit, sometimes referred to as a semester credit or semester hour, is related to time spent in class, study, preparation, laboratory, or field experience. One semester credit hour normally requires 45 hours of student work or
(1) 30 minutes in class each week for one semester
which assumes twice this amount of time in study and preparation outside the classroom, or
(2) Two to three hours in laboratory each week for a semester, or
(3) the equivalent combinations of (1) and (2).
Credit for workshops and similar short courses is granted on the basis of one semester credit for 45 hours of scholarly activity.

Credit Enrollment Limits
The normal credit enrollment limit for students is 15 to 18 credit hours per semester. More than this number of credits may result in marginal performance. Students enrolling for more than 17 credits will be assessed a per-credit overload fee. Students who wish to carry more than 19 credits per semester must have the written permission of the Dean of Students.

It is strongly recommended that summer school students take no more than 1-2 academic credits. Students taking more than seven academic credits will need an advising clearance through Student Services before being allowed to register.

College Transcript
The college transcript is a record of all courses for which a student was enrolled at the end of the change of registration period for the first week of classes each semester. It includes credit hours for which the student is enrolled, final grades in each subject, record of withdrawal, courses repeated, grade point average for each semester, and a cumulative grade point average.

Full-Time Classification
A student must register for a minimum of 12 credits each semester to be classified as a full-time student; however, in most programs, a student must earn at least 16 credits per semester to graduate in the normal two-year period. This should not be confused with the fact that for purposes of calculating tuition and fees, students enrolled for eight credits or more are charged a full rate.

Freshman/Sophomore Classifications
Students with 0-24 semester credits are classified as freshmen, those with 25-64 are classified as sophomores, and those with 65 or more are unclassified.

Course Numbering System
001-099 Courses are nontransferable and do not apply toward associate and bachelor degrees. They may be required within some AA S. degrees
100-199 Primarily for freshmen
200-299 Primarily for sophomores

Independent Studies
Independent Study courses are available in most academic disciplines and are designated by the course number 299. These courses are open to students with a 3.00 GPA and who have completed 26 semester credits. They cannot be used to fulfill associate degree core requirements.

Independent studies may be either a reading or a project nature and must be approved by the instructor, appropriate division chair, and dean. Students may take no more than three credits per semester of independent study and no more than six credits per year. Students may register for independent study courses during the first four weeks of a regular semester or the first two weeks of a summer session. Forms and further information are available in the Registrar's Office.

Credit by Examination
1. Challenge for Credit
A student enrolled at NIC may petition to challenge courses based on work done through private study and/or employment or to validate courses taken at nonaccredited institutions. Students are not permitted to challenge a prerequisite course after having completed an advanced course. Credit by examination will not be granted for a course which a student has previously taken for credit or audited or in which he/she is currently enrolled or has been previously enrolled. Credit will be granted provided the student earns a grade of C or better. Neither grades nor credit earned through the challenge process will be counted in any given semester to determine load or grade point average, nor will they be included in computing cumulative grade point averages. Only enrolled students may qualify to challenge courses. Contact the Registrar's Office for specific regulations.

2. CLEP Exam
North Idaho College accepts a limited number of CLEP (College Level Exam Program) general and subject area exams. For specific information, contact the Admissions Office.

3. Advanced Placement Examinations
In recognition of the Advanced Placement Program sponsored by the College Entrance Examination Board, NIC will grant college credit for examinations based on the student's score. For specific information, contact the Admissions Office.

Academic Probation, Suspension, and Disqualification
This policy applies to any student carrying six or more credit hours at the end of the add/drop period of an applicable semester.

Probation - Students will be placed on academic probation when their NIC cumulative grade point average falls below 1.75. Any student who wishes to transfer to NIC who has attended another college or university and whose cumulative grade point average is below 1.75 will be
admitted on probation.

A student on academic probation who attains a grade point average of 2.00 or higher during a semester, but whose cumulative NIC grade point average is still below 1.75, remains on probation. A student on academic probation will be allowed to participate in registration for both Fall and Spring semesters. If, however, the student fails to meet minimum grade requirements and is placed on academic suspension or disqualification, his/her registration will be cancelled. The student will be notified by mail prior to the beginning of the new semester if such a change in academic status is determined.

Suspension—A student on academic probation will be suspended for one semester at the end of a probationary semester if he/she does not attain an NIC cumulative grade point average of at least 1.75 or a semester grade point average of at least 2.00. A student suspended after Fall semester may not enroll in classes the following Spring semester. Anyone suspended after Spring semester may not enroll in classes the following Fall semester.

Disqualification—A student who has been suspended and returns is on probation. During the semester of the student's return, he/she must either attain an NIC cumulative grade point average of 1.75 or better or a semester grade point average of 2.00 or better. Failure to do so will result in disqualification, which means the student will not be permitted to re-enroll. A student who has been disqualified may be reinstated only after written petition and approval by the Admissions and Academic Standards Committee.

Academic Renewal

In conformity with the principle of encouraging and rewarding determination, self-discipline, and achievement, North Idaho College will allow a student to petition the Registrar, under certain circumstances, for academic renewal. This means previous poor academic work at NIC would be eliminated from the computation of credits and grade points in the student's academic record, as well as for academic standing and eligibility for graduation.

Eligibility for academic renewal will be subject to the following conditions:

1. At the time the petition is filed, a minimum of five years will have elapsed since the most recent course work to be disregarded was completed.

2. Before the petition may be filed, the student must complete at least 30 semester hours of course work at the college with a minimum cumulative grade point average of 2.50. These courses must be completed following the disregarded semester(s).

The student may have a maximum of two consecutive semesters (summer term excluded, unless it is one of the two deleted semesters) of course work disregarded in all calculations regarding the computation of credits and grade points, academic standing, and eligibility for graduation. The petition to be filed by the student will specify the semester(s) or term(s) to be disregarded.

If the petition qualifies under this policy, the student's permanent academic record will be suitably annotated to indicate that no work taken during the disregarded semester(s), even if satisfactory, may apply toward the computation of credits and grade points, academic standing, and graduation requirements. However, all work will remain on the records, ensuring a true and accurate academic history.

This policy will not be used for individual courses, or for students already holding associate or baccalaureate degrees. Since this is already a policy of exception, no exceptions will be made to the aforementioned conditions. Students should be aware that this policy MAY NOT BE ACCEPTED at transfer institutions.

Audit

A student may enroll in any lecture class on an audit basis. The student is expected to attend classes on a regular basis, but will not participate in the class and will not receive credit for the class. Audited courses will not fulfill graduation requirements and do not affect a student's grade point average. The fees for auditing a course are the same as if a student were enrolling for credit. Course enrollment may be changed from credit to audit only during the add/drop period. With the instructor's permission, course enrollment may be changed from audit to credit during the first two weeks of the semester or the first two weeks of a summer session.

Grading Procedure Grades Issued

Letter grades are used to indicate a student's quality of achievement in a given course. Each of the grades are also assigned an equivalency number which is used to compute grade point averages.

\[
\begin{array}{c|c|c}
\text{Grade} & \text{Equivalent} & \text{Grade} \\
\hline
A & 4.0 & C & 2.0 \\
A- & 3.7 & C- & 1.7 \\
B+ & 3.3 & D+ & 1.4 \\
B & 3.0 & D & 1.0 \\
B- & 2.7 & D- & .7 \\
C+ & 2.3 & F & 0.0 \\
C & 2.0 \\
\end{array}
\]

Other grades awarded are W (Withdrawn according to proper procedure); I (Incomplete work of passing grade); S (Satisfactory - requires an equivalent of at least C or 2.0 work, used for designated courses only, and in midterm grades); U (Unsatisfactory - for courses in which an S is given). Courses in which W, S, or I grades have been earned are not included in the grade point calculation.

Students wishing to check their grade point averages should use the following formula: per credit grade equivalency x number of credits per class = grade points = GPA.

For example, a student receives a grade of B+ in English 103 and a grade of C in Math 101:

- English 103: \((B+) x 3 \text{ credits} = 8.1 \text{ grade points}\)
- Math 101: \((C) x 4 \text{ credits} = 8.0 \text{ grade points}\)

\(8.1 + 8.0 = 16.1 \text{ grade points} = 7 \text{ credits} = 2.4 \text{ GPA}\)
Grade Changes

A grade issued is the prerogative of the instructor and normally may not be changed except to correct a recording error. Any question about the correctness of a grade should be referred to the appropriate instructor and/or the Registrar’s Office. If the question is not satisfactorily answered, students should consult with the division chairman, and then the Associate Dean of Instruction. In unusual cases, if the problem is not resolved through administrative channels, the Admissions and Academic Standards Committee may, but is not obligated to, review the matter further. Should this Committee review the matter and find cause to recommend a grade change, a recommendation will be forwarded to the appropriate Dean. The Dean may, but is not obligated to, review the recommendation and instruct the Registrar to modify the grade as recommended.

Incomplete

An incomplete is assigned only if the student has been in attendance and has done satisfactory work to within three weeks of the end of the semester (or proportional length of time for a course of less than a semester in length). If a final grade of "I" is recorded, the instructor shall indicate in writing to the Registrar what the student must do to make up the deficiency. The instructor shall also indicate in the written statement what permanent grade should be entered if the incomplete is not removed by the deadline.

All incomplete grades must be removed within six weeks after the last day of the final examination period, excluding the summer session. If the incomplete is not removed by that date, the grade reverts to the grade indicated by the instructor’s written statement authorizing the incomplete. In the event of extraordinary circumstances, the student may appeal to the Admissions and Academic Standards Committee for an extension of the deadline. This appeal must be made within the aforementioned six weeks.

Withdrawals

To withdraw from a course, a student must obtain a Withdrawal Form from the Registrar’s Office and have it signed by her/his advisor and the instructor of the course. The completed form must be returned to the Registrar’s Office. A student may withdraw from a course only during the first 15 weeks of the semester. A student who withdraws officially from a course by 4 p.m. on the last day for withdrawal will receive a grade of "W".

Withdrawals from classes held less than 15 weeks in length must be completed within the first half of the total class sessions, i.e., the deadline for withdrawal from a class which consists of eight sessions would be at 4 p.m. on the date of the fourth class session.

Students who do not attend or stop attending a class for which they have registered and do not officially withdraw from the class, will receive a grade of "F", unless the instructor for the class initiates a withdrawal for them.

To withdraw from all courses a student must obtain a withdrawal form from the Office of the Registrar. The signature of the student’s advisor and the Registrar are required. The form should be returned to the Office of the Registrar. No student may withdraw from the college after the tenth week of the semester except for compelling and extraordinary reasons and only after successfully petitioning the Admissions and Academic Standards Committee.

All students who withdraw from classes should be aware of their withdrawal status and any financial obligations. See page 22.

NOTE: Students cannot officially withdraw from a course in the last 15 weeks before the drop date. Withdrawal will be initiated by the instructor through the Registrar’s Office by means of a form provided by that office. Faculty members are requested to make an effort to personally contact the student prior to initiating the withdrawal. Advisors will be notified of the instructor-initiated withdrawals of their advisees.

Instructor Initiated Withdrawal

An instructor may initiate the withdrawal of any student in his/her class if he/she determines that the student’s absences have been excessive and if it is before the drop date for that course. Withdrawal will be initiated by the instructor through the Registrar’s Office by means of a form provided by that office. Faculty members are requested to make an effort to personally contact the student prior to initiating the withdrawal. Advisors will be notified of the instructor-initiated withdrawals of their advisees.

Student Appeals

It is the responsibility of the Admissions and Academic Standards Committee to review and make decisions on individual student appeals dealing with admissions, probation, academic dismissal, graduation, extension of incomplete grades, academic standards, and other areas of academic concern. Decisions made by the Committee may be appealed to the Dean of Instruction. For procedural information regarding appeals to the Admissions and Academic Standards Committee, contact either the Registrar’s Office or the Office of Admissions.

Repeating a Course

Students who receive a grade below C (2.00) in a course may repeat that course to raise the grade, provided they have not completed a more advanced course for which the first is a prerequisite. While all grades received remain on the record, only the grade received for the most recent enrollment in the course is counted in computing grade point average.

NOTE: Repeating a course may affect financial aid eligibility.

Physical Education Requirements

All A.A. and A.S. degrees require two credits of physical education unless excused for cause. These requirements are met by completing two semesters of any P.E. activity.
or dance class. Participants in intercollegiate athletics receive one credit per semester per sport.

Disabled students may be exempt from physical education activity course requirements upon the recommendation of a physician and the approval of the division chairperson, if alternative activity courses cannot be arranged. All students, regardless of age, must meet all physical education requirements.

Students enrolling in designated physical education activity courses may be charged extra fees payable at registration.

Transcript Request

Upon completion of college credit courses, a student may have a record of credits and general credentials transferred to any other institution. A special form provided for this purpose is made out by the Registrar and sent directly to the institution indicated. The transcript includes the college courses, grades, credits, grade point average and notation of program completion. Students are urged to consult with the Office of the Registrar for further details. Each student is entitled to one free copy of his or her transcript. Additional copies will require the payment of a special fee. It should be noted that the signature of the student is required by Federal law for release of the transcript.

Class Schedule Changes

Class schedule changes (adds/drops) are permitted throughout registration, during the first week of each semester, and the first two days of summer session. This means that students may add new classes to their schedules and drop others without transcript notation. To make the changes, a Schedule Change Form must be completed. These forms are available in the Registrar's Office and in Student Services. The completed forms must be turned into the Registrar's Office.

Dean's List (Honor Roll)

To qualify for the Dean's List, students must complete at least 12 college-level credits (courses numbered over 100) in the semester, earn a semester GPA of 3.75 or higher, and receive grades of A, B, C, D, or F in 80% or more of their classes.

Attendance

Students are responsible for attending the courses in which they are enrolled. Regular class attendance is expected. In the case of recipients of veterans educational benefits, excessive absences may mean a reduction in subsistence payments.

Instructors may initiate the withdrawal of any student in their class if they deem that the student's absences have been excessive and if it is before the last day one may withdraw from a course.

Conduct

Students are expected to read and comply with the North Idaho College Student Conduct and Discipline Code which may be found in the Student Handbook. This handbook is distributed at the time of registration. If a copy of the handbook is not received during registration, the student should obtain a copy from Student Services.

Graduation

Students may graduate at the end of fall semester, end of spring semester, end of summer session or at the end of either of the technical summer blocks. The commencement ceremony is held only once each year in May. Students eligible to participate in commencement are graduates from the previous fall, the current spring and the following summer academic and technical sessions.

All students expecting to graduate must complete an Application for Graduation with the Registrar's Office whether or not they plan to participate in commencement. Suggested application dates for graduation are October 15 for graduation at the end of fall semester, April 1 for graduation at the end of spring semester, and May 1 for graduation at the end of summer session. Applications filed after the suggested dates will be accepted. However, early filing enables the Registrar's Office to evaluate a student's transcript early and to advise of any course deficiencies in the program of study prior to the student's final enrollment.

Final Credits Earned and Exceptions

Candidates for an associate degree or certificate of completion must earn their final 12 credits while enrolled at NIC. A student may petition the Admissions and Academic Standards Committee for a waiver in exceptional cases involving specific course or residence requirements for graduation.

Catalog Issue

Please keep this catalog. North Idaho College students completing either an associate degree or certificate of completion may apply for graduation using any catalog in effect within the last four years. This policy is in effect only if the student is continuously enrolled at the College.

Credit Limitations

A candidate may count toward an associate degree no more than:

(a) 24 credits earned by examination
(b) 32 credits earned by correspondence or examination

Second Associate Degree

A student meeting both A.A. and A.S. degree requirements simultaneously will be eligible to receive both degrees.

NOTE: The college reserves the right to augment, alter, or delete without notice, the content of courses or curriculum as described herein. It is the student's responsibility to obtain information about any changes in course content or curriculum from their appropriate instructor or advisor during registration and not later than the first day of class.
General Education for Degree-Seeking Students

General education at North Idaho College is a series of learning experiences designed for all students, but for degree-seeking students in particular, with the knowledge, skills, and attitudes necessary to function well in society.

It provides a framework for understanding, interpreting, and evaluating what students encounter in today's world. By pursuing a degree at NIC, students will find that the general education framework is expressed in terms of nine "abilities" that contribute to the development of individuals who are active, productive, and personally fulfilled members of a highly diverse, ever-changing society.

1. Critical/Creative Thinking & Problem Solving: the student will demonstrate the ability to analyze and evaluate information and arguments, and construct a well-supported argument. The student will select or design appropriate frameworks and strategies to solve problems in multiple contexts individually and collaboratively.

2. Communication: The student will recognize, send, and respond to communications for various audiences and purposes by the use of reading, writing, speaking, and listening.

3. Mathematical, Scientific, and Symbolic Reasoning: The student will demonstrate the ability to apply mathematics, scientific, and symbolic reasoning to investigate and to solve problems.

4. Historical, Cultural, Environmental and Global Awareness: The student will demonstrate the ability to think globally and inclusively with a basic understanding of key ideas, achievements, issues, and diverse cultural views and events as they pertain locally, nationally, and globally.

5. Aesthetic Response: The student will demonstrate the ability to recognize the elements of design, the working elements, context, purpose, and effect of craftsmanship and artistic creation.

6. Social Responsibility/Citizenship: The student will demonstrate awareness of the relationships that exist between an individual and social groups, private, public, institutions, and of the environment; the nature of these relationships, the rights and responsibilities of these relationships, and the consequences that result from changes in these relationships.

7. Information Literacy: The student will develop the ability to access information for a given need, develop an integrated set of skills in research strategy and its application, and have knowledge of information tools and resources.

8. Valuing/Ethical Reasoning: The student will demonstrate the ability to apply what one knows, believes, and understands toward developing an empathy; and an analysis of understanding of others' value perspectives. The student will incorporate valuing in decision-making in multiple contexts.

9. Wellness: The student will demonstrate an understanding of the factors that contribute to physical, emotional, psychological, occupational, social and spiritual well-being, life-long learning, and success.
The Associate of Arts (A.A.) Degree

To qualify for an A.A. degree, a candidate must:
1. Complete a minimum of 64 semester credits of 100 and 200 level courses with a grade point average of 2.00IC or better in all work attempted, and
2. Satisfy distribution requirements listed below, with a grade of C- or better in each course.

ENGLISH COMPOSITION REQUIREMENT
Complete these two courses (6 Credits)
___ ENGL 101  English Composition*  3
___ ENGL 102  English Composition  3
* Students must pass the competency examination before registering for English 102.

COMMUNICATION REQUIREMENT
Complete this course (3 Credits)
___ COMM 101  Introduction to Speech  3

CRITICAL THINKING REQUIREMENT
Complete this course (3 Credits)
___ PHIL 201  Logic & Critical Thinking  3

ARTS and HUMANITIES REQUIREMENT
Complete one course in each group (6 Credits)

Group 1
___ ART 100  Survey of Art  3
___ ART 101  History of Western Art I  3
___ ART 102  History of Western Art II  3
___ CINA 126  Film and International Culture  3
___ HUMS 101*  Montage: Intro to Humanities  3
___ MUS 101  Survey of Music  3
___ MUS 140  Intro to Music Literature  3
___ MUS 251  Introduction to Music History  3
___ THEA 101  Introduction to the Theatre  3

Group 2
___ ENGL 175  Introduction to Literature  3
___ ENGL 257  Literature of W. Civilization  3
___ ENGL 258  Literature of W. Civilization  3
___ ENGL 267  Survey of English Literature  3
___ ENGL 268  Survey of English Literature  3
___ ENGL 277  Survey of American Literature  3
___ ENGL 278  Survey of American Literature  3
___ HUMS 101*  Montage: Intro. to Humanities  3
___ PHIL 101  Intro. to Philosophy  3
___ PHIL 103  Ethics  3

Group 3
___ GEOG 100  Physical Geography  4
___ GEOL 101  Physical Geology  4
___ GEOL 102  Historical Geology  4
___ GEOL 123  Geology of Idaho & Pacific NW  4

Group 4
___ PHYS 101  Fund of Physical Science  4
___ PHYS 103/103L Elementary Astronomy  4
___ PHYS 111/111L General Physics I  4

LABORATORY SCIENCE REQUIREMENT
Complete two courses from two different groups (8 Credits)

Group 1
___ BIOL 100  Fundamentals of Biology  4
___ BIOL 175  Human Biology  4
___ BIOL 202  General Zoology  4
___ BIOL 203  General Botany  4
___ BIOL 204  Intro to Life Sciences  4
___ BIOL 205  General Zoology  4
___ BIOL 221  Forest Ecology  4
___ BIOL 231  General Ecology  4
___ BIOL 227  Human Anatomy & Physiology  4

Group 2
___ CHEM 101  Intro to Essential Gen Chemistry  4
___ CHEM 111  Principles of College Chemistry I  4
___ ENSI 119/119L Intro to Environmental Science  4

Group 3
___ PHYS 101  Fund of Physical Science  4
___ PHYS 103/103L Elementary Astronomy  4
___ PHYS 111/111L General Physics I  4

CULTURAL DIVERSITY REQUIREMENT
Complete one of the following (3-4 Credits)
___ ANTH 225  Native People of N. America  3
___ FLAN 207  Contemporary World Cultures  1
___ FREN 201  Intermediate French  4
___ FREN 202  Intermediate French  4
___ GERM 201  Intermediate German  4
___ GERM 202  Intermediate German  4
___ MUS 127  Survey of Popular Music  3
___ PHIL 111  World Religions  1
___ SPAN 201  Intermediate Spanish  4
___ SPAN 202  Intermediate Spanish  4

*HUMN 101 may be used to fulfill the requirement for one group only.
## DEGREE REQUIREMENTS

### Associate of Arts Degree (continued)

#### SOCIAL SCIENCE REQUIREMENT
Complete one course in each group (12 Credits), except Business Majors who may take the Economics 201-202 sequence.

**Non-core Elective Requirement**

Complete 24-27 credits (these should be selected to meet major requirements at an intended transfer institution).
The Associate of Applied Science (A.A.S.) Degree

The Associate of Applied Science Degree is designed to provide training in specialized skills that can connect with immediate employment opportunities. The A.A.S. is not intended as a preparation for transfer to bachelor degree programs although many of its credits may transfer to other institutions.

To qualify for an Associate of Applied Science Degree, a candidate must complete the requirements of an established occupational program with a grade point average of 2.00 (C) or better in all work attempted. A grade of C- or better is required in each specific course listed within the program outline. No program awarding an A.A.S. degree will be established that requires fewer than 60 credits for graduation.

In addition to the technical curricula, some occupational programs require an additional 12 credits selected from the academic courses listed below. Students may also select courses from this list when specific courses are not designated by their program curriculum.

General Education or Related Instruction Requirements (12 credits)

In order to qualify for an Associate of Applied Science degree, students are required to include 12 credits of related instruction as detailed below. Most programs include specific courses that meet the individual related instruction requirements, but are not identified as "communications" or "occupational and/or human relations." For programs that list an "Occupational and/or Human Relations elective," the courses listed below under the Occupational and/or Human Relations heading may be used to satisfy that requirement. Consult with your program instructor and/or advisor.

Communications:
Choose from six (6) credits of the following:
COMM 101 Introduction to Speech 3
COMM 111 Interview Techniques 2
COMM 133 Improving Listening Skills 1
COMM 134 Nonverbal Communication 2
COMM 209 Argumentation 3
COMM 233 Interpersonal Communication 3
COMM 236 Small Group Communication 3
ENGL 099 Fundamentals for Writing 3
ENGL 101 English Composition 3
ENGL 102 English Composition 3
ENGL 202 Technical Writing 3
ENGL 272 Business Writing 3

Mathematics, Business, Economics, Statistics:
Choose from three (3) credits of the following:
BUS 110 Small Business Accounting 3
BUS 127 Introduction to Business 3
BUS 138 Accounting for Managers 1
BUS 185 Business Mathematics 1
BUS 201 Principles of Accounting 1
BUS 202 Managerial Accounting 1
BUS 211 Principles of Management 1
BUS 221 Principles of Marketing 1
BUS 251 Principles of Statistics 1
BUS 265 Legal Environment of Business 1
MATH 108 Intermediate Algebra 4
MATH 123 Contemporary Mathematics 1
MATH 130 Finite Mathematics 4
MATH 145 Advanced Technical Mathematics I 1
MATH 146 Advanced Technical Mathematics II 1
MATH 147 Pre-Calculus 5
MATH 170 Analytic Geometry & Calculus I 4
MATH 253 Principles of Applied Statistics 1
ECON 201 Principles of Economics 1
ECON 202 Principles of Economics 1

Occupational and/or Human Relations:
Choose from three (3) credits of the following:
ATEC 103 Applied College Survival Skills 2
ATEC 109 Occupational Relations 1
ATEC 110 Successful Job Search 1
ATEC 119 Occupational Relations/Work Ethics 2
COMM 200 Seminar: Human Potential 2
HSS 101 Introduction to Human Services 2
LAW 103 Introduction to Criminal Justice 1
MGMT 256 Problem Solving-Team Dynamics 1
PHIL 103 Ethics 1
PHIL 201 Logic and Critical Thinking 3
PHIL 292 Ethics in Health Care 1
PSYC 101 Introduction to Psychology 1
PSYC 205 Developmental Psychology 1
PSYC 211 Abnormal Psychology 1
SOC 101 Introduction to Sociology 1
SOC 102 Social Problems 1
SOC 220 Marriage and Family 1
SOWK 240 Introduction to Social Work 1

Certificate of Completion

A student may qualify for a Certificate of Completion by completing a technical program or approved academic program (Certificate of Completion in Music) with a grade point average of 2.00 (C) or better. A grade of C- or better is required in each specific course listed within the program outline.

Planning for Transfer

The following transfer program guidelines will provide some help in selecting the courses needed to fulfill the first half (lower division or 100- and 200-level courses) of many different bachelor degree programs (the traditional four-year college degree).

Completing the second half of the degree (upper division or 300- and 400-level courses) involves transferring to an appropriate college or university where the desired degree is offered. These program guidelines, however, are intended only as suggestions. Actual course selection should include a review and understanding by the student of requirements at the intended institution.

Most of the listed program guidelines are structured around the North Idaho College Associate of Arts Degree or Associate of Science Degree (see the preceding "Degree Requirements" section of this catalog for full degree descriptions). The following may help in determining which associate degree to use as the foundation for a transfer preparation.

The Associate of Science (A.S.) Degree is designed to automatically satisfy general core requirements at all Idaho public colleges and universities. It offers a wide range of options in many of the core areas and a generous number of elective credits for meeting course requirements specific to your major. This makes it very versatile in adapting to specific requirements at other institutions. With some planning, it can make receiving an associate degree appropriate for almost all transfer situations.

The Associate of Arts (A.A.) Degree is designed to automatically satisfy general university requirements (GUR's) at Eastern Washington University and Gonzaga University. It will also satisfy core requirements at all public colleges and universities in Idaho. It lacks some of the flexibility of the A.S. degree, but offers a sometimes stronger transfer preparation to unidentified transfer institutions because of its many core areas and its use of more traditional, widely accepted course options.

Advisors can assist in planning an efficient transfer program by fine-tuning a selected program guideline or by designing a program for majors that may not be listed. Consulting the North Idaho College catalog, the transfer institution's catalog, and advising assistance from both institutions should be part of successfully completing any transfer program.

Applied Technology/Occupational Programs

General Information

North Idaho College is dedicated to meeting the training needs of North Idaho through its specialized training programs. Students enrolled in these programs receive comprehensive training in both the classroom and laboratories. They may also receive on-the-job experience through internships arranged with local employers.

The purpose of these programs is to provide educational training that prepares students for entry-level skills. NIC is committed to preparing students to enter, succeed, and advance in the workforce. Basic English skills and developing related skills are integral components of all programs.

These career-oriented programs vary in length depending on program objectives. Some programs result in a Certificate of Competency, and others result in an Associate of Applied Science Degree.

Certificate of Completion: Students seeking a Certificate of Competency from NIC must earn a minimum cumulative GPA of 2.00 (C) in all courses required in the program. A grade of "C" or better is also required for each course for which a grade was submitted. The program outline is designed to ensure that all required courses are completed.

Associate of Applied Science Degree: Students seeking an Associate of Applied Science Degree from NIC must have an overall grade point average of 2.00 (C) in all courses required in the AAS program. A grade of "C" or better is also required for each specific course listed in the program outline. Students are cautioned that some of the courses offered in these degree programs may be transferable to other institutions.

Some programs require electives to fulfill the General Education Requirement. These electives are listed on page 42. Students should consult their advisor for assistance in setting up their program of study.

The Bridge Program

Prior to entering a specific technical program, prospective students may wish to take advantage of the Bridge Program. This program is designed to allow students an opportunity to explore necessary skill-building before enrolling in specific programs or courses that will apply toward an Associate of Applied Science Degree. Students who do not complete the Bridge Program will not be able to transfer to NIC for the degree or satisfy the requirements for admission to technical programs. Students receiving provisional admission to a technical program may be required to complete a certain number of credits in the Bridge Program prior to being accepted into the program (see page 13).

Suggested courses may include, but are not limited to, the following: A101, A103, A105, A109, A110, A111, A119, A120, B111, B113, B211, B214, B215, ENGL 103, ENGL 105, ENGL 107, HUMN 101, HUMN 104, HUMN 105, BUSA 101, BUSA 102, BUSA 103, BUSA 104, BUSA 105.

See page 42 for additional courses that may be selected from the AAS Degree Electives.

In addition to these courses, the NIC Learning Center has tutorial support and computer programs designed to help students identify and remediate skills that relate directly to specific Applied Technology programs. Because of the variety of options and course requirements within each program, prospective Applied Technology students are advised to consult with the Applied Technology Counselor in Student Services or the Special Populations Coordinator in the Applied Technology Administrative Office prior to enrolling in any class.

*Limited Enrollment. Early application encouraged. A $100 deposit is required for these programs after the student has been accepted. Please contact the Admissions Office for further information.

See page 42 for additional course requirements.
Anthropology
Transfer Program

Anthropology is the study of the physical, mental, and cultural characteristics of human kind. Generally, a 2.50 grade point average from a community college will allow the student into upper division anthropology work.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested courses normally fulfill the first half of baccalaureate degree requirements in anthropology. Course selection should be tailored to match requirements defined by intended transfer institutions.

*Electives can be selected from options listed in the A.A. degree requirements on pages 38-39.

Art
Transfer Program

The Art Department's transfer programs are structured as a broad introduction to the nature, vocabulary, media, styles, and themes of the visual arts. Students pursuing a Fine Arts or Commercial Art major (the Commercial Art program is described on page 55) and transferring credits may complete all basic art requirements during their attendance at NIC. Students must pursue an A.A.S. degree in Commercial Art as an occupational program.

The department of art's curriculum emphasizes five major goals: developing the highest levels of individual artistic awareness and expression; providing coursework for students as part of their general education experience; combining rigorous training in technical and formal skills in commercial art; and maintaining the art gallery as a visual arts resource in the region.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public institutions. The suggested course work below normally fulfills the first half of baccalaureate degree requirements in Commercial Art or Fine Art. Course selection should be tailored to match requirements defined by intended transfer institutions.

Students pursuing an art major have several options. Students transferring to a baccalaureate program after graduation from NIC to complete a B.A. or B.S. degree may choose "emphasis electives" from either the Fine Arts or the Commercial Art area. Students interested in applying their art training immediately upon graduation from NIC will want to consider the Commercial Art occupational degree option. Each area is further outlined below.

**Fine Arts Emphasis**

Courses in this area provide instruction in the creative process through studio art classes and art survey. This foundational coursework explores the aesthetic principles that lead to individual expression.

**Commercial Art Emphasis**

Commercial artists are visual specialists who convert ideas into symbols and devise print advertising, corporate identity systems, and electronic media. As the communications link between supplier and consumer, the commercial artist conceives and executes ideas that inform, motivate, educate or sell. Students selecting a Commercial Art emphasis will be exposed to basic technical and conceptual skills using computers and other resources necessary to produce sophisticated and effective presentations. The Commercial Art Associate of Applied Science Degree option is described on page 55.

NOTE: The Commercial Art Associate of Applied Science is described on page 55.

Auto Body Technology
Applied Technology Program
The Auto Body Technology program is a 10-month program designed to prepare the student for entry-level employment as an auto body technician and/or painter. Each day includes one hour of theory and six hours of in-shop practice. Under the instruction and supervision of a qualified instructor, the student will learn and work in conditions similar to those found in the work place. Excellent individual instruction occurs because of the small number of students in these classes.

All phases of refinishing, including clear coats; MIG welding; plastic parts; body panel repair; estimating, body panel and glass replacing, unibody repair and aligning; electrical and mechanical diagnosing and repair; and other related subjects are covered in detail. Health and safety are promoted in the shop, along with learning to do quality work. Strong basic math skills and good reading skills are recommended. Remedial support is available through the NIC Learning Center.

A general education component consisting of communications, occupational relations, how to get a job, and computational skills (math for estimates, etc.) is also taught. Successful completion of the first semester and/or permission of the instructor is required to continue to the next semester of the program.

Automotive Technology
Applied Technology Program

The Automotive Technology program is designed to prepare the student for entry-level employment in the automotive repair industry. Emphasis is placed on acquainting the student with the newest technologies in the automotive repair field.

Under the supervision of qualified instructors, the student will become familiar with the various units and assemblies found on the modern automobile. He or she will develop skills in the use and interpretation of the most up-to-date diagnostic equipment available. Each day's activities include classroom components as well as lab components where the student works on mockup units and serviceable automobiles.

Safety is taught and practiced throughout the program, as well as work quality and ethics. A high degree of individual attention is available because of the limited number of students in the program.

Due to the complexity of today's cars, the service manuals used in the industry require a high degree of math skills, reading skills and comprehension. Skill-building courses are available in those areas and others, if necessary. Students with low assessment scores may be advised to improve basic skills through the Learning Center and/or the Bridge Program. (For more information see Bridge Program, page 45). Successful completion of each semester and/or permission of the instructor is required for admission to the next.

Bacteriology-Medical Technology Transfer Program

The Bacteriology-Medical Technology program is designed for students who desire professional careers in applied science, business, agriculture, food technology, general engineering, environmental control, clinical lab work in hospitals, public health and research labs, and industrial and pharmaceutical laboratories.

Recommended electives are BIOL 101 (General Bacteriology) and ZOOL 107-118 (Human Anatomy and Physiology). Students planning to attend Eastern Washington University should follow the A A degree requirements. Students planning to transfer to another university may coordinate their program to meet that institution's requirements.

A cumulative GPA of 2.0 or better must be maintained. A A degree is required. Completion of the following courses results in an associate degree and meets the general core requirements of Idaho public universities. The suggested course work normally builds the first half of the core requirements in Bacteriology-Medical Technology. Course selection should be tailored to meet requirements defined by intended transfer institutions.

Biology, Botany, Zoology

Transfer Program

The biological sciences deal with the basic principles of all living things: structure, function, and ecological relationships. An A.S. degree is needed to continue in a variety of fields, such as allied health professions and education, medical school, agriculture and forestry, Environmental Protection Agency, state and national agencies dealing with biology, various industries, as well as consulting agencies.

Recommended electives for this degree are CHEM 277 and 277L (Organic Chemistry I and Lab); CHEM 287 and 287L (Organic Chemistry II and Lab); MATH 150 (Survey of Calculus) or MATH 170 (Analytical Geometry and Calculus I), PHYS 111 and 111L, or PHYS 112 and 112L.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of the baccalaureate degree requirements in Biology, Botany, or Zoology. Course selection should be tailored to match requirements defined by intended transfer institutions.

Business Administration

Transfer Program

The study of business administration leads to career opportunities in accounting, economics, information systems, finance, human resources management, marketing, production management, and other business-related fields of study. This program provides the first two years of study leading to a bachelor's degree in these business fields.

For admission to a College of Business and enrollment in 300-level business courses, the typical requirement is completion of a "business core" which usually includes the following five courses: BUSA 201 and 202 (Principles of Accounting), ECON 201 and 202 (Principles of Economics), and BUSA 251 (Principles of Statistics).

Students who intend to transfer to the College of Business at the University of Idaho should complete BUSA 121 (Introduction to Spreadsheets), or possess equivalent knowledge. Accounting students at the University of Idaho are required to take additional courses. Students should see their advisor for these requirements. Students who intend to transfer to Lewis Clark State College should take BUSA 251 (Principles of Statistics); ENGL 272 (Business Writing); and LCSC's DP 201 (Introduction to Computers and Information Systems) which is offered in Coeur d'Alene, but should not take BUSA 265 (Legal Environment of Business).

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of the baccalaureate degree requirements in Business Administration. Course selection should be tailored to match requirements defined by intended transfer institutions.

### Business and Office Technology

#### Applied Technology Programs

The Administrative Assistant, Legal Secretaryial, Medical Secretarial, Office Information Specialist and Paralegal Programs provide coursework required for an Associate of Applied Science Degree. The Paralegal program guidelines can be found in the catalog under the Selective Programs Admissions. The Office Assistant Program provides coursework required for a Certificate of Completion.

Students may also utilize some Business and Office Technology courses as part of a transfer curriculum in Business Education or Business Administration.

* Enrollment in BUSO 101A may be challenged for credit
* Enrollment in BUSO 211 is intended for students with strong accounting aptitude or mathematical ability who wish to expand their transfer credit options
* To be mutually agreed upon by student and program coordinator
* BUSO 107, 118, 119, 120, 122A, 122B, 124, 125, 134 or BUSO 109, 205, or PSY 102
* BUSO 101A and BUSO 101B may be challenged for credit

NOTE: BUSO 118 and 119 may be used as electives in the BUSO programs only when the software package taught is different from the package used to teach BUSO 171 and 174.
Program Guidelines

Legal Secretarial Studies
This program provides coursework required for an Associate of Applied Science degree that leads to positions in legal environments. Some of the courses in this program will transfer to the Paralegal Program.

Carpentry
Applied Technology Program

The 10-month Carpentry program is intended to provide students with entry-level skills to better enter the field of construction carpentry. Graduates can expect to understand building blueprints, the use of tools, and the various uses of lumber.

Various aspects of carpentry connected with residential house building will be taught. Site preparation, forming and placing concrete, trade math, framing methods, after construction, stair layout, insulation, tooling, exterior finish, along with interior finish, are all areas which will be thoroughly covered in class and in the field. Students will use many hand, portable electric, and stationary tools and must acquire good skills in this area as well as understand all safety aspects of the tools used.

The carpentry program attempts to create actual work situations, emphasizing work ethics, work habits, safety, and oral communication. These skills are necessary for the success of the student in this program. A general education component consisting of communications, occupational relations, how to get a job, managerial skills, and computational skills is also included. Classes involve construction both on and off campus. Successful completion of the first semester and/or permission of the instructor is required for admission into the second semester.

NOTE: Beginning with the 1998-99 academic year, the 10-month Carpentry Program will begin in July 1998 and will end in May at the end of the regular school year.

Chemistry
Transfer Program
This program is for students interested in pursuing a baccalaureate degree in chemistry. Chemistry is a science that deals with the composition, structure, and properties of substances and their transformations. NIC's small class sizes facilitate student interaction with qualified faculty and excellent laboratories. A solid math and science background is important preparation for a college chemistry program.
Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Chemistry. Course selection should be tailored to match requirements defined by intended transfer institutions.

Child Development
Transfer Program
The Child Development program is designed to meet the requirements of students planning to transfer to a four-year institution and/or seeking entry level career opportunities in early care and education, preschool, Head Start. Continued study leading to a baccalaureate degree affords career options in elementary education (particularly K-3), special education, and other child-related fields.
Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. Course selection should be tailored to match requirements as defined by intended transfer institutions.

Commercial Art
Occupational Program

This occupational program prepares its graduates to meet the challenges of Commercial Art and related professions. The curriculum aims to equip students with the skills, knowledge, and abilities necessary to enter the job market. The broad range of media used to implement creative and aesthetic solutions include work in print advertising, packaging, and a variety of electronic media including TV, computer graphics and the Internet. This program fulfills the requirements for an Associate of Applied Science degree. Students must be accepted into the program prior to enrolling in commercial art coursework.

Communications
Transfer Program

Communication is a discipline that teaches vital skills for success in today’s society and provides professional preparation in communication fields. Communication provides the link for using all other technical skills and knowledge acquired in one’s lifetime. Few assets are more valuable to career or community as a basic understanding of the dynamics of communication.

The department of communication offers program options or emphasis areas in Speech/General Communication, Public Relations, Visual Communication, and Journalism. Each program option includes a common core of courses required of all communication majors.

Speech/General Communication

Speech is a communication area that is not limited to public speaking. Speech includes the study of how people interact in relationships and groups, as well as public presentation situations. The course of study offered at NIC gives students the opportunity to explore all these areas of communication.

Public Relations

Utilizing effective communication skills to promote the image of a company or organization is the role of a public relations person. The public relations course of study is one of diversity, where the focus is on understanding communication skills, modern communication media, and essentials of the work place.

Visual Communication

The visual image as communication, especially the photographic image, plays a vital role in contemporary society. The Visual Communication area focuses on the knowledge, skills, and abilities needed to create visual images as a form of communication. The course of study offered at NIC gives students the opportunity to explore the role of the visual image in modern mass communication.

Journalism

Focusing on knowledge and essential skills, this course of study prepares students for careers in journalism through an associate degree transfer program. Theoretical training and laboratory workshop methods are combined with practical experience on the NIC newspaper, The Sentinel. See page 69 for details.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Communications.

**Computer Applications in Business**

**Applied Technology Program**

This Associate of Applied Science degree program prepares the student for entry-level employment in the computer field. Graduates will install, modify, troubleshoot and make repairs to both hardware and software systems. The program will cover the overall concepts of computer systems, operating systems, networks and their interfaces with installed hardware and software applications.

Computer Science
Transfer Program

This program leads to career opportunities in a wide variety of computer science areas: operating systems, expert systems, graphics, databases, software engineering, compilers, numerical analysis, etc.

This program requires a good math background. Students should complete MATH 025, MATH 108, and MATH 147, or their equivalents.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Computer Science. Course selection should be tailored to match requirements defined by intended transfer institutions.

Criminal Justice
Transfer Program

This program is recommended for students interested in pursuing a career in the criminal justice field. Positions available to graduates of the program may be found in the areas of local law enforcement agencies, correctional institutions, public and private security agencies, insurance companies (adjustor, investigator, etc.), or with a state's Department of Motor Vehicles.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Criminal Justice. Course selection should be tailored to match requirements defined by intended transfer institutions.

Culinary Arts
Applied Technology Program

The Culinary Arts Program provides students with entry-level skills in the food service industry. Students receive instruction in cooking and baking as well as theoretical knowledge that underlines competency in the field. Additional learning involves table services, menus, cost controls, storeroom, and stewarding. Students will have the opportunity to:

* Learn and effectively practice basic and advanced technical skills in food preparation and service.
* Understand the principles of food identification, nutrition, and food and beverage composition.
* Gain experience in the proper use and maintenance of professional food service equipment.
* Become familiar with the layout and work flow of professional kitchens and bakeshops.
* Gain an appreciation for the history, evolution, and international diversity of the culinary arts.
* Develop a sense of professionalism necessary for working successfully in the food service industry.

Students will spend one hour in theory and six hours in kitchen lab per day. Successful completion of each semester is required for admission into the next semester.

Diesel Technology
Applied Technology Program

The Diesel Technology program is designed to prepare the student for employment as an entry-level heavy duty mechanic. The program emphasizes extensive shop work using actual customer projects, as well as mock-up units and assemblies similar to those found in industry.

Instruction includes explanation of the problems involved in the repair and maintenance of engines, transmissions, differentials, brakes, steering, assemblies, suspension, cooling, and fuel and air systems. Also included in the program is a course in heavy duty mechanics welding and cutting using both oxy-acetylene and electric arc. Excellent math and reading skills are recommended. Skill-building courses in these areas are available through the Learning Center. (See page 26). Successful completion of each semester and/or permission of the instructor is required for admission into the next semester.

**Drafting Technology**

Applied Technology Program

The Drafting Technology Program, which results in an Associate of Applied Science degree, is designed to prepare the student for entry-level employment as a drafting technician. Drafting technicians do working drawings of buildings, machine parts, or mechanical parts. They work in a variety of environments including engineering offices and for both large and small industries. The first year of study gives the individual an understanding of mechanical drafting through learning to complete working drawings accurately and neatly. The year begins with an introduction to drafting and the drafting field, instruction in the use of various drafting tools, and use of the hand-held calculator. The student studies basic mathematics and algebra. Computer Aided Drafting (CAD) is presented each semester with students developing an awareness of what drafting tasks are best performed by microcomputer.

The second year includes an introduction to architectural drafting, gearing, calculation of ratios and speeds, selection of materials, physics, computer-aided drafting, and elementary surveying. Practical engineering problems are presented. Mathematics, computer-aided drafting, and physics are used to complete assigned projects. Actual drafting projects from outside the college are used as available, and some emphasis is placed on as-built drawings.

Surveying theory includes physical measurement in the horizontal and vertical plane, computation of areas, topographical mapping, and road profile layout. Some field work, along with instrument use, is necessary and instruction in operation of the level, rod, transit, theodolite, and electronic distance meter is given.

A general education component is required. It consists of six credits in communications (three of which are technical writing); three credits in math/economics and three credits in human relations. It is strongly recommended that students complete Math 108 before entering the program. Students must be at least eligible for MATH 108 (successful completion of MATH 030 or its equivalent) in order to qualify for acceptance into the program. Skill building courses in math and other areas are available. For more information see the Bridge Program on page 45. Successful completion of each semester and/or permission of the instructor is required for acceptance into the next semester.

**Education**

Secondary Education Transfer Program

Students who plan to teach at the middle school or high school level need to identify the subject to which they wish to teach (English, math, history, etc.) and then pursue an Associate of Science or Associate of Arts Degree in that area (see appropriate program guidelines). An Associate of Science Degree is most efficient for transfer to Idaho colleges and the Associate of Arts Degree works best for Eastern Washington University, Gonzaga University, and possibly other out-of-state colleges. Specific course selections should include PSYC 101, EDUC 201 and
other courses identified by your intended transfer institution's catalog. Refer to the A.A. and A.S. degree requirements on pages 38-41.

**Elementary Education Transfer Program**

Students who plan to teach at the elementary school level should pursue an Associate of Arts Degree for transfer to Idaho colleges or University of Idaho. An elementary education at NIC through its Coeur d'Alene Center or an Associate of Arts Degree for transfer to Eastern Washington University, Gonzaga University and possibly other out-of-state colleges. Course selections should include PSYC 101, EDUC 201, MATH 157 and 257, ENG 111 or 112, and other courses specified by your intended transfer institution's catalog. Refer to the A.A. and A.S. degree requirements on pages 38-41.

---

**Electronics Technology**

**Applied Technology Program**

This two-year (four semester) program is designed to give students a strong in-depth foundation in electronics principles. Students will be prepared for employment as entry level computer, field service, engineering and bench technicians.

Classes are in session six hours per day, five days per week. Students will learn the theory, application and troubleshooting of DC and AC electrical components and circuits, semiconductors (including, but not limited to: diodes, transistors, triacs, SCRs, UIs), integrated circuits (both analog and digital), microprocessor systems and a brief introduction to communication and industrial electronics fundamentals.

Skills gained will include component identification, reading schematics, use of industry standard test equipment (Oscilloscope, Volt/Ohm/Milliammeter, Logic Analyzer, Transistor Curve Tracer), soldering techniques, and use of industry standard documentation (data books and technical literature). A heavy emphasis is placed on troubleshooting and practical design techniques.

Interested students should be eligible for MATH 101 (successful completion of MATH 010 or equivalent) and possess good reading skills. Skill building courses in these and other areas are available. (See Bridge Program, page 45). In addition to technical course requirements, 12 credit hours of applicable general education classes will result in an awarding of an A.A.S. degree. Successful completion of each semester and/or permission of the instructor is required for acceptance into the next semester.

Engineering Transfer Program

The program offers the full range of engineering and related courses to satisfy freshman and sophomore requirements for students planning to transfer to institutions offering baccalaureate degrees in engineering or engineering technology. It lays a solid foundation for further studies in civil, mechanical, and electrical engineering, and provides the flexibility needed by students interested in emerging fields like robotics, bioengineering, geological engineering, mining engineering, and many others. The advantages of small class size, individual attention, a knowledgeable professional staff, and state-of-the-art instructional equipment, incorporating modern CAD (computer-aide design) are well suited to meeting the lower division requirements for degrees in engineering. A solid math and science background is important preparation for a college engineering program.

These curricula are designed to allow students transferring to the University of Idaho to enter their junior year with essentially the same coursework as students who completed their first two years at that school. Curricula can be adjusted to meet similar requirements for other institutions.

These engineering curricula do not lead to an A.S. or A.A. degree from North Idaho College. Anyone wishing a degree should refer to the graduation requirements listed in this catalog on pages 38-41.

**English Transfer Program**

Through the study of literature and training in composition, students studying English learn to think logically, to analyze and organize a wide variety of data, and to write and speak clearly, accurately, and convincingly—in a word, to communicate. Mastery of the skills of communication gives students their greatest advantage in continuing their education or in entering the job market. In addition, because students who study literature must deal with writing in a number of genres, from various periods, and containing various ideas, they learn how to become reasonably knowledgeable in areas in which they have had no previous training. In other words, they learn how to keep on learning throughout their lives. Students learn how to access specialized materials and how to evaluate and interpret data of various kinds by writing well-documented and convincing analyses. All of these are permanent skills which do not become obsolete with advance in science and technology.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in English. Course selection should be tailored to match requirements defined by intended transfer institutions.

*Electives can be selected from options listed in the A A degree requirements on pages 38-39.

Students who plan to earn a bachelor of science degree at a four-year institution may wish to take courses which would lead to an A S degree rather than an A A degree. Curriculum requirements would be coordinated with the catalog of the transfer institution.
PROGRAM GUIDELINES

Environmental Health
Transfer Program

This program is designed for students planning to transfer to an environmental health program at Boise State University. Refer to the BSU Catalog, Dept. of Community and Environmental Health Programs, for guidance during the first two years.

Students must spend 20 hours with environmental health agencies prior to beginning upper division (junior) courses. An internship with public health agencies is also required as part of upper division level students.

Foreign Language
Transfer Program

The study of world cultures is an integral part of a well-rounded education. Learning a foreign language provides a sense of shared humanity and offers insight into the human mind, thus helping international understanding. It improves intellectual skills, helps the learner understand the customs, culture, and literature of other countries, and provides a wealth of material in other languages.

The knowledge of foreign languages is much needed and in demand in various sectors: business and commerce, civil service, law, media, applied sciences, service occupations, tourism, social sciences, and engineering among others. Students wanting to major in a foreign language are urged to complete an Associate of Arts Degree.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Foreign Language. Course selection should be tailored to match requirements defined by intended transfer institutions.

PROGRAM GUIDELINES

Forestry/Wildlife/Range/Wildland Recreation Management Transfer Program

This program provides suggested course work for the first half of baccalaureate degree requirements in natural resource management disciplines such as forestry, wildlife, range, or wildland recreation management. The program will acquaint the student with physical, biological, and social sciences as well as the humanities. This will provide a basis of general education and scientific-professional courses addressing the use of forest and range lands and related resources.

Completion of the following courses results in an associate degree and meets general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Forestry, Wildlife, Fisheries, Range, and Recreation Management. Course selection should be tailored to match requirements defined by intended transfer institutions.

Geology Transfer Program

This program is for students interested in pursuing a baccalaureate degree. Geology is the science that deals with the history of the earth and its life, especially as recorded in rocks. Small classes, excellent laboratories, and close proximity to classical geological field environments are especially well suited to providing the lower-division requirements for geology majors. A strong background in science and mathematics is important preparation for a college geology program.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Geology. Course selection should be tailored to match requirements defined by intended transfer institutions.

Heating, Ventilation, Refrigeration and Air Conditioning

Applied Technology Program

This program is designed to prepare the student for entry-level employment in the field of heating, ventilation, refrigeration, and air conditioning. The program includes three hours of theory and three hours of applied hands-on lab experience each day. Graduates can expect to install home and institutional heating and air conditioning systems, as well as being able to work on smaller systems and units.

Students will begin the program with studies of refrigeration theory, refrigeration cycle, heat transfer, equipment, and accessories. The electrical components studies will include basic electricity, circuit symbols, schematics, wiring, and motor controls.

Students will learn advanced electrical, control wiring, and wiring diagrams using air conditioning equipment. Also included is the study of thermostatic charts (Muller diagrams) as used in the refrigeration/air conditioning industry. Gas, oil, electric furnaces and heat pump heating will also be studied. All types of heating controls and airflow principles are covered as well as psychrometric charts and their use, load calculations, and duct design.

The program includes the study of light commercial and industrial air conditioning systems, system controls and installation. Successful completion of the first semester and/or permission of the instructor is required for admission into the second semester.

It is recommended that students have strong math and reading skills. Skill-building support is available through the Learning Center. (See page 27)

TOTAL: 40
**Program Guidelines**

**History Transfer Program**

The history major is designed for students desiring a broad liberal arts background either as preparation for a profession or for personal enrichment. Careers in history include teaching, spurious, state or college level, museum work, historical research and writing, and preserving and interpreting history for the general public through a variety of local, state, and federal agencies. The history major is also highly recommended preparation for law, politics, the ministry, and public service. Because it develops breadth of knowledge as well as critical, thinking and problem solving skills, a history degree is widely considered an excellent foundation for many managerial and executive careers. For this reason, it is a first choice for the general studies student.

Completion of the following courses results in an associate degree and meets the general core requirements at most Idaho public universities. The suggested course work normally fulfills the first half of bachelor's degree requirements in History. Course selection should be tailored to match requirements defined by intended transfer institutions.

* University of Idaho B.A. degrees in liberal arts require foreign language proficiency equivalent to two years of college-level study. If you have completed or tested out of this requirement, choose humanities or social science electives instead.

**Hospitality Applied Technology Program**

The Hospitality program leads to upper entry-level positions in hotel, motel, and restaurant operations. The coursework includes a combination of general business, marketing and management courses, specific hospitality industry courses, and on-the-job experience and internships designed to prepare the student for a career in the hospitality industry. The program is also intended to provide educational qualification for individuals already working in this field. Successful completion of the program results in an Associate of Applied Science Degree.

**Law Enforcement**

**Applied Technology Program**

This program prepares the student for an entry level position as a city, county, or state law enforcement officer. Upon completion, the student fulfills the requirements for the A.A.S. degree and is eligible to challenge peace officer certification in Idaho.

Applications for the Sophomore Law Enforcement block may be picked up from the Advising Room 219, Hedlund Building, three weeks before midterm week each semester. Application and acceptance into the Sophomore Law Enforcement block is required before enrolling in courses numbered 280 and above. Applicants for the Sophomore Law Enforcement block must undergo a polygraph examination, fingerprinting, and a background check. A Hepatitis B vaccination is required at the Sophomore Law Enforcement level.

This program consists of two semesters of academic courses followed by one semester of technical LAW Enforcement and one semester of internship.

Students who successfully complete the POST Academy will be given credit for LAW Enforcement courses. Credit may also be granted for LAW Enforcement sequence, for individuals who have successfully completed the POST Academy and have been continuously employed as full-time law enforcement officers for more than six consecutive months. Contact
PROGRAM GUIDELINES

the Law Enforcement Program instructor/coordinator for more information.

The Administration of Justice program is an option designed for working law enforcement professionals who aspire to improve or enter supervisory management positions. Credit will be granted for POST coursework.

This is a self-paced curriculum program.

Machine Technology
Applied Technology Program

Machine Technology prepares the student for entry-level employment in the machining industry. There are some 250 types of machinists employed in all sections of the country. Good job opportunities exist for the future. The course consists of basic-to-advanced machine training including computer programming for high-tech computer operated machines. Machinists work in manufacturing industries, general repair shops, or the machine-building industry.

Students will acquire related information necessary to exercise good judgment in carrying out the machining of materials, maintenance of machines, and the assembly of machine parts required of machinists. The program teaches an appreciation for good workmanship and emphasizes safety, correct work habits, and positive work attitudes.

Course work will include basic machine tool operations on lathes, milling machines, grinding machines, drill presses, saws, computer controlled lathe and milling machine (CNC), along with hench work and the proper use of hand tools. Also included will be machine theory, shop mathematics, blueprint reading, and safety.

A general education component consisting of communications, successful job search, and computational skills will be integrated into the program. Classes are held six hours a day, five days a week.

The prospective student should have basic algebra/geometry skills, reading comprehension skills, and mechanical and spatial aptitude. Academic skill building courses are available. (See Bridge Program, page 45). Successful completion of each semester and/or permission of the instructor is required for acceptance into the next semester.

Maintenance Mechanic/Millwright
Applied Technology Program

This 11-month program is designed to prepare the student for entry-level employment as an industrial plant maintenance mechanic or millwright. Students will learn the basics of maintenance, fabrication, installation, and alignment of equipment used in modern industrial plants. Theory classes provide technical information pertaining to welding, hydraulics, electricity, rigging, pipe fitting, mechanical devices/transmissions and conveyance systems, equipment alignment and installation, pumps, and compressors.

The laboratory portion of the program teaches the student to skillfully perform welding and fabrication as well as the maintenance of hydraulic, electric/mechanical systems. Blueprint reading and shop math are taught and used in all areas of training. A general education component of communications, occupational relations, and how to get a job is included.

Interested students should possess basic math skills (knowledge of basic algebra and geometry), reading skills, and have a keen interest in mechanics. Successful completion of the first semester and/or permission of the instructor is required for acceptance into the second semester.

### Marine Mechanics

**Applied Technology Program**

This 10-month certificate program is designed to prepare students for entry-level employment as marine mechanics. Persons interested in this field should have a strong interest in marine engines. High school classes such as math and small engine mechanics would be helpful, along with a mechanical aptitude and work experience. Good reading and math skills are important due to the extensive use of factory service manuals.

First Semester courses are available in those areas if needed.

Theoretical classes provide extensive technical information pertaining to testing and repairing electrical components of the outboard, as well as the stern drive units such as starters, alternators, standard and electronic ignition systems, fuel systems, such as 2BBIL and 4BBIL carburetors, and electronic fuel injection systems. Drive and cooling systems are also a major part of this program.

The lab portion of this program teaches the student to develop the skills needed to rebuild, test, and troubleshoot the components taught in theory class. Each day's activities include lab units in which students work on mock-ups as well as serviceable boats.

The first semester emphasizes electricity and its importance in the marine field. The student will study, test, and troubleshoot starters, alternators, standard and electronic ignition systems, trim and tilt, as well as the complete electrical system of the boat. The student will also train on the shift, cooling, drive, and electronic and standard fuel systems.

The outboard motor is taught in the second semester. The student will completely disassemble the two cylinder powerhead making the necessary measurements with micrometers and special tools recommended by the factory service manuals and then to factory specifications. The student will also train on the fuel, cooling, and gearboxes of the outboard. Special emphasis is placed on ignition systems. Students will start with the standard ignition system and work their way through testing and troubleshooting the CD and AFI systems. Students will train on mock-ups as well as serviceable units. Rigging is also taught. A strong mechanical background and ability to lift and maneuver over 50 pounds is highly recommended.

A general education component consisting of communications, occupational relations, successful job search and computational skills is also taught. Successful completion of each semester and/or permission of the instructor is required for admission to the next semester.

Mathematics
Transfer Program
This program leads to careers in teaching, industry, government, actuarial work, or as support for many science disciplines.
The mathematics background assumed for entry is four years of high school mathematics through pre-calculus and trigonometry. These entry-level courses, if needed, are also available through the college.
Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Mathematics. Course selection should be tailored to match requirements defined by intended transfer institutions.

Mental Health Technology/Human Services
Applied Technology Program
The Mental Health Technology/ Human Services program is designed to train students for direct care positions working with individuals who are mentally ill, emotionally distressed, or developmentally disabled. Populations include children, adolescents, adults and the elderly in hospital and community settings. The curriculum includes basic college coursework in psychology, interpersonal and small group communication, crisis intervention, interpersonal and small group communication, crisis intervention, and first aid. Mental Health Technology courses addressing the behavioral problems associated with mental disorders, anxiety disorders (schizophrenia, depression, manic depression, and substance abuse, eating disorders, personality disorders, anxiety disorders, mental retardation) and how to be an effective helper. Field experiences assist the student in developing basic skill in communication and interviewing techniques, establishing helping relationships, mental status assessment, designing and implementing therapeutic group activities, and managing problematic behaviors. The program also prepares the student for a career in mental health services.

Certificate of Completion
The curriculum for this program is currently under review. For information, contact the Allied Health advisor at (208) 769-1279.

Human Services
Graduates of the Mental Health Technology certificate program may complete an Associate of Applied Science Degree in Human Services. This degree broadens the perspective of the Mental Health Technology by focusing on human needs within the community. Human service worker roles include advocacy, case management, outreach and behavior change, as well as roles as teacher, caregiver, and assistant to specialists. Jobs might be found in group homes and halfway houses, corrections, community health centers, local and social service training centers, family, child, and youth service agencies, and programs concerned with drug abuse/dependency, family violence, and aging.

Associate of Applied Science Degree
The curriculum for the Human Services program is currently under review. For information, contact the Allied Health advisor at (208) 769-1279.
Music Transfer Program

This program is designed for students who wish to pursue a professional career in music by providing the necessary background in music theory, history, and performance. Students also may pursue their musical interests as an avocation through the program. Music courses promote skills which prepare students for fields outside of music, emphasizing communication, literary, physical, technical, and business skills.

There are no program prerequisites. Previous experience in high school or community music programs would be helpful. Students interested in scholarships must audition; selection is based on performance and a combination of grades and letters of recommendation.

Nursing: Practical Nursing (PN)  
Applied Technology Program

This 11-month program prepares the student for entry-level employment as a practical nurse in hospitals, home health care, convalescent homes, and related health service professions. A certificate of completion is awarded. Students who wish to continue to the R.N. level should consult with their advisor for requirements of that program.

A high school diploma or GED completion is required. Prerequisite courses include English 101, Chemistry 101, and Math 025 or testing higher. Equivalent courses in these subjects are also available at North Idaho College.

This program has a selective admission process. Applications are due by March 15 of each year. Refer to the admissions section of this catalog on page 16 for details regarding specific requirements.

Graduates are eligible to take the National Council Licensure Examination (NCLEX-PN). Students who pass the exam are qualified to practice as licensed practical nurses in the state of Idaho and may apply for licensure in other states without examination.

The curriculum includes basic and clinical foundations of nursing, medical and surgical nursing, maternal and infant care, nursing of children, psychiatric nursing, pharmacology, and geriatrics. A general education component consisting of communications, successful job search, and computational skills is integrated into the program.

The program is offered in cooperation with Kootenai Medical Center, local extended care facilities, and the State Board for Vocational Education.

Certificate of Completion  
Effective 1997-98

Certificate of Completion  
Effective 1998-99

Prerequisite college courses for the Practical Nursing program effective 1998-1999 include PSYC 101 and MATH 102. A grade of C or higher is required for all prerequisite courses. Students taking the ASSET must score above 44 in writing or above 48 in elementary algebra, those who do not will be required to take ENG 099 and/or MATH 025. Students who have not had high school chemistry or CHEM 101 or have not passed within the past five years will be required to take chemistry.

Nursing: Registered Nursing (RN)

The nursing program combines general education courses in the liberal arts and sciences with nursing theory and patient care experiences in community hospitals and health agencies. Graduates of the program are eligible to take the National Council Licensure Examination (NCLEX-RN). Upon passing the exam, students are licensed to practice as registered nurses in the State of Idaho and may apply for licensure in other states without examinations.

While students are eligible for the program following graduation from high school or successful completion of the high school level GED test, it is recommended, but not required, that students successfully complete all college level general education courses before applying to the RN program. This includes ENGL 101, PSYC 101, and CHEM 102.

The program has a selective admission process. Applications are due by March 15 of each year. Refer to the admissions section of this catalog on page 26 for details regarding specific requirements. Students who are eligible for advance placement. They must, however, meet the same criteria and deadlines as other program applicants.

Completion of the following courses does not fulfill all General Education requirements for the associate AS degree, but does meet the nursing requirements for the A.S. degree. (Upon completion of the General Education core for the associate AS degree transfer to a B.S.N. completion program is available. B.S.N. completion programs are available through the Intercollegiate Center.)
# Program Guidelines

The Nursing Education Program includes courses from Eastern Washington University, Gonzaga University, Idaho State University, Washington State University, and Lewis-Clark State College.

---

*Humanities may be selected from options listed on the AS degree requirements on pages 40-41.

The above chart varies somewhat from the college-wide general education requirements for the Associate of Science Degree. A grade of C or better is required for all nursing courses and all general education course requirements.

### Associate of Science Degree

**Effective 1998-99**

Students entering the Nursing program in 1998 will be required to meet all AS degree requirements. Beginning with 1998, Chemistry 102 is no longer a prerequisite for the nursing program. Other prerequisites remain the same with the addition of COMM 101. While students are eligible for the program following graduation from high school or successful completion of the high school level GED tests, acceptance into the program is normally not granted until all or most of the college-level general education requirements have been completed. Please refer to the admissions section of the catalog (page 16) for a listing of specific courses required for the Nursing program. Students may also wish to contact a nursing advisor at (208) 769-3481.

**TOTAL INCLUDING PREREQUISITES ... 72**

A grade of C or better is required for all nursing courses and all general education course requirements.
**Paralegal**

Applied Technology Program

This program provides coursework required for an Associate of Applied Science Degree that leads to positions in legal environments. The paralegal program prepares the student for employment in the legal services field and as a trained specialist who, while not admitted to the practice of law, functions as a vital part of a legal service team by managing law office operation, relieving a practicing lawyer of routine duties that require knowledge of routine legal processes, and assisting a lawyer in the conduct of more complicated and difficult matters. This program has a selective admissions process. Students with legal office experience will be given preference. Applications are due by October 25 of each year. Refer to the admission section of this catalog for details regarding specific requirements.

**Pharmacy Technology**

Applied Technology Program

The Pharmacy Technology program prepares students for positions working under the supervision of a licensed and registered pharmacist in retail, wholesale, and medical facilities. Students completing the program will have a basic understanding of anatomy, physiology, medical terminology, and the therapeutic classification and use of the top 200 drugs. Students will develop skills in pharmaceutical preparation, maintaining patient profiles, record-keeping, gaining experience in communication and presentation, and computer use in order to enter, store, and recall patient information.

The Pharmacy Technology program has a selective admissions process with 8-12 students admitted to the pharmacy coursework and program which begins every spring semester. Course requirements prior to the technical pharmacy courses are open to all students who meet specific course prerequisites. The Certificate of completion can be obtained in an 11-month course of study. The Associate of Applied Science Degree can be obtained in two additional semesters.

The deadline for submitting completed applications is October 25 for admission to the program beginning the following spring semester. Contact the Allied Health Division at 208-769-1274 for further information.

Associate of Applied Science Degree

Physical Education
Transfer Program

This program is for students interested in pursuing a baccalaureate degree in Physical Education for Teaching grades 1-12, with options in Exercise Science/Fitness or Coaching or a minor in Health Education.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of the baccalaureate degree requirements for Physical Education at the University of Idaho Coeur d'Alene campus.

**Physical Therapist Assistant**  
**Applied Technology Program**  
This Allied Health program prepares graduates to work as physical therapist assistants in a variety of settings (hospitals, nursing homes, private practice, rehabilitation centers, sports medicine clinics, etc.). There is a selective admissions process. The program is in the process of development and more information may be obtained by contacting the Allied Health Division at (208) 769-3279.  

Note: The PTA program is in the process of accreditation. The first and second class of students will be accepted into a nonaccredited program until the final accreditation process is completed in September of 1998. Although all will be required to achieve accreditation, North Idaho College and the Commission on Accreditation for Physical Therapy Education make no guarantee as to the final accreditation of the program.

Required courses that can be taken prior to program entry are:

**Physics/Astronomy**  
**Transfer Program**  
This program is for students interested in pursuing a baccalaureate degree in physics. Physics is the science that deals with matter and energy and their interactions in selected fields, like mechanics, acoustics, and electricity, to name a few. NIC's small class sizes facilitate student interaction with qualified faculty and excellent laboratories offer state-of-the-art instrumentation. A strong background in science and mathematics is important preparation for a college physics program.

Completion of the following courses results in an associate degree and meets the general education requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Physics. Course selection should be tailored to match requirements defined by intended transfer institutions.

PROGRAM GUIDELINES

Political Science and Pre-Law
Transfer Program

The Associate of Arts degree program leads to career opportunities in government, teaching, and law schools. The Associate of Science degree program should be pursued by those students who wish to seek a secondary teaching degree to become a social studies teacher. Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested coursework normally fulfills the first half of baccalaureate degree requirements in Political Science and Pre-Law. Course selection should be tailored to match requirements of intended transfer institutions.

Pre-Agriculture Transfer Program

This program is designed for students interested in a broad education with an emphasis on agriculture. Career opportunities may be found in the areas of farm and ranch management, marketing, soil and water management, farm equipment design and manufacturing, food processing, extension program services, and governmental agencies.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Pre-Agriculture. Course selection should be tailored to match requirements defined by intended transfer institutions.

Pre-Medical Related Fields Transfer Program

Several options within the pre-medical field are available for students completing this general program, some of which are Pre-Dental Hygiene, Pre-Medical/Pre-Dental Studies, Pre-Optometry, Pre-Pharmacy, Radiologic Technology, Respiratory Therapy, Radiographic Science, Speech Pathology and Audiology, and Sports Medicine.

Most professional school admission requirements will be satisfied with a baccalaureate degree in biology or chemistry with substantial course work in the other disciplines. Professional schools are extremely competitive. It is important that the pre-professional advisor at the transfer institution of the student's choice assist in course selection.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in the Pre-Medical Related Field options. Course selection should be tailored to match requirements defined by intended transfer institutions.

**Program Guidelines**

### Pre-Physical Therapy
**Transfer Program**

This program is designed for students planning to transfer to a major in physical therapy.

- For admission, an overall GPA of 2.5 or better, a 1.75 GPA in prerequisite work in biology, zoology, chemistry, physics, and psychology for transfer, and 150 hours minimum of work/observation under the direction of a licensed physical therapist is required for entry in physical therapy programs leading to transfer institutions.

Completions of the following courses result in an associate degree and meets the general core requirements at all Idaho public universities. The student's course work normally fulfills the first half of baccalaureate degree requirements in Pre-Physical Therapy. Course selection should be tailored to match requirements defined by intended transfer institutions.

### Pre-Veterinary Medicine
**Transfer Program**

The states of Idaho and Washington have an agreement which guarantees a certain number of places in the Washington State University School of Veterinary Medicine to qualified Idaho residents. Normally, students must maintain a 3.20 overall grade point average in their academic studies prior to admission to the program. Candidates with the greater depth and breadth of academic background are given preference by WSU.

Either the Graduate Record Examination (GRE) or the Veterinary Aptitude Test (VAT) should be taken in October prior to the year in which the student hopes to enter the WSU School of Veterinary Medicine. While students may enter the program following completion of an associate degree program, acceptance is normally not gained until a baccalaureate program is completed.

Students are to acquire and record at least 100 hours of significant exposure to veterinary medicine while employed or by working on a voluntary basis for a graduate veterinarian. The 100 hours must be completed by November 1 of the application year.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The student's course work normally fulfills the first half of baccalaureate degree requirements in Pre-Veterinary Medicine. Course selection should be tailored to match requirements defined by intended transfer institutions.

Psychology
Transfer Program

A baccalaureate degree with a major in psychology provides a solid foundation for many careers that require knowledge of human behavior in areas such as business, industry, government, or the helping professions. Completion of a graduate degree (masters or doctorate) is generally necessary, however, for careers specific to psychology. Therefore, students seriously considering such a career option should maintain a grade point average of 3.00 or higher.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Psychology. Course selection should be tailored to match requirements defined by intended transfer institutions.

Small Business Management
Applied Technology Program

The Small Business Management Program leads to entry-level and mid-management positions in sales, management, marketing, and retailing. It includes required course work for an Associate of Applied Science Degree (A.A.S.) in Small Business Management. This coursework also provides an opportunity for small business owners to upgrade their business skills. Students must complete a common core of classes to receive an A.A.S. degree.

Management Option: Students choosing this option will develop skills in planning, organizing, directing and controlling basic business functions. Students will also have the opportunity to participate in leadership development. This option prepares students to work in small or large businesses as well as preparing them for the entrepreneurial role of owning their own business.

Marketing Option: Students choosing this option will focus on marketing, advertising, and sales. Students learn what motivates customers in making buying decisions and how to identify and anticipate consumer needs.

General Business Option: Students will complete the core requirements and also have the flexibility to design their own program of study in business with assistance from a faculty advisor. Many small businesses need generalists—people who have broad business knowledge adaptable to various needs.

#### Social Work

The program is for students planning to transfer to a bachelor's degree program in Social Work (BSW). Among the sweeping changes in Social Work are new professional roles at federal, state, and local levels. Health care social work serves as agency on nursing homes, hospitals, and outpatient centers in mental health facilities, children and youth services, aging services, case work, rehabilitation counseling, juvenile detention, family services, pre-adoption investigation, drug and alcohol counseling, group home administration, and counseling, and employee assistance counseling.

Courses listed below result in an associate degree and meet the general education core requirements at all Washington universities. The suggested course work can be completed in the first half of the associate degree requirements in Social Work. Course selection should be referred to the requirements listed by the intended transfer institution. Students planning to attend Eastern Washington University should consult the Associate of Arts degree program, while students planning to attend Eastern Washington University should consult the Associate of Science degree program.

* Electives can be selected from options listed in the A.A. degree requirements on pages 40-41.
## Sociology

**Transfer Program**

Sociology is largely concerned with the study of American society and how it operates today. Graduates may work in society-related activities including sociology, social work, criminology, teaching, and a wide range of social service professions. Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested course work normally fulfills the first half of baccalaureate degree requirements in Sociology. Course selection should be tailored to match requirements defined by intended transfer institutions.

## Theatre

**Transfer Program**

This program is designed for students who want to emphasize the Theatre Arts in the planning of their undergraduate degree. Because class size often dictates whether a particular course can be offered, there is no guarantee a student can achieve an Associate Degree in Theatre. Rather, the program is designed for those who would take an Associate in General Studies with an emphasis in Theatre to transfer and complete a bachelor’s degree.

Emphasis is placed on the Theatre Arts as a valuable study for a wide range of career choices. Theatre Arts at NIC is not restricted to those who would like to make theatre a profession. Rather, through the study of communication, literary, physical, technical and psychological/emotional skills, a theatre major prepares students for success in many different professions.

There are no program prerequisites. Previous experience is, of course, helpful. Scholarships are available. Participation in theatre requires some evenings and weekend work.

Prior Completion of a Course

When "prior completion of a course" is listed as a requirement in a course description, it normally means the course should have been completed with a grade of C or better, unless a higher grade is required, but then the specific grade will be noted in the description.

Course Information

Courses numbered 1000 to 099 are nontransferable and do not apply toward the Associate of Arts and Associate of Science degrees. They may be required within some Associate of Applied Science degrees.

203 Workshop

(Credits arranged)

Not a course. It's a short education conducted by qualified faculty or other authorities in a particular field. Six credits maximum may be applied toward graduation. Prerequisite permission of the instructor.

204 Special Topic

(Credits arranged)

Special Topics course are semester-length courses dealing with unique subjects not timely topics conducted by qualified faculty or authorities on a particular field.

290 Internship

An off-campus experience directed by an on-site supervisor, but supervised by a faculty member designed to provide the student with an opportunity to observe and/or participate in a job-related activity that falls within the student's field of study. Six credits maximum may be applied toward graduation. Prerequisite permission of the instructor.

298 Practicum

An on-site placement experience designed to give the student an opportunity to apply principles learned in off-campus course work to specific community-related or employment-related situations. Practicum are overseen by a faculty member. Eight credits maximum can be applied toward graduation. Prerequisite permission of the instructor.

299 Independent Study

(Credits arranged)

Individual study of either reading or project nature. Offered on demand only. Six credits maximum may be applied toward graduation. Contact the Registrar's Office for Independent Study Guidelines. Enrollment is accepted the first four weeks of each semester and first two weeks of summer session. Prerequisite Sophomore standing. 3.0 GPA and permission of the instructor.

Allied Health

ALTH 101 Introduction to Allied Health
1 Credit Offered Each Semester

This course provides an overview of traditional health care delivery systems and current social, economic, and political influences. It introduces the student to health occupation roles and addresses consumer health needs, trends, and issues. This course is required for students planning to enroll in the Pharmacy and Medical Health Technician programs.

ALTH 102 Introduction to Allied Health Lab
1 Credit Offered Each Semester

This weekly three-hour lab course provides the student an opportunity to explore health careers that may be of interest. It assists the student to develop beginning observation, recording, and reporting skills based on their selected field exploration areas. Students will conduct health care provider interviews and participate in on-the-job shadowing experiences. This is a required course for students interested in applying for the Pharmacy Technician program. All students who have a sincere interest in exploring health career options are welcome. Concurrent enrollment in ALTH 101 is required.

ALTH 105 Infection Prevention
2 Credits Offered Each Semester

This course is an introduction to concepts regarding infection prevention and control with major emphasis on the blood-borne pathogens HIV and Hepatitis B. Modes of transmission, prevention and OSHA standards for blood-borne pathogens, basic pathophysiology of HIV and Hepatitis B and current treatments will be defined. Psychosocial, legal, and ethical issues about these diseases will also be discussed.

ALTH 107 Communication Skills
1 Credit Offered Fall Semester

This course explores nurse-patient relationships. The focus is on the difference between therapeutic and non-therapeutic interactions. Course work includes interviewing skills, appropriate documentation of nursing performance, telephone protocols, and hospital shift reporting. This course is required for program completion.

Anthropology

ANTH 101 Introduction to Physical Anthropology (Formerly ANTH 110)
1 Credits Offered Fall Semester

This course offers instruction in how the human species has developed over the past five million years. Information includes the African fossil finds, possible ancestors of the first humans, how human populations may differ from each other biologically, and the development of the
human abilities to live in all of earth's environments.

An interesting course for students curious about the development of human life on earth and why people appear to differ greatly. Satisfies a social science course requirement for the A.A. and A.S. degrees. Prior completion of other courses is not required. BIOL 100 or BIOL 201 or one year of high school biology would be helpful and is recommended.

ANTH 102  Introduction to Social & Cultural Anthropology
(Formerly ANTH 120)  3 Credits
Offered Each Semester

ANTH 120 is a study of human culture, which involves the information and techniques people use to survive and get along with each other. Included are examples from exotic peoples around the world in the areas of religion, magic, kinship, coming of age ceremonies, marriage rituals, economic activities, hunting techniques, etc. The course is desirable for students seeking a broad understanding of how human beings live, and how human customs vary throughout the world. Satisfies a social science course requirement for the A.A. and A.S. degrees. Prior completion of other courses is not required.

ANTH 225  Native People of North America
3 Credits
Offered Each Semester

This course offers an examination of who the North American Indians are, and who they were. Various facets of Indian culture are explored, including hunting, religion, art, living styles, foods, and relationships between the Native American tribes, both now and in the past.

ANTH 230  Introduction to Archaeology and World Prehistory
3 Credits
Offered Spring Semester

This course offers classroom instruction in the ways archaeologists unearth the remains of ancient peoples. Included is a brief look at what those archaeologists have discovered in various places throughout the world from the earliest stone tools to the invention of agriculture.

ANTH 299  Independent Study: Readings in the History of Anthropology
3 Credits
Offered Each Semester

This course is an individual study in which the student completes reading from a list of books relating to the development of modern anthropological thinking. A document based on those readings will be prepared by the student.

This course is intended for anthropology majors wishing to transfer to B.A.-granting institutions. ANTH 102, ANTH 103, and ENGL 101 must be completed prior to enrollment in this course.

Applied Technology

ATEC 103  College Survival Skills for Applied Technology
2 Credits
Offered Both Semesters

ATEC 103 is designed to increase student success by helping students obtain the skills necessary to complete their educational objectives. An emphasis on practical study and work techniques, including study habits, work habits, time management, and relaxation skills. Other topics include job hunting, resume writing, job interviewing, math, and basic computer skills. Students will keep a log book related to job hunting and job interviewing.

ATEC 108  Introduction to Technical Careers
3 Credits
Offered Both Semesters

ATEC 108 is designed to enhance student success by helping students understand the nature of today's work environment and the workplace as a place of work. Students will examine the major shifts in technological development in the last 40 years, as well as the emerging trends in the workplace, such as total quality management, a customer service-oriented climate, and entrepreneurship. Students will explore skills essential for success in the new workplace, as well as conduct self-assessment and career exploration activities. Students will survey three to four occupations based on stated interest and develop a personal educational plan for their career choice.

ATEC 109  Occupational Relations
1 Credit
Offered Either Semester

Instruction in practical applications of the job interpersonal relations and how they apply to you as an employee, supervisor, or consumer.

ATEC 110  Successful Job Search
1 Credit
Offered Either Semester

This course serves as an introduction to the fundamental techniques necessary to gain entry level employment. An underlying assumption is that it is better to teach someone how to find his or her own job than to find one for that person. Techniques include identifying skills, resumes, interviewing, and conducting a successful job search.

ATEC 118  Library Skills for Applied Technology
1 Credit
Offered Both Semesters

ATEC 118 is designed to increase student success by teaching students to access and use the professional resources available in a college library. Students will learn how to use interlibrary loans, how a library is organized, how to use the reference collection, and how to use...
A course description for students of industrial safety.

**ATEC 220 Industrial Safety**  
2 Credits  
Offered Fall/Spring Semester

This course is a practical and theoretical hands-on study of how and why accidents occur and how to prevent them. Topics include OSHA requirements, Right to Know, Hazard Communication Standard and Material Safety Data Sheets. Course content also covers stress management and employee responsibility, attitude, philosophy and commitment in the interest of accident prevention and loss control.

**ATEC 294 Cooperative Workbased Learning III**  
1-3 Credits  
Offered Fall Semester

This course is designed to provide students with career-related experience and an opportunity to reflect on those experiences. The experiences in the field (the job) give students the chance to apply the skills and knowledge gained in theory/lab with other students and receive guidance from the instructor. Current enrollment as a sophomore in an Applied Technology program is required.

**ATEC 295 Cooperative Workbased Learning IV**  
1-3 Credits  
Offered Spring Semester

This course is designed to provide students with career-related experience and an opportunity to reflect on those experiences. The experiences in the field (the job) give students the chance to apply the skills and knowledge gained in theory/lab with other students and receive guidance from the instructor. Current enrollment as a sophomore in an Applied Technology program is required.

**ART 100 (Formerly Art 103)**  
Survey of Art  
3 Credits  
Offered Each Semester

ART 100 is designed to create a greater aesthetic understanding and appreciation of the various visual arts. Emphasis will be on painting, sculpture, architecture, and related art forms. When appropriate, gallery tours, films, and visiting artists will be included. A basic understanding of visual art coordinates with the principles emphasized in studio art classes. This course is appropriate for both non-art students and art majors who wish to view art with greater awareness and respond to and evaluate art, with approaches that are both objective and critically subjective. It satisfies an arts and humanities course requirement for A.A. and A.S. degrees. Prior completion of other courses is not required.

**ART 101 (Formerly Survey of Art I)**  
History of Western Art  
1 Credit  
Offered Fall Semester

This course offers an historical overview of the development of Western visual art in its principal phases from prehistoric societies to the 12th century AD. The arts of these cultures will be examined through the analysis of major monuments of architecture, sculpture, and painting with specific attention to the communicative function of the work of art in relation to its society.
ART 101 expands an understanding in the visual arts and the societies that produced them, and enables the student to make connections to contemporary society and culture and increases individual aesthetic concepts. It satisfies an arts and humanities course requirement for the A.A. and A.S. degrees.

ART 102  History of Western Art II
(Formerly Survey of Art II)
3 Credits  Offered Spring Semester

Survey of Art II offers an historical overview of the development of Western painting, sculpture, and architecture from the Renaissance to the present with emphasis on the struggle to find a universal and unified visual language for a world of changing values, new institutions, and unprecedented diversity.

The course creates a higher understanding of the parallels and interconnections of visual art and the societies that made it. It enables students to thoughtfully view creative expression in its communicative function as seen in relation to contemporary society and culture. Satisfies an arts and humanities course requirement for A.A. and A.S. degrees.

ART 111  Drawing I
2 Credits  Offered Each Semester

Drawing I offers beginning experiences in the concepts of composition, line, value, form, perspective and texture, introduced through use of still life, nature, and the model. The media used include charcoal, conte, pencil, and dry pastels.

This course is also fundamental for the commercial art program and for transfer programs in fine arts and architecture. The concepts covered in this course will help students develop a visual vocabulary as well as a heightened ability to "see" and respond creatively. Prior completion of other courses is not required.

ART 112  Drawing II
2 Credits  Offered Spring Semester

ART 112 is a continuation of ART 111, with an emphasis on personal artistic expression and imagery. In this course students will be exposed to a variety of drawing mediums and approaches to the picture plane. Traditional as well as contemporary trends in drawing will be explored.

The course is fundamental for the Commercial Art program, for transfer programs in fine arts and architecture, and for personal enjoyment. Prior completion of ART 111 is required.

ART 121  Design and the Creative Process I
3 Credits  Offered Fall Semester

This course offers instruction in the design process with consideration of abstract/concrete and intangible/tangible elements. These design elements are explored through various media in two-dimensional problems.

ART 121 helps students channel conceptual thinking and to organize and master the skills of the basic elements of art. The course is necessary for the artist/designer in all fields. It is a required course in the Commercial Art program and for some transfer programs. Prior completion of other courses is not required.

ART 122  Design and the Creative Process II
3 Credits  Offered Spring Semester

ART 122 offers instruction in the use of basic art fundamentals as applied to three-dimensional art work and the creative concepts resulting from these properties.

This course helps students to channel creative thinking and organize and master the skills of the basic elements of art as they relate to three-dimensional expression. Design II is important for artists and designers in all fields and is a required course in the Commercial Art program and for some transfer programs. Prior completion of other courses, including ART 121 is not required.

ART 217  Life Drawing I
3 Credits  Offered Fall Semester

Life Drawing I offers an exploration of various media to develop an artistic understanding of the human form. Emphasis will include both anatomical analysis and an interpretive drawing of the unposed and posed model.

ART 217 helps to develop observational techniques that are important for careers in applied art and fine arts. This course is a required course in the Commercial Art program. Prior completion of ART 111 and 112 or permission of the instructor is necessary.

ART 218  Life Drawing II
3 Credits  Offered Spring Semester

Life Drawing II offers an exploration of the artistic expression of the draped and undraped human form. Included will be drawing in various media from the model with an emphasis on personal interpretation.

ART 218 offers a basis for development in any of the visual arts. The course equally accommodates the gestual artist and the technical illustrator. It is a required course in the Commercial Art program. Prior completion of ART 217 or permission of the instructor is required.

ART 231  Beginning Painting I
3 Credits  Offered Fall Semester

Beginning Painting I develops competence with oil paint medium through specific assignments designed to emphasize composition and the fundamentals of painting and color. Particular attention is given to visual thinking, exploration, exposure to materials, and technical procedures. The course is structured around individual instruction and group critiques.

ART 231 helps develop ideas and competencies with a creative medium. It promotes the articulation of feelings and objectives through a descriptive visual vocabulary. This course is a required course in the Commercial Art program. Class supplies are to be purchased by the student. Prior completion of other courses is not necessary.
ART 212  
Beginning Painting II  
14 credits  
Offered Spring Semester

ART 212 offers additional practice in the knowledge and understanding of the paint medium with special emphasis on personal development. The course is structured around personal instruction and group critiques.

Beginning Painting II encourages divergent thinking and different approaches with the medium through the presentation of abstract concepts. It is a required course in the Commercial Art program. Class supplies are to be purchased by the student. Prior completion of other courses including ART 210 is not necessary.

ART 213  
Sculpture I  
14 credits  
Offered Fall Semester

Sculpture I provides an introduction to ideas and materials designed to facilitate the student's response to three-dimensional form. Emphasis will be on concepts of modeling, carving, and constructing.

This course promotes confidence for the three-dimensional artist throughout the fundamentals. It is a recommended elective for the Commercial Art program. Prior completion of other courses is not required.

ART 242  
Sculpture II  
3 Credits  
Offered Spring Semester

ART 242 is a continuation of Sculpture I. The course explores problems of greater complexity through both technical and personal involvement.

The course further develops the necessary skills for three-dimensional work. It is a recommended elective for the Commercial Art program. Prior completion of ART 241 is required.

ART 243  
Intermediate Painting I  
3 Credits  
Offered Fall Semester

This course is structured to meet students' needs and interests with an emphasis on creative expression and exploration beyond the visual image. The course includes individual instruction and group critiques.

Intermediate Painting I emphasizes an appreciation for the complexities of the medium and the range of possibilities associated with it. Emphasis is on the technical and personal development of the student. The course includes advanced instruction and group critiques.

Intermediate Painting I is a required course for the Commercial Art program. Class supplies are to be purchased by the student. Prior completion of ART 210 is required.

ART 244  
Intermediate Painting II  
3 Credits  
Offered Spring Semester

Intermediate Painting II is a continuation of ART 243. The course focuses on developing students' greater understanding of personal intent, continuing creative expression, and exploration beyond the visual image. The course offers individual instruction and group critiques.

ART 251  
Printmaking  
3 Credits  
Offered Fall Semester

Printmaking explores the relief printing processes of wood and linoleum blocks, silk-screen methods, and handmade paper processes. Emphasis is on methods, techniques, exploration of materials, and individual development. An additional focus will be on the historic influence and importance of each media and its relationship to other artistic expressions.

ART 251 is a recommended elective for the Commercial Art program. Prior completion of other courses is not required.

ART 252  
Printmaking II  
3 Credits  
Offered Spring Semester

Printmaking II provides an introduction to engraving, calligraphic, and mixed media processes. Emphasis is on exploration of materials, methods, and creative expression. Additional focus will be on the historic influence and importance of each media and its relationship to other artistic expressions.

ART 252 is a recommended elective for the Commercial Art program. Prior completion of other courses is not required.

ART 253  
Letterform Design  
2 Credits  
Offered Fall Semester

ART 253 offers instruction in basic type styles and design. The course includes characteristics of letters in relationship to technical, free style, and creative letter rendering as they apply within the commercial art and illustration fields.

Letterform Design provides a fundamental knowledge of hand lettering. This is a required course in the Commercial Art program. Prior completion of other courses is not required.

ART 261  
Ceramics I  
3 Credits  
Offered Both Semesters

Ceramics I introduces the student to wheel-thrown and hand-built clay forming techniques, ceramic design concepts, and glaze experimentation. Emphasis is on the development of fundamental skills and understanding the creative potential of clay.

This course helps develop sensitivity of design and aesthetics for the clay objects we use daily. The course enhances an appreciation for the creative process and establishes the student as a designer/craftsperson. It is a recommended elective for the Commercial Art program and a fundamental course for transfer art majors or minors. Prior completion of other courses is not required.

ART 262  
Ceramics II  
3 Credits  
Offered Both Semesters

ART 262 is a continuation of Ceramics I. Structured to develop the creative potential of the student using the
medium of clay as a vehicle of communication, the course focuses on continued development of fundamental skills and expressive use of materials. Additional emphasis is placed on establishing individual design criteria and expanding awareness of aesthetic qualities of ceramics as art forms or as utilitarian vessels.

This is a recommended elective for the Commercial Art program. Prior completion of ART 261 is required. The course may be repeated for a total of 12 credits.

ART 281 Watercolor I
3 Credits Offered Fall Semester

Watercolor I introduces the student to a water-based medium that includes the application of visual and tactile elements and the functions of design. Emphasis will be on visual thinking, exploration, exposure to materials, and technical approaches. Individual instruction and group critiques are utilized.

ART 281 helps to develop an appreciation for complexities and the potential for creative expression. Class supplies are to be purchased by the student. Prior completion of other courses is not required.

ART 282 Watercolor II
3 Credits Offered Spring Semester

ART 282 offers additional instruction in watercolor designed to increase student awareness, knowledge, and understanding of the medium's potential. This course introduces mixed media for the purpose of combining with the watercolor medium. Individual approaches are encouraged, and personal development is emphasized.

This course helps to develop different approaches and divergent thinking through the presentation of abstract concepts. Class supplies are to be purchased by the student. Prior completion of other courses is not required.

ART 283 Portfolio I
2 Credits Offered Fall Semester

Portfolio I is an intensive course designed to assist committed, self-motivated students in preparing a portfolio that effectively demonstrates their abilities. Portfolios are assessed for their strengths and weaknesses, and appropriate presentation methods are recommended.

This course helps art students with the important development of an individualized and professionally competitive portfolio. This is a required course in the Commercial Art program. Restriction to sophomores.

ART 284 Portfolio II
2 Credits Offered Spring Semester

ART 284 is a continuation of ART 283. This is a required course in the Commercial Art program. Restriction to sophomores.

---

Art-Commercial

NOTE: Course enrollment requires prior acceptance into the Commercial Art program.

ARTC 131 Computer Graphics I
3 Credits Offered Fall Semester

ARTC 131 offers an exploration of the basics of Macintosh computers, input devices, hardware, software and output peripherals will be covered. In addition, two applications, PageMaker and FreeHand, will be studied with a minimum of three design projects being produced in each application. This is a required course in the Commercial Art program.

ARTC 132 Computer Graphics II
3 Credits Offered Spring Semester

ARTC 132 offers an exploration of the basics of Macintosh computers, input devices, hardware, software and output peripherals will be covered. In addition, two applications, Illustrator and Photoshop, will be studied with a minimum of three design projects being produced in each application. This is a required course in the Commercial Art program.

ARTC 210 Illustration I
2 Credits Offered Fall Semester

ARTC 210 offers an introduction to illustration for the commercial artist with emphasis on developing an ability to rapidly visualize and illustrate objects, environment and people. Skill instruction will include using 2:1 point perspective, creating objects out of simple forms, and using shading, shadows, and textures. This is a required course in the Commercial Art program. Prior completion of other courses is not necessary.

ARTC 211 Illustration II
2 Credits Offered Spring Semester

This course is a continuation of ARTC 210 emphasizing the skills necessary to creatively solve visual problems and meet deadlines. Included will be the newspaper illustration, technical illustration, literary illustration, and statistical illustration. This is a required course in the Commercial Art program. Prior completion of ARTC 210 is necessary.

ARTC 212 Illustration III
2 Credits Offered Fall Semester

ARTC 212 offers instruction in basic and advanced techniques through simple two-dimensional illustrations. The course emphasizes the creation of strong and effective visual concepts for illustrations needed in various publications.

This course provides important skills for potential illustrators, artists, and designers. It is a required course in the Commercial Art program. Prior completion of ARTC 210 and ARTC 211 or permission of the instructor is necessary.
ARTC 221  
Graphic Design I  
3 Credits  
Offered Fall Semester

This course offers instruction in the principles of graphic design, with emphasis on typography, photography and design used in publications to develop concepts with layout and comprehensive. Students are introduced to computer graphics and work on assigned projects. This is a required course in the Commercial Art program. Prior completion of other courses is not necessary.

ARTC 222  
Graphic Design II  
3 Credits  
Offered Spring Semester

This course is a continuation of ARTC 221. It is designed to give the student more hands-on experience while using some of the tools and techniques described in the first course. The student will learn to incorporate research, illustrations, and graphics necessary for completing the "mechanical" requirements for reproduction. Continued emphasis is placed on computer applications and assigned projects.

This course is helpful in building visual literacy, expanding on optical and technical skills, and improving creative problem solving. It is a required course in the Commercial Art program. Prior completion of ARTC 221 at the discretion of the instructor is required.

ARTC 223  
Graphic Design III  
4 Credits  
Offered Fall Semester

Graphic Design III offers instruction in the use of commercial design and typography, but the graphic designer students gain hands-on experience with a variety of computer software, including a digital layout program. This course introduces the student to various computer and software applications (vector and raster programs, page layout programs, and other print production tools). Students are assigned illustrations and other print production projects.

ARTC 291  
Pre Press and Typography  
3 Credits  
Offered Spring Semester

ARTC 291 is a course designed to teach the production skills needed by the commercial artist. Various printing processes, including paper and offset equipment will be addressed. Emphasis will be placed on the design and typography used in the printing process. A required course in the Commercial Art Program. Prior completion of ARTC 221 and 222 is required.

ARTC 293  
Capstone I  
3 Credits  
Offered Fall Semester

ARTC 293 offers the commercial art student the opportunity to complete a working portfolio and learn the business strategies necessary to compete in the world of graphic design. This is a required course in the commercial art program. It is restricted to sophomores. Prior completion of ARTC 111, 112, ART 121, 122, ARTC 221, 222, 211, and 222 is required.

ARTC 284  
Capstone II  
3 Credits  
Offered Spring Semester

ARTC 284 is a continuation of Capstone I and is a required course in the commercial art program. This course culminates with a professional show and forces on business and personal marketing skills as well as the generation of marketing. Prior completion of ARTC 111, 112, ART 121, 122, ARTC 211, 212, 221, 222, 283 is required.

Auto Body Technology  

Note: Course enrollment requires prior acceptance into the Auto Body Technology Program.

ABRR 151  
Auto Body Technology Theory I  
6 Credits  
Offered Fall Semester

Auto Body Technology Theory I offers classroom instruction in all phases of auto body repair, including base coatings and clear coat systems, cutting, heating and gas welding, basic body panel repair, fiberglass and plastic parts repair. Health and safety rules are also taught.

ABRR 151L  
Auto Body Technology Lab I  
8 Credits  
Offered Fall Semester

This lab features hands-on shop experience in all phases of auto body repair, including base coatings and clear coat systems, cutting, heating and gas welding, basic body panel repair, fiberglass and plastic parts repair. Mock-up vehicles as well as actual customer work will be experienced. Health and safety practices are promoted.

ABRR 152  
Auto Body Technology Theory II  
3 Credits  
Offered Spring Semester

Auto Body Technology Theory II presents classroom instruction in automobile construction and panel identification, estimating, and fastener identification, body panel replacement, re adherence, frame alignment, steering and suspension components, glass replacement, cooling and air conditioning components, and electrical systems.

ABRR 152L  
Auto Body Technology Lab II  
10 Credits  
Offered Spring Semester

This course offers hands-on shop experience in repair, estimating, replacement of hardware and body panels, alignment of unit-body vehicles and frames, replacement and steering and suspension parts, replacement of auto glass, restoring cooling and air conditioning systems, and diagnosing and repairing electrical problems. Health and safety practices with quality work are promoted.
ABRR 153  Auto Body Technology Theory III  
1 Credit  
Offered Summer Session  

ABRR 153 presents instruction in wreck rebuilding and meeting production shop schedules.

ABRR 153L  Auto Body Technology Lab III  
2 Credits  
Offered Summer Session  

This course provides hands-on shop experience in wreck rebuilding and meeting production shop time schedules. Quality work is promoted.

**Auto/Diesel Technology**

NOTE: Course enrollment requires prior acceptance into either the Automotive Technology program or the Diesel Technology program.

ATDT 105  Orientation/Safety/General Shop Practices  
1 Credit  
Offered Fall Semester  

This course will introduce students to on-campus services including the library and learning center. It will give them instruction about the industry, including wages, job opportunities and the nature of the work. This course will also give instruction in safety equipment and procedures. Instruction will be given in a variety of general shop practices such as drilling and tapping holes, drilling out broken bolts, Helix-coils, double flares, soldering and the care of equipment and floors.

ATDT 280  Heating, Ventilation, Air Conditioning  
3 Credits  
Offered Spring Semester  

Students will receive instruction in heating and air conditioning theory, as well as the use of equipment related to the evacuating, recycling, and recharging of air conditioning systems. The course will cover both R-12 and R-134a refrigerant handling. Prior successful completion of the first year of the Automotive A.A.S. degree program is required.

**Automotive Technician**

Note: Course enrollment requires prior acceptance into the Automotive Technician Program.

AUTO 115L  Auto Lab  
5.5 Credits  
Offered Fall Semester  

This course will give the students hands-on exposure in a shop setting to those subjects covered in ATDT 120 and 130 as well as AUTO 100, 110, 120 theory classes. The instruction will utilize a variety of mock-ups, training aids, components and live work. The student will be able to explain and demonstrate proper safety precautions when lifting and supporting a vehicle, or using tools or equipment, or handling asbestos-containing materials.

AUTO 116L  Auto Lab  
5.5 Credits  
Offered Spring Semester  

This course will give the students hands-on exposure in a shop setting to those subjects covered in ATDT 160 and AUTO 125 theory classes. The instruction will utilize a variety of mock-ups, training aids, components, and live work. The student will be able to explain and demonstrate proper safety precautions when lifting and supporting a vehicle, or using tools or equipment, or handling asbestos-containing materials.

AUTO 117L  Auto Lab  
2 Credits  
Offered Summer Session  

This course will give the student additional exposure to lab experiences related to the area of special interest selected by the student in AUTO 125. It may consist of work with mock-ups, components, live work, or in some cases School to Work arrangements with local shops. Prior successful completion of the first year of the Automotive A.A.S. program is required or instructor consent.

AUTO 121  Powertrain/Brakes  
3.5 Credits  
Offered Fall Semester  

This course will teach students the principles of hydraulic brakes and friction, as well as the operation and construction of drum and disc brake systems. Students will also learn the operation, construction and repair of clutch systems, drivelines and universal joints.

AUTO 122  Differential  
5 Credit  
Offered Fall Semester  

This course will teach students the principles of differential operation, construction and overhaul procedures, including how to read patterns and adjust bearing preload.

AUTO 126  Steering/Suspension  
2 Credits  
Offered Spring Semester  

This course will teach the various steering and suspension systems used on today's cars and light trucks. This course will cover steering and suspension systems, and how they relate to each other. In depth instruction will be given in four-wheel alignment principles using the Hunter 3312 Computerized Alignment Machine.

AUTO 130  Gas Engine Fundamentals  
1 Credit  
Offered Fall Semester  

This course will teach the student how to identify, repair or replace components as necessary on gas engine engines. The four-stroke cycle and accompanying valve action will be taught, as well as the construction, operation, and servicing of cooling and lubrication systems. The student will learn proper engine disassembly, reassembly, machining, and engine assembly procedures.

AUTO 141  Electrical System Fundamentals  
5 Credits  
Offered Spring Semester  

This course will cover basic electrical, alternator and battery systems, types of circuits and components, as well as battery, starter and charging systems. Students will also learn about wiring schematics and diagrams, along with the 25 most common car wiring systems.
COURSE DESCRIPTIONS

AUTO 160  Tune-Up Fundamentals
1.5 Credits
Offered Spring Semester

This course will cover basic ignition systems, basic combustion theory, and general tune-up procedures such as setting timing, adjusting mixture screws and setting idle speed.

AUTO 195  Specialization Study
1 Credit
Offered Summer Session

Students will select an area of special interest in which they wish to pursue additional study. The instructor will assist the student by providing instruction through one or more of the following classroom instruction, videos, slides, library research projects, or short field trips. Prior successful completion of the first year of the Automotive A.A.S. degree program is required, or instructor permission.

AUTO 210  Advanced Electrical
1.5 Credits
Offered Fall Semester

Students will be exposed to a variety of accessory electrical systems such as windshield wipers, power windows, door locks, seats, and cruise control systems as well as more in-depth instruction into troubleshooting procedures and theories.

AUTO 215A  Advanced Auto Lab
6.5 Credits
Offered Fall Semester

Students will perform troubleshooting on computerized engine controls on light vehicles that have been "bugged" by the instructor. Students will use various scanners and diagnostic test equipment typically used in the industry to diagnose the "bugs." Prior successful completion of the first year of the Automotive A.A.S. degree program is required, or instructor permission.

AUTO 216L  Advanced Auto Lab
6.5 Credits
Offered Spring Semester

This course will give students hands-on exposure, in a shop setting, to those subjects covered in AUTO 260, 270 and 280 theory classes. The instruction will utilize a variety of mock-up, training aids, components and live work. Prior successful completion of the first year of the Automotive A.A.S. degree program is required or instructor permission.

AUTO 221  Advanced Tune-Up
4 Credits
Offered Fall Semester

This course will teach the various ignition systems used on today's cars, as well as the use of electronic engine analyzers, scope patterns. Students will learn about carbon meter theory, overhaul and adjustments. Instructors will include emission control systems and related regulations, as well as the use of the four gas emission analyzer. Students will learn about "driveability" and how each of the systems must work together to produce it. Prior successful completion of the first year of the Automotive A.A.S. degree program is required.

AUTO 250  Computer Controls
1.5 Credits
Offered Fall Semester

The theory and systems of automotive computer controls will be covered including the various sensors and output devices. The use of scanners, computerized engine analyzers, and a multitude of special tools will also be taught. Prior successful completion of the first year of the Automotive A.A.S. degree program is required.

AUTO 260  Computer Controlled Systems
3 Credits
Offered Spring Semester

Students will receive instruction on various systems on the automobile that are computer controlled such as fuel injection and anti-lock brakes, as well as some introduction to digital dash, keyless entry and active suspension systems. Prior successful completion of the first year of the Automotive A.A.S. degree program is required.

AUTO 270  Trans/Transaxle
3 Credits
Offered Spring Semester

This course will cover the general theory of manual and automatic transmission and transaxle operation. Students will learn appropriate testing, disassembly and repair procedures. Prior successful completion of the first year of the Automotive A.A.S. degree program is required.

AUTO 280  Heating, Ventilation, Air Conditioning
1.5 Credits
Offered Fall Semester

Students will receive instruction in heating and air conditioning theory, as well as the use of equipment related to the evacuating, recycling, and recharging of air conditioning systems. The course will cover both R-12 and R-134a refrigerant handling. Prior successful completion of the first year of the Automotive A.A.S. degree program is required.

Biology

BIOL 100  Fundamentals of Biology
4 Credits
Offered Each Semester

This introductory course provides a general overview of evolution, the five kingdoms, ecology, DNA, cell structure, genetics, and human systems.

BIOL 100 is designed to give non-biology majors a better understanding and appreciation of the living world. It is not intended as a preparation for BIOL 204 OR BIOL 175, and upon completion of BIOL 100, BIOL 175 and BIOL 204 cannot be taken for credit. This course may not be accepted as fulfilling biology course requirements by some medical programs. The course satisfies a laboratory science course requirement for the A.S. and A.A. degrees. Prior completion of other courses is not required. This course includes three hours of lecture and one two-hour lab (BIOL 100L) each week.
BIOL 101 Forestry Orientation
(Formerly FORS 101)
1 Credit Offered Fall Semester

BIOL 101 is an introduction to forestry and related wildlife management professions. Students will explore career opportunities in natural resource management. It includes one hour of lecture each week. Prior completion of other courses is not required.

BIOL 111 Living with the Environment
3 Credits Offered Fall Semester

This course is a study of the environment that includes population dynamics, ecological principles, uses and misuse of resources, worldwide environmental problems, and man in relation to land, air, and water resources.

Living with the Environment helps enhance an understanding of current environmental issues and the application of environmental principles to everyday decisions. Prior completion of other courses is not required. This course includes three hours of lecture each week; it does not have a lab component. It does not fulfill a lab science requirement for an associate degree.

BIOL 175 Human Biology
4 Credits Offered Fall Semester

This introductory course provides a general overview of the structure, function, healthy maintenance and common diseases of the human body. BIOL 175 is designed to give the non-biology major a better understanding and appreciation of the human body. It is not intended to be a preparation or alternative for BIOL 204 or BIOL 227 and 228, Human Anatomy and Physiology. Upon completion of BIOL 175, BIOL 100 and BIOL 204 cannot be taken for credit. Students must petition the Division of Natural Sciences for permission to take BIOL 227 and 228 upon completion of BIOL 175. Credits may be restricted depending upon the student's educational objectives. This course may not be accepted as fulfilling the course requirements for some medical programs. Students should get clearance from their prospective transfer institution prior to taking the class. This course satisfies laboratory science course requirements for the A.S., A.A. and A.A.S. degrees. Prior completion of other courses is not required. BIOL 175 includes three hours of lecture and one three-hour lab (BIOL 175L) each week.

BIOL 202 General Zoology
(Formerly ZOOL 202)
4 Credits Offered Spring Semester

This course presents a survey of the animal kingdom from invertebrates through the vertebrates. It includes classification, structure, physiology, histology, reproduction, embryology, and life histories of representative forms of the major animal groups and their relationship, application, and economic importance to man. This course includes three hours of lecture and two two-hour labs (BIOL 202L) each week. This course is required for students in medicine, dentistry, optometry, pharmacy, veterinary medicine, certain agriculture options, medical technicians, all biology majors, and interested general studies students. Prior completion of BIOL 101 or BIOL 204 is preferred, but not required.

BIOL 203 General Botany
(Formerly HINYY 203)
4 Credits Offered Spring Semester

BIOL 203 is an introduction to the plant kingdom starting with the bluegreen algae or cyanobacteria and progressing in an evolutionary fashion up through the gymnosperms and angiosperms. Where possible, each group is related to the higher plants.

The course is designed for individuals pursuing a degree in biology, botany, agriculture, forestry, and for others who are interested in the plant kingdom. It satisfies a laboratory science course requirement for the A.S. degree. Prior completion of BIOL 101 or 204 is preferred but not required. This course includes three hours of lecture and two two-hour labs (BIOL 203L) each week.

BIOL 204 Introduction to Life Sciences
(Formerly BIOL 204)
4 Credits Offered Each Semester

BIOL 204 is an introduction to the fundamental principles which govern living organisms, including molecular biology, cell biology, immunology, reproduction, genetics, and evolution.

The course provides an important foundation for more advanced coursework in the life sciences and related programs. The course cannot be taken for credit after completion of BIOL 100. It satisfies a laboratory science course requirement for the A.S. and A.A. degrees. Prior completion of one year of high school biology and chemistry is recommended. This course includes four hours of lecture and one three-hour laboratory (BIOL 204L) each week.

BIOL 205 General Soils
4 Credits Offered Spring Semester Alternate Years

This course is an introduction to the basic physical, chemical, and biological properties of soils and land resources. The emphasis is on the fundamental principles of soil processes and soil formation with examples drawn from numerous disciplines. This course is designed for a variety of majors such as agriculture, forestry, landscape architecture, wildlife and fisheries, agriculture business, biosystems engineering, and agricultural education. This course satisfies the laboratory science course requirement for the A.S. and A.A. degrees. Prior completion of CHEM 101 or CHEM 111 is required. This course includes three lecture hours and one three-hour laboratory (BIOL 205L) each week.

BIOL 207 Concepts in Human Nutrition
3 Credits Offered Each Semester

BIOL 207 offers instruction in basic nutrition concepts, current nutritional controversies, and in food selection for individual needs. Topics covered will include...
COURSE DESCRIPTIONS

BIOI 221  Forest Ecology (Same as BIOI 231) (formally BION 221)
3 Credits  Offered Spring Semester

Forest Ecology is an introduction to the relationships among living and non-living components in the environment, including an examination of the processes which influence the distribution of plant and animal communities.

This course exposes students to fundamental principles of ecology, covers energy input, nutrient and energy flow, and resource management. It fulfills a science requirement for the A.S. degree. This course is designed for forestry and biology majors with applications for pre-agriculture, zoology, environmental science, and botany disciplines. It includes three hours of lecture and one three-hour lab (BIOI 221L) each week. Prior completion of BIOI 204 or permission of instructor is required.

BIOI 222  Human Anatomy and Physiology I
4 Credits  Offered Fall Semester

Note: Students having completed BIOI 125 must petition the Division of Natural Sciences for permission to take BIOI 212 and 228 and credits may be restricted.

This course offers a homogenized approach to the study of the human body, from the level of the cell to organ systems, with special emphasis on the base balance and important physiological problems. Systems covered include skeletal, muscular, nervous, and respiratory. It is designed primarily for students enrolled in health-related fields. This course includes three hours of lecture and one three-hour lab (BIOI 222L) each week.

Human Anatomy and Physiology will give students a strong background in the fundamentals of the structure and function of the body. All aspects of life processes will be covered in a manner that should assist students wishing to take a science elective as well as those in the health-related fields. Prior completion of CHEM 101 is strongly recommended. This course fulfills a laboratory science requirement for the A.S. degree.

BIOI 228  Human Anatomy and Physiology II
(formerly BION 208)
4 Credits  Offered Spring Semester

Note: Students having completed BIOI 175 must petition the Division of Natural Sciences for permission to take BIOI 212 and 228 and credits may be restricted.

This course is a continuation of BIOI 227 and covers the cardiovascular, digestive, urinary, and reproductive systems; the sense organs, and metabolism. It is designed primarily for students enrolled in health-related fields. This course includes three hours of lecture and one three-hour lab (BIOI 228L) each week.

Human Anatomy and Physiology will give students a strong background in the fundamentals of the structure and function of the body. All aspects of life processes will be covered in a manner which should assist students wishing to take a science elective as well as those in the health-related areas. Prior completion of BIOI 227 or CHEM 101 and permission of the instructor is required. It fulfills a laboratory science requirement for the A.S. degree.

BIOI 231  General Ecology (Same as BIOI 221) 4 Credits  Offered Spring Semester

This introductory course shows the relationships between the living and non-living components of the environment. The course examines the processes which influence the distribution of plant and animal communities.

It provides an introduction to the fundamental principles of ecology in natural resource management. This course is designed for forestry and biology majors with applications for pre-agriculture, zoology, environmental science, and botany disciplines. Prior completion of BIOI 100 or 204, or permission of the instructor, is required. The course includes three hours of lecture and one three-hour lab (BIOI 231L) each week.

BIOI 241  Systematic Botany
(formerly BTN 241)
4 Credits  Offered Spring Semester

BIOI 241 offers instruction in plant identification focusing on local gymnosperms and angiosperms using a recognized botanical key. The course includes field trips and plant collection.

Systematic Botany is designed for individuals pursuing a degree in biology, botany, or forestry, and for those with an interest in the identification of local plants. This course includes two hours of lecture and two two-hour labs (BIOI 241L) each week. It satisfies a laboratory science course requirement for the A.S. degree. Prior completion of BIOI 100 or 204 may be beneficial but is not required.

BIOI 250  General Microbiology/Bacteriology
(formerly BACT 250)
4 Credits  Offered Each Semester

Introductory survey of microorganisms. Emphasis will be on bacteria as examples of all microorganisms, and as models for all living organisms in general regard to structure, physiology, and reproduction. This is a fairly rigorous lab course requiring attendance to cover various lab skills of media use, culturing, slide-staining, use of lab materials, and processes relating to microorganisms.

This course has applications to programs in life sciences, the medical health field, health sciences, agriculture, food industries, pharmaceutical industries, environmental
science, and laboratory research. BIOL 250 satisfies a laboratory science course requirement for the A.S. degree. However, completion of BIOL 100 or BIOL 204 and CHEM 101 is recommended. This course includes three hours of lecture and one three-hour lab (BIOL 250L) each week.

BIOL 251 Principles of Range Resources Management
2 Credits Offered Spring Semester Alternate Years

BIOL 251 studies the development of range use, range resource management, rangeland vegetation types, current management issues, and the relationship of grazing use with other land uses and values. It does not satisfy laboratory science requirements for the A.S. or A.A. degrees. Prior completion of BIOL 100 or BIOL 204 is required. The course includes two lecture hours a week.

BIOL 290 Principles of Wildlife Biology
2 Credits Offered Spring Semester 1999

This course introduces the principles of wildlife ecology, including such topics as basic ecological laws, wildlife biology, and management of wildlife populations. This course does not satisfy a laboratory science requirement for the A.S. or A.A. degrees. Prior completion of BIOL 100 or BIOL 204 is required. Prior completion of BIOL 202 or BIOL 203 is recommended. The course consists of two lecture hours each week.

BIOL 299 Independent Study
Credits arranged Offered Each Semester

BIOL 299 is individual study culminating in a project or product that will become property of the Division of Life Sciences. Individual study will be based on a mutual agreement between the student and instructor and must be outlined on a form available from the Registrar.

Individual study allows for an in-depth study of areas of biology that are of personal interest. Prior completion of 26 college credits with a 3.00 GPA is required, in addition to the approval of the instructor, the division chair, and the Associate Dean of Instruction. A maximum of three credits is allowed per semester and only six credits can apply toward graduation requirements. Independent study cannot be used to fulfill associate degree core requirements.

Business Administration

BUSA 100 Introduction to Computers
3 Credits Offered Each Semester

BUSA 100 is the study of computer systems and applications. It introduces students to computer hardware, and a hands-on exploration of application and system software for microcomputers, including word processing, spreadsheets, and several applications within the Windows environment. This course is appropriate for students from any discipline wishing to gain basic computer literacy with computers and several popular software packages.

This course is required for the Business Administration, Business Education, and Small Business Management degree programs. It meets the computer science requirement for the AA degree. It cannot count as an elective for the A.S. degree. Prior completion of other courses is not required.

BUSA 101 Introduction to Business
(formerly BUSA 121)
1 Credit Offered Each Semester

BUSA 101 is an introductory overview of the organization, functions, and activities of business in the contemporary society. Emphasis is placed on the terminology necessary for understanding business principles and practices. The course also includes an exploration of business environments, information management, marketing, management, information technology, and international marketing. Focus is on critical factors essential to understanding the interdependence between different facets of business operations.

This course is useful for those who are considering a career in business or who want an overview of what the study of business encompasses. This is a required course in the Administrative Assistant, Office Information Specialist, and Small Business Management programs. Students enrolled in the Small Business Management program should complete this course before enrolling in other marketing and management courses. Prior completion of other courses is not required.

BUSA 107 Survey of the Macintosh Computer
1 Credit Offered Each Semester

This course is an introductory level course using the Macintosh to learn the basics of the Macintosh operating system, utilizing disks using the mouse and keyboard. The class includes basic word processing using MS Office, an introduction to a basic drawing program using SuperPaint, and basic data base with Lotus and dBASE. Prior completion of other courses is not required. This course is required in the Office Information Specialist Program and is a prerequisite for all other Business and Office Technology programs.

BUSA 110 Small Business Accounting
3 Credits Offered Each Semester

BUSA 110 provides an introduction to accounting procedures for individual proprietorship businesses. Emphasis is on the accounting cycle, double entry accounting system, special journals, general journal and systems, and procedures for handling accounting problems associated with small businesses. Accounting for both service and merchandising businesses will be included in this course. Students will practice proper accounting procedures manually, using spreadsheet software, and using accounting software. This course is required for students in all Business and Office Technology programs and is a helpful foundation for
COURSE DESCRIPTIONS

want to upgrade business skills for improved employment. Prior completion of BUSA 111 or an equivalent course is pre-requisite to enrollment in this course.

**BUSA 117**
Introduction to DOS
1 Credit
Offered Each Semester

BUSA 117 provides an introduction to the major microcomputer operating system, MS-DOS on IBM compatible microcomputers. Terminology, file management, creating and using directories and subdirectories, batch files, screen development, creating and editing files, and managing hard disk systems. Hands-on computer use is minimal.

This is an important course for anyone who wants to learn how to use the disk operating system on IBM-type microcomputers. It is a non-computer elective course for all Business and Office Technology programs. Prior completion of other courses is not required.

**BUSA 118**
Introduction to Word Processing
1 Credit
Offered Each Semester

BUSA 118 provides an introduction to word processing fundamentals. A hands-on class with business-oriented examples. This course is designed to familiarize the student with IBM-compatible word processors which are used in Business and Office Technology programs. Prior completion of BUSA 118 is not required, although some keyboarding proficiency is assumed.

**BUSA 119**
Intermediate Word Processing
1 Credit
Offered Each Semester

BUSA 119 is an extension of BUSA 118. It provides additional word processing techniques, including cutting and pasting text, merging text and utilizing columns. The software package utilized will be identified in the class schedule.

This course does not fulfill the word processing requirement for the Business and Office Technology programs and counts as a non-computer elective for the Business and Office Technology programs only. Prior completion of BUSA 118 is required.

**BUSA 120**
Introduction to Desktop Publishing
1 Credit
Offered Each Semester

BUSA 120 provides an introduction to desktop publishing fundamentals with primary emphasis on PageMaker software for IBM compatible microcomputers. This course incorporates both theoretical and hands-on activities using business-oriented examples. The student learns layout design, creating page layout, using and interpreting word processing text, using various typefaces and fonts, and importing and creating artwork and graphic images.

This is a required course in the Office Information Specialist program and a microcomputer elective course in the other Business and Office Technology programs. Prior completion of BUSA 118 or BUSO 173 is required.

**BUSA 121**
Introduction to Spreadsheets
1 Credit
Offered Each Semester

BUSA 121 is an introduction to spreadsheet fundamentals. It includes basic spreadsheet construction and layout, commands, files, graphics, and printing, and involves hands-on computer use. The software package utilized will be identified in the Class Schedule. This course is required for the Business and Office Technology programs. Prior completion of other courses is not required; however, some computer knowledge and basic math skills are recommended.

**BUSA 122A**
Intermediate Spreadsheets
1 Credit
Offered Either Semester

BUSA 122A provides a continuation of spreadsheet software skills at the intermediate level using popular business software on IBM-compatible computers. A hands-on class with business-oriented examples, the course includes spreadsheet design, planning, documenting, and testing of spreadsheets, macros, database features, templates, and lookup. The software package utilized will be identified in the Class Schedule.

This is a valuable course for those who want to enhance their spreadsheet software knowledge. The course is required for the Office Information Specialist program and is a microcomputer elective for the other Business and Office Technology programs. Prior completion of BUSA 121 is required.

**BUSA 122B**
Advanced Spreadsheets
1 Credit
Offered Either Semester

BUSA 122B continues development of spreadsheet software skills at an advanced level using popular business software on IBM-compatible computers. A hands-on class with business-oriented examples, the course includes spreadsheet programming, creating and testing macros, using advanced functions and creating graphic applications. The software package utilized will be identified in the Class Schedule.

This is a valuable course for those who want to enhance their spreadsheet software knowledge. The course is required for the Office Information Specialist program and is a microcomputer elective for the other Business and Office Technology programs. Prior completion of BUSA 122A is required.

**BUSA 123**
Introduction to Database
1 Credit
Offered Each Semester

BUSA 123 provides an introduction to database fundamentals. It involves hands-on computer experience in database design and theory, file structure, sorting, editing, report generating at the query level of dBase, and printing.
records are included. The software package utilized will be identified in the Class Schedule.

This course provides skills in the computer management of data for any application. It is a required course for the Administrative Assistant program and is a microcomputer elective for the Business and Office Technology programs. Prior completion of other courses is not required; however, some computer knowledge is recommended.

BUSA 125  Introduction to Presentation Software  1 Credit  Offered Either Semester

This course provides an introduction to presentation software fundamentals on IBM compatible computers. Popular presentation software is used to create, store, retrieve, edit, and print presentation software files. Class members will create a presentation. The software package utilized will be identified in the Class Schedule.

This is a valuable course for those who want to learn how to use presentation software. The course is a microcomputer elective for the Business and Office Technology programs. Prior completion of other courses is not required.

BUSA 133  Introduction to Microsoft Windows  1 Credit  Offered Each Semester

This course provides an introduction to Microsoft Windows fundamentals on IBM compatible computers. The course includes utilizing and controlling windows, Help, Write, Paintbrush, sharing data between applications with Clipboard, printing using Print Manager, and working with the Control Panel. This course is useful for anyone who wants to learn how to use Microsoft Windows software. The software package utilized will be identified in the Class Schedule. This course is a microcomputer elective for the Business and Office Technology programs. Prior completion of other courses is not required; however, some keyboarding proficiency is assumed.

BUSA 135  Computer Applications for Technical Programs  1.5 Credits  Offered Either Semester

This course provides an introduction to DOS/Windows based computers and computer software. It involves exposure to commonly used packages including word processing, spreadsheets, databases, and internet search engines. Emphasis will be placed on one or two applications. Students will also learn computer technology and become familiar with basic computer operations. Examples of applications software directly related to the student program area is used or demonstrated where possible. Prior completion of other courses is not required.

BUSA 138  Accounting for Managers  3 Credits  Offered Each Semester

BUSA 138 is an introduction to accounting from a user's perspective. Students will explore accounting information's role in the decision-making process, and learn how to use various types of accounting information found in financial statements and annual reports. This course will emphasize what accounting information is, why it is important, and how it is used by economic decision makers.

This course is required in the Small Business Management and Hospitality programs. Understanding how accounting information can be used to make better business decisions can benefit all students, regardless of their major course of study or chosen career. Prior completion of other courses is not required. This course does not replace BUSA 201 or 202.

BUSA 185  Business Math  3 Credits  Offered Each Semester

BUSA 185 provides instruction in the basic operations necessary to solve business problems including the areas of decimals, fractions, percentages, interest, discount, markup, installment buying, stocks and bonds, insurance, and taxes. The focus is on solving business related problems using calculators and computers. The course is an introduction to basic business math concepts.

This course is required in the Business Education, Small Business Management, and all Business and Office Technology programs. Prerequisite for Business Math is completing the ASSET Test with a scaled score of 18 or higher on the numerical skills test or 20 or higher on the elementary algebra test or successful completion of Math 015 or higher. Concurrent enrollment in Math 025 is recommended.

BUSA 201  Principles of Accounting  3 Credits  Offered Each Semester

BUSA 201 is an introduction to contemporary financial accounting. It emphasizes basic terminology and concepts, the theoretical framework of double-entry accounting, and descriptions and calculations of the primary financial statements prepared by accountants.

This course is required in the Business Education and Business Administration programs. It fulfills the accounting course requirement for the Small Business Management and all Business and Office Technology programs. Prior completion of other courses is not required.

BUSA 202  Managerial Accounting  3 Credits  Offered Each Semester

BUSA 202 is a continuation of BUSA 201 with an emphasis on accounting theory and procedures relating to corporate accounting and accounting for managerial decision making, including analysis and interpretations of financial statements and introduction to cost behavior. This course is required in the Business Education and Business Administration programs. Prior completion of BUSA 201 is required.

BUSA 209  Computer Accounting  1 Credit  Offered Each Semester

BUSA 209 applies accounting theory and principles in practical situations involving hands-on computer use. This course serves as a business elective for the Small Business Management and Business Administration programs.
COURSE DESCRIPTIONS

BUS 211 Principles of Management
1 Credit
Offered Each Semester

BUS 211 provides an overview of theories and practices of management. Major topics include the principles and theories of management and the universal functions of management: including planning, organizing, directing, controlling, coordinating, and delegating. Emphasis is placed on the art of setting, leadership, skills, team performance, and productive and effective problem solving.

This course is intended as an overview of the operational skills and administrative activities of managers, and also helps in upgrading management skills. BUSA 211 is a required course in the Administrative Assistant and Small Business Management programs. Prior completion of other courses is not required.

BUS 221 Principles of Marketing
1 Credit
Offered Each Semester

This is an introductory course designed to provide an overview of marketing principles and practices. The course includes marketing research, strategic planning, marketing programs and environments, and marketing mix: factors relating to product, promotion, price, and distribution are also covered. This course promotes an awareness of the operational and administrative activities of marketing managers. It also helps in upgrading marketing skills. This is a required course for the Small Business Management program. Prior completion of other courses is not required.

BUS 250 Principles of Statistics
1 Credit
Offered Each Semester

BUS 250 provides an introduction to the techniques used to describe and analyze data. It emphasizes recognizing types of problems and their solutions, and provides an overview of averages, deviations, probability, sampling, hypothesis testing, analysis of variance, and regression analysis. This course is a required course in the Business Administration program. Prior completion of MAT 101 or 201 is required.

BUS 206 Legal Environment of Business
1 Credit
Offered Each Semester

BUS 206 provides an introduction to the areas of law that are relevant to various business transactions and laws, which directly address business personnel. This course is a required course in the Business Administration, Business Education, Small Business Management, Paralegal, Legal Secretary, and Office Administration majors and related programs. Prior completion of either a course is not required.

BUS 236 Human Resources Management (formerly MGMT 236 and BUSA 226)
1 Credit
Offered Each Semester

This is an intensive course in the management of people. Management styles and theories, along with management processes, are an important component of this course. Additional topics include HRM roles and duties, job analysis, job design, job description, skills inventory, employee recruitment and selection, performance appraisal, motivation, team building, compensation, HRM performance, and employee benefits.

BUS 236 helps to develop important personnel management skills. This is a required course in the Management Option in the Small Business Management program.

BUS 256 Problem Solving Through Team Dynamics (formerly MGMT 256)
1 Credit
Offered Each Semester

This course explores the creation of teams and their utilization to solve problems. Team dynamics and strategies, brainstorming, information gathering methods, interpersonal communication, interdependence, and synergy are examined.

This course is a required course in the Management Option in the Small Business Management program.

BUS 266 Small Business Management (formerly MGMT 266 and BUSA 252)
1 Credit
Offered Each Semester

BUS 266 is an intensive course that applies management and marketing concepts to planning, owning, and operating a small business. Topics covered include entrepreneurial opportunities, developing a business plan, marketing and management, financial management, and the social and legal environment of business. A major emphasis is on the business plan.

This course is a required course in the Management Option in the Small Business Management program. Prior completion of BUSA 101 or 201 and BUSA 221 is required.

BUS 280 Marketing Management Development (formerly MGMT 290)
2 Credits
Offered Each Semester

BUS 280 provides additional skill development for business students. Students develop the skills necessary to make efficient and productive decisions. Topics include retailing, marketing, analysis, and segmentation, inventory, buying, and selling, inventory planning and control, and price setting and adjustment. The focus is on retail and service enterprises. This course creates an awareness of the operational and administrative activities of a marketing manager and upgrades marketing skills. This course is a required course in the Marketing and Management Options in the Small Business Management program.
BMGT 290  Marketing/Management Internship
(Formerly MGMT 280)  3 Credits  Offered Each Semester

This course is an on-the-job application of principles and procedures learned in the Small Business Management program. Students are placed in business organizations and are expected to perform a variety of tasks and/or observe those which cannot be performed. BMGT 290 includes approximately 8-9 hours per week on-the-job.

This course is an elective course in the Small Business Management program. Students must have completed 42 credits in the Small Business Management program and possess a 2.8 grade point average for the Small Business Management program. Note that students must return a completed application form to the Division of Business and Professional Programs secretary by the end of mid-term week in the semester prior to enrolling in BMGT 280. Approval of a division screening committee is required.

Business-Marketing

BMKT 231  Principles of Retailing
(Formerly MKTG 231 and BUSA 150)  3 Credits  Offered Spring Semester 98 and Spring 00

BMKT 231 is an introductory course that provides an opportunity to explore the strategies and practices within retail and service industries. Students begin to develop the skills necessary to make efficient and productive decisions. Topics include retailing marketing analysis and segmentation, buying and selling, inventory planning and control, and price setting and adjustment. The focus is on evaluating the role of retail and service enterprises within a given economy through self-directed/teams building activities.

This course creates an awareness of the operational and administrative activities of a marketing manager; it also helps in upgrading marketing skills. This is a required course for the Marketing Option in the Small Business Management program.

BMKT 241  Fundamentals of Promotion
(Formerly MKTG 241 and BUSA 157) and Advertising  3 Credits  Offered Fall Semester 97 and Fall 99

This introductory course presents an overview of the basic principles and procedures in promoting a product, service, or idea. Principles covered include target marketing, positioning, buyer behavior, creative development, media planning and selection, and measurement of promotional effectiveness and related costs. Emphasis is placed on small business budgets.

Fundamentals of Promotion and Advertising is a required course for the Marketing Option in the Small Business Management program.

BMKT 261  Principles of Professional Selling
(Formerly MKTG 261)  3 Credits  Offered Fall Semester 98 and Fall 00

An introductory course in the fundamentals of selling and sales management. Course explores the evolution of selling techniques, learning selling skills, communication messages, and the buying decision process. Students will learn how to apply a wide range of selling skills and how to prepare a sales demonstration. Discussion on managing a sales force is included.

Business and Office Technology

BUSO 101A  Basic Keyboarding
1 Credit  Offered Each Semester

BUSO 101A provides introductory development of basic keyboarding skills. Focus includes the standard alphabet, keyboarding through numbers and symbols. Keyboarding Emphasis is placed on developing touch control of the keyboard using proper keyboarding techniques and building basic speed and accuracy. This is a required course in the Business and Office Technology, Law Enforcement and Drafting programs. This is a suggested course for those who plan to enroll in microcomputer courses such as word processing, spreadsheets, database, etc. Prior completion of other courses is not required. (This is an eight-week course)

BUSO 101B  Keyboarding Speed Development
1 Credit  Offered Each Semester

BUSO 101B is a continuation of BUSO 101A. Emphasis is placed on improving keystroking efficiency and on reinforcing and building keyboarding speed and accuracy. This is a required course in the Business and Office Technology programs. Prior completion or successful challenge of BUSO 101A is required. (This is an eight-week course)

BUSO 109  Medical Terminology
3 Credits  Offered Each Semester

This course is an introduction to terminology used in the medical field with an emphasis in anatomy, diagnostic and surgical procedures, system disorders, and reports. This is a required course in the Health Information Management, Medical Secretary, Mental Health Technology/Human Services, Pharmacy Technology and Physical Therapist Assistant programs and is helpful for any medical paraprofessional or Legal Secretary.

BUSO 112  Speedwriting Theory and Dictation
3 Credits  Offered Fall Semester

BUSO 112 is an introductory course in speedwriting. Emphasis is placed on learning the correct techniques and theory while developing speed in taking and transcribing dictation. This course is required for all students in the Office Information Specialist, Administrative Assistant, and Legal Secretarial programs. It is a valuable aid for students who want to take notes more efficiently. Prior
COURSE DESCRIPTIONS

BUSO 111 Speedwriting Dictation and Transcription
4 Credits Offered Spring Semester
This course is a continuation of BUSO 112 with emphasis on developing skills in taking and transcribing dictation. It involves, study, skill building practice for speed and accuracy in preparing written material. BUSO 111 is required for all students in the Administrative Assistant and related programs. Prior completion of BUSO 111 or one year of high school speedwriting is required.

BUSO 115 Records Systems Management
4 Credits Offered Each Semester
This course offers instruction in various systems of record management. General areas covered include principles of record retention, classification, retrieval, and disposal. Topics also include organization and management of shareable cards, microfilm facilities, personnel and retention programs, and safety and security of information. Techniques of micrographics, optical disk, and bar coding are included. Use of manual, mechanical, and automated means of storing and retrieving information are covered. This course is required for the Business and Office Technology programs. Prior completion of BUSO 101A and either completion or concurrent enrollment in BUSO 101B is required.

BUSO 157 Medical Coding
4 Credits Offered Each Semester
This course is designed to identify diagnoses and procedures by code. The student will also learn to transform written descriptions of diseases, injuries, and procedures into numerical designations using the Current Procedural Terminology (CPT) and the International Classification of Diseases, Clinical Modification, and ICD-9-CM coding books. This is a required course in the Medical Secretary program. Prior completion of BUSO 101A is required.

BUSO 171 Word Processing
Formerly BUSO 273A
3 Credits Offered Each Semester
This course provides an introduction to word processing fundamentals using a word processor. It includes instruction in creating, storing, retrieving, editing, proofreading, and printing documents. It utilizes word processing features such as spell check, grammar check, and formatting features. Emphasis is placed on formatting letters, memos, tables, reports, and other business documents. The software package utilized will be identified in the Class Schedule. This is a required course in the Business and Office Technology programs. Prior completion of BUSO 101A is required.

BUSO 174 Word Processing Applications
Formerly BUSO 274A
3 Credits Offered Each Semester
BUSO 174 is a continuation of BUSO 173. It emphasizes advanced word processing and beginning desktop publishing skills. The software package utilized will be identified in the Class Schedule. This is a required course in the Business and Office Technology programs. Prior completion of BUSO 173 is required.

BUSO 175 Grammar Skills and Machine Transcription
1 Credit Offered Each Semester
BUSO 175 reviews and develops language skills by emphasizing the study of grammar usage, sentence structure, spelling, punctuation, and proofreading of business communications. Students prepare business correspondence by listening to recorded dictation and transcribe the dictation using word processing software. Development of good listening skills is stressed. This is a required course in the Business and Office Technology programs. Prior completion of BUSO 173 is required.

BUSO 186 Office Assistant Internship
2 Credits Offered Each Semester
Office Assistant Internship provides supervised training in office skills through on-the-job experience. This course allows a practical application of office skills learned in the Office Assistant program course work. It involves approximately six hours per week of in-office work. It is a required course in the Office Assistant program and is graded on a satisfactory/unsatisfactory basis. Prerequisites: Permission of the instructor and prior completion of BUSO 110 or 201, BUSO 115, 171 and 175 and ENGL 099 or 101 and prior completion or concurrent enrollment in BUSA 185, BUSO 174 and 295 and ENGL 272 are required.

BUSO 205 Legal Terminology/Transcription I
3 Credits Offered Fall Semester
This course provides an introduction to the pronunciation, spelling, and usage of legal terminology. It includes the transcription of recorded dictation using word processing software. Dictation tapes reinforce the knowledge of legal terminology and procedures. BUSO 205 is a required course in the Legal Secretary and Paralegal programs. Prior completion of BUSO 173 and 175 is required.

BUSO 206 Legal Terminology/Transcription II
1 Credit Offered Spring Semester
BUSO 206 is a continuation of BUSO 205. Emphasis is placed on usage of legal terminology in legal documents, formatting legal documents, and transcribing documents from recorded dictation. This course reinforces knowledge of legal procedures. It is a required course for the Legal Secretary and Paralegal programs. Prior completion of BUSO 205 is required.

BUSO 209 Medical Transcription
2 Credits Offered Fall Semester
This course provides an introduction to transcribing taped dictation, covers basic reports used in the medical field, and reinforces knowledge of medical terminology and procedures. It is required for students in the Medical
Secretarial program. Prior completion of BUSO 109, 173 and 175 is required.

BUSO 210  Advanced Medical Transcription  
2 Credits  Offered Either Semester

The Advanced Medical Transcription course emphasizes realistic dictation situations used in the medical community. It is required for students in the Medical Secretarial program. Prior completion of BUSO 209 is required.

BUSO 285  Office Information Specialist Internship I  
4 Credits  Offered Each Semester

Office Information Specialist Internship I provides supervised training and on-the-job experience in an office environment. The emphasis is placed on practical application of computer software such as word processing, spreadsheet, and database programs. It involves approximately 11 hours per week of in-office work. This is a required course in the Office Information Specialist program and is graded on a satisfactory/unsatisfactory basis. Prerequisites: Permission of the instructor, sophomore standing, prior completion of BUSO 110 or 201, 121, 132, BUSO 112, 115, 173, 175, and ENGL 101, and prior completion or concurrent enrollment in BUSO 185, BUSO 174, 295 and ENGL 272.

BUSO 286  Office Information Specialist Internship II  
4 Credits  Offered Each Semester

BUSO 286 is a continuation of BUSO 285. It is a required course in the Office Information Specialist program and is graded on a satisfactory/unsatisfactory basis. Permission of the instructor and prior completion of BUSO 285 are required.

BUSO 287  Medical Secretary Internship I  
4 Credits  Offered Each Semester

Medical Secretary Internship I provides supervised training in secretarial skills through on-the-job experience in a medical-related office. This course provides a practical application of secretarial skills as a part of the learning process. It involves approximately 11 hours per week of in-office work. This is a required course in the Medical Secretary program and is graded on a satisfactory/unsatisfactory basis. Prerequisites: Permission of the instructor, sophomore standing, prior completion of BUSO 110 or 201, BUSO 109, 115, 173, 175, 295 and ENGL 101, and prior completion or concurrent enrollment in BUSO 185, BUSO 174, 210, 295 and ENGL 272.

BUSO 288  Medical Secretary Internship II  
4 Credits  Offered Each Semester

BUSO 288 is a continuation of BUSO 287. It is a required course in the Medical Secretary program and is graded on a satisfactory/unsatisfactory basis. Permission of the instructor and prior completion of BUSO 287 is required.

BUSO 289  Administrative Assistant Internship I  
4 Credits  Offered Each Semester

Administrative Assistant Internship I provides supervised training in secretarial skills through the job experience in a business office. This course provides practical application of secretarial skills as a part of the learning process. It involves approximately 11 hours per week of in-office work. This is a required course in the Administrative Assistant program and is graded on a satisfactory/unsatisfactory basis. Prerequisites: Permission of the instructor, sophomore standing, prior completion of BUSO 110 or 201, BUSO 112, 115, 173, 175 and ENGL 101, and prior completion or concurrent enrollment in BUSO 185, BUSO 174, 295, and ENGL 272.

BUSO 290  Administrative Assistant Internship II  
4 Credits  Offered Each Semester

BUSO 290 is a continuation of BUSO 289. It is a required course in the Administrative Assistant program and is graded on a satisfactory/unsatisfactory basis. Permission of the instructor and prior completion of BUSO 289 are required.

BUSO 291  Legal Secretary Internship I  
4 Credits  Offered Each Semester

Legal Secretary Internship I provides supervised training in secretarial skills through the job experience in a legal-related office. This course provides practical application of secretarial skills as a part of the learning process. It involves approximately 11 hours per week of in-office work. This is a required course in the Legal Secretary program and is graded on a satisfactory/unsatisfactory basis. Prerequisites: Permission of the instructor, sophomore standing, prior completion of BUSO 110 or 201, BUSO 112, 115, 173, 175 and ENGL 101, and prior completion or concurrent enrollment in BUSO 185, BUSO 174, 205, 295 and ENGL 272.

BUSO 292  Legal Secretary Internship II  
4 Credits  Offered Each Semester

BUSO 292 is a continuation of BUSO 291. It is a required course in the Legal Secretary program and is graded on a satisfactory/unsatisfactory basis. Permission of the instructor and prior completion of BUSO 291 are required.

BUSO 294  Medical Office Procedures  
1 Credit  Offered Each Semester

This course emphasizes the procedures utilized in the medical office setting. Included are insurance billing, appointment scheduling, patient file maintenance, and medical telephone communication. The course also covers medical terminology and related medical ethics and laws. This is a required course in the Medical Office program. Prior completion of BUSO 109 is required.
**Carpentry**

Note: Course enrollment requires prior acceptance into the Carpentry Program.

**Carpentry Theory I**

**Carpentry Laboratory I**

**Carpentry Theory II**

**Carpentry Laboratory II**

**Carpentry Theory III**

This session allows additional time for students needing extra help.

**Carpentry Laboratory III**

The summer lab session is spent completing a project, necessary, as well as an opportunity for students to fine tune their skills. Students may exit early provided they 1) Have completed their required competency tasks; 2) Maintained a "C" grade; 3) Received instructor permission; and 4) Have a job which meets required criteria.

**Chemistry**

**Introduction to Essentials of General Chemistry I**

**Introduction to Essentials of General Chemistry II**

This course is a continuation of CHEM 101 and surveys basic concepts of organic and bio-chemistry. It is designed primarily for health science majors and includes laboratory science requirement for the A.S. and A.A. degrees. It includes three hours of lecture and one three-hour lab each week. Prior completion of one year of high school algebra or its equivalent (MATH 025) is required.

**Principles of General College Chemistry I**

This course satisfies a laboratory science requirement for the A.S. and A.A. degrees. It includes three hours of lecture and one three-hour lab each week. A required course for many transfer degree programs in sciences and engineering. Prior completion of one year of recent high school chemistry, CHEM 101, or a satisfactory score on the chemistry placement test (at the first laboratory session) is required. Prior completion of two years of high school algebra or prior completion of MATH 108 is required.
CHEM 112  Principles of General College Chemistry II
(Formerly CHEM 114)
4 Credits
Offered Each Semester

CHEM 112 is a continuation of a study of matter and its interactions, including properties of matter, changes that it undergoes, and energy changes that accompany these processes. Emphasis is on concepts and problem solving; however, many applications are examined. Laboratory investigations support the theory covered in lecture.

This course satisfies a laboratory science course requirement for the A.S. and A.A. degrees. It includes four hours of lecture and one three-hour laboratory session each week. It is a required course for many transfer degree programs in the sciences and engineering. Prior completion of CHEM 101 (grade of C or better is strongly recommended) and a working knowledge of logarithms is required (completion of MATH 147 or its equivalent is recommended).

CHEM 114  Qualitative Analysis
(formerly CHEM 112)
2 Credits
Offered Each Semester

CHEM 114 investigates the chemistry of separation and identification of selected cations and anions. It includes the theory of chemical equilibrium of acids, bases, buffers, complexions, and precipitation reactions and practical application of the concepts in the laboratory.

The course is designed to accompany CHEM 112 for students whose transfer programs require additional skill in chemistry. It includes one hour of lecture and a three-hour laboratory session each week. Prior completion of CHEM 111 (grade of C or better is strongly recommended) and a working knowledge of logarithms is required (completion of MATH 147 or its equivalent is recommended).

CHEM 277  Organic Chemistry I
3 Credits
Offered Fall Semester

CHEM 277 is a comprehensive study of the principles and theories of organic chemistry, emphasizing properties, preparations, and reactions. Required for transfer degree programs in chemistry, medicine, dentistry, pharmacy, engineering, and related fields. This course includes three hours of lecture and one three-hour lab (CHEM 277L) each week. Prior completion of CHEM 112 or 114 with a grade of "C" or better is required.

CHEM 277L  Organic Chemistry I Laboratory
1 Credit
Offered Fall Semester

CHEM 277L is an introduction to the techniques of the organic laboratory including application of chromatography and spectrometry, reaction mechanisms, and synthesis. This course consists of three hours of lab time each week. Concurrent enrollment in CHEM 277 is required.

CHEM 287  Organic Chemistry II
3 Credits
Offered Spring Semester

This is a continuation of CHEM 277 with an introduction to biological molecules. This course includes three hours of lecture and one three-hour lab (CHEM 287L) each week. Prior completion of CHEM 277 with a grade of "C" or better, or permission of the instructor is required.

CHEM 287L  Organic Chemistry II Laboratory
1-2 Credits
Offered Spring Semester

CHEM 287L is the laboratory that accompanies CHEM 287. The second credit option includes qualitative organic chemistry which is intended for chemistry majors and others who can benefit from additional laboratory work. This course consists of three hours of lab each week per credit. Concurrent enrollment in CHEM 287 is required.

Child Development

CHD 134  Infancy through Middle Childhood
3 Credits
Offered Every Semester

CHD 134 provides an introductory overview of human development from conception through middle childhood. Physical, cognitive, and social-emotional development are examined in the context of family and social issues. It is a required course for the Child Development program and is strongly recommended for Elementary Education majors.

CHD 243  Early Childhood Education
2 Credits
Offered Fall Semester

This course introduces the student to the field of early childhood education. Developmentally appropriate curriculum, behavior guidance, primary grade education, child care, and various issues within the field are examined. Prior or concurrent completion of CHD 134 is required.

CHD 254  Child Guidance Theory
3 Credits
Offered Spring Semester

Techniques for understanding and effectively guiding children's behaviors are examined and practiced in this course. Included are skills for managing classroom situations, conflict resolution, verbal guidance, effective use of praise, preventing behavior problems, promoting self-esteem, and setting individual goals. It is a required course for the Child Development program and is strongly recommended for Elementary Education majors.

CHD 298A  Child Development Practicum
3 Credits
Offered Each Semester

This course offers a supervised experience working with pre-schoolers in the NIC Children's Center and is for those students in their first three Practicum semesters. (Practicum B and C are completed in an off-campus site). Students gain practical experience planning, preparing and implementing curriculum, practicing behavior guidance techniques, and discussing how to meet the needs of individual children in the program. It is a required course for the Child Development program. Prior completion of CHD 134 is required.
COMM 103   Oral Interpretation
Offered Either Semester

Making literature come alive through effective reading and interpreting is the goal of this course. Students will learn to select, analyze, and perform a variety of literary pieces including stories, plays, poems, and famous orations. COMM 103 is a useful elective for elementary education, performing arts, literature, and communication majors, as well as for parents. Prior completion of other courses is not required.

COMM 111   Interview Techniques
(formerly COMG 101)
2 Credits
Offered Each Semester

This course provides practical experience in the development of interviewing techniques for a variety of settings and career applications. The process is analyzed and practiced, including setting up, conducting, and assessing the interview.

Students learn to design and carry out effective interviews through study and practice of the practical "do's and don'ts" for several types of interviews. Skills gained are helpful to those pursuing careers in journalism, communications, law enforcement, psychology, oral history, and counseling. Use of an audio tape recorder is suggested. Prior completion of other courses is not required.

COMM 133   Improving Listening Skills
1 Credit
Offered Either Semester

This course involves instruction in the skills necessary for effective listening. These skills apply to all aspects of life from the job to personal relationships. Listening is the most used (and least trained) of the four basic communication skills. Prior completion of other courses is not required.

COMM 134   Nonverbal Communication
2 Credits
Offered Either Semester

This course is an introduction to the basic concepts in the study of body language, symbols, and various means of communicating without using spoken language.

The study of nonverbal communication will help students better understand how people communicate in relationships at work and at home, and may create an awareness of students' own nonverbal communication style. Prior completion of other courses is not required. Strong college-level reading and writing skills are recommended.

COMM 200   Seminar: Human Potential
2 Credits
Offered Each Semester

This seminar features a structured small group with interactive experiences designed to assist students in becoming more self-directed, self-motivated, self-confident, and empathetic towards others.

It is an effective that helps students uncover insights into personal values, motivations, successes, achievements, and satisfactions. Short and long-term goal setting is
learned and practiced, making the course a useful one for success in college, determining career choices, establishing close relationships, and tapping into our unique potential as humans. Students of all majors, academic backgrounds, and experience are welcomed. Prior completion of other courses is not required.

COMM 209   Argumentation   3 Credits   Offered Either Semester

This course is an introduction to the principles and practices of argumentation as a form of communication. Analysis, reasoning, evidence, and refutation skills are stressed.

It provides skills in reasoned argumentation and is useful for pre-law, business, and careers where logical analysis and structured reasoning is stressed. Prior completion of COMM 101 or permission of instructor is required. Strong college-level reading and writing skills are recommended.

COMM 220   Introduction to Intercultural Communication   3 Credits   Offered Each Semester

Introduction to Intercultural Communication is concerned with cultural differences and their effects on communication. The course attempts to help students become more sensitive to the needs of people from other cultures with whom you interact. With more and more diversity in our country, and to create and maintain positive relationships with minimal hostility and friction, understanding of how to communicate across cultures will prove to be a considerable asset. Communication competence with people of other cultures calls for a repertoire of communication skills rarely taught in any other college course. Prior successful completion of COMM 101 with a C- or better is required.

COMM 233   Interpersonal Communication   3 Credits   Offered Each Semester

This course is an introduction to the skills and concepts that impact how people deal on a one-to-one level within interpersonal relationships. Emphasis is on self-examination and understanding how "communicate with others" and how that can be improved.

This is an excellent course for developing skills necessary for everyday life and living where relationships must be developed and maintained. Prior completion of other courses is not required.

COMM 236   Small Group Communication   3 Credits   Offered Either Semester

This course is designed to present the fundamentals of small group communication in such a way that the student actually experiences the small group process and evaluates his/her own and other's behaviors for success. The course will combine theory and practical application.

Computer Applications In Business

CABS 100   Principles of Computer Systems   3 Credits   Offered Fall Semester

This course is designed to cover the principles of computer systems—their applications, organization, and control, and the technological impacts of the information age. Topics covered include information representation and processing techniques, elementary computer architecture, input and output hardware concepts, secondary storage devices, data communications for connectivity, computer security, courtroom trends in hardware and software components and processing techniques, artificial intelligence and knowledge-based systems, and a discussion of ethical and legal issues within computer systems.

CABS 120   Personal Computer Architecture   3 Credits   Offered Fall Semester

This is an introduction to personal computer hardware. Basic architecture beginning with the motherboard will be discussed. Hands-on assembly of the different components of a computer, the installation of the operating system, and analyzing and correcting problems are emphasized.

CABS 130   Personal Computer Peripherals   3 Credits   Offered Spring Semester

An advanced look at personal computer hardware covering various interface architectures and communication protocols. The course involves installation and troubleshooting of peripherals such as CD drives, sound cards, fax/modems, network interface cards, printers and scanners, along with advanced software driver configuration for those components. Prior completion of CABS 120 is required.

CABS 140   Database   3 Credits   Offered Spring Semester

CABS 140 provides an introduction to database fundamentals. Using dBASE (or similar software) and hands-on instruction, students will be introduced to designing databases, creating and modifying data and file structures, printing simple lists, manipulating the order of data, and creating reports. Before enrolling in this course, it is recommended that students become familiar with DOS and Windows.

CABS 150   Introduction to Operating Systems   4 Credits   Offered Fall Semester

This is an introductory level class in personal computer operating systems and graphic user interfaces. The course will discuss basic concepts of how operating systems work and how applications interact with operating systems. Also covered are fundamental skills in command line and graphic user interface environments. MS Windows and MS-DOS are utilized to illustrate these concepts. Concurrent enrollment in CABS 100 and 120 is required.
CABS 160  Introduction to Networking  3 Credits
Offered Spring Semester
This is an introductory course in networking and networking technologies focusing on the basic concepts of data communications, logical LAN configurations, topologies, networking and connectivity. This course also provides the data communications framework for subsequent classes by introducing industry-specific language/terminology and protocols. Prior completion of CABS 100 is required.

CABS 170  Systems Analysis/Design  3 Credits
Offered Fall Semester
This course provides an overview of the field of systems analysis, basic systems design tools and the procedures for conducting a systems analysis. Analysis via feasibility studies, structured analysis techniques, requirements, creation, and definition will be emphasized. System specification and the logical and physical elements of systems design will be covered. The student will define and model business processes and data flows. The relationship of analysis and design to systems implementation and maintenance will be identified. Prior completion of CABS 100 and prior completion or concurrent enrollment in CABS 140 are required.

CABS 180  Introduction to Visual Basic  4 Credits
Offered Spring Semester
This course provides the overall concepts of programming in the Visual Basics for Windows. Topics discussed will be: designing, coding, testing, and debugging simple Windows applications. Other advanced topics include Dynamic Data Exchange (DDE), Object Linking and Embedding (OLE), Windows’ Applications Programming Interface (API’s), database interface, and documentation. Prior completion of CABS 140 and prior completion or concurrent enrollment in CABS 251 are required.

CABS 220  Integrated Software Concepts  3 Credits
Offered Spring Semester
This course provides an extensive investigation into the integration of suite products. Advanced techniques for Microsoft Office Pro will be used as an example of product suites. The use of Object Linking and Embedding (OLE) and Dynamic Data Exchange (DDE) for Microsoft products will be discussed. A study of Microsoft Visual Basic for applications impact on product suite applications is reviewed to complete a comprehensive study of integration applications concepts. Prior completion of CABS 241 and CABS 251 and prior completion or concurrent enrollment in CABS 180 are required.

CABS 241  Advanced Database  3 Credits
Offered Fall Semester
CABS 241 is a continuation of CABS 140 and provides instruction on advanced features of database use. Using dBASE (or similar software) and hands-on instruction, students will create conditional and compound queries, and multi-table queries; manipulate data and objects; create data entry and report forms, and multilevel reports; control the dBASE environment, and learn database record and file maintenance. Prior completion of CABS 140, or completion of comparable database course with permission of the instructor, is required.

CABS 251  Adv. Personal Computer Operating Systems  3 Credits
Offered Spring Semester
CABS 251 is an advanced course delving into DOS commands, configuring the system, and working with memory management. The course examines the Windows system file, initialization file, and advanced PIF file functions as well as the options in the main window. MS Windows and MS-DOS are utilized to illustrate these concepts. Prior completion of CABS 150 is required.

CABS 262  Advanced Network Management  3 Credits
Offered Spring Semester
This course teaches the skills needed to monitor and maintain NetWare 3.x, 4.x (server/client), and Windows for Workgroup (peer-to-peer) networks. Course topics include high-level system management features of NetWare and Windows for workgroups; how to analyze and improve network performance; advanced printing setup and how to customize printing; and how to prevent problems using recommended backup strategies. Lab activities are included to provide hands-on practice. Prior completion of CABS 160 and sophomore standing in the CABS program are required.

CABS 284  Emerging Information Technologies  3 Credits
Offered Spring Semester
This course addresses and examines a wide variety of new and emerging advanced information technologies and issues: Internet and intranet hardware and software; marketing telecommunications and commercial applications; ethics and standard issues; and virtual reality. Specific technologies will be identified in the course syllabus. Prior completion of CABS 251 is required.

CABS 295  Computer Applications in Business Internship  4 Credits
Offered Spring Semester
The Computer Applications in Business Internship involves a working partnership in which North Idaho College and the sophomore students of the CABS program join with area computer processing employers in a structured relationship. The basic purpose is to provide CABS students insight and on-the-job work experience doing projects that would normally be assigned to the employer's entry-level computer programming operations, networking, or end-user support staff. Sophomore standing in the CABS program and permission of the instructor are required.
Computer Science

CS 100 Introduction to Computers & Computer Science
3 Credits
Offered Each Semester

CS 100 is intended as an introduction to computers for non-computer science majors. No prior experience with computers is necessary. Topics include an historical perspective, evolving hardware and software, word processing, and a programming language. Problem solving and algorithm development are the focus of the class. The course involves substantial use of microcomputers and the possible use of a minicomputer. This course includes three hours of lecture each week. Prior completion of MATH 025 or its equivalent is required.

CS 125 Introduction to Visual BASIC Programming
2 Credits
Offered Either Semester on Demand

This course is an introduction to the MS Visual BASIC programming language. It is intended for students who may need an introduction to MS Visual BASIC or students interested in programming their home computers. Prior completion of MATH 108 is required.

CS 150 Computer Science I
4 Credits
Offered Each Semester

CS 150 offers an introduction to the field of computer science using C/C++. Central themes of the class include an introduction to computer organization, algorithmic problem solving and structured and object oriented program design, and societal and professional context in which computer science exists. Fundamental data types including arrays and structures will be explored. Concepts such as complexity, invariants, and abstract data types will be introduced. This course includes three hours of lecture and one two-hour lab each week. Concurrent enrollment in CS 150L is required. Prerequisite: Two years of high school algebra or MATH 130 or MATH 147. CS 100 is recommended for students without computer experience.

CS 160 Computer Science II
3 Credits
Offered Spring Semester

CS 160 provides continuing experience in problem solving and software design methods. The analysis of algorithms, use of non-text files, and dynamic data structures are introduced and the entire software design cycle is considered in greater depth. A large group project will be completed. Standard algorithms for numeric and text processing, searching, and sorting will be covered. The exploration of recursion is continued. Students must be concurrently enrolled in a college level mathematics class such as MATH 160 or 170. This course includes three hours of lecture each week. Prerequisite: CS 150 and CS 150L.

CS 185 Introduction to Numerical Computing with FORTRAN
3 Credits
Offered Each Semester

This course is an introduction to numerical computing using FORTRAN. Students will be introduced to techniques of computer programming and the elements of the FORTRAN language. Practical applications will include the techniques of solving equations in one variable, polynomial approximation, numerical differentiation, numerical integration and matrix manipulations. The course is intended for engineering and science majors. It includes three hours of lecture each week. Prior completion of MATH 170 is required.

CS 191 Programming in C
3 Credits
Offered Spring Semester

This course provides an introduction to structured programming using the language C. Features of the UNIX operating system may be used. This course is suitable for those students aspiring to major in computer science, but the course will also serve science and engineering majors as well as people from the community. Prior programming experience in a structured language is required. This requirement is best met with a course in Pascal, but Pascal is not required. This course includes three hours of lecture each week.

CS 240 Digital Computer Fundamentals
4 Credits
Offered Spring Semester

Digital logic concepts, logic design, Karnaugh maps, combinational and sequential networks, state tables, state machines, and program logic arrays are covered in this course. Laboratory activities use basic hardware, logic analyzers, and digital oscilloscopes. This course includes three hours of lecture and one two-hour lab (CS 240L) each week. Math 147 or permission of instructor is required for enrollment in this class.

CS 250 Data Structures
3 Credits Offered Fall Semester with sufficient demand

Standard data structures are examined using a high level programming language such as C++. Stacks, queues, linked lists, trees, and graphs are presented and explored through manipulation methods specific to each. Other topics include a continued development of skills in the analysis of algorithms, dynamic memory use and the use of external files. This course includes three hours of lecture each week. Prior completion of CS 160 and MATH 187 is required.

CS 270 Computer Organization and Assembly Language
3 Credits
Offered Spring Semester on demand

Students will study computer organization, assembly language, the use of assemblers, addressing methods, and structured assembly programming methods. This course includes three hours of lecture each week. Prior completion of CS 150 and CS 240 is required.
COURSE DESCRIPTIONS

Culinary Arts

Note: Course enrollment requires prior acceptance into the Culinary Arts Program.

CULA 151  Stewardship and Purchasing  3.5 Credits  Offered Each Semester

This course includes both theory and practice with emphasis on practical application. Sanitation topics include correct sanitation skills with tableware, equipment, and facilities. Storeroom topics include ordering and receiving goods and checking invoices. Emphasis is placed on storing and dating goods. Prior completion of other courses is not required.

CULA 152  Breakfast Cooking and Catering Skills  3.5 Credits  Offered Each Semester

This course involves breakfast cooking skills with emphasis on eggs, their properties, and how to prepare them skillfully in an industrial setting. Also included are the fundamentals of front of the house activities including on-site busing and catering with emphasis on the special needs of logistics, sanitation, rental requirements, and safety. Prior completion of other courses is not required.

CULA 153  Prep Station Skills  3.5 Credits  Offered Each Semester

This course presents instruction in knife skills and the identification and preparation of vegetables, fruits, and meats. Correct methods of trimming, filleting, and portioning will be emphasized. Breading and batters will also be included. Prior completion of other courses is not required.

CULA 154  Pantry Station Skills  3.5 Credits  Offered Each Semester

Students are involved in the production process for preparation of a variety of salads and dressings, hors d'oeuvres and quiches, and quality set-ups for sandwiches. Plate presentation is stressed. Prior completion of other courses is not required.

CULA 155  Stock, Soup, and Sauce Preparation  3.5 Credits  Offered Each Semester

This course features the preparation of stocks and their use as the base for sauces and soups. Emphasis is on mother sauces, small sauces, cream soups, vegetable soups, cream soups, purees, chowders, and ethnic soups. Thickening agents, temperature control, and seasoning of food will also be stressed. Prior completion of other courses is not required.

CULA 156  Line Cook Skills  3.5 Credits  Offered Each Semester

Students will practice the different skills involved in being a line cook. Included are broiling, roasting, braising, grilling, stewing, poaching, steaming, and broiling. Preparation of hot specials is also included. Prior completion of CULA 151, 152, 153 and 154 is required.

CULA 157  Grill Cook Skills  3.5 Credits  Offered Each Semester

Grill Cook Skills students will practice mise en place, making hot sandwiches, deep frying, pan frying, and grilling. The use of leftovers in food preparation is included. Prior completion of CULA 151, 152, 153 and 154 is required.

CULA 158  Bakery Skills  3.5 Credits  Offered Each Semester

This course involves the theory and application of baking basics: vocabulary, weights and measures, and applied mathematical skills. Emphasis is placed on hands-on baking production. Prior completion of CULA 151, 152, 153 and 154 is required.

CULA 159  Grill Cook and Production Manager  1.5 Credits  Offered Each Semester

Students are presented with additional management responsibilities in assisting with set-up, answering questions, checking storage, and clean-up. This is a capstone course. Upon completion of this course the student should understand the entire scope of running a kitchen. Prior completion of CULA 151, 152, 153 and 154 is required.

CULA 160  Culinary Arts Seminar  1 Credit  Offered Each Semester

This class is a seminar meeting one hour per week where all Culinary Arts students meet with the instructor to review the material during the week, its application, success and failures in the applications and solutions for problems that arose during the courses and laboratory.

Dance

DANC 105  Aerobic Dance/fitness  1 Credit  Offered Each Semester

This course combines cardiovascular conditioning, toning, and flexibility exercises along with a fat burning intensity level. DANC 105 is offered in two levels: Nice and Easy, involving low impact with moderate intensity for the beginner; and Intermediate, involving muscle strengthening and a higher level of intensity. It satisfies a P.E./balance requirement for the A.S. and A.A. degrees. May be repeated for a total of four credits.

DANC 113  Jazz Dance: Beginning I  1 Credit  Offered Each Semester

DANC 113 is an introduction to the movements and styles particular to today's jazz dancer. It emphasizes exercises and combinations of steps and explores theatrical, lyrical, and "funk" styles set to popular music. This course is a fun alternative to sports and helps develop an appreciation for the art form, music, rhythm awareness, and coordination. It also provides physical conditioning through strength and flexibility. This course satisfies a P.E./dance requirement for the A.S. and A.A.
degrees. May be repeated for a total of four credits. Prior
dance experience is not required.

**DANC 114**
Jazz Dance II
1 Credit
Offered Spring Semester

Jazz Dance II is a continuation of DANC 113, exploring
movements and styles particular to today's jazz dancer. It
emphasizes exercise, combination steps, and explores
theatrical, lyrical, and "funk" styles set to popular music.

This course provides an alternative to sports and helps
develop an appreciation for the art form, music, rhythm
awareness, and coordination. It also provides physical
conditioning through strength and flexibility.

This course satisfies a P.E./dance requirement for the
A.S. and A.A. degrees and may be repeated for a total of
four credits. DANC 113 or some knowledge of jazz dance
is recommended prior to this course.

**DANC 115**
Modern Dance: Beginning I
1 Credit
Offered Each Semester

DANC 115 is a discovery of dance movement through
the physical and mental discipline techniques of Graham
and Cunningham. Includes an insight into how dances are
created through improvisation, and by analyzing these
movements, students will explore choreography.

This course provides a creative outlet and physical
conditioning of strength and flexibility. It also develops
coordination and an appreciation of the art form. This is
an excellent course for theatre and performing arts students.
Satisfies a P.E./dance requirement for the A.S. and A.A.
degrees. Prior dance experience is not required. May be
repeated for a total of four credits.

**DANC 117**
Ballet: Beginning I
1 Credit
Offered Each Semester

This course concentrates on basic technique, body
alignment, and the development of step combinations. It
includes related terminology and history of the art form.

DANC 117 helps gain more flexibility, muscle strength
and control, and mental discipline over the body. It also
promotes the aesthetic understanding and appreciation of
classical ballet. This course satisfies a P.E./dance
requirement for the A.S. and A.A. degrees. May be repeated
for a total of two credits. Prior dance experience is not
required.

**DANC 118**
Ballet: Beginning II
1 Credit
Offered Each Semester

This course is a continuation of DANC 117 for beginners
and concentrates on technique, alignment, and
progressions. The student is introduced to more complex
steps through faster-paced instruction.

The course increases flexibility, muscle strength and
control, and mental discipline over the body. It further
enhances an appreciation of the art form as technique
improves. This course satisfies a P.E./dance requirement
for the A.S. and A.A. degrees. May be repeated for a total
of two credits. Prior completion of DANC 117 or its
equivalent is required.

---

**Developmental Education**

**DEED 010**
Reading and Spelling Fundamentals
3 Credits
Offered Each Semester

A self-paced course, DEED 010 is designed for basic
reading and spelling skills that include word attack, word
structure, sentence sense, main idea, and spelling rules.
This is an important skill building course that influence
college success, but does not fulfill degree requirements.
Enrollment is recommended based on placement test
results. Class size is limited to 12 students at any time;
however, some students complete class requirements
early. Students may enroll as late as mid-term week,
subject to space availability and instructor approval.

**DEED 013**
Reading Comprehension &
Vocabulary Development
3 Credits
Offered Each Semester

DEED 013 is a self-paced course designed to enhance
reading and vocabulary skills with an emphasis on
comprehension of expressed and implied main ideas.
The course also focuses on developing vocabulary skills
including contextual clues, synonyms, antonyms and
affixes. Enrollment is recommended based on placement
test results. Class size is limited to 12 students at any time;
however, some students complete class requirements
early. Students may enroll as late as mid-term week,
subject to space availability and instructor approval.

**DEED 043**
Reading in Applied Technology
1 Credit
Offered Each Semester

This course is an open-entry, open-exit course designed
to improve reading skills for technical materials. This
course emphasizes learning for critical and efficient
reading, including reading for information, following
directions, critical reading, checking information, drawing
conclusions, vocabulary, and understanding graphs in
technical materials.

**DEED 100**
College Success Strategies
2 Credits
Offered Either Semester

This course offers instruction in academic, personal and
career skills, as well as provides an introduction to
campus resources. It is designed to promote student
success in college through an emphasis on wise use of
time, organizational study techniques, test-taking skills, improving self-esteem, clarifying personal values, and setting goals. Students are
also taught the importance of budgeting time and money,
working with advisors, creating and maintaining
supportive relationships, caregiving, managing stress and
planning a career.

**DEED 104**
College Reading
2 Credits
Offered Each Semester

This course is designed for the student who
would like to develop strategies for
flexible reading comprehension and to improve
reading skills. Reading techniques are applied to reading assignments.
in other classes in content areas such as the sciences, social sciences, and humanities.

DEED 105 College Study Skills
2 Credits
Offered Either Semester

How to Study at College provides instruction in practical study techniques essential for academic success. This course emphasizes managing time, taking notes, reading textbooks efficiently, and preparing for and taking exams.

NOTE: Other skill-building courses that are part of the DEED program are Library Skills (LIBS 120) and Basic Mathematics (MATH 015).

**Diesel Technology**

Note: Course enrollment requires prior acceptance into the Diesel Technology Program.

DSL 108 Diesel Welding Theory
2 Credits
Offered Fall Semester

This course is designed to provide the student with welding skills required by the diesel mechanic industry.

DSL 109 Diesel Welding Theory
2 Credits
Offered Spring Semester

This course is designed to provide the student with welding skills required by the diesel mechanic industry. Prior completion of DSL 108 is required.

DSL 115L Diesel Lab
4.5 Credits
Offered Fall Semester

This course will give the student hands-on exposure in a shop setting to those subjects covered in DSL 100, 110, 120 and 130 theory classes. The instruction will utilize a variety of mock-ups, training aids, components and live customer work. The student will be able to explain and demonstrate proper safety precautions when lifting and supporting a vehicle or component, when using tools or equipment, and when handling cleaning agents or other hazardous materials.

DSL 116L Diesel Lab
4.5 Credits
Offered Spring Semester

This course will give the student hands-on exposure in a shop setting to those subjects covered in DSL 120, 180, and 190 theory classes. The instruction will utilize a variety of mock-ups, training aids, components and live customer work. The student will be able to explain and demonstrate proper safety precautions and precautions in the lab which include lifting and supporting vehicles or components, using tools or equipment, and proper handling of cleaning agents or hazardous materials.

DSL 117L Diesel Lab
2 Credits
Offered Summer Session

This course provides students with additional exposure to lab experiences related to a special interest area selected by the student in DSL 105. It may consist of work with mock-ups, components, live work, or in some cases School-to-Work arrangements with local shops.

Successful completion of the first year of the Automotive A.A.S. program is required, or instructor permission.

DSL 121 Powertrain/Brakes
7 Credits
Offered Spring Semester

This course will teach students the operation, construction and repair of heavy-duty clutch systems, manual transmissions, drive lines, universal joints, single and two-speed differentials as well as wheels, bearings and seals.

DSL 131 Diesel Engine/Electrical
5.5 Credits
Offered Fall Semester

This course will teach students how to identify, repair or replace diesel engines. The student will learn two-stroke and four-stroke diesel engine theory as well as engine performance factors and basic tune-up procedures. In addition, this course will cover basic electrical theory, including types of circuits and components, as well as batteries, starters, and charging systems. Students will also learn about wiring schematics and diagrams.

DSL 195 Specialization Study
1 Credit
Offered Summer Session

During this course of study each student will select an area of special interest in which they wish to pursue additional study. The instructor will assist the student by providing instruction through one or more of the following: classroom instruction, videos, slides, library research projects or short field trips. Prior successful completion of the first year of the Diesel A.A.S. degree program is required, or instructor permission.

DSL 215L Advanced Diesel Lab
6 Credits
Offered Fall Semester

This course will give the student hands-on exposure in a shop setting to those subjects covered in DSL 210, 220, 230 and 250 theory classes. The instruction will utilize a variety of mock-ups, training aids, components and live customer work. The student will be able to explain and demonstrate proper safety precautions when lifting and supporting a vehicle or using tools or equipment.

DSL 216L Advanced Diesel Lab
6 Credits
Offered Spring Semester

This course will give the student hands-on exposure in a shop setting to those subjects covered in DSL 260, 270 and 280 theory classes. The instruction will utilize a variety of mock-ups, training aids, components and live customer work. The student will also be able to explain and demonstrate proper safety precautions when lifting and supporting a vehicle or using tools or equipment.

DSL 221 Advanced Tune-Up
5 Credits
Offered Fall Semester

This course will teach the student how to test, troubleshoot, adjust, repair, or replace components associated with proper tune-up procedures for Caterpillar, Cummins, Detroit and other common diesel engines.
Instruction will also be given on fuel and induction systems as well as fuels, additives, emission controls and regulations, troubleshooting procedures. Prior successful completion of the first year of the Diesel A.A.S. degree program is required.

**COURSE DESCRIPTIONS**

**D3LT 261 Undercarriage/Suspension**
5 Credits
Offered Spring Semester

This course will teach the student about the operation, construction and repair of undercarriages and suspension systems. The student will be taught basic hydraulic theory, systems, construction, and operation, as well as its application to the maintenance and repair of heavy equipment. Prior successful completion of the first year of the Diesel A.A.S. degree program is required.

**Drafting Technology**

Note: Course enrollment requires prior acceptance into the Drafting Technology Program.

**DRFT 101 Drafting Theory and Laboratory I**
5 Credits
Offered Fall Semester

This course is divided into two sections. The first half deals with fundamentals of geometric construction and lettering. The second half of the course deals with multiview projection, dimensioning, intersection, and development and introduction to computer-aided drafting (CAD).

**DRFT 102 Drafting Theory and Laboratory II**
4.5 Credits
Offered Spring Semester

This course teaches the fundamentals of sectional views, auxiliary views, and axonometric projections revolutions.

**DRFT 109 Computer Aided Drafting (CAD) I**
6 Credits
Offered Fall Semester

This course provides an introduction to microcomputer assisted drafting using IBM AT compatible computers running AUTOCAD software.

**DRFT 110 Computer Aided Drafting (CAD) II**
4.5 Credits
Offered Spring Semester

This course covers Computer Aided Drafting utilizing 100 AUTOCAD commands and learning how to use the Microsoft Disk Operating Systems (MS-DOS).

**DRFT 174 Descriptive Geometry**
1 Credit
Offered Spring Semester

This course is an introduction to the graphical solution of point, line, and plane problems in space. These solutions are accomplished by means of the same principles of orthographic drawing which are involved in making a simple three-view drawing of an object.

**DRFT 175 Quality and Cost Control**
1 Credit
Offered Spring Semester

This course teaches the fundamentals of taking a project and breaking it down to determine how much material is needed and costs projected. Due to the number of items generally needed, a set of house plans is used.

**DRFT 201 Drafting Theory and Laboratory III**
2.5 Credits
Offered Fall Semester

This course teaches the fundamentals of topography, mapping, and road bed cross-section drawing, which directly relate to the survey class. Threads, fasteners, and weldments are used to complete the class.

**DRFT 202 Drafting Theory and Laboratory IV**
4.5 Credits
Offered Spring Semester

This course teaches the drawing fundamental of a basic house plan, piping, electrical, elevations, plot plans, and heating. Threads, fasteners, weldments, and working drawings are used to complete the class.

**DRFT 209 Computer Aided Drafting (CAD) III**
4.5 Credits
Offered Fall Semester

This course provides instruction in MS-DOS and the drawing environment, prototype (default) drawings, symbol libraries, and assembling complex drawings.

**DRFT 210 Computer Aided Drafting (CAD) IV**
4.5 Credits
Offered Spring Semester

This course focuses on the techniques of plotting drawings and symbol sheets, customizing AUTOCAD through scripts, macros, tablet and screen menus, and AUTOLISPCH routines.

**DRFT 235 Applied Physics**
2 Credits
Offered Fall Semester

This course provides a mathematical review of precision measurements, vectors, and graphic methods. It also covers working problems in force and motion, work and energy, power, basic machines, torque, and power transmission.

**DRFT 236 Applied Physics**
3 Credits
Offered Spring Semester

This course covers the mechanical properties of matter, solids, liquids, gases, and the study of heat and thermodynamics.

**DRFT 262 Surveying**
1 Credit
Offered Fall Semester

This course provides instruction in performing physical measurements in the horizontal and vertical planes, computation of areas, topographical mapping, and road profile layout are taught. Field work includes use of transit, level, rod, tape, and electronic distance meter (EDM) techniques.
Economics

ECON 201 Principles of Economics (Macro) 3 Credits Offered Each Semester

This course is an introductory study of the behavior of our national economy, including the tools of supply and demand and the measurement of inflation, employment, business cycles, national income, and money. Economic vocabulary and analysis of economic situations are emphasized.

ECON 201 is a required course in the Business Administration, Business Education, and Small Business Management programs. It satisfies a social science requirement for the A.S. and A.A. degrees. Prior completion of MATH 108 or two years of high school algebra is strongly recommended.

ECON 202 Principles of Economics (Micro) 3 Credits Offered Each Semester

ECON 202 is an introductory study of the economic behavior of individual consumers and suppliers. It examines consumer response to price changes and levels of satisfaction, supplier response to costs, and business response to degree of competition. Economic vocabulary and analysis of economic situations are emphasized.

This is a required course in the Business Administration, Business Education, and Small Business Management programs. It satisfies a social science requirement for the A.S. and A.A. degrees. Prior completion of other courses is not required. However, ECON 201 provides some familiarity with the vocabulary and methodology used in the course. Prior completion of MATH 108 or two years of high school algebra is strongly recommended.

Electronics Technology

ELEC 151 Electrical Theory I 8 Credits Offered Fall Semester

DC and AC electricity theory is presented in this course as well as the study of voltage, current, resistance and their relationships. The theory of magnetism, inductance and capacitance and their reaction to AC and DC electricity is also covered. These basics prepare the student for understanding the action of electrical circuits and how passive components work in a circuit. Component recognition and schematic symbols of passive components are taught as a precursor to circuits and analysis.

ELEC 151L Laboratory Practical 1 5 Credits Offered Fall Semester

Laboratory experience is gained in using and measuring DC and AC electricity, voltage and current, in circuits constructed of passive components. Test equipment such as meters and oscilloscopes are introduced, and their proper use and operation is learned. Safety and general lab practices from schematics and analyzing their operation for the purpose of troubleshooting component and circuit problems.

ELEC 152 Electrical Theory II 8 Credits Offered Spring Semester

This course studies voltage and current sources, general semiconductor theory, diodes, transistors, DC and AC amplifiers and field effect transistors. The use of semiconductors in DC and AC circuits and troubleshooting problems in semiconductor component and circuit problems.

ELEC 152L Laboratory Practical II 5 Credits Offered Spring Semester

This course features laboratory practices in the use and troubleshooting of circuits constructed with an educated decision about teaching as a career choice, to develop communications and interpersonal skills, to encourage creativity and critical thinking, and to provide opportunities to examine personal values and beliefs about teaching. Prior completion of other courses is not required. Sophomore standing or permission of the instructor is required.

EDUC 275 Education of the Exceptional Individual 3 Credits Offered Alternate Spring Semesters

This course offers a general overview of special education. It emphasizes an introduction to the different handicapping categories, teaching methods, and unique legal requirements associated with educating exceptional individuals.

EDUC 275 provides important knowledge about exceptional individuals who are found throughout the educational system (not just special education classrooms). This course is appropriate for all education degrees. Concurrent enrollment in EDUC 190 is required.
semiconductors. It includes DC and AC amplifiers and AM radio operation and troubleshooting of radio and amplifier problems. Semiconductors are used in many electrical circuits; understanding their operation and practice in building and troubleshooting prepares the student for problem solving in future employment. Prior completion of ELEC 151L is required.

ENGR 201 Circuits I 4 Credits Offered Fall Semester
ENGR 201 presents a study of Ohm's Law, analysis methods, network theorems, Laplace transforms, and energy storage elements. It includes the exploration of electrical circuits using hands-on lab activities and computers.

This is an important course for transfer degree programs in engineering, physics, math, computer science, or chemistry. The course includes four hours of lecture each week. Prior completion or concurrent enrollment in MATH 170 is required.

ENGR 203 Circuits II 4 Credits Offered Fall Semester
ENGR 203 is a study of power, three phase, transformers, filters, Fourier transforms, and Laplace transforms. It includes the exploration of electrical circuits using hands-on lab activities and computers.

Circuits II is an important course for transfer degree programs in engineering, physics, math, computer science, or chemistry. It requires four hours of lecture and one two-hour lab (ENGR 203L) each week. Prior completion of ENGR 201 and prior completion or concurrent enrollment in MATH 175 is required.

ENGR 211 Introduction to Mechanics 4 Credits Offered Fall Semester
ENGR 211 is a study of vector analysis, resolution of forces, free body diagrams, equilibrium, friction, centroids, moments of inertia, statics, and rigid bodies, trusses, frames, machines, and cables.

The course provides basic engineering skills in mechanics necessary for analysis of structures and dynamics of rigid bodies. It is required for all engineering transfer degree programs. It requires four hours of lecture each week. Prior completion of MATH 170 is required and PHYS 211 is required.

ENGR 214 Surveying 4 Credits Offered Fall Semester 97 on Demand
ENGR 214 presents theory and field applications of elementary surveying. It includes the use of instruments, error and precision, level circuits, running traverses, field calculations, boundary surveys, route surveys, construction surveys, triangulation, state coordinate systems, engineering astronomy, and photogrammetry.

This course provides basic surveying skills that may help engineering students gain summer employment, but it is not intended as a preparation for direct entry into surveying occupations. It is required for transfer degrees in civil engineering and surveying and recommended for other engineering programs. This course requires three hours of lecture and one three-hour lab (ENGR 214L).
ENGR 221  Dynamics of Rigid Bodies  3 Credits  Offered Spring Semester

ENGR 221 is the study of kinematics and kinetics of particles and rigid bodies. Includes position, velocity, acceleration, relative velocity, and acceleration, translation and rotation, Newton's third law, energy, and momentum methods, collision equations, and solutions.

The course provides basic engineering skills that apply to all machines and other engineering bodies in motion. It is required for transfer degree programs in civil and mechanical engineering and recommended as an engineering science elective for all other engineering programs. It requires three hours of lecture each week. Prior completion of MATH 175 and ENGR 211 is required.

ENGR 231  Introduction to Engineering Design  3 Credits  Offered Either Semester

Engineering Design 231 is a required course in engineering at the University of Idaho and Gonzaga University, as well as at most four-year engineering institutions. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. It combines numerical analysis skills with basic engineering applications using various computer software programs for analysis and presentation. The course is taught in the sophomore year and is considered to be fundamental to any pre-engineering program. It combines numerical analysis sk
in the future—in their job, personal life, or recreational activities. Students will learn to write strong, clear prose, and will learn to use words accurately and precisely; to write clear and direct sentences that follow conventional structure, grammar, and punctuation; to use paragraphs that show unity and coherence while developing one primary idea that relates directly to preceding and succeeding paragraphs; and to develop essays that focus on a central idea, develop the idea adequately, and show organization and unification.

This course is required for all degree programs. An appropriate placement test score and a satisfactory essay (written during the first class session) are required.

ENGL 102 (Formerly ENGL 104) English Composition
3 Credits
Offered Each Semester

English 102 provides instruction in the research process which includes the gathering, the critical evaluation, and the presentation of evidence. Critical thinking is emphasized as vital to drawing conclusions from evidence.

This class helps provide techniques for conducting research in all areas of study. It is required for all transfer degree programs. Prior completion of ENGL 101 with a grade of C- or better and passing a minimal competency essay exam administered by the English department are required for enrollment.

ENGL 175 Introduction to Literature
3 Credits
Offered Each Semester

Introduction to Literature surveys literature’s many forms including essay, short story, poetry, and drama. This course focuses on literature as a primary vehicle for ideas and values.

This course helps students to recognize and appreciate the humanistic and artistic elements of literature. It satisfies an arts and humanities course requirement for the A.S., A.A., and most transfer degrees. Prior completion of ENGL 101 with a grade of C- or better is required.

ENGL 202 Technical Writing
3 Credits
Offered Fall Semester

Technical Writing offers instruction in the writing skills applicable to business and industry. This class emphasizes factual information in the form of writing instructions and describing mechanisms and processes. It includes the fundamentals of composing memos, letters, and reports.

Technical Writing is designed for those interested in practical applications of technical writing principles. This class is required for some occupational programs and is a useful general elective for all programs in science and technology. Prior completion of ENGL 099 and sophomore standing or permission of instructor are required. Prior completion of ENGL 101 with a grade of C- or better is recommended.

ENGL 204A Writing a Personal Family History
3 Credits
(Same as HIST 204A)
Offered on Demand

English 204A offers instruction for the beginning or experienced student in researching and writing a personal or family history. This course focuses on the use of oral history, family folklore, genealogical research in private and public records, and techniques to make the writing interesting. It includes field trips to major archives.

This course helps the student develop research and writing skills while pursuing a project of great personal value. It is recommended for history and English students as a way to put theories into actual practice. Participation without enrolling research and writing for evaluation is possible by enrolling for zero credit. Prior completion of ENGL 101 with a grade of C- or better is advisable.

ENGL 204B Modern Writers & What They Are Saying
3 Credits
Offered on Demand

English 204B provides a study of fiction, poetry, drama, essays, and other formative documents from 1940 to the present. It includes works of major American and European authors. Prior completion of ENGL 101 with a grade of C- or better is required.

ENGL 204C Modern Writers & What They Are Saying
3 Credits
Offered on Demand

English 204C provides a study of fiction, drama, poetry, and formative documents from 1940 to the present period. It includes the works of Malamud, Williams, Thomas, Camus, Plath, and others. Prior completion of ENGL 101 with a grade of C- or better is required.

ENGL 205 Interdisciplinary Writing
3 Credits
Offered Each Semester

This course builds on writing skills gained from ENGL 101 and ENGL 102. In addition, the course enables students to make connections among many disciplines, including a choice of art, mythology, poetry, architecture, music, culture, travel, nature, science, theater, autobiography, and biography. Emphasis is placed on the student’s own writing of essays and explanations based on the 5-step critical thinking method.

This course encourages applied writing through projects in each student’s field of study. It also encourages students to practice and to learn to apply the steps in the writing process: prewriting, arrangement, revision, and editing. Prior completion of ENGL 101 and ENGL 102 with a grade of C- or better is required.

ENGL 216 Mythology
3 Credits
Offered Spring Semester

Mythology surveys both Greek myths and themes common to all Western mythologies, particularly those of the hero quest. This course includes the study of a variety of stories, poems, plays, and films, and it focuses on learning to identify the mythological elements at work within them.

Mythology creates an awareness and appreciation of mythological stories and themes as a base for much of our literature and art; therefore, it enhances literary and artistic experiences. Prior completion of ENGL 101 with a grade of C- or better is required.
ENGL 257  Literature of Western Civilization
(formerly ENGL 111)
3 Credits  Offered Fall Semester

English 111 examines significant literary works of Western Civilization from about 800 B.C. through Shakespeare. This course explores the values, traditions, themes, and ideas that have shaped Western culture and have influenced other humanities disciplines such as art, psychology, and philosophy.

This course helps link the basic concepts of early literature to the contemporary world. It satisfies an arts and humanities course requirement for the A.S., A.A., and most transfer degrees. Prior completion of ENGL 101 with a grade of C- or better is required.

ENGL 258  Literature of Western Civilization
(formerly ENGL 112)
3 Credits  Offered Spring Semester

English 258 is the study of Western European and North American classics from the mid-1600s to the present. This course includes internationally acclaimed writers who are representative of the major literary movements (Enlightenment, Romantic, Realist, and Modernist traditions) and who are significant in shaping Western Civilization.

English 258 serves as a foundation to the humanities through an exploration of writers and works that comprise the core of our literary and philosophical tradition. It satisfies an arts and humanities course requirement for the A.S., A.A., and most transfer degrees. Prior completion of ENGL 101 with a grade of C- or better is required.

ENGL 267  Survey of English Literature
3 Credits  Offered Fall Semester

English 267 is a study of historical documents, poetry, fiction, drama, and essays illustrating the development of English literature from the Anglo-Saxon period through the Eighteenth Century.

This course enhances cultural literacy and awareness of pertinent issues in the humanities. It satisfies an arts and humanities course requirement for the A.A., A.S., and most transfer degrees. Prior completion of ENGL 101 with a grade of C- or better is required.

ENGL 268  Survey of English Literature
3 Credits  Offered Spring Semester

English 268 is a study of historical documents, poetry, fiction, drama, and essays illustrating the development of English literature from the Romantic period to the present.

This course enhances cultural literacy and awareness of pertinent issues in the humanities. It satisfies an arts and humanities course requirement for the A.A., A.S., and most transfer degrees. Prior completion of ENGL 101 with a grade of C- or better is required.

ENGL 272  Business Writing
3 Credits  Offered Each Semester

Business Writing offers instruction in the practical application of business writing principles. This course includes business writing strategies for memos, letters, and reports. It emphasizes audience analysis, content planning, language effectiveness, and message layout.

English 272 helps develop the writing skills necessary for effective business communication. It is required for some business and business-related programs. A working knowledge of correct grammar and a satisfactory score on the English Placement Test are essential. Prior completion of ENGL 101 with a grade of C- or better is recommended.

ENGL 277  Survey of American Literature
3 Credits  Offered Fall Semester

English 277 is a study of selected historical documents, journals, essays, poetry, and fiction illustrating the development of American literary ideas, values, and philosophy from the Colonial Period (1620) to the end of the Civil War (1865). This course satisfies an arts and humanities course requirement for the A.A., A.S., and most transfer degrees. Prior completion of ENGL 101 with a grade of C- or better is required.

ENGL 278  Survey of American Literature
3 Credits  Offered Spring Semester

English 278 is a study of selected historical documents, journals, essays, poetry, fiction, and drama illustrating the development of American literary ideas, values, and philosophy from the Civil War (1865) to the present. This course satisfies an arts and humanities course requirement for the A.A., A.S., and most transfer degrees. Prior completion of ENGL 101 with a grade of C- or better is required.

ENGL 291  Creative Writing I
3 Credits  Offered Fall Semester

English 291 introduces the principles and techniques of poetry writing, examined through exercises and discussions of student and professional writing. Exact content will depend on student preference.

This course helps develop a personal, advanced writing style and an appreciation of literary forms. An above average writing ability and some familiarity with literature are necessary. Prior completion of ENGL 175 with a grade of C- or better is required.

ENGL 292  Creative Writing II
3 Credits  Offered Spring Semester

English 292 introduces the principles and techniques of fiction and nonfiction writing, examined through exercises and discussions of student and professional writing. Exact content of the course will depend on student preference.

This course helps develop a personal, advanced writing style and an appreciation of literary forms. Above average writing ability and some familiarity with literature are necessary. Prior completion of ENGL 175 with a grade of C- or better is required.
**English as a Second Language**

ESL 090  
1-2 Credits  
Offered On Demand

ESL 090 is a lab course for students who wish to master spoken English. It emphasizes idioms, pronunciation, and language styles appropriate for informal and formal situations both on and off campus.

This course is designed for students whose native language is not English. It will be individualized to suit student objectives and may be repeated for a total of four credits. Graded either satisfactory or unsatisfactory.

ESL 100  
4 Credits  
Offered On Demand

ESL 100 is an intensive review of the grammar and sentence structures of written English. Particular attention is given to complex verb forms, verbal phrases, models, prepositions, and modifiers. Basic sentence strategies. Attendance at the language laboratory is required.

This course prepares students to compete successfully with native English speakers in an academic setting and provides an important language base for students planning to enter English composition courses. It is designed for students whose native language is not English. Students must have earned a minimum score of 500 on the Test of English as a Foreign Language (TOEFL). The course may be repeated for a total of eight credits. Placement is determined by instructor.

ESL 101  
3 Credits  
Offered On Demand

ESL 101 helps non-native speakers of English to understand and produce the kind of academic writing required in college. Emphasis is on the most common and effective formats of academic writing and on editing for accuracy of expression, grammar, and sentence structure.

This course is valuable for building fluency in written expression. It prepares students for success in competing with native English speakers in college writing courses. A working knowledge of English grammar and basic sentence strategies is required. Students must have earned a minimum score of 500 on the Test of English as a Foreign Language (TOEFL). The course may be repeated for a total of eight credits. Placement determined by instructor.

**Environmental Science**

ENSI 119  
Introduction to Environmental Science  
3 Credits  
Offered Both Semester

The content of this course may vary somewhat with class interest, current world affairs, and instructors. The topics covered generally include air and water pollution, land use, biocides, resource and energy crises, nuclear energy and radiation, population, world food supply, food additives, and environmental ethics. This course satisfies a laboratory science course requirement for the A.S. degree. It includes three hours of lecture and one two-hour lab [ENSI 119L] each week. Prior completion of Math 025 or its equivalent is strongly recommended.

ENSI 119L  
Introduction to Environmental Science Lab  
1 Credit  
Offered Both Semester

This laboratory accompanies Environmental Science 119 and includes one two-hour laboratory per week. Some Saturday field trips may be required. Prior completion of Math 025 or its equivalent is strongly recommended.

**Foreign Language**

One full year of high school study in a foreign language is generally considered equivalent to one semester's work in college. To receive college credit for high school or independent work, a student must take an advanced placement examination in the target language and complete the next semester advanced level with a grade of "C" or better. Placement in and completion of the second elementary level or first intermediate level will enable a student to get credit for the first elementary level; placement in and completion of the second semester intermediate level will enable a student to get credit for the first three semesters of the target language.

FLAN 106  
Collaborative Cultural Exchange Program  
1-2 Credits  
Offered Either Semester

This course is designed to match non-native speakers of English with American, or other native English students, to the mutual benefit of both. They will study and converse with one another in a structured and monitored situation, working on projects in established courses and in short-term EFL programs. The course may be repeated for a total of three credits.

FLAN 207  
Contemporary World Cultures  
3 Credits  
Offered Each Semester

Foreign Language 207 examines a single national culture in terms of its historical background and expression in contemporary life, language, institutions, literature, art, music, and lifestyles.

This course provides a basis for comparative cultural studies for students interested in multicultural or international scholarship. It meets the cultural diversity requirement for the A.A. degree and satisfies an arts and humanities requirement for the A.S. degree. The national culture selected for study may change each semester, allowing students to repeat the course for elective credit. Prior completion of other courses is not necessary.

FREN 101  
Elementary French I  
4 Credits  
Offered Fall Semester

The first semester of Elementary French is designed for students with no previous language study. This course
COURSE DESCRIPTIONS

provides training in the acquisition and application of basic language skills and culture. A laboratory is included in the course.

Successful completion of FREN 101 and FREN 102 allows entry into the intermediate level courses that satisfy the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree. Prior completion of other courses is not required.

FREN 102  
Elementary French II  
4 Credits  
Offered Spring Semester

This course is the second semester of Elementary French. Elementary French II continues training in the acquisition and application of basic language skills and culture. A laboratory is included in the course.

Successful completion of this course gives students the required skills to take the intermediate level courses which satisfy the cultural diversity requirement of the A.A. degree or one of the arts and humanities requirements for the A.S. degree. Prior completion of FREN 101 with a grade of C- or better is required.

FREN 103  
French Language Laboratory  
1 Credit  
Offered Each Semester

The French language lab provides individualized, self-paced practice in listening comprehension, pronunciation, and grammatical structure through use of an audio-laboratory facility. The lab assists development of language fluency through additional practice. The lab is an elective supplement to classroom studies and is graded on a satisfactory/unsatisfactory basis. It may be repeated for a total of two credits.

FREN 104  
Conversation Course: Open Door to French, Level I  
2 Credits  
Offered Each Semester

This course emphasizes conversation skills, contemporary language, and culture. Its content is designed to meet the professional or leisure linguistic needs of the community. Prior completion of other courses is not required.

FREN 105  
Conversation Course: Open Door to French, Level II  
2 Credits  
Offered Each Semester

FREN 105 is a continuation of FREN 104. This course is designed to meet the linguistic needs of the community. Prior completion of FREN 104 with a grade of C- or better is required.

FREN 201  
Intermediate French I  
4 Credits  
Offered Fall Semester

Intermediate French provides training in the acquisition and application of basic language skills and culture. A laboratory is included in the course. It satisfies four credits of the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree. Prior completion of FREN 102, its equivalent, or permission of the instructor is required.

FREN 202  
Intermediate French II  
4 Credits  
Offered Spring Semester

The second semester of Intermediate French provides additional training in the acquisition and application of basic language skills and culture. A laboratory is included in the course.

Intermediate French II satisfies four credits of the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree. Prior completion of FREN 201 with a grade of C- or better is required.

GERM 101 (Formerly GERM 121)  
Elementary German I  
4 Credits  
Offered Fall Semester

The first semester of Elementary German is designed for students with no previous language study. This course provides training in the acquisition and application of basic language skills and culture. A laboratory is included in the course.

Successful completion of GERM 101 and GERM 102 allows entry into the intermediate level courses that satisfy the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree. Prior completion of other courses is not required.

GERM 102 (Formerly GERM 122)  
Elementary German II  
4 Credits  
Offered Spring Semester

This course is the second semester of Elementary German and continues training in the acquisition and application of basic language skills and culture. A laboratory is included in the course.

Completion of this course provides the required skills for intermediate level courses which satisfy the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree. Prior completion of GERM 101 with a grade of C- is required.

GERM 123  
German Language Laboratory  
1 Credit  
Offered Each Semester

The German Language Laboratory provides individualized, self-paced practice in listening comprehension, pronunciation, and grammatical structure through the use of an audio-laboratory facility.

It assists development of language fluency through additional practice in the language and is an elective supplement to classroom studies. This course is graded on a satisfactory/unsatisfactory basis. It may be repeated for a total of two credits.

GERM 124  
Conversation Course: Open Door to German Level I  
2 Credits  
Offered Each Semester

This course emphasizes conversation skills, contemporary language, and culture. Its content is designed to meet the professional or leisure linguistic needs of the community. Prior completion of other courses is not required.
GERM 125  Conversation Course: Open Door to German Level II
2 Credits  Offered Each Semester

GERM 125 is a continuation of GERM 124. This course is designed to meet the linguistic needs of the community. Prior completion of GERM 124 with a grade of C- or better is required.

GERM 201 (Formerly GERM 221)  Interm. German I
4 Credits  Offered Fall Semester

Intermediate German provides training in the acquisition and application of basic language skills and culture. A laboratory is included in the course.

This course satisfies four credits of the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree. Prior completion of GERM 102, its equivalent, or permission of the instructor is required.

GERM 202 (Formerly GERM 221)  Interm. German II
4 Credits  Offered Spring Semester

The second semester of Intermediate German provides additional training in the acquisition and application of basic language skills and culture. A laboratory is included in the course.

This course satisfies four credits of the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree. Prior completion of GERM 201 with a grade of C- or better is required.

JAPA 123  Conversation Course: Open Door to Japanese Level I
2 Credits  Offered Fall Semester

This introductory course is designed for students who wish to learn elementary communication skills in Japanese. Subjects discussed include travelling, food, lodging, shopping and customs. Students will gain practical conversation skills and become familiar with cultural differences likely to be encountered in Japan.

JAPA 124  Conversation Course: Open Door to Japanese Level II
2 Credits  Offered Spring Semester

This course is a continuation of Japanese 123. Prior completion of Japanese 123 with a grade of C- or better is required.

SPAN 101 (Formerly SPAN 181)  Elementary Spanish I
4 Credits  Offered Fall Semester

This introductory course in Spanish language is based on the study of vocabulary, grammar, and pronunciation. It emphasizes the development of proficiencies in speaking, reading, listening, and writing. Students will enhance their understanding of the language, culture, and geography of the Hispanic world. A laboratory is included in the course. Prior completion of other courses is not required.

SPAN 102 (Formerly SPAN 182)  Elementary Spanish II
4 Credits  Offered Spring Semester

This course is a continuation of SPAN 101, emphasizing further development of basic language fluency. A laboratory is included in the course. Prior completion of SPAN 101 with a grade of C- or better is required.

SPAN 183  Spanish Language Lab
1 Credit  Offered Each Semester

This course is an independent language study for students who plan to enter a more advanced course or who have taken all available language courses. It may be repeated for a total of two credits and is graded on a satisfactory/unsatisfactory basis.

This lab allows students to develop listening and oral skills and gain additional practice for language fluency. Permission of the instructor is required for enrollment.

SPAN 184  Conversation Course: Open Door to Spanish Level I
2 Credits  Offered Each Semester

This introductory course is designed for students who wish to learn elementary communication skills in Spanish. Subjects discussed include travelling, food, lodging, and shopping.

Student will gain practical conversation skills and become familiar with cultural differences likely to be encountered in the Hispanic world.

SPAN 185  Conversation Course: Open Door to Spanish Level II
2 Credits  Offered Each Semester

This is a continuation of SPAN 184. Prior completion of SPAN 184 with a grade of C- or better is required.

SPAN 201 (Formerly SPAN 281)  Interm. Spanish I
4 Credits  Offered Fall Semester

Intermediate Spanish further develops Spanish fluency with an emphasis on conversation, reading, grammar, and composition. The culture and literature of Spain and Latin America are also examined.

This course provides a continuation and refinement of language skills and greater depth in the study of cultural aspects. It meets the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree. Laboratory work is included. Prior completion of SPAN 102 or an appropriate language placement test score is required.

SPAN 202 (Formerly SPAN 282)  Interm. Spanish II
4 Credits  Offered Spring Semester

Spanish 202 is a continuation of SPAN 201. This course has the same degree applications as SPAN 201. Laboratory work is included. Prior completion of SPAN 201 with a grade of C- or better is required.
SPAN 205  Interm. Spanish Conversation  4 Credits  Offered Spring Semester  
This course is for students who wish to further their conversational skills in Spanish at the intermediate level. The emphasis is on the development of oral and written discourse skills, and on the acquisition of cultural and linguistic knowledge related to specific Spanish-speaking countries. This course is conducted entirely in Spanish. Prior completion or concurrent enrollment in SPAN 202 or permission of the instructor is required.

Geography

GEOG 100  Physical Geography  3 Credits  Offered Each Semester  
Physical Geography is an introduction to the earth sciences. It emphasizes atmospheric sciences (weather and climate), landforms, water resources, native plants and animals, and soils. Concurrent enrollment in GEOG 100L is required. In combination with GEOG 100L, this course satisfies a laboratory science course requirement for the A.S. and A.A. degrees. This course includes three hours of lecture and one two-hour lab (GEOG 100L) each week. Prior completion of other courses is not necessary.

Geology

GEOL 101  Physical Geology  4 Credits  Offered Each Semester  
Physical Geology is the study of the origin and development of the earth. It includes the detailed study of the development of the earth's crust, its minerals, rocks, volcanoes, glaciers, mountains, and continents.

This course provides an understanding of the natural and physical processes of the planet earth and an appreciation for the impact geology has on everyday life. Concurrent enrollment in GEOL 101L is required. In combination with GEOL 101L, this course satisfies a laboratory science course requirement for the A.S. and A.A. degrees. It includes three hours of lecture and one two-hour lab (GEOL 101L) each week. Prior completion of other courses is not required.

GEOL 102 (formerly GEOL 106)  Historical Geology  4 Credits  Offered Each Semester  
Historical Geology is an introduction to the principles and interpretation of geologic history. It emphasizes the evolution of the earth's lithosphere (crust), atmosphere, and biosphere through geologic time. This course includes consideration of the historical aspects of plate tectonics, the geologic development of North America, and important events in biological evolution and the resulting assembly of fossils.

Geology 102 provides an appreciation for the vast extent of geologic time, the natural processes affecting change on the earth, and the identification of common fossil types. The course satisfies a laboratory science requirement for the A.S. degree. It includes three hours of lecture and one two-hour lab (GEOL 102L) each week. Previous or concurrent enrollment in GEOL 101 is helpful. Concurrent enrollment in GEOL 102 is required.

GEOL 123  Geology of Idaho & the Pacific Northwest  4 Credits  Offered on Demand  
Geology 123 is the study of the geologic history of Idaho and the Pacific Northwest. It examines the development of existing geologic structures and rock types, focusing on the development and distribution of major topographic and scenic features. Included are field trips to areas of important mineral and gem occurrences.

This course provides an appreciation for the development and distribution of geologic natural resources in the region. It includes three hours of lecture and one two-hour lab (GEOL 123L) each week. Prior or concurrent enrollment in GEOL 101 is recommended.

GEOL 255  Systematic Mineralogy  4 Credits  Offered Spring Semester on Demand  
Systematic Mineralogy studies the classification and determination of minerals by physical, chemical, and crystallographic properties. It emphasizes occurrences, identification, and uses of the silicate minerals and the non-silicate ore and rock-forming minerals. The weekly three-hour laboratory will include hands-on testing and identification of mineral samples and field trips to significant mineral locations.

Students learn to recognize and identify many important ore and industrial minerals, while gaining an enhanced appreciation for the application of mineral resources to everyday life. Some background in chemistry is helpful. This course includes three hours of lecture and one two-hour lab (GEOL 255L) each week. Prior completion of GEOL 101 and 101L is required.

Heating, Ventilation, Refrigeration, & Air Conditioning

Note: Students enrolled in this program are required to earn a grade of C- or better in their classes or receive instructor permission in order to advance to the next semester.

HVAC 161  HVAC/R Principles  3 Credits  Offered Fall Semester  
This course is designed to explore the common aspects of HVAC/R technology. Discussion will focus on such topics as psychrometrics, air distribution and balance, as well as system installation and controls. This is a required class in the HVAC/R program. Current industry professionals who want to update skills are invited to take this class as a stand alone course.

HVAC 161L  HVAC Lab I  5 Credits  Offered Fall Semester  
This course provides an opportunity to apply and practice the theories taught in HVAC/R Principles, HVAC/R Electrical and HVAC Heating Systems. Safety principles
and procedures used in the field are also emphasized in this lab class. Students enrolled in the HVAC/R program are required to take this class concurrently with theory classes.

**HVAC 165**  
4 Credits  
**HVAC/R Electrical**  
Offered Fall Semester

Basic electrical safety and electrical theory such as Ohms Law, circuit schematics and circuit characteristics/symbols will be discussed as it specifically applies to DC and AC circuits in the HVAC/R industry. Additional areas of study will include basic control circuits, sequence of operation for basic HVAC/R applications and electric motor theory, as well as specific information on HVAC/R electrical component devices.

Both electrical testing and troubleshooting methods are taught and practiced in the classroom. HVAC/R professionals are invited to take this class as a refresher to update skills. Students enrolled in the HVAC/R program are required to take this class as part of their program.

**HVAC 167**  
4 Credits  
**HVAC Heating**  
Offered Fall Semester

This course will focus on basic heat transfer theory and concepts. Several specific areas of study will be covered including the different mediums used for heat transfer, electric heat systems and fossil fuel systems (natural gas, propane and fuel oil). Each system will be discussed in detail. Residential and light commercial system applications will be made throughout the program.

Industry professionals currently working in the HVAC/R field, who want to update skills are encouraged to take this class as a stand alone course. Students enrolled in the HVAC/R program are required to take this class as part of their program.

**HVAC 171L**  
5 Credits  
**HVAC/R Lab II**  
Offered Spring Semester

This lab provides students an opportunity to apply and practice the theories taught in HVAC Systems, HVAC/R Heating, HVAC/R Codes and Licenses and HVAC/R Principles. Safety principles and procedures used in the field will be a major focus of this lab. Students enrolled in the HVAC/R program are required to take this class concurrently with theory classes.

**HVAC 175**  
4 Credits  
**HVAC Systems**  
Offered Spring Semester

HVAC systems that utilize the refrigeration cycle will be the main focus of this class. Refrigeration, as it applies to air conditioning, typical operation conditions, heat pumps, room air conditioners, and furnaces, as well as AC combined, will be covered during this course. In addition, students will have the opportunity to explore troubleshooting methods for HVAC systems.

Students enrolled in the HVAC/R program are required to take this class as part of their program. Industry professionals currently working in the HVAC/R field, who want to update skills are encouraged to take this class as a stand alone course.

**HVAC 177**  
4 Credits  
**Refrigeration**  
Offered Spring Semester

This course will introduce students to the refrigeration cycle. In addition, it will concentrate on the major components and flow control devices that are used in a refrigeration system. Major topics covered will include refrigeration and refrigerants, system evacuation, refrigerant management, system charging, evaporators, condensers, compressors and flow controls. Focus will also be placed on applications and system troubleshooting practices.

Students enrolled in the HVAC/R program are required to take this class as part of their program. Industry professionals currently working in the HVAC/R field, who want to update skills are encouraged to take this class as a stand alone course.

**HVAC 180**  
3 Credits  
**HVAC/R Codes and Licenses**  
Offered Spring Semester

Material covered in this course will give students the information needed to successfully pass the Gas Fitter License exam needed for the EPA refrigerant certificate and oil license exams. Students will have the opportunity to take both of these exams during the semester. Students enrolled in the HVAC/R program are required to take this course as part of their program. Current industry professionals that want to update skills are invited to take this class as a stand alone course. Students enrolled in the HVAC/R program are required to take this class as part of their program.

**History**

**HIST 101**  
3 Credits  
**History of Civilization to 1500**  
Offered Each Semester

History 101 explores important chapters of the human past from the earliest civilizations through the middle ages. It focuses on Western cultures which have most influenced ours: Hebrew, Greek, Roman, barbarian, and medieval European. The course considers how people, ideas, and events are interconnected across such broad-ranging fields as politics, religion, social movements, technology, and the arts.

History of Civilization is recommended for all students seeking a broad background of general knowledge, whether as the foundation of a liberal arts education, out of curiosity, or to be well informed. It develops critical thinking skills essential in every career. It meets a social science requirement for A.A. and A.S. degrees. Previous successful completion of, or concurrent enrollment in, English 101 is recommended. Good reading skills are recommended.

**HIST 102**  
3 Credits  
**History of Civilization Since 1500**  
Offered Each Semester

History 102 explores human society’s development and variety from the Renaissance to today, focusing on Western culture. It examines such world-changing events
and ideas as the reformation and the age of discovery, the scientific revolution and enlightenment, the rise of nationalism and world war, technological change and "future shock." Students will consider how the past affects the present and future.

History of Civilization is recommended for any liberal arts program, and is required for many degrees and majors. It provides an excellent opportunity for students to discover how all fields of knowledge fit together into a big picture. It meets a social science requirement for A.A. and A.S. degrees. Previous successful completion of, or concurrent enrollment in, English 101 is recommended. Previous completion of HIST 101 is not required. Good reading skills are highly recommended.

HIST 111 United States History: Discovery Through Reconstruction
3 Credits Offered Each Semester

History 111 offers a broad chronological overview of U.S. History which deals with political, economic, social, and cultural development from the Pre-Columbian period through post-Civil War Reconstruction (c. 1876). Attention is focused on differing historical interpretations, and on themes which illuminate current events.

This course serves as partial fulfillment of the social science requirement for A.A. and A.S. degrees, and is transferable to regional four-year institutions. Because students are expected to participate in discussion and to perform in writing, successful completion of the English and reading proficiency examinations is recommended. No course prerequisite.

HIST 112 United States History: Gilded Age through the Present
3 Credits Offered Each Semester

History 112 offers a broad chronological overview of U.S. History which deals with political, economic, social, and cultural development from the Gilded Age (c. 1876) through the present. Attention is focused on differing historical interpretations, and on themes which illuminate current events.

This course serves as partial fulfillment of the social science requirement for A.A. and A.S. degrees, and is transferable to regional four-year institutions. Because students are expected to participate in discussion and to perform in writing, successful completion of the English and reading proficiency examinations is recommended. No course prerequisite.

HIST 204A Writing a Personal Family History
(Same as ENGL 204A)
3 Credits Offered Spring Semester

History 204A assists any student, beginner or experienced, in researching and writing a personal or family history. Students learn to use oral history, family folklore, genealogical research in private and public records, and techniques to make writing interesting. Included are field trips to major archives.

Writing a Personal Family History provides an excellent opportunity to develop research and writing skills while pursuing a project of great personal value. This elective is recommended for history and English majors and minors as a way to put theory into practice. No research experience is required, but English 103 level writing skills are advised. Those who wish to participate without submitting research and writing for evaluation should take the course for zero credit. Prior completion of other courses is not necessary.

HIST 204B Oral History Research
3 Credits Offered on Demand

Oral History Research uses audio or videotape to record the first-hand experiences and knowledge of men and women who have helped shape North Idaho history. Each student will choose a topic of special interest and prepare a series of interviews to be preserved for the future in the regional oral history archive, housed in the NIC Library.

History 204B provides guided practice in one of today's historians most indispensable research techniques, as well as a chance to make a significant contribution to the community. This transferable elective is recommended for history majors, future teachers, and those with an interest in preserving local history.

Students should own or borrow an audio cassette tape recorder or video camcorder with a microphone and furnish their own blank tapes. Prior completion of other courses is not required.

HIST 210 Intro. to Modern Latin American History
3 Credits Offered Spring Semester

This course provides a survey of economic, political, social and cultural developments in selected Latin American countries each of which represents a larger region, from independence to the present. Students are expected to read and write at college level and will be required to participate in discussions.

Hospitality

The curriculum for the Hospitality Program is currently under review. For information contact the Business Division at (208) 769-7784.

Humanities

HUMS 101 Montage: Introduction to the Humanities
(Formerly HUMN 101)
3 Credits Offered Each Semester

This course explores how the humanities, through many varied types of creative works, comment on human experience and raise questions of value and meaning. Students will learn an approach to understanding a wide variety of works in art, music, literature, and philosophy, based on questions applicable to all genres. The course is highly interactive, with frequent class discussion and informal written responses to works being explored.
This course provides a good foundation for further humanities study in courses focusing on one particular field such as literature, philosophy, or the arts. It is an ideal course for students who intend to focus on areas other than the humanities, but wish to broaden their education. It fulfills an arts and humanities requirement for the A.A. and the A.S. degrees. Prior completion of, or concurrent enrollment in, ENGL 101 is required.

Human Services

NOTE: Application and acceptance into the Human Services AAS degree program is required before enrolling in courses numbered 220 or above.

HSS 101 Introduction to Human Services 2 Credits
Not currently available

This course defines and describes the history of human services. Agencies, institutions, and programs which help meet human services needs are studied in the broad context of social and political systems. Various human service worker roles are explored with emphasis on the mental health technician. Concurrent enrollment in ALTH 101 is required.

HSS 102 Introduction to Human Services Lab 1 Credit
Not currently available

This weekly three-hour lab course provides the student an opportunity to explore health careers that may be of interest. It assists the student to develop beginning observation, recording, and reporting skills based on their selected field exploration areas. Students will conduct health care provider interviews and participate in on-the-job shadowing experiences. This is a required course for students interested in applying for the Mental Health Technician Certificate and/or the Human Services Associate of Applied Science program. All students who have a sincere interest in exploring health and human services career options are welcome. Concurrent enrollment in HSS 101 is required.

HSS 107 The Helping Process 1 Credit
Offered Spring Semester

This course focuses on helping goals, principles, and therapeutic communication techniques that entry-level workers can employ in working with human services clients. It uses a problem-management model to enhance student understanding of the helping process. Concurrent enrollment in HSS 108 is required.

HSS 108 Helping Skills Lab 1 Credit
Offered Spring Semester

This course provides the student with an overview of a problem-management model of helping and opportunities to practice a variety of therapeutic approaches and strategies. Prior completion of COMM 233, PSYC 100, and ALTH 101/102 is required.

HSS 220 Crisis Intervention 3 Credits
Offered On Demand

This course provides an introduction and overview of crisis theory and management. It will assist human services students in developing the necessary skills and attitudes appropriate for working with individuals and families in crisis. Completion of the Mental Health Technology Certificate or concurrent enrollment in MLTH 121 is required.

HSS 221 Human Services Field Experience & Seminar I 5 Credits
Offered On Demand

Students obtain on-the-job training in selected human services settings. Helping and problem management principles are applied under agency supervision. Weekly seminars provide opportunities for students to share experiences, debrief, and obtain faculty assistance in applying classroom concepts to the field experience. Prior completion of, or concurrent enrollment in HSS 220 is required.

HSS 230 Case Management and Human Services 3 Credits
Offered On Demand

This course provides the student with the knowledge and skills required to perform case management services with clients in a variety of program settings. Discusses activities the case manager performs in the service of the client, ensuring to the maximum extent possible, that the client has access to, and receives all resources and services which can help the client reach the maintain his optimal level of functioning. Case management standards, responsibilities and obligations will be incorporated. Prior completion of HSS 220 is required.

HSS 231 Human Services Field Experience & Seminar II 3 Credits
Offered On Demand

This practicum experience provides students the opportunity to apply previous and current course concepts to individual clients and groups in an area of special interest to the student. Weekly on-campus seminars provide opportunities for students to share experiences, debrief, and obtain faculty assistance in applying classroom concepts to the field experience. Prior completion of HSS 220 and concurrent enrollment in HSS 230 are required.

Journalism

COMJ 100 Sentinel (NIC Newspaper) Staff 1-2 Credits
Offered Each Semester

This course provides practical training and application of journalism theory and techniques. Students are considered as staff members of The Sentinel, the NIC student newspaper. Students work in a variety of positions corresponding to those in a professional journalistic organization. Sentinel staff students learn the practical workings of a newspaper, including reporting, editing, design, layout,
COURSE DESCRIPTIONS

paste-up, computer-based technologies, and advertising. Writing and design projects contribute to the student's portfolio and provide the basis for refining journalistic skills supporting career development. The course may be repeated for a total of ten credits. Prior completion or concurrent enrollment in COMJ 121 or permission of instructor is required.

COMJ 121 News Writing
3 Credits
Offered Fall Semester

This course provides an introduction to the principles of news writing, focusing on organization and writing methods for news media. Students develop news stories in lab and outside of class.

Mastering the basics of news writing, students will improve their abilities to participate as members of communications professions in print, broadcast, and corporate areas. Prior completion of ENGL 101, some typing ability, or permission of instructor is required.

COMJ 140 Mass Media in a Free Society
3 Credits
Offered Spring Semester

Mass Media in a Free Society examines how and why today's American media works: their development, successes, and failures. Career options are explored through media facilitated tours and guest presentations by working media professionals.

After completion of COMJ 140, students will know if a media career is an option to pursue. All students will gain a clear view of themselves as media consumers. Many topics that will be covered extensively in upper division course work will be introduced. Prior completion of other courses is not necessary.

COMJ 222 Reporting
3 Credits
Offered Spring Semester

Reporting provides practical experience working with different types of new sources. Students gather and write articles about on- and off-campus events. Assignments include writing multi-source stories, features, editorials, columns, and research pieces. The course includes some "deadline critical" situations corresponding to professional newspaper practices.

Students learn and exercise the duties of a reporter in preparation for advancement to upper division college course work and career development in journalism. Prior completion of COMJ 121 is necessary.

COMJ 254 Editing
2 Credits
Offered Spring Semester

This course studies the elementary principles of newspaper makeup and fundamentals of editing copy and photographs. It includes practice in news selection and evaluation, writing headlines and photo captions, and newspaper design and composition. The course uses Apple Macintosh computers for desktop publishing. Students learn and practice the responsibilities of an editor, including copy reading and measuring, article evaluation, headline, page design, and photo editing. Skills gained contribute to portfolio development and career preparation. Prior completion of COMJ 121 is required.

COMJ 298 Journalism Practicum
2 Credits
Offered Each Semester

Journalism Practicum provides on-the-job training and experience through a four-hour weekly internship in a media-related work place.

Developed as a "contract" agreement between the student intern and a "host" organization, the practicum offers practical work experience supporting preparation for upper division college studies or career entry. Students seeking clarification of career direction or "real-world" experience will benefit. Prior completion of COMJ 121 or permission of instructor is necessary. This course may be repeated for a total of eight credits.

Law Enforcement

NOTE: LAWE 103, LAWE 204 and LAWE 241 may be taken without requiring the student to be accepted into the sophomore Law Enforcement Block. All other LAWE courses require application and acceptance into the sophomore Law Enforcement Block before enrolling.

LAWE 103 Introduction to Criminal Justice
3 Credits
Offered Each Semester

This course offers an introduction to the purpose, function, and broad history of the agencies dealing with criminal justice, while presenting a survey of requirements for entering criminal justice service. Students discuss crime, the criminal, traffic, and vice as social problems; the function of the courts; prosecution and defense attorneys; correctional and penal institutions; and probation and parole.

This course will introduce the student to the various agencies and employment opportunities within the criminal justice system.

LAWE 219 Self Defense
3 Credits
Offered Each Semester

This course covers the use of force, baton training, pepper spray training, handcuffing techniques, people search, firearms liability, safety, inspection and maintenance, basic marksmanship, day and night range practice, and handgun and shotgun qualifications. Classroom and hands-on training in the above areas are integral to this course. Students must demonstrate skills taught and pass the Idaho POST firearms qualifications courses for handgun and shotgun.

LAWE 220 Basic Police Law
2 Credits
Offered Each Semester

This course is the study of basic police law as it relates to the U.S. Constitution, the Idaho Code, liquor laws, rules of evidence, criminal law, arrest, search and seizure, traffic code, and Idaho Fish and Game Laws. When they have completed the course, students will be able to determine traffic offenses, criminal offenses, probable cause for arrest and how to process cases.
LAWE 221  Professional Orientation  1 Credit  Offered Each Semester
This course studies the human dimensions of the police profession including standards for police ethics and professionalism, media relations, crime prevention and human relations.

LAWE 222  Police Procedures  2 Credits  Offered Each Semester
This course teaches fundamental patrol skills such as searching buildings, operating emergency vehicles, and writing reports. Also examined are jail procedures, communication methods, officer survival, courtroom demeanor, and courtroom testifying.

LAWE 223  Patrol Procedures  1 Credit  Offered Each Semester
This course teaches patrol procedures and techniques for crimes in progress including responding to armed robberies, low-risk, high-risk, and felony traffic stops, prowler calls, hostage situations, and domestic disputes.

LAWE 224  Practical Problems  1 Credit  Offered Each Semester
This course provides an opportunity for the student to demonstrate and utilize classroom skills in simulations and exercises in the following areas: crime scene investigation, warrant application, traffic stops, arrest situations, and domestic disputes.

LAWE 225  Investigation  3 Credits  Offered Each Semester
This course provides theory, techniques, and procedures for the investigation of traffic accidents, auto theft, juvenile crimes, allegations of child abuse, DUI situations and suspicious deaths. Techniques and procedures explored include drug identification, protection of crime scenes, collection of evidence, fingerprinting and interviewing and interrogation.

LAWE 226  Enforcement Skills  1 Credit  Offered Each Semester
This course provides hands-on training in handgun retention, arrest and control techniques, and handling hazardous materials.

LAWE 228  Police Physical Fitness  1 Credit  Offered Each Semester
This course provides physical health and conditioning methods for Law Enforcement students. Included are work on agility, flexibility, and conditioning. Students must pass the Idaho POST Physical Fitness Test.

LAWE 240  Administration of Justice  3 Credits  Offered Fall Semester
This course will introduce management principles and concepts as they relate to law enforcement organizations. Emphasis will be placed on empowering personnel to accomplish organizational goals. Topics to be discussed include: leadership and management, strategies for fostering integrity, strategic planning, communications as a vehicle, delegation and participation, team effectiveness, time management and developing action plans for total quality services. Previous completion of all freshman courses in the Administration of Justice program and permission of the instructor is required.

LAWE 241  Administration of Justice  3 Credits  Offered Spring Semester
A continuation of LAWE 240, this course develops management theories and practices. Application of these concepts is emphasized, with special attention to community and problem oriented policing. Current and future trends in law enforcement administration will be discussed. Topics to be discussed include: community oriented policing, problem oriented policing, policing by objectives, the budget process, political relationships, police associations and unions, the news media, collective bargaining, problem employees, disciplinary guidelines, employee assistance programs, stress management, and future trends in law enforcement. Prior completion of LAWE 240 is required.

LAWE 290  Law Enforcement Theory  3 Credits  Offered Each Semester
LAWE 290 meets weekly to evaluate, critique, and document intern performance and experiences. It incorporates specialized or refresher training as needs arise during the intern experience. Prior completion of LAWE 219-228 is required.

LAWE 293  Law Enforcement Internship  10 Credits  Offered Each Semester
This is a structured internship experience within local law enforcement agencies designed to match the student's abilities and career goals. Students are in uniform and will function in a law enforcement position under the direct supervision of a selected, experienced law enforcement officer. Students are evaluated on a daily basis in accordance with the agency's established training policies for new officers. The student will be expected to participate in the service activities being performed by the supervising officer. Prior completion of LAWE 219-228 is required.

Library Skills
LIBS 120  Introduction to Library Research Strategies  1 Credit  Offered Each Semester
Introduction to Library Research Strategies is intended to enhance the research skills of students enrolled in college transfer programs. This course provides instruction in the use of the public catalog, periodical indexes, reference works, library classification systems, computer information systems and basic research techniques. Students are introduced to a variety of services and resources offered by libraries that are essential to most college programs. Prior completion of other courses is not required.
Course Descriptions

Machine Technology

Note: Course enrollment requires prior acceptance into the Machine Technology Program.

MACH 151 Machining Technology I
3 Credits Offered Fall Semester

This basic course consists of measuring instruments and their use, use of hand tools, knowledge of operating machine sections, cutting tools, machine set-up for lathes, components of a milling machine, safety, and machining preparation. Machining Technology Theory is necessary for the safe, efficient operation of machine tools. This course stresses the importance of shop rules and machine tool safety. A lab book is supplied to students at the beginning of the course.

MACH 152L Machining Technology Laboratory I
7.5 Credits Offered Fall Semester

This lab is a continuation of MACH 151 Lab. Students continue to progress through different machines and methods with their projects. Students are given outside work to improve machining skills. Tools learned in theory classes are transferred to the shop projects.

MACH 160 Manufacturing Processes
3 Credits Offered Spring Semester

This course covers manufacturing strategies from interchangeability of parts to third wave production techniques and "design for assembly." The instructor will supplement the text with information on common scheduling, inventory, and shop floor control techniques. Major topics include sections on metallic materials, thermoplastics, thermosetting plastics, adhesives, ceramic materials, natural materials, and composite and engineered materials. Each section covers historical information, forming, separating, joining, conditioning, and finishing for each of the major categories. The class closes with a section on automated production processes and computer-integrated manufacturing. The material covered in this class is geared for Machine Technology students, although engineering and other applied technology students would benefit from the content of this class. The student's understanding of the materials presented here will have a positive impact on his/her decisions in their chosen areas of work.

MACH 171 Blueprint Reading 1
2 Credits Offered Fall Semester

Blueprint reading consists of a series of exercises involving visualization skills. This series takes students from basic knowledge to a point where they can interpret simple orthographic blueprints. Blueprint reading is essential to the student who wishes to become familiar with the visual representation of how a machine is constructed. Prior completion of MACH 151 and MACH 152L is required.

MACH 172 Blueprint Reading II
3 Credits Offered Spring Semester

Blueprint Reading is a continuation of MACH 171. Students learn to interpret increasingly difficult drawings and geometric tolerance prints.

MACH 180 Machining Technology II
1 Credit Offered Spring Semester

This course introduces the student to metals and nonmetals used in manufacturing and machining processes. The student will learn strength-to-weight ratios, tensile strengths, uses, advantages, disadvantages, and costs of using different materials in the manufacturing of parts and assemblies. The student will also learn how these materials are made and handled, as well as how they might be alloyed.

MACH 185 Statistical Process Control, Quality Control and Inspection Techniques and Mechanical Measurements
1 Credit Offered Spring Semester

The topics covered in this class are geared towards real life application in the machine trades. The course will concentrate on the statistical concepts of mode, median, mean and standard deviation for both samples and populations. Success is dependent on being able to read precision measuring instruments and to use these on real manufactured parts for data gathering. The lab component of this class will address the application of different methods of inspection and measurement of mechanical parts. Activities will include measuring instruments, gauging equipment, work holding methods, and surface finishes. The lab application will utilize tools found in machine shops and inspection departments.

MACH 231 Computers in Machining
3 Credits Offered Fall Semester

This course will introduce the student to the use of computers as associated with the manufacturing industry. The student will learn CAD/CAM practices, production management, quality control documentation, and how robots interface with machining. The students will be required to use microcomputers to create, edit, and process files and programs.

MACH 253L Advanced Machining Laboratory I
6 Credits Offered Fall Semester

This course teaches hands-on use of advanced machining tools and equipment. The student will become familiar with precision grinders, advanced milling, advanced grinding, and computer numerical control (CNC) machine tools, and computer-aided drafting - computer-aided machinery (CAD-CAM). Prior completion of MACH 151L and MACH 152L is required.
MACH 254L Advanced Machining Laboratory II
7 Credits Offered Spring Semester

This course involves hands-on experience under work-like conditions and in-depth CNC projects. Students will learn to make parts and complete repairs according to customer specifications with a minimum of supervision. Upon successful completion of this course, students should have the necessary skills to be employed as an entry-level machinist. Prior completion of MACH 253L is required.

MACH 273 Intermediate Blueprint Reading
2 Credits Offered Fall Semester

Students learn interpretation of advanced blueprints and drawings. This course includes complex and datum dimensioning as well as making sketches and working drawings. Advanced Blueprint Reading is necessary if students are to accomplish the projects and tasks given in the lab or work place. It will enable students to interpret nearly any type of print or drawing with which they may come in contact. Prior completion of MACH 171 is required.

MACH 274 Geometric Dimensioning & Tolerancing
2 Credits Offered Spring Semester

This course introduces the student to the concepts used in the machine trades known as GD&T. The course takes what the students have already learned about blueprint reading and teaches them how to read drawings that are "geometrically tolerated." The students will learn how to compute such things as true position and bonus tolerances. Students will examine parts to determine if the parts meet specifications of the manufacture. They will also use some of the control documents that are found in industry to determine quality. Students will also use statistical process control methods as part of this course. Prior completion of MACH 171 and 172 is required.

MACH 283 Computer Numerical Control Theory I
3 Credits Offered Fall Semester

This course is an introduction to the standard practices and methods of CNC machines and controls. Students will become familiar with accepted practices in the use, programming, and setup of modern CNC machine tools. Prior completion of MACH 151, MACH 151L, MACH 152L, MACH 171, and MACH 172 is required.

MACH 284 Adv. Machining Processes & Techniques
3 Credits Offered Spring Semester

This course will continue with the practice of CNC programming and use and will also include information on tooling selection, fixtureing, setup and advanced CNC techniques. Students will also learn basics of precision grinding and finishing, special tooling and tool grinding, as well as basic production planning. Students will also be introduced to programming languages other than the ones used in MACH 283. Successful completion of MACH 283 is required to enter the course.

Maintenance Mechanic/ Millwright

Note: Course enrollment requires prior acceptance into the Maintenance Mechanic/Millwright Program.

MM 062 Shop Math
2 Credits Offered Spring Semester

Students study the skills necessary to solve practical problems using areas, volumes, weights or materials, and basic trigonometry. The effective maintenance mechanic/millwright requires competence in these math skills.

MM 151 Maintenance Mechanic Theory I
7 Credits Offered Fall Semester

Maintenance Mechanics Theory is an introduction to the principles of oxyacetylene and arc welding; hand, power, precision measuring tools; thread systems and fasteners; and equipment installation and alignment.

MM 151L Maintenance Mechanic Laboratory I
5 Credits Offered Fall Semester

Maintenance Mechanic Lab applies the skills learned in MM 051, including: oxyacetylene and arc welding, precision measuring, tool usage, material usage, rigging, equipment installation and alignment. Students will work on assigned tasks, projects, and performance tests.

MM 152 Maintenance Mechanic Theory II
5 Credits Offered Spring Semester

Maintenance Mechanic Theory II provides instruction in the technical skills required in the safe use of GMAW & GTAW welding, industrial electricity, pipe fitting, coupling maintenance and alignment, bearings, packings, seals, and pumps. Prior completion of MM 151 with a grade of C- or better is required.

MM 152L Maintenance Mechanic Laboratory II
5 Credits Offered Spring Semester

This laboratory applies the skills learned in MM 152 including exercises in: GMAW (wirefeed) and GTAW (TIG) welding, coupling alignment and maintenance, bearing maintenance, pipe fitting, electric motor and control maintenance, and pump maintenance. Exercises in hydraulics components and troubleshooting areas also included. Prior completion of MM 151 and MM 151L with a grade of C- or better is required.

MM 153 Maintenance Mechanic Theory III
5 Credits Offered Summer Session

This course continues instruction in safety, welding, and industrial mechanic skills, including flat pattern layout, sheet metal, conveyor systems, compressors, and specialty maintenance welding. Prior completion of MM 152 with a grade of C- or better is required.
MM 153L Maintenance Mechanic Laboratory III
1 Credit Offered Summer Session
This laboratory applies skills learned in MM 153. Students will work on assigned tasks, projects, and performance tests. Prior completion of MM 151 and MM 152L with a grade of C- or better is required.

MM 155 Blueprint Reading
2 Credits Offered Fall Semester
This course provides the maintenance mechanic/millwright with the necessary skills to understand industrial blueprints. Students will learn to read and understand title blocks, bills of materials, dimensions and notes, welding symbols, orthographic projection, auxiliary views, and section views.

MM 156 Hydraulics
3 Credits Offered Spring Semester
This is a basic course in the fundamentals of fluid power. Students will learn how to effectively troubleshoot industrial hydraulic systems, with emphasis on reservoirs, pumps, filters, directional flow, and pressure control valves, cylinders, and motors. Hands-on applications are addressed in MM 052L.

Marine Mechanics
Note: Course enrollment requires prior acceptance into the Marine Mechanics Program.

MART 151 Electrical Theory/4-Cycle
1.5 Credits Offered Block 1

MART 151 includes the study of four-cycle electrical, carburetor, and ignition systems as well as engine maintenance, diagnosis, and repair. This course is critical to job placement in the marine mechanic trade.

MART 151L Marine Mechanic Laboratory I
2 Credits Offered Block 1

The laboratory applies the concepts studied in MART 151. It prepares the student for work as an entry-level mechanic in the marine mechanic trade.

MART 152 Trim/Fuel and Cooling 4-Cycle Systems
1 Credit Offered Fall Semester

This course covers hydraulic systems, trim and tilts, cooling systems, and basic rigging of boats and trailers.

MART 152L Marine Mechanic Laboratory II
5 Credits Offered Fall Semester

The laboratory applies the concepts studied in MART 152.

MART 153 Gears/Shift Systems (4-Cycle)
1.5 Credits Offered Fall Semester
This course covers power train and gears/shift theory.

MART 153L Marine Mechanic Laboratory III
5 Credits Offered Fall Semester
This laboratory applies the concepts studied in MART 153.

MART 154 Two-Cycle/50 HP and Smaller
1.5 Credits Offered Spring Semester

Two-cycle electrical, carburetor, and ignition systems as well as engine maintenance, diagnosis, and repair for 50 HP or smaller will be studied.

MART 154L Marine Mechanic Laboratory IV
5 Credits Offered Spring Semester
This laboratory applies the concepts studied in MART 154.

MART 155 Two-Cycle/50 HP and Larger
1.5 Credits Offered Spring Semester

Two-cycle electrical, carburetor, and ignition systems as well as engine maintenance, diagnosis, and repair for 50 HP or larger will be studied.

MART 155L Marine Mechanic Laboratory V
5 Credits Offered Spring Semester
This laboratory applies the concepts studied in MART 155.

MART 178 Computer Applications Laboratory
1 Credit Offered Block 5

This course teaches basic keyboard skills and the use of terminology will be stressed. Specialized computers and software used for inventory within the marine mechanics trade will be studied.

Mathematics

MATH 015 Basic Mathematics
(Formerly MATH 020)
3 Credits Offered Each Semester

MATH 015 is an introduction to operations in the arithmetic of whole numbers, fractions, ratio and proportion, decimals, percents, positive and negative integers, and geometry. The course format includes informal lectures with instructor assistance in a lab setting.

Students are assisted in developing arithmetic proficiency in basic computational skill areas required for pre-college level math courses. Prior completion of other courses is not necessary. Students must complete the mathematics placement test to determine appropriate enrollment in preparatory course sequence.

MATH 020 Computational Skills
(Formerly MATH 025)
1 Credit Offered Fall Semester

Instruction in fractions, decimals, percents, ratios and proportions, measurement and formulas with emphasis on practical application to specific programs. This course includes one hour of lecture each week.
MATH 024  Technical Mathematics
(Formerly MATH 035)
3 Credits
Offered Fall Semester

Technical Mathematics is designed as a basic mathematics course for students in technical programs. Each section of the course will be specific to one technical program and appropriate applications for that program will be stressed throughout. All sections will review fractions, decimals, percents, ratios and proportions, calculator usage, signed numbers, evaluating formulas, equation solving, geometry and the metric system. Trigonometry will also be introduced when appropriate. Enrollment is based on placement test results. The course requires three hours of lecture each week.

MATH 025  Elementary Algebra
(Formerly MATH 030)
3 Credits
Offered Each Semester

MATH 025 is an introduction to mathematical concepts dealing with signed numbers, variables, polynomials, factoring, and solving and graphing first degree equations. It emphasizes the practical applications of these concepts. The course provides important skill-building for those who have not taken or have had difficulty with high school algebra. Prior completion of MATH 015 or its equivalent (experience with whole numbers, fractions, decimals and percents) is required. The course requires three hours of lecture each week.

MATH 075  Geometry for the College Student
3 Credits
Offered Fall 98

This course presents geometry as an axiomatic system with the aim of enabling students to understand the role of proof in mathematical systems, to apply the rules of geometry in concrete situations, and to prepare for continued mathematical growth. This course is recommended to those students who intend to study pre-calculus and whose background in geometry is inadequate. This course does not fulfill degree requirements. Prior completion of MATH 025 with a grade of C+ or better or its equivalent is required.

MATH 102  Computational Skills for Allied Health
3 Credits
Offered Fall Semester

This course includes instruction in fractions; decimals and the decimal system; solving equations in one variable; ratio and proportion involving dimensions; equivalents and conversion between decimals, fractions, ratios and percents; metric international, metric and S1 measurement system; apothecary and household measurement systems; and calculations/conversions between metric and household systems. Prerequisite: MATH 025, Elementary Algebra or its equivalent.

MATH 108  Intermediate Algebra
(Formerly MATH 101)
4 Credits
Offered Each Semester

MATH 108 continues development of mathematical concepts beyond MATH 025 or first year high school algebra. It includes second degree equations, algebraic fractions, circles and parabolas, complex numbers, functions and logarithms. There is an emphasis on the application of these skills.

The course provides important skill building for entry into college-level math courses. Enrollment is based on placement test results. Successful completion of MATH 025 with a grade of C+ or better or its equivalent is required. This course does not fulfill the math requirement for the A.A. or A.S. degrees. It includes four hours of lecture each week.

MATH 123  Contemporary Mathematics
(Formerly MATH 120)
3 Credits
Offered Each Semester

MATH 123 explores the applications of mathematics to solve or gain greater understanding of diverse contemporary problems. It includes management science (networks, critical path analysis, and linear programming), a wide variety of topics with social and political impact (voting theory, apportionment, Banzhaf power index, game theory, growth patterns, population growth, and sustainable yields), and geometry (symmetries, indirect measurements, and scaling).

This course will help students gain practical insights into the important role of mathematics in the world around us. It is designed primarily for degree programs requiring little college-level mathematics and satisfies the mathematics requirement for the A.A. and A.S. degrees. It consists of three hours of lecture each week. Successful completion of two years of high school algebra and an appropriate score on the placement test or prior completion of MATH 108 is required.

MATH 130  Finite Mathematics
(Formerly MATH 115)
4 Credits
Offered Each Semester

MATH 130 is the study of solutions to systems of linear equations and inequalities, linear programming, sets, counting techniques, probability, and elementary concepts of statistics. It emphasizes the practical applications of these skills.

This course provides useful skills to aid decision making in many diverse fields, but focuses primarily on business applications. It satisfies the mathematics requirement for the A.S. and A.A. degrees and is often required for transfer business degrees. It requires four hours of lecture each week. Successful completion of two years of high school algebra and an appropriate score on the placement test or prior completion of MATH 108 is required.

MATH 145  Advanced Technical Mathematics
3 Credits
Offered Fall Semester

This course is designed to continue the development of
mathematical skills beyond MATH 108. MATH 145/146 is not designed for mathematics majors. It includes the study of rational expressions, radicals, linear functions, logarithm and exponential equations, right angle trigonometry and complex numbers. Students finishing both MATH 145 and MATH 146 with a grade of B should be able to successfully complete MATH 170 (Calculus I). This course consists of three hours of lecture each week. MATH 145 satisfies the math requirements for an A.A., A.S., and A.A.S. degrees. Prerequisite: MATH 108 (Intermediate Algebra) or its equivalent with a grade of "B" or better, or appropriate ACCUPLACER or ASSET score for placement in MATH 145 is required.

MATH 146 Advanced Technical Mathematics II
3 Credits Offered Spring Semester

This course is designed to continue the development of the mathematical skills begun in MATH 145. It includes the study of second degree equations, conic sections, linear and nonlinear inequalities, trigonometric identities and an introduction to the differentiation and integration. Students finishing both MATH 145 and MATH 146 with a grade of B should be able to successfully complete MATH 170 (Calculus I). Note: MATH 145/146 is not designed for mathematics majors. This course consists of three hours of lecture each week. Students completing MATH 145 and MATH 146 have the equivalent of MATH 147 and cannot repeat MATH 147 for credit. This course satisfies the math requirements for an A.A., A.S., A.A.S. degrees. Prerequisite: Successful completion of MATH 145 or its equivalent.

MATH 147 Pre-Calculus
(formerly MATH 155)
5 Credits Offered Each Semester

Pre-Calculus is the study of polynomial and rational equations, functions and their inverses, graphs, systems of equations, complex numbers, exponential and logarithmic functions, trigonometric functions, identities and graphs, applications of triangles and polar coordinates. This course consists of five hours of lecture each week.

This course prepares students for calculus courses which are required for degrees in mathematics, engineering, computer science, physics, chemistry, and others. It satisfies the mathematics requirement for the A.S. and A.A. degrees. Successful completion of two years of high school algebra and an appropriate score on the placement test or prior completion of MATH 108 with a grade of "B" or better is required. Completion of concurrent enrollment in MATH 148 or its equivalent is required.

MATH 148 Graphing Calculator TI-85
(formerly MATH 154)
1 Credit Offered Each Semester

This course explores the use of the TI-85 graphing calculator. Topics will include basic operation and computation, entering numeric and symbolic data, and utilizing display screens and menu bars. Rectangular, parametric and polar graphs will be explored, utilizing a variety of graphing techniques. An overview of built-in calculator functions such as matrix, vector, probability computations, solving systems of equations and unit conversions will also be included. This course requires one hour of lecture each week.

Successful completion of MATH 108 or two years of high school algebra is required. Concurrent enrollment in MATH 130, MATH 123, MATH 147 or higher is recommended. This course counts as an elective towards the A.A. or A.S. degree.

MATH 157 Mathematics for Elementary Teachers I
(formerly MATH 135)
3 Credits Offered Each Semester

MATH 157 provides the prospective elementary school teacher with a problem-solving approach to the mathematics topics of the elementary school curriculum. Focus is on the development of the real number system from the whole numbers, fractions, integers, and rational and irrational numbers. It emphasizes the study of math in a variety of ways using techniques of cooperative learning, both for more effective learning and to address the concerns of "math anxiety." It is designed to broaden students' appreciation of math. This course includes three hours of lecture each week.

This course is required for elementary teacher certification by the State of Idaho. MATH 157 does NOT satisfy the core math requirement for any degree at NIC. Prior completion of MATH 108 or its equivalent is required.

MATH 160 Survey of Calculus
4 Credits Offered Each Semester

MATH 160 is the introduction to calculus as used in business, social sciences, and life sciences. It focuses on functions, graphs, the derivative, exponential and logarithmic functions, and integration applications.

The course develops an understanding of the fundamentals of differential and integral calculus and how to apply these principles and theories to the solution of real problems. This course requires four hours of lecture each week. Prior completion of MATH 110 or 147 is required. Note: MATH 160 carries no credit if taken after MATH 170.

MATH 170 Analytic Geometry and Calculus I
(formerly MATH 180)
4 Credits Offered Each Semester

MATH 170 is an introduction to calculus as the mathematics of change and motion. It emphasizes limits, the derivative, techniques of differentiation, continuity, applications of differentiation and the integral.

This course builds a foundation for all further study in mathematics and science that is typically required in mathematics, engineering, computer science, physics, chemistry, and other transfer degrees. It satisfies the mathematics requirement for the A.S. and A.A. degrees. This course consists of four hours of lecture each week. Requirements include successful completion of two years...
of high school algebra, one year of plane geometry, one-half year each of trigonometry and analytic geometry, and an appropriate score on the placement test, or prior completion of MATH 147. NOTE: MATH 170 carries two (2) credits if taken after MATH 160.

MATH 175  Analytic Geometry and Calculus II
(Formerly MATH 190)  
4 Credits  Offered Each Semester

This course is a continuation of MATH 170 emphasizing techniques of integration, applications of integration, polar coordinates, and parametric equations, sequences and series. It is required for most transfer degrees in mathematics and science. This course includes four hours of lecture each week. Prior completion of MATH 170 with a grade of "C" or better is required.

MATH 187  Discrete Mathematics
(Formerly MATH 176)  
4 Credits  Offered on Demand

This course is intended for computer science majors, mathematics majors, and for other students wishing to pursue in-depth study in computer science.

Topics covered will include basic set theory, propositional and predicate logic, number systems, Boolean algebra, combinatorics and graph theory. Analysis and development of algorithms will be emphasized. Little or no programming will be done. This course consists of four hours of lecture each week. Prior completion of MATH 147 or two years of high school algebra is required. Knowledge of programming language, e.g., PASCAL, is highly recommended.

MATH 253  Principles of Applied Statistics
(Formerly MATH 251)  
3 Credits  Offered Each Semester

MATH 253 is an introduction to applied statistical methods including, descriptive statistics, confidence intervals, hypothesis testing, small and large sample methods, linear regression and correlations, chi-square, and analysis of variance. Probability, as needed, will be included. This course includes three hours of lecture each week. Prior completion of MATH 130 or MATH 147 and two years of high school algebra are required.

MATH 257 Mathematics for Elementary School Teachers II
(Formerly MATH 136)  
3 Credits  Offered Each Semester

This course is a continuation of MATH 157, with a topical emphasis on statistics, probability, and geometry. It demonstrates the usefulness of math in ordinary life (particularly with statistics), the aesthetics "artistry" side of math, and the overall richness of the study of geometry. It includes three hours of lecture each week.

This course is required for elementary teacher certification by the State of Idaho. It does not satisfy the math core requirement for either the A.A. or the A.S. degree. Prior completion of MATH 157 is required.

MATH 275  Analytic Geometry and Calculus III
(Formerly MATH 200)  
4 Credits  Offered Each Semester

MATH 275 is a continuation of the calculus sequence. It includes the study of vectors and vector valued functions, and the ideas of the calculus of a single variable are extended to functions of several variables. Partial differentiation and multiple integration are used to examine Green's Theorem, Stokes' Theorem and the Divergence Theorem from vector analysis.

This course provides an understanding of the mathematics necessary for mathematics degrees and the study of multi-variable physical phenomena in the physical science, chemistry, and engineering areas. This course includes four hours of lecture each week. Prior completion of MATH 175 is required.

MATH 335  Linear Algebra
(Formerly MATH 231)  
3 Credits  Offered on Demand

This course includes the study of linear systems, matrices, determinants, vector spaces, linear transformations, eigenvalues, and diagonalization of matrices with applications. This course includes three hours of lecture each week. Prior completion of MATH 170 is required.

MATH 370  Intro. to Ordinary Differential Equations
(Formerly MATH 295)  
3 Credits  Offered Spring Semester

MATH 370 studies classification, initial value problems, exact equations, second order equations with constant coefficients, variation of parameters, Laplace transforms, series methods, and systems of linear equations. This course includes three hours of lecture each week. Prior completion of MATH 275 or permission of instructor is required.

Mental Health Technology

NOTE: Course enrollment requires prior acceptance into the Mental Health Technology Program.

MLTH 106  Direct Care Assessment and Intervention
3 Credits  Offered Spring Semester

This course builds on abnormal psychology concepts and DSMIII-R diagnostic groups of disorders to incorporate assessment and interventions in direct care provider roles. Psychosocial history, mental status exam and how to manage client behaviors including anger, manipulation, hallucinations, delusions and suicidality will be included. Acute care settings and roles will be emphasized. Prior completion of ALTH 102 or HSS 102, PSYC 101, and COMM 233 are required; prior completion or concurrent enrollment in PSYC 211 is required; concurrent enrollment in MLTH 107 is required.
MLTH 107  Mental Health Technology Lab
3 Credits  Offered Spring Semester
This lab course provides students the opportunity to apply principles and techniques of assessment and intervention presented in MLTH 106. Concurrent enrollment in MLTH 106 is required.

MLTH 121  Mental Health Technology Field Experience
5 Credits  Offered Summer Session
The 10-week field experience provides the student opportunity to apply concepts in assessment and intervention with psychiatric clients, function as members of an interdisciplinary team and participate in practice and research in these settings. Prior completion of MLTH 120 is required.

MLTH 122  Mental Health Technology Seminar
2 Credits  Offered Summer Session
This seminar provides the student the opportunity to share learning experiences with peers. It facilitates discussion and the identification of practices or concerns regarding their field experiences and gain assistance in applying classroom concepts in the field environment. Concurrent enrollment in MLTH 121 is required.

Music

MUS 101  Survey of Music
(Formerly MUS 125)
3 Credits  Offered Each Semester
Survey of Music is an introduction for students (majors and non-majors) to musical styles of our civilization. This study will include music of different periods and its cultural context, including a study of the American culture and the present musical scene. This course is designed to enhance students' musical appreciation through an exploration of musical knowledge. It fulfills an arts and humanities requirement for either the A.A. or A.S. degree. Prior completion of other courses is not required.

MUS 103  North Idaho College Concert Choir
1 Credit  Offered Each Semester
Concert Choir is North Idaho College's large vocal ensemble organized to perform standard and mixed choir arrangements. The choir frequently performs with the North Idaho Symphony Orchestra.
This course may be taken as an ensemble elective for music majors. Credit may be transferable. It may be repeated for credit. An audition and permission of instructor are necessary. Choir membership is open to college students and area residents.

MUS 104  Vocal Jazz Ensemble
1 Credit  Offered Each Semester
The North Idaho College Vocal Jazz Ensemble is a small group that performs studio quality popular and swing jazz music. It provides a challenging learning atmosphere with an emphasis on small group dynamics, solo performance, and an aggressive singing style.
This course is for students interested in an intense study of the vocal jazz form. An audition and permission of the instructor are required. It may be repeated for credit. MUS 103 must be taken in conjunction.

MUS 106  North Idaho College Symphonic Band
1 Credit  Offered Each Semester
The North Idaho College Symphonic Band is an instrumental ensemble designed to perform traditional and contemporary concert band literature. Band membership is open to college students and area residents.
This course provides student and area residents a chance to enhance their music appreciation through musical performance. An audition and permission from the instructor are necessary. It may be repeated for credit.

MUS 107  Cardinal Pep Band
1 Credit  Offered Each Semester
The Cardinal Pep Band is an instrumental ensemble designed to perform at athletic events and other school events. It may be repeated for a maximum of four credits. An audition and permission of instructor are required.

MUS 109  North Idaho College Symphony Orchestra
1 Credit  Offered Each Semester
The North Idaho College Symphony Orchestra is an ensemble organized to perform a standard orchestral repertoire. Credit may be transferable. The course may be used as an ensemble elective for music majors and can be repeated for credit. An audition and permission of instructor are required. Orchestra membership is open to college students and area residents.

MUS 110  Vocal Ensemble
1 Credit  Offered Each Semester
This course introduces students to literature for the particular type of ensemble and includes involvement in regular public performances with other small ensembles. It is designed to provide a variety of vocal experiences for the student: male quartet, mixed quartet, female trio, duets, etc. An audition and permission of instructor are required. Ensemble membership is open to college students and area residents.

MUS 111  Instrumental Ensemble
1 Credit  Offered Each Semester
Instrumental ensembles are small groups of brass, woodwind, string, percussion, or mixed instruments organized to perform a standard chamber music repertoire. Credit may be transferable and can be repeated for credit. An audition and permission of instructor are required. Ensemble membership is open to college students and area residents.

MUS 112  Introduction to Voice
1 Credit  Offered Either Semester
This introductory level course is designed to provide group instruction in the basic techniques of vocal
performance. This course will emphasize reading musical notation and vocal production. Students enrolling in Class Voice need no prior musical background. This course may be repeated for credit.

MUS 113  
North Idaho Jazz Ensemble  
1 Credit  
Offered Each Semester

North Idaho Jazz Ensemble is an instrumental ensemble designed to perform jazz literature in all 20th century styles. Ensemble membership is open to college students and area residents. This course provides students and area residents a vehicle for jazz appreciation through performance. It may be repeated for credit. An audition and permission from instructor are required.

MUS 114  
Individual Instruction  
2 Credits  
Offered Each Semester

MUS 114 provides individual instruction for non-majors in voice, and on piano, guitar, and all orchestra and band instruments. Individual instruction in an area of choice can assist students of all levels to improve their performance abilities. Special fees apply. Two credits require one half-hour lesson per week (15 credits). Requires public performance. May be repeated for credit. Prior completion of other courses is not necessary.

MUS 115  
Pit Orchestra  
1 Credit  
Offered Each Semester

Pit Orchestra is an ensemble organized to perform operas or musicals in conjunction with the Theatre Department. Credit may be transferable and this course can be repeated for credit. An audition and permission of instructor are required. Orchestra membership is open to college students and area residents.

MUS 116  
Musical Theatre  
1 Credit  
Offered Each Semester

Musical Theatre is a performance experience with a Broadway musical repertoire. An audition and permission of instructor are required. It may be repeated for credit.

MUS 117  
Music Convocation  
0 Credit  
Offered Each Semester

Concert attendance is required for all music majors. Written critiques of eight concerts are required each semester. Supplemental experience in music analysis and appreciation assists music majors in refining listening capabilities.

MUS 120  
Fundamentals of Music  
2 Credits  
Offered Each Semester

Music 120 is an introduction to the basic materials of music. Areas explored are acoustics, rhythmic and melodic notation of music, scales, keys, and basic harmony. Music theory is for the novice or experienced musician who wants to develop or refresh music reading skills. Prior completion of other courses is not required.

MUS 124  
Individual Instruction  
2 or 4 Credits  
Offered Each Semester

MUS 124 provides individual instruction in voice, and on piano, guitar, and all band and orchestra instruments. This course is designed for music majors and requires prior musical experience. Individual instruction in an area of choice can assist students of all levels to improve their performance skills. Two credits require one half-hour lesson per week (15 credits). Four credits require one hour weekly (15). A jury examination is required. Special fees apply. May be repeated for credit. Prior completion of other courses is not required. Audition and permission of instructor are required. The number of credits must be approved by the instructor.

MUS 127  
Survey of American Popular Music Since 1900  
3 Credits  
Offered Fall or Spring Semester

MUS 127 is an introduction for students (majors and non-majors) to the various styles of American popular music—its roots and development. Music will be presented with regard to its historical and social implications. Study includes dixieland, swing, bebop, fusion, musical theatre, country western, and all types of rock 'n' roll. This course is designed to enhance musical appreciation through an increase in musical knowledge. It fulfills an arts and humanities requirement for the A.A. degree. Prior completion of other courses is not required.

MUS 130  
Introduction to Piano  
1 Credit  
Offered Either Semester

This introductory level course is designed to provide group instruction at the piano keyboard. The emphasis of this course is on reading music and playing melody with simple chord accompaniment. Students enrolling in Class Piano need no prior musical background. This course may be repeated for credit.

MUS 140  
Introduction to Music Literature  
3 Credits  
Offered Fall Semester

MUS 140 is an introduction to the art and nature of music with an emphasis on aural skills, historical styles, musical forms, and the literature of music. It is designed for freshman music majors and other students interested in humanity-oriented subject matter. This course fulfills an arts and humanities requirement for the A.A. and A.S. degrees. Prior completion of other courses is not necessary.

MUS 141  
Harmony and Theory I  
3 Credits  
Offered Fall Semester

MUS 141 is the study and application of the basic materials in four-part harmony. Emphasis is placed upon a thorough knowledge of the fundamentals of music, development of composition skills, and beginning analysis skills. It deals with harmonic practice from the year 1600 on. This course fulfills a theory requirement for music majors. MUS 141L must be taken concurrently. Music reading skills and permission of instructor are required.
COURSE DESCRIPTIONS

MUS 141L  Harmony and Theory I Laboratory  
1 Credit  
Offered Fall Semester  
This laboratory assists students in the development of aural skills, i.e. sight-singing, rhythmic, melodic, and simple harmonic music dictation, and recognition. Emphasis is on materials covered in MUS 141. This course fulfills a theory requirement for music majors and expands upon musical understanding developed in MUS 141. Music reading skills and permission of instructor are required.

MUS 142  Harmony and Theory II  
3 Credits  
Offered Spring Semester  
This course is a continuation of MUS 141, emphasizing expanded use of harmonies in writing and analysis. MUS 142 must be taken concurrently. It fulfills a theory requirement for music majors. Prior completion of MUS 141 is required.

MUS 142L  Harmony and Theory II Laboratory  
1 Credit  
Offered Spring Semester  
This laboratory is a continuation of MUS 141L. It fulfills a theory requirement for music majors. Prior completion of MUS 141L is required.

MUS 215  Computer Music Notation  
1 Credit  
Offered Each Semester  
This course is an introduction to the use of Finale software (on Macintosh computers) for use of music printing and playback. The course provides musicians training in current technological advances important to the field of music.

MUS 216  Advanced Computer Music Notation  
1 Credit  
Offered Each Semester  
This course is a continuation of MUS 215, with an emphasis on mastery of advanced computer editing skills using Finale software.

MUS 241  Harmony and Theory III  
3 Credits  
Offered Fall Semester  
This course is a continuation of MUS 142, emphasizing writing and analysis of music up through the Romantic era of music. MUS 241L must be taken concurrently. It fulfills a theory requirement for music majors. Prior completion of MUS 142L is required.

MUS 241L  Harmony and Theory III Laboratory  
1 Credit  
Offered Fall Semester  
This course is a continuation of MUS 142L. It fulfills a theory requirement for music majors. Prior completion of MUS 142L is required.

MUS 242  Harmony and Theory IV  
3 Credits  
Offered Spring Semester  
This course is a continuation of MUS 241 with emphasis on writing and analysis of music in the 20th century. MUS 242L must be taken concurrently. It fulfills a theory requirement for music majors. Prior completion of MUS 241 is required.

MUS 242L  Harmony and Theory IV Laboratory  
1 Credit  
Offered Spring Semester  
This laboratory is a continuation of MUS 241L. It fulfills a theory requirement for music majors. Prior completion of MUS 241L is required.

MUS 251  Introduction to Music History  
3 Credits  
Offered Spring Semester  
MUS 251 is a general introductory course in music history designated for music majors. It fulfills an arts and humanities requirement for the A.A. degree. The course is designed for students desiring core humanities credit and for sophomore music majors. Prior completion of MUS 141 or permission of the instructor is required.

Nursing: Practical Nursing (PN)

Note: Course enrollment requires prior acceptance into the Practical Nursing Program.

Effective 1997-98

PN 101  Practical Nursing Theory I  
7 Credits  
Offered Fall Semester  
This course includes an introduction to the fundamentals of nursing and therapeutic skills. It includes the study of anatomy and physiology (body systems), microbiology, nutrition, growth and development, adaptation to the life cycle, nursing process, medical and surgical nursing, pharmacology, and obstetrics nursing. Pharmacology must be successfully completed to enable the student to continue into spring semester.

PN 101L  Practical Nursing Laboratory I  
7 Credits  
Offered Fall Semester  
This laboratory involves supervised hospital and extended care experiences with patient care, applying theory from PN 101. It comprises progression of skill experiences, including operating room observations.

PN 102  Practical Nursing Theory II  
8 Credits  
Offered Spring Semester  
This course covers the nursing aspects of psychiatric nursing, obstetrics, pediatrics, first aid, cardiopulmonary resuscitation (CPR), emergency nursing, oncology, and death and dying. It explores nursing responsibilities in more complex diseases of major body systems. Prior completion of PN 101 and PN 101L is required.

PN 102L  Practical Nursing Laboratory II  
8 Credits  
Offered Spring Semester  
This course continues to apply theory from PN 101 and PN 102 into clinical practice in areas such as OR, diagnostic labs, medical-surgical, pediatric, and obstetrical units. Psychiatric nursing experience is also included. Prior completion of PN 101L is required.

PN 103  Practical Nursing Theory III  
4 Credits  
Offered Summer Session  
This course covers nursing care of the nervous, sensory, and integumentary systems. It also includes studies of
allergies, the immune system, and geriatric care. Prior completion of PN 101 and PN 102 is required.

PN 103L Practical Nursing Laboratory III
4 Credits Offered Summer Session

Supervised clinical experiences include convalescent homes, doctors offices, and multiple patient care in an acute care setting. Prior completion of PN 101L and PN 102L is required.

PN 105L Communication Skills
1 Credit Offered Fall Semester

This course explores nurse-patient relationships. The focus is on the differences between therapeutic and non-therapeutic interactions. Course work includes interviewing skills, appropriate documentation of nursing performance, telephone protocols, and hospital shift reporting. This course is an integral part of PN 051 and is required for program completion.

Effective 1998-99

PN 104 Human Body Structure and Function
3 Credits Offered Fall Semester

This course is a presentation of the essential anatomy and physiology of the human body. All body organ systems are discussed in a format of lecture, diagrams, and audio-visual materials. The course will introduce some aspects of chemistry and microbiology as it relates to health care. A knowledge of the anatomy and physiology of the human body as a basis for later study of disease processes is an essential part of the curriculum for students in the nursing profession. This course is limited to practical nursing students only.

PN 105L Basic Concepts of Practical Nursing I
3 Credits Offered Fall Semester

This course lays the foundation upon which the rest of the practical nursing program rests. The course is designed to assist students in their personal growth as nurses by helping to better understand themselves and others as multidimensional, holistic beings. Psychosocial concepts such as basic needs, family concepts, community issues, spiritual and cultural diversity, grief and loss are included. Professional concepts addressed include legal and ethical responsibilities, effective communication and interpersonal relationships. Limited to practical nursing students only.

PN 106 Practical Nursing Theory I
6 Credits Offered Fall Semester

This course includes an introduction to the fundamentals of nursing and therapeutic skills. A lifespan approach will be used initially to assist the student in the theory behind oxygenation, circulation, nutritional, fluid, elimination, activity and safety needs of patients of all ages. Growth and development and an introduction to both pediatric and geriatric care will be introduced. Prior completion of prerequisite program courses is required.

PN 106L Practical Nursing Laboratory I
6 Credits Offered Fall Semester

This course involves supervised practice in providing patient care utilizing the campus laboratory for skills practice and clinical settings such as nursing homes, the hospital and day care centers for actual practice. It comprises progression of nursing skills. Prior completion of prerequisite program courses is required.

PN 107 Practical Nursing Theory II
6 Credits Offered Spring Semester

This course covers aspects of psychiatric nursing, pediatrics, emergency nursing, CPR, oncology and death and dying. It explores nursing responsibilities in more complex diseases of major body systems. Successful prior completion of PN 105, PN 106 and PN 106L is required.

PN 107L Practical Nursing Laboratory II
6 Credits Offered Spring Semester

This course correlates PN 107 theory with actual practice in clinical settings. Students will rotate through medical surgical units, operating rooms, recovery rooms, same day and short stay units. Students will also have advanced practice in long term care and in rehabilitation units. Prior completion of PN 105, PN 106 and PN 106L is required.

PN 108 Practical Nursing Theory III
3 Credits Offered Summer Session

This course covers obstetrical nursing and will introduce advanced concepts of geriatric care. An opportunity for review of all previous nursing theory will be provided. Prior completion of PN 107 and PN 107L is required.

PN 108L Practical Nursing Laboratory III
5 Credits Offered Summer Session

Supervised clinical experience in this course includes convalescent homes, the obstetrical unit, physician’s offices, and multiple patient care in either acute or extended care settings. Prior completion of PN 107 and PN 107L is required.

PN 109 Basic Concepts of Practical Nursing II
1 Credit Offered Spring Semester

By the end of PN 107 and PN 107L, the student will be looking toward the goal of employment. This course is designed to assist the student in seeking employment. Writing a resume, preparing for an interview, appropriate interview techniques and behaviors that make a person employable will be addressed.

PN 205 Intravenous Therapy for LPNs - Part I
1 Credit Offered On Demand

This course provides theory and hands-on instruction in skills relating to the LPN’s role in IV therapy. It will include the essential responsibilities in IV therapy and the initiation and maintenance of IV infusion. The course meets the requirements for Part I of the Rules and Regulations of the Board of Nursing for LPNs who wish to perform functions related to IV therapy.
COURSE DESCRIPTIONS

PN 210 Intravenous Therapy for LPNs - Part II
2 Credits Offered On Demand

This course will provide theory and hands-on instruction in all skills relating to the LPN's role in IV therapy. It will include the essential responsibilities in IV therapy: initiation and maintenance of IV infusion, and monitoring and maintenance of central venous lines. The course meets the requirements of the Rules and Regulations of the Board of Nursing for LPNs who wish to perform functions related to IV therapy.

PN 215 Nursing Management for LPNs
3 Credits Offered On Demand

This course will provide instruction in all skills relating to the LPN's role in nursing management. The course is designed to prepare the LPN to function in the role of charge nurse in long-term care facilities in accordance with federal and state regulations. It will give the LPN the means to perfect management skills and assess them on a continuing basis.

NURSING: RN

Note: Course enrollment requires prior acceptance into the Associate Degree Nursing Program.

Effective 1997-98

NURS 104 HIV/AIDS Education
1 Credit Offered Spring Semester

Every individual, regardless of sex, color, creed, sexual orientation, or religion, is at risk for HIV infection. The purpose of this course is to provide a basic knowledge and understanding of the HIV virus, its impact on the immune system, its devastating impact on the individual who becomes infected, the process of living and dying from AIDS, how society has been impacted and how it has impacted those living with HIV disease.

NURS 119 Nursing Process
1 Credit Offered Fall Semester

Nursing 119 explores the nursing process as a systematic, rational, and scientific method of problem solving. Students will learn to use this process as a framework for applying nursing knowledge and skills to meet the needs of patients. Concurrent enrollment in NURS 120 and NURS 185 is required.

NURS 120 Conceptual Basis of Nursing - Laboratory I
1 Credit Offered Fall Semester

In this course, selected psychosocial concepts are explored to assist students to better understand themselves and others as multidimensional holistic beings. Students will acquire knowledge and develop skills which can be used to enhance their own adaptation and facilitate the adaptations of others. Concurrent enrollment in NURS 119 and NURS 185 is required.

NURS 121 Conceptual Basis of Nursing - Laboratory II
1 Credit Offered Spring Semester

This course expands concepts presented in NURS 120 and introduces additional concepts basic to nursing practice. Students will develop interpersonal skills for application to patient care. Prior completion of NURS 119, NURS 120, and NURS 180 or permission of division chair is required. Concurrent enrollment in NURS 186 is required.

NURS 185 Fundamentals of Nursing 1
6 Credits Offered Fall Semester

This course introduces the student to basic nursing theory and practice. Developmental theory, pharmacology, basic physical assessment, physiologic and psychologic needs form the groundwork for future nursing courses. Care of the gerontological patient will be emphasized. The basic foundation for nursing practice is presented. Laboratory experience provides for nursing skill development and application of theory to the care of patients in hospitals and long-term care settings. Practice of nursing skills in the learning laboratory is required. High school competencies in algebra, biology and chemistry are necessary. College-level prerequisites which must be completed before admission to the nursing program are BIOL 250, CHEM 102, ENGL 101, PSYC 101.

NURS 186 Nursing Management of the Medical-Surgical Patient
8 Credits Offered Spring Semester

Medical-surgical nursing builds upon the concepts of nursing practice learned in Nursing 185. This course specifically focuses upon the adaptation of pediatric and adult patients and their families experiencing common medical-surgical disorders. Clinical experiences will include nursing skill development and the provision of care to selected patients requiring medical or surgical interventions within hospital and/or outpatient settings. Successful completion of NURS 185, NURS 119, NURS 120 and BIOL 227 is required.

NURS 187 Obstetrical Nursing
3 Credits Offered Summer Session

Obstetrical Nursing focuses on the methods which nurses and other health care providers can utilize in assisting patients and their families in their adaptation to childbearing. Prenatal, labor and delivery, newborn, and postpartum care are taught with a family-centered emphasis. Common complications in maternal-newborn care are introduced. Opportunities are provided for students to care for the patient and their family during all aspects of the childbearing experience. Prior completion of BIOL 228, NURS 185 and NURS 186 is required.

NURS 188 Psychiatric Mental Health Nursing
3 Credits Offered Summer Session

Psychiatric Mental Health Nursing is designed to assist the student in using the concept of adaptation in applying the nursing process to the client experiencing mental
health problems. Laboratory experiences include care of clients in an acute psychiatric facility. Basic concepts in Psychiatric Mental Health Nursing will apply to clients in all clinical settings - the general hospital, specialty units, and psychiatric settings. Prior completion of NURS 121, 165, and 186 is required.

NURS 204A  Nursing Management  2 Credits  Offered Either Semester

Nursing Management expands concepts from previous courses and presents selected topics relating to the management of patient care. This course is designed to assist the learner in patient management techniques needed as a beginning nurse. Prior completion of NURS 285 or permission of instructor is required.

NURS 204B  Wellness Lifestyles  3 Credits  Offered Either Semester

Wellness Lifestyles examines contemporary health/wellness issues with emphasis on personal decision making and behavioral changes to create a personal lifestyle which promotes high level wellness. Prior completion of other courses is not required.

NURS 221  Issues in Nursing  1 Credit  Offered Spring Semester

Nursing 221 expands concepts from previous nursing courses and presents selected topics to examine issues in nursing practice. It is designed to assist the learner in transition from the student role to the graduate nurse.

NURS 285  Nursing Interventions I  9 Credits  Offered Fall Semester

Nursing Intervention I focuses on the nursing management of patients of all ages with common disorders and problems related to all body systems and provides for progressive development and application of concepts introduced in preceding nursing and support courses. Opportunity is provided for the student to manage the care of patients under supervision, utilizing the nursing process and is based on the related pathophysiology, treatment, psychosocial need of the patient and their families. It provides the students with opportunity to become increasingly self-directed in their learning and the application of health care concepts. Prior completion of NURS 187 and NURS 188 or permission of the division chair is required.

NURS 286  Nursing Interventions II  8 Credits  Offered Spring Semester

This course focuses on the nursing management of patients of all ages with emergent, traumatic, and complex disorders and problems related to all body systems. The course provides for progressive development and application of concepts introduced in preceding nursing and support courses. Opportunity is provided for the students to manage and coordinate care, under supervision. The nursing process is utilized in planning and providing care for patients and their families. The clinical experience provides the student with opportunity to become self-directed in problem solving and critical thinking in meeting the health care needs of patients and their families. Prior completion of NURS 285 or permission of the division chair is required.

NURS 290  Advanced Cardiac Life Support  1 Credit  Offered On Demand-Contact the Nursing Div.

This course is for the education of health professionals whose jobs include the management of patients in arrest or near-arrest situations. The focus is on the end stage of the process that leads to cardiovascular disease by describing the management of "sudden death" and cardiac emergencies. The course is designed for learner acquisition of both knowledge and psychomotor skills through practical application and written examination. The goal of the course is to have each participant succeed in acquiring the skills and knowledge required for resuscitation. Successful completion of the course grants the student certification by the American Heart Association in ACLS. Prerequisites: Current CPR card. The student must be a second year nursing student, EMT (advanced), paramedic, LPN, RT, RN, MD, or have permission of the instructor.

Effective 1998-99

NURS 110  Nursing Practice I  9 Credits  Offered Fall Semester

This course provides a basic foundation of nursing theory and practice. Concepts presented include basic human needs, growth and development of individuals and families throughout the life span, physical and psychosocial adaptation, cultural diversity, nursing roles, nursing process, communication and therapeutic relationships, health assessment, the health care delivery system, pharmacology, nutrition and universal precautions.

Laboratory experiences provide for increasing self awareness, beginning socialization to professional nursing roles and role behaviors, and development of intellectual, interpersonal and technical nursing skills.

NURS 112  Nursing Practice II  9 Credits  Offered Spring Semester

This course provides a basic foundation of maternal/child health, pediatric nursing and medical/surgical nursing. Concepts presented include the impact of illness or the childbearing experience on the individual and the family, specific disease processes and health problems, perioperative care, perinatal care, care of the ill child, psychosocial aspects of care, therapeutic use of self, increased dimensions of professional roles, and access and economics of health care services.

Laboratory experiences are provided in hospital and community settings focusing on care of the child and adult with medical/surgical health problems and care of the family during the childbearing experience.

</table>
COURSE DESCRIPTIONS

PLEG 220  
3 Credits  
Legal Writing I  
Offered Fall Semester

This is an introduction in the drafting and preparation of legal documents and instruments. Prior completion of ENGL 103 and prior completion or concurrent enrollment in PLEG 210 are required. This is a required course in the Paralegal program.

PLEG 221  
3 Credits  
Legal Writing II  
Offered Spring Semester

This course is a continuation of PLEG 220. Prior completion of PLEG 220 and prior completion or concurrent enrollment in PLEG 211 are required. This is a required course in the Paralegal program.

PLEG 230  
3 Credits  
Evidence  
Offered Fall Semester

This course is an examination of the statutory and case law regarding judicial methods of proof, the hearsay rule, materiality, presumptions, and relevancy. This is a required course in the Paralegal program.

PLEG 240  
3 Credits  
Real Estate and Property Law  
Offered Fall Semester in Odd Numbered Years

This course will explore the law of real property including common types of real estate transactions and conveyances, forms and procedures, document recording, and title searches. Discussion will be held on deeds, contracts, deeds of trust, joint ventures, lease and rental agreements, mortgages, legal descriptions, liens and encumbrances, zoning and covenants, appraisals, titles, and foreclosure. This is an elective course in the Paralegal program.

PLEG 245  
3 Credits  
Estate and Probate Practices & Procedures  
Offered Fall Semester in Odd Numbered Years

This course is an introduction to the laws, practices, and procedures involving trusts, wills, guardianships, property transfer, and probate. It includes estate and inheritance taxation and estate planning. This is an elective course in the Paralegal program.

PLEG 250  
3 Credits  
Family Law  
Offered Spring Semester in Odd Numbered Years

This course is a study of the Idaho laws and procedures regarding marriage and dissolution of marriage; child custody, visitation, and support; adoptions; domestic violence, and property rights. This is an elective course in the Paralegal program.

PLEG 255  
3 Credits  
Administrative Law  
Offered Spring Semester in Odd Numbered Years

This course is a review of federal and state administrative laws. It discusses administrative agencies, administrative law procedures, the use of expert witnesses, evidence, constitutional and judicial limits, and judicial review. This is an elective course in the Paralegal program.

PLEG 260  
3 Credits  
Criminal Law  
Offered Spring Semester in Even Numbered Years

This course is an exploration of the criminal justice system including the application of Idaho laws. It involves the study of the definition of a crime; institution of criminal action; defenses to criminal accusation; the court process; negotiated and formal pleadings; constitutional safeguards; and sentencing and probation. This is an elective course in the Paralegal program.

PLEG 265  
3 Credits  
Corporation & Partnership Law  
Offered Fall Semester in Even Numbered Years

This course is a study of the laws, documents, and procedures involved in the organization, operation, and dissolution of business enterprises. It emphasizes corporations and partnerships. This is an elective course in the Paralegal program.

PLEG 270  
3 Credits  
Bankruptcy and Creditor's Rights  
Offered Fall Semester in Even Numbered Years

This course is an examination of bankruptcy laws and proceedings. It includes attachments, collection, executions, garnishment, liquidation, and reorganization. This is an elective course in the Paralegal program.

PLEG 290  
3 Credits  
Paralegal Internship I  
Offered Fall Semester

This course provides a practical application of paralegal skills in a law office or law-related office. It includes approximately eight hours per week of supervised work in an office intended to add breadth and depth to the student's paralegal experiences. This course is graded on a satisfactory/unsatisfactory basis. Permission of the instructor, sophomore standing in the paralegal program and concurrent enrollment in PLEG 201, 210, 220, and 230 are required. This course is a required course in the Paralegal program.

PLEG 291  
3 Credits  
Paralegal Internship II  
Offered Spring Semester

This course is a continuation of PLEG 290 and offers a practical application of paralegal skills in a law office or law-related office. It includes approximately eight hours per week of supervised work in the office intended to add breadth and depth to the student's paralegal experiences. This course is graded on a satisfactory/unsatisfactory basis. Permission of the instructor, sophomore standing in the paralegal program, and prior completion of the first semester sophomore courses and concurrent enrollment in BUSA 185, PLEG 205, 211, and 221 are required. This course is a required course in the Paralegal program.
Pharmacy Technology

NOTE: Application and acceptance into the Pharmacy Technology Program is required before enrolling in any of the Pharmacy Technology courses.

PHAR 110  Pharmacy Law
1 Credit  Offered Fall Semester

This course provides the student with an introduction to federal and state laws regulating the practice of pharmacy. Special emphasis is given to the areas of state law for Idaho and Washington regulating the activities of the technician. This course includes a focus on record keeping and medical ethics.

PHAR 150  Orientation to Over-The-Counter and Prescription Drugs
2.5 Credits  Offered Spring Semester

This course provides an overview of prescription and non-prescription medication, with emphasis on therapeutic classification and use of the top 200 drugs. It includes generic and brand naming, general mode of action, side effects and potential drugs for this drug group.

PHAR 170  Pharmacy Technology
2 Credits  Offered Spring Semester

This course is designed to provide students with the knowledge and skills needed in the performance of technical pharmacy tasks in hospital and retail settings. Included are prescription processing, dispensing, compounding and prepacking, pharmacy software and computer systems and third party reimbursement. Pharmacy calculations and preparations will be emphasized. Previous exposure to keyboarding is recommended.

PHAR 180  Pharmacy Technology Practicum I
3 Credits  Offered Spring Semester

Supervised pharmacy technician practice in the retail setting. Instruction and guidance are provided by the staff of participating agencies. Emphasis is on application of classroom content in the pharmacy setting. Concurrent enrollment in PHAR 150 and PHAR 170 is required.

PHAR 181  Pharmacy Technology Seminar
0.5 Credit  Offered Spring Semester

Taken concurrently with PHAR 180, this seminar provides the student the opportunity to share learning experiences with peers; raise questions and obtain clarification of practices or concerns regarding their practicum experience. Concurrent enrollment in PHAR 180 is required.

PHAR 185  Pharmacy Technology Practicum II
5 Credits  Offered Summer Session

Supervised pharmacy technician practice in the hospital setting. Instruction and guidance is provided by the staff of participating agencies. Emphasis is on application of classroom content in the pharmacy setting. This course occurs during a 10-week summer session. Prior completion of PHAR 180 is required.

PHAR 186  Pharmacy Technology Seminar
5 Credits  Offered Summer Session

This seminar provides the student the opportunity to share learning experiences with peers; raise questions and obtain clarification of practices or concerns regarding their practicum experience. Additionally, students will have the opportunity to discuss role transition - student to worker - and their job search plans and attempts. Concurrent enrollment in PHAR 185 is required.

PHAR 203  Advanced Pharmacy Technology Lab
1 Credit  Offered On Demand

This three-hour per week lab course provides students the opportunity to enhance their preparation and dispensing skills in a campus lab environment. Intravenous medication preparation and evaluation will be a major focus. Prior completion of the Pharmacy Certificate of Completion program is required.

PHAR 221  Pharmacy Internship
1-6 Credits  Offered On Demand

Students participate in a structured internship experience under the direction of selected community and/or hospital pharmacy preceptors. Emphasis is on the distributive aspects of pharmacy practice. Prior completion of the Pharmacy Certificate of Completion program is required. Variable credits may be taken in sequential semesters. A total of six credits of PHAR 221/222 is required for completion of the A.A.S. degree.

PHAR 222  Pharmacy Internship
1-6 Credits  Offered On Demand

Students participate in a structured internship experience under the direction of selected community and/or hospital pharmacy preceptors. Emphasis is on the distributive aspects of pharmacy practice. Prior completion of the Pharmacy Certificate of Completion program is required. Variable credits may be taken in sequential semesters. A total of six credits of PHAR 221/222 is required for completion of the A.A.S. degree.

Philosophy

PHIL 101  Introduction to Philosophy
(Formerly PHIL 103)
3 Credits  Offered Each Semester

Introduction to Philosophy is the discovery and exploration of major intellectual problems of mankind through methods of questioning, analysis, synthesis, and critique. It emphasizes developing a world view and higher-order reasoning skills through consideration of such issues as the nature of time and physical reality, mind and consciousness, free will, evil, truth, ethics, and the nature and existence of God.

This course is for students interested in the meaning of life and the implications of modern science for understanding our world. It fulfills an arts and humanities requirement for the A.S. degree. Prior completion of
concurrent enrollment in ENGL 101 strongly encouraged but not required.

PHIL 103
(Formerly PHIL 201)
3 Credits
Offered Each Semester

Ethics

Ethics is the investigation and discussion of personal, social, and professional moral problems and the principles and thinking skills used for their resolution. Emphasis is on the development and application of reasoning skills for problem-solving and decision-making in the moral domain.

This course provides awareness, sensitivity, and skills essential to the success and moral integrity of the person in today's morally complex society. It fulfills an arts and humanities requirement for the A.S. degree. Prior completion or concurrent enrollment in ENGL 101 is recommended.

PHIL 111
3 Credits
Offered Each Semester

World Religions

World Religion presents an overview of the historical and cultural settings, main beliefs, and practices of the great Eastern and Western religions - Hinduism, Buddhism, Taoism, Confucianism, Judaism, Islam, and Christianity. Special attention is given to similarities and differences in concepts of humanity and our relationships to society, nature, and the divine.

This course is for students interested in mankind's religious heritage and cultures of other parts of the world. It fulfills an arts and humanities requirement for the A.S. degree. Prior completion or concurrent enrollment in ENGL 101 is strongly encouraged, but not required.

PHIL 131
3 Credits
Offered Either Semester

Introduction to Religion

This course introduces the study of religion as a cultural institution. It focuses on the nature, history, functions, structure and features of religion in society. Emphasis will be given to exploring the psychology of religious experience and behavior, the influence of religion on social structures and community, the patterns and issues of belief, ritual and symbolism associated with the sacred. The course does not focus on any one or group of religions, but draws on a wide variety of religious contexts to exemplify and illustrate the elements of religion identified above. It is not an introduction to Christianity or a course in Bible study. The course features a strong emphasis on cultural diversity.

This course satisfies Group IV of the Social Science requirement for the Associate of Arts degree and partially satisfies the Arts, Humanities and Social Science requirement for the Associate of Science degree. Independent of an NIC Associate's degree, the course will transfer as an elective to most colleges and universities in the United States.

PHIL 201
Logic and Critical Thinking
(Formerly PHIL 120)
3 Credits
Offered Each Semester

Philosophy 120 is a general introduction to the reasoning skills and psychological approaches used for effective decision-making, problem-solving, and argument analysis and evaluation.

This course provides instruction in the skills essential to success in everyday life, citizenship, and as a professional in any career. It fulfills the critical thinking requirement for the A.A. degree, but does not fulfill an arts and humanities requirement but rather the A.A. or A.S. degrees. Prior completion or concurrent enrollment in ENGL 101 and/or COMM 101 is strongly encouraged, but not required.

PHIL 292
Ethics in Health Care
3 Credits
Offered Either Semester On Demand

This course provides an introduction to ethical theories and their practical application to the real issues and biotechnical dilemmas encountered by health care professionals. Typical issues include euthanasia, assisted suicide, personhood, human society and disease, costs and access to health care, moral values and responsibility conflicts, patient rights and the professional relationship.

Photography

COMP 281
Introduction to Photography
3 Credits
Offered Each Semester

This course is designed to build basic skills in students who have an interest in photography but no prior experience. The course uses a combination of lecture/demonstration and hands-on exercises to develop mastery of basic photographic tools and techniques.

Students will be exposed to a wide variety of technical and aesthetic concerns involved in making photographs. These include camera handling, shooting color and black and white film, basic darkroom techniques, composition and developing a photographic vision. Students entering this course must have a 35mm camera with adjustable f-stops, shutter speeds, and focus. Students are also responsible for all photographic film and paper. Prior completion of other courses is not necessary.

COMP 283
Intermediate Photography
3 Credits
Offered Spring Semester

This course is designed to expand the photographic knowledge of motivated students who have completed COMP 281. Basic skills in shooting, printing, and processing black and white film will be refined, and students will work to develop a personal photographic vision.

Further photographic experience will enhance student abilities through exposure to more challenging concepts including the zone system of exposure control, studio and natural lighting schemes, and printing and presenting the fine print. Prior completion of COMP 281 or permission
COURSE DESCRIPTIONS

of instructor is required. Students entering this course must have a 35mm camera with adjustable f-stop, shutter speeds, and focus. Students are responsible for all photographic film and paper.

COMP 285
Nature Photography
3 Credits
Offered Spring Semester

This course is an introduction to outdoor and nature photography with a specific focus on understanding common wildlife species, basic photographic skills, marketing opportunities, magazine analysis, and other subjects related to nature photography.

It provides basic skills and knowledge for students interested in photography. A background in basic photography, successful completion of COMP 281, or permission of instructor or Communications Division Chair is required.

COMP 289
Photography
3 Credits
Offered Fall Semester

This course provides exposure to the challenge of publications photography for students who have completed an introductory photography course. Through lecture, demonstration, and hands-on exercises, students develop their abilities in visual communication.

Students will gain valuable skills in recognizing photo opportunities, covering news events and features, and composing page layouts. Most importantly, students will refine capabilities to create storytelling photographs in individual and photo essay formats. The course requires that students own a 35mm camera with adjustable f-stops, shutter speeds, focus, and synchronized stroboscopic flash. Students are responsible for purchasing all photo paper and film stock. Prior completion of COMP 281 or permission of instructor is required.

Physical Education

Note: Students in special physical education activity courses are charged extra fees payable at registration. Additional fees are charged to students taking PE 235, which includes courses such as bowling, rollerskating, equitation, firearms, and racquetball. Students enrolled in skeet and trap shooting must pay for the cost of clay pigeons and shells; students enrolled in rifle and pistol must provide their own ammunition.

Activity Courses

The following courses fulfill physical education activity course requirements for the A.A. and A.S. degrees. Courses may be repeated for the maximum number of credits indicated under the course descriptions. In special situations, subject to approval by the division chair, students may be allowed to exceed the maximum number of credits.

PE 103
Varsity Sports
1 Credit
Offered Each Semester

This course is restricted to varsity athletes who compete in cross country, volleyball, wrestling, basketball, baseball, track and field. Teams compete regionally with two and four-year colleges and may advance to tournament competition. Student athletes practice daily during the season. This course offers development of skills and personal potential for student athletes interested in improving their performance or preparing for further competition at upper collegiate level. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for credit.

PE 105Z
Cheerleading
1 Credit
Offered Each Semester

This course involves instruction and practice in cheerleading for members of the NIC cheerleading squad. Areas developed include gymnastics, dance, communication, group leadership, and social skills.

It provides experience for improving self-confidence, public performance, and gymnastic abilities. Students must participate in team tryouts to earn a place on the squad. It fulfills a partial physical education requirement for the A.A. and A.S. degrees and may be repeated for credit. Prior completion of other courses is not necessary.

PE 106
Equitation
1 Credit
Offered Each Semester

Equitation provides instruction and practice in horseback riding, focusing on development of skills and techniques for safe Western and English pleasure riding. It fulfills a partial physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of four credits. Prior completion of other courses is not required.

PE 108
Hiking and Lightweight Camping
1 Credit
Offered On Demand

Instruction and guided practice in hiking and camping techniques, including proper clothing and equipment selection, outdoor cooking, and edible plant identification is part of this course. Students participate in weekly field trips for conditioning and skill development.

This course is for students interested in outdoorsmanship and area ecology. For optional overnight trips, students must furnish their own food and gear. It fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of four credits. Prior completion of other courses is not required.

PE 109
Kayaking
1 Credit
Offered On Demand

This course offers instruction in white-water kayaking skills, including basic strokes, Eskimo roll, and river-reading. Through this course, one develops basic kayaking skills and fulfills a physical education requirement for the A.A. and A.S. degrees. It may be repeated for a total of four credits. Prior completion of other courses is not necessary.

PE 131
Multiple Sports
1 Credit
Offered Each Semester

This course offers instruction and practice in a variety of individual and team sports, including volleyball, touch
football, basketball, swimming, tennis, and softball. It requires participation of two hours weekly.

It improves athletic skills and explores a variety of sporting activities. It fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of four credits. Prior completion of other courses is not required.

**PE 206**
1 Credit
Step Aerobics
Offered Each Semester

Step aerobics is a high intensity, low impact workout achieved through simple, effective patterns performed while stepping up and down onto a platform that is 4 to 8 inches high. This cardiovascular activity will tone and strengthen muscles, improve and strengthen the cardiorespiratory systems and enhance flexibility, agility, coordination and balance. This course satisfies a PE/Dance requirement for the A.S. and A.A. degrees.

**PE 207**
1 Credit
Water Aerobics
Offered Each Semester

Instruction and participation in Water Aerobics is a combination of aquatic toning, strengthening and cardiovascular conditioning. It consists of a thermal warm-up, pre-stretch, cardiovascular workout, toning, cool down, and post-stretch. Water offers 12 times the resistance of air which makes water exercise the perfect place to condition the muscles without injury. Prior completion of other courses is not required.

**PE 208**
1 Credit
Beginning Swimming
Offered Fall Semester

In this course, students are taught fundamental swimming and water safety skills for the non-swimmer or beginner. The course requires two hours of practice weekly. It fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of four credits. Prior completion of other courses is not necessary.

**PE 209**
1 Credit
Intermediate Swimming
Offered Each Semester

This course is a continuation of PE 208, focusing on developing intermediate swimming strokes, safety skills, versatility, and endurance. It requires two hours of practice weekly. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of four credits. Beginning swimming ability is necessary. Prior completion of other courses is not required.

**PE 210**
1 Credit
Swim Conditioning
Offered Spring Semester

This course offers instruction and practice for the intermediate or advanced swimmer, emphasizing cardiovascular conditioning by lap swimming. Advanced swimming is designed for physical fitness, developing endurance, and perfecting various styles of swimming. It fulfills a physical education requirement for the A.A. and A.S. degrees. Two hours of practice weekly is required. Prior completion of PE 209 or intermediate swim skills are required.

**PE 215**
1 Credit
Individual and Team Sports
Offered Each Semester

Fundamental instruction in a variety of courses that offer instruction in many different activities including: bowling, griff, jogging tennis, racquetball, Roller skating, self-defense, skiing, rollerskate, and trap shooting, weight training, basketball, softball, volleyball, and more.

It fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of four credits. Special activity fees may be required. Prior completion of other courses is not necessary.

**Professional/Academic Courses**

Note: The following courses are professional and/or academic courses and will not fulfill physical education activity requirements for A.A. and A.S. degrees.

**PE 160**
3 Credits
Foundations of Physical Education
Offered Each Semester

This course presents an overview of the history and development of professional physical education and related fields, including principles and objectives of program development and management. It is beneficial for students considering a career in physical education or recreation services. Prior completion of other courses is not required.

**PE 220**
2 Credits
Sports and Society
Offered Each Semester

The interrelationship of sports with other aspects of culture, economics, drugs, gambling, and media will be among the topics studied in this course. The role of sports in American society will also be discussed.

**PE 221**
2 Credits
Fitness Activities and Concepts
Offered Fall Semester

Topics in this course relate to individual fitness development with focus on development of personal skills in presenting and teaching fitness activities for public and private sector programs. This is a combined lecture/lab course.

**PE 222 (Same as NURS 204B)**
3 Credits
Wellness Lifestyles
Offered Either Semester

Wellness Lifestyles examines contemporary health/wellness with emphasis on personal decision making and behavioral changes to create a personal lifestyle which promotes high level wellness. Prior completion of other courses is not required.

**PE 241**
2 Credits
Coaching Methods
Offered Fall Semester

This course offers instruction in methods of coaching a variety of sports with emphasis on fundamentals, strategy, conditioning, and practical applications. This course is beneficial to students considering a career in physical education.
education with a coaching option who will need coaching endorsement for coaching sports at the interscholastic level.

PE 243  Play and Game Theory  2 Credits  Offered on Demand

This course offers instruction and practice in the principles of play and game strategy for high- and low-organization activities. It is beneficial for students considering a career in physical education or recreation service. Prior completion of other courses is not required.

PE 248  Care and Prevention of Athletic Injuries  3 Credits  Offered Each Semester

This course offers instruction and practice in the care, prevention, and evaluation of injuries common to men's and women's sports. It is designed for PE majors, coaches, and individuals considering a career in athletic training or physical therapy. Prior completion of other courses is not required.

PE 259  Lifeguard Training  2 Credits  Offered On Demand

This course offers instruction and skill development for non-surf lifeguarding, including hazard management, rescue procedures, and interaction with the public. Students may elect to qualify for American Red Cross (ARC) certification. This is designed for students interested in aquatic safety and advanced training. To enroll, students must pass a lifeguarding skills test requiring strong swimming ability. Completion of First Aid and CPR training is necessary to qualify for Lifeguard Training Certification. Prior completion of other courses is not required.

PE 266  Water Safety Instructor  2 Credits  Offered On Demand

This course involves training in water safety for the aquatics instructor and meets requirements for the American Red Cross Water Safety Instructor course. Emphasis is on theory and application of aquatic skills, teaching methods, and practice in instruction.

It is designed for students interested in teaching aquatic skills and safety. Students will have the opportunity to qualify for American Red Cross (ARC) certification. Enrollment requires students have a current ARC Emergency Water Safety or Lifeguarding Certificate. Prior completion of other courses is not required.

PE 277  Lifeguard Instructor  1 Credit  Offered On Demand

This course offers training for those wishing to teach American Red Cross (ARC) Basic Water Safety, Emergency Water Safety, and Lifeguard Training courses. Emphasis is on practice teaching of ARC methods. Students will have the opportunity to qualify for ARC certification. It is designed for students interested in teaching aquatic skills and safety. Current lifeguard training certification is required.

PE 288  First Aid  3 Credits  Offered Each Semester

This course offers instruction and practice in emergency care for victims of injury or sudden illness. Students will have an opportunity to qualify for American Red Cross certification in First Aid and CPR. It is designed for students interested in safety, prevention, and first aid treatment. Prior completion of other courses is not required.

Physical Therapist Assistant

PTA 105  Professional Orientation  2 Credits  Offered Fall Semester

This course includes the discussion of the history and significance of physical therapy and the role of the physical therapist assistant as a member of the rehabilitation team in various settings. Patient-therapist interaction will be emphasized. Acceptance into the physical therapist assistant program is required to register for this course. The student must also be enrolled in PTA 106, PTA 108, PTA 109 and PTA 210.

PTA 106  Kinesiology  4 Credits  Offered Fall Semester

This course is the study of normal and abnormal movement of the joints, extremities and trunk, and the relationship of movements to gait and posture patterns. Emphasis is placed on musculoskeletal and neuromuscular relationships and function. Acceptance into the physical therapist assistant program is required to register for this course. The student must also be enrolled in PTA 105, PTA 108, PTA 109 and PTA 210.

PTA 107  Observation and Measurement  4 Credits  Offered Spring Semester

This course includes the study of measurements used in physical therapy such as manual muscle testing, goniometry, posture, vital signs, sensation, gait, and balance as related to the assessment of patient progress. Only those students who have been accepted into the physical therapist assistant program and have successfully completed the first semester of coursework are eligible to enroll in this course. Concurrent enrollment in PTA 200, PTA 202, and PTA 206 is required.

PTA 108  Fundamentals of Physical Therapy  4 Credits  Offered Fall Semester

This course includes the fundamental skills required for successful patient treatment and care. Topics covered include patient draping and preparation, bed mobility, transfers, gait training, wheelchair adjustment and repair, tilt table, activities of daily living, architectural barriers, documentation, basic skills for patient/family education and age related considerations. Acceptance into the physical therapist assistant program is required to register for this course. The student must also be enrolled in PTA 105, PTA 106, PTA 109 and PTA 210.
PTA 109  Gross Anatomy  2 Credits  Offered Fall Semester

This course includes the study of anatomy with particular emphasis on the musculoskeletal and nervous systems. It includes an overview of other regions including the thorax and abdomen. Acceptance into the physical therapist assistant program is required to register for this course. The student must also be enrolled in PTA 105, PTA 106, PTA 108, and PTA 210.

PTA 200  Clinical Pathology  3 Credits  Offered Spring Semester

This course is an overview of basic disease progression and classification with special emphasis on musculoskeletal and nervous system pathologies which are treated with physical therapy. Only those students who have been accepted into the physical therapist assistant program and have successfully completed the first semester of coursework are eligible to enroll in this course. Concurrent enrollment in PTA 107, PTA 202, and PTA 206 is required.

PTA 202  Physical Modalities I  4 Credits  Offered Spring Semester

This course includes the principles of physics, anatomy, kinesiology, heat, cold, sound and their use in therapeutics. The course also includes hydrotherapy, ultrasound, light and cryotherapy. Rationale of use is discussed. Only those students who have been accepted into the physical therapist assistant program and have successfully completed the first semester of coursework are eligible to enroll in this course. Concurrent enrollment in PTA 107, PTA 200, and PTA 206 is required.

PTA 205  Physical Modalities II  4 Credits  Offered Fall Semester

This course is a continuation of PTA 202 and includes the use of massage, manual techniques, traction, intermittent compression and electrotherapy. Rationale for use is included. Only those students who have been accepted into the physical therapist assistant program and have successfully completed the first three semesters of coursework are eligible to enroll in this course. Concurrent enrollment in PTA 207, PTA 208, and PTA 212 is required.

PTA 206  Therapeutic Exercise I  4 Credits  Offered Spring Semester

This course includes the development of therapeutic exercise intervention with an emphasis on orthopedic conditions in the patient population. Only those students who have been accepted into the physical therapist assistant program and have successfully completed the first semester of coursework are eligible to enroll in this course. Concurrent enrollment in PTA 107, PTA 200, and PTA 202 is required.

PTA 207  Therapeutic Exercise II  4 Credits  Offered Fall Semester

This course is designed to instruct the student in the general management and physical therapy treatment of patients with various neurological disorders. It includes the application of neurophysiological approaches to patient treatment in the pediatric as well as adult population. The course also presents treatment approaches used in cardiopulmonary rehabilitation. Only those students who have been accepted into the physical therapist assistant program and have successfully completed the first three semesters of coursework are eligible to enroll in this course. Concurrent enrollment in PTA 205, PTA 208, and PTA 212 is required.

PTA 208  PTA Procedures  1 Credit  Offered Fall Semester

This course further develops physical therapy treatment concepts and techniques such as prosthetics and orthotics, pediatrics, geriatrics, etc. Only those students who have been accepted into the physical therapist assistant program and have successfully completed the first two semesters of coursework are eligible to enroll in this course. Concurrent enrollment in PTA 205, PTA 207, and PTA 212 is required.

PTA 210  Clinical Affiliation  4 Credits  Offered Fall Semester

This course is a clinical instructor supervised clinical experience. Experience will focus on observation and beginning physical therapy skills as learned from previous coursework. Acceptance into the physical therapist assistant program is required to register for this course. The student must also be enrolled in PTA 105, PTA 106, PTA 108, and PTA 109.

PTA 211  Clinical Affiliation II  4 Credits  Offered Summer Semester

This course is a clinical instructor supervised clinical experience to enhance physical therapist assistant skills in the treatment setting. Orthopedic pathologies are emphasized and students may be placed in private practice, acute care or long term care sites. Only those students who have been accepted into the physical therapist assistant program and have successfully completed the first two semesters of coursework are eligible to enroll in this course.

PTA 212  Clinical Affiliation III  4 Credits  Offered Fall Semester

This course is the final clinical affiliation. It is a clinical instructor supervised clinical experience to enhance physical therapist assistant skills in the treatment setting. Neurologic and cardiopulmonary practice areas will be emphasized. Only those students who have been accepted into the physical therapist assistant program and have successfully completed the first three semesters of coursework are eligible to enroll in this course. Concurrent enrollment in PTA 205, PTA 207, and PTA 208 is required.
Physics

PHYS 101  Fundamentals of Physical Science  4 Credits  Offered Each Semester

This course provides a general presentation of the spirit of scientific investigation for the non-science major. It includes treatment of physical, chemical, astronomical, and geological, and their relation to the world in which we live.

This course is designed for the non-science major interested in an overview of the physical sciences and developing an appreciation for the nature of the physical universe. It includes three hours of lecture and one two-hour lab (PHYS 101L) each week. It fulfills a laboratory science requirement for the A.A. and A.S. degrees. A working knowledge of basic mathematics and satisfactory scores on placement tests are recommended.

PHYS 103  Elementary Astronomy  3 Credits  Offered Each Semester

PHYS 103 is an introductory study of astronomy including properties of stars, stellar evolution, the Milky Way, galaxies, theories of cosmology and cosmogony, and the history of astronomy.

This course includes three hours of lecture and one two-hour lab (PHYS 103L) each week. It fulfills a laboratory science requirement for the A.A. and A.S. degrees. Concurrent enrollment in PHYS 103L is required. Prior completion of other courses is not required.

PHYS 103L  Elementary Astronomy Laboratory (Formerly PHYS 103L)  1 Credit  Offered Each Semesters

The Elementary Astronomy Laboratory offers practical experience to accompany PHYS 103. It includes activities in naked eye and telescopic stellar observation, mechanics, optics, and stellar evolution. It consists of two hours of lab time each week. Concurrent enrollment in PHYS 103 is required.

PHYS 111  Elementary Physics I  3 Credits  Offered Fall Semester

General Physics I is the study of mechanics, sound, linear and rotational motion, momentum, energy, vectors, electricity, vibration, and mechanical wave motion. This course includes three hours of lecture and one two-hour lab (PHYS 111L) each week. Concurrent enrollment in PHYS 111L is required. High school Algebra II or MATH 147 or permission of instructor is required.

PHYS 112  Elementary Physics II  3 Credits  Offered Spring Semester

General Physics II is the study of temperature, gases, laws, kinetic molecular theory, electricity and magnetism, light, and optics. This course includes three hours of lecture and one two-hour lab (PHYS 112L) each week. Concurrent enrollment in PHYS 112L is required. Prior completion of PHYS 111 or 211 or permission of instructor is also required.

PHYS 111L  General Physics I Laboratory
(Formerly PHYS 115)  1 Credit  Offered Fall Semester

This laboratory is required for students enrolled in PHYS 111. It consists of two hours of lab time each week.

PHYS 112L  General Physics II Laboratory
(Formerly PHYS 116)  1 Credit  Offered Spring Semester

This laboratory is required for students enrolled in PHYS 112. It consists of two hours of lab time each week.

PHYS 211  Engineering Physics I  4 Credits  Offered Each Semester

PHYS 211 is the study of physics applicable to engineering fields, including examination of statics, dynamics, work and energy, sound and fluids. Students majoring in engineering, computer science, physics, chemistry, physical science, or mathematics will benefit from exposure to the principles and practices investigated. This course includes three hours of lecture and one two-hour lab (PHYS 211L) each week. It fulfills a laboratory science requirement for the A.S. degree. Concurrent enrollment in PHYS 212 and MATH 170 is necessary. Prior completion of high school physics or PHYS 101 is recommended.

PHYS 211L  Engineering Physics Laboratory
(Formerly PHYS 212L)  1 Credit  Offered Each Semester

PHYS 211 is a practical laboratory experience taken concurrently with PHYS 211L. It consists of two hours of lab time each week.

PHYS 212  Engineering Physics II  4 Credits  Offered Spring Semester

PHYS 212 is a continuation of PHYS 211, focusing on the study of heat and thermodynamics, electricity and magnetism, and optics. Students majoring in engineering, computer science, physics, chemistry, physical science, or mathematics will benefit from exposure to the principles and practices investigated. This course includes four hours of lecture and one two-hour lab (PHYS 212L) each week. It fulfills a laboratory science requirement for the A.S. degree. Prior completion of MATH 170 and PHYS 211 is required.

PHYS 212L  Engineering Physics Laboratory II
(Formerly PHYS 224L)  1 Credit  Offered Spring Semester

This laboratory course must be taken concurrently with PHYS 212. It consists of two hours of lab time each week.
Political Science

POLS 101  
American National Government  
3 Credits  
Offered Each Semester

Political Science 101 is the study of the foundation of the United States Government and the evolution of constitutional principles. Special attention is given to the Declaration of Independence, the United States Constitution, the three branches of national government, powers and limits of national government, public ethics, political parties, voters, pressure groups, and public opinion. The topic "Morality and Ethics in American Politics" has a close link to PHIL 201.

This is an essential course for students majoring in political science, pre-law, or law enforcement. It fulfills a social science requirement for A.A. and A.S. degrees. Prior completion of other courses is not required.

POLS 102  
State and Local Government  
3 Credits  
Offered Each Semester

Political Science 102 presents a comparative study of the 50 state governments and the local governments operating within those states. Emphasis is placed upon state constitutions, the three branches of state government, county governments, metropolitan politics, relationships between state and local governments, and the powers and limits of these governments.

This is an essential course for students wishing to major in political science, pre-law, or law enforcement. It fulfills a social science requirement for A.A. and A.S. degrees. Prior completion of other courses is not required.

POLS 105  
Introduction to Political Science  
3 Credits  
Offered Spring Semester

This is the introductory course in political science. It is a study of the basis, scope, nature, content, alternative theories, and comparative aspects of politics and political science. The purpose is to analyze the nature of politics, government, and international politics; to trace the development and changes in political culture; and to deal with political science methodology. This course addresses cultural diversity in addressing the various political systems of the world. It is strongly recommended that the course be taken at the same time as ENGL 104 so that the Political Science 105 research design can be coordinated with the ENGL 102 research paper.

This is an essential course for students majoring in political science or pre-law and should be taken the first semester of the freshman year. It fulfills a social science requirement for A.A. and A.S. degrees.

POLS 237  
International Politics and Problems  
3 Credits  
Offered Fall Semester

This course offers a basic introduction to the nature of politics in the international arena with special attention to nation-states' power, nongovernmental organizations, diplomacy, international law, human rights and ethics, international economic practices and ideas, military strategy and defense policies, alliance systems, and contemporary global issues such as demography, energy, environment, terrorism, and refugees. Prior completion of POLS 105 is recommended.

POLS 298  
Political Involvement Practicum  
1-6 Credits  
Offered Each Semester

In this practicum, students are participants and observers within local, state, or national government. They will be supervised by a government employee and an NIC political science instructor. A maximum of two credits per semester is offered to students serving as ASB officers/board members.

This course is useful for students wishing to obtain practical experience in government operations. Permission of the instructor, who will find a practicum assignment for the student, is required.

Psychology

PSYC 101  
Introduction to Psychology  
(Formerly PSYC 100)  
3 Credits  
Offered Each Semester

This course is designed to provide students with a general overview of the science which seeks to understand and explain behavior and mental processing. Variations in psychology faculty training and research interest influence topic emphasis. However, students will be introduced to many of the major contemporary theories and concepts in psychology.

This course will prove interesting and useful to those students wishing to better understand human behavior and thinking. As such, it should prove helpful to students preparing for a career that will bring them into contact with other people. This course fulfills a social science elective for both the A.A. and A.S. degrees. Prior completion of other courses is not required. Strong reading and writing skills are recommended.

PSYC 205  
Developmental Psychology  
3 Credits  
Offered Each Semester

This course is valuable to students pursuing a career that will necessitate working with and being sensitive to people of various ages (teachers, social workers, nurses, law enforcement officers, etc.). This course fulfills a social science degree elective for both the A.A. and A.S. degrees. Prior completion of PSYC 101 is recommended. Strong reading and writing skills are recommended.

PSYC 211  
Abnormal Psychology  
3 Credits  
Offered Spring Semester

This course provides a study of the nature, cause, treatment, and prevention of patterns of emotional disturbance and personality disorganization. It introduces the major categories of mental disorders as defined in the DSMIIIIR. This course will not fulfill a requirement for the A.A. or A.S. degree and may not be transferable.
COURSE DESCRIPTIONS

PSYC 218 Intro to Research in the Behavioral Sciences
4 Credits Offered Alternate Spring Semesters

Psychology 218 is primarily designed for behavioral and social sciences majors. In this course, students will be introduced to the basic methods of behavioral research. This will be accomplished through active participation in the design, implementation, and analysis of class research projects. This class involves three one-hour lectures and a two-hour lab per week.

This course is applicable for those students who plan to pursue an undergraduate and graduate degree in one of the behavioral or social sciences. Prior completion of PSYC 101 is required. Strong reading and writing skills are recommended.

PSYC 223 Stress Management
3 Credits Offered Each Semester

This course explores the concepts of stress from a holistic approach, emphasizing identification of sources of stress, understanding physical and emotional consequences, and developing techniques for dealing with stress.

Students will gain improved personal stress management skills through discussion and practice in communication techniques, nutrition, exercise, relaxation, value clarification, and will learn strategies for dealing with change, loss, and enhancing self-esteem. Prior completion of other courses is not necessary.

SOCIOLOGY

SOC 101 Introduction to Sociology
(Formerly SOC 110)
3 Credits Offered Each Semester

This introductory course presents the fundamental principles affecting human social systems. The concepts of traditional as well as contemporary theorists will be discussed. Emphasis will be placed on the forces governing groups and the conditions that transform social life. This course fulfills a social science requirement for the A.A. and A.S. degrees. Prior completion of other courses is not required.

SOC 102 Social Problems
(Formerly SOC 230)
3 Credits Offered Each Semester

This course investigates the persistent problems of American society as they relate to values, attitudes, and social change. Application of sociological principles to the identification and analysis of selected problems will be consistently developed. SOC 102 fulfills a social science requirement for the A.A. and A.S. degrees. Prior completion of other courses is not required.

SOC 155 Drug Abuse: Fact, Fiction, and the Future
3 Credits Offered Each Semester

This course is designed to provide information about drugs, their effects, and the laws and social implications relative to them. Students will learn about the causes of drug abuse, treatment modalities, community resources, alternatives, and problem-solving skills.

SOC 220 Marriage and Family
3 Credits Offered Each Semester

Sociology 220 is designed to help students understand the responsibilities that marriage creates. Students will have to confront such issues as marriage expectations, money management, interpersonal needs, marriage adjustment, contraception, communication, pregnancy, and child care, divorce, and the like. This course fulfills a social science requirement for the A.A. and A.S. degrees. Prior completion of other courses is not required.
SOC 283
3 Credits
Death and Dying
Offered Once Each Year
This course introduces the concepts, attitudes and social dynamics of death and dying, including various cultural perspectives. Topics include demographics, who dies and why, suicide, treatment of the dying and dead, religious and legal perspectives, stages of dying, caregiving, grief and bereavement.

Speech
(See Communications, page 107)

Theatre

THEA 101
Introduction to the Theatre
3 Credits
Offered Each Semester
Theatre 101 examines the contributions of individual artists to the collective art of theatre. Through discussion and attendance at plays, students will become familiar with elements of dramatic structure and the roles and responsibilities of the director, lighting designer, costumer, playwright, sound technician, actors, and scene designer. This is a non-performance course open to non-majors designed to enhance students' understanding of dramatic art and the appreciation and enjoyment of live performance. Skills in observation, writing, critical thinking, and verbal expression are emphasized and developed. Students are required to attend five plays during the semester. This course fulfills an arts and humanities requirement for the A.A. and A.S. degrees.

THEA 102
Stage Makeup
1 Credit
Offered Each Semester
This course is an introduction to the principles and practices of stage makeup design and its application for theatre and television/film. Practical lab experiences are provided to demonstrate and practice makeup techniques.

THEA 103
Introduction to Stagecraft
3 Credits
Offered Fall Semester
Theatre 103 offers practical lab experience in applying theories and methods of scenery and prop design and construction. It focuses on the creative use of production tools and stage equipment. This course provides an opportunity to develop technical skills for theatre and media production for students exploring those career areas or who are interested in community theatre participation. Prior completion of other courses is not necessary.

THEA 105
Basics of Performance I
2 Credits
Offered Fall Semester
This course is an introduction to the art of stage performance, emphasizing the development of acting skills. It includes basic vocal skills, character development and projection. Emphasis is on developing an understanding and appreciation for the total performance of the actor, combining creative imagination and discipline. Students will do solo and duo acting, requiring script memorization and performance before an audience. Tickets to area theatrical shows may have to be purchased at a total cost of under $12. Prior completion of other courses is not required.

THEA 106
Basics of Performance II
2 Credits
Offered Spring Semester
This course is a continuation of THEA 105, focusing on enhanced voice and movement and the development of characters from scripts. Students will study and practice techniques actors use in working with ensembles, memorizing parts, and developing stage presence. The skills introduced in THEA 105 are improved upon and includes verbal and nonverbal communication techniques, memorization, script analysis, and the interpretation of character. Prior completion of THEA 105 is required.

THEA 163
Basics of Scene Design and Graphics
2 Credits
Offered Fall Semester
This course offers an introduction to visual interpretation, research, and rendering techniques used in scenery design. Emphasis is on creating authentic and appropriate stage environments for theatrical scripts.

THEA 190
Theatre Practice
1 Credit
Offered Each Semester
Students participate in the development and production of an NIC play, gaining experience in one or more areas, including lighting, properties, costuming, set construction, audio and sound support, and stage managing. Practical experience in theatrical production may include basic carpentry, electrical, makeup, sewing, painting — skills applied to theatre but useful in other fields.

Students will refine these skills as they develop an appreciation for the total process of theatre art involving organization, creativity, discipline, and ensemble teamwork. The course is open to non-majors and may be repeated for a total of four credits. Some evening and weekend work will be included. Prior completion of other courses is not required.
Welding Technology

NOTE: Course enrollment requires prior acceptance into the Welding Program.

WELD 130 Welding Blueprint I 1 Credit
Offered Fall Semester

Reading and interpretation of advanced blueprints as they pertain to the welding field will be covered.

WELD 132 Pattern Layout & Parallel Line Development 3 Credits
Offered Spring Semester

This course acquaints the welding student with layout methods to include parallel and radial line development, triangulation, layout of 90 degree elbows, square to round transitions, fillets, cones and "T" and "Y" structures. Techniques for sketching and drawing orthographic projections, oblique and isometric views, as well as dimensioning techniques will be covered.

WELD 161 Oxycetylene Cutting & Basic SMAW Theory 1 Credit
Offered Fall Semester

Oxycetylene cutting and stick (SMAW) welding are essential skills for the welding professional. Students will become proficient in the theory of cutting and stick welding and be prepared to apply this theory in lab or work situations.

WELD 161L Oxycetylene Cutting & Basic SMAW Lab 4 Credits
Offered Fall Semester

This lab course will enable the student to practice and use the theoretical skills taught in WELD 161. Skill development is the primary goal of this course. Both oxycetylene cutting and stick (SMAW) welding are vital skills in the welding industry.

WELD 162 Advanced SMAW Theory 1 Credit
Offered Fall Semester

Advanced processes of stick welding are studied in this theory course. Open root welding on plate, cast, aluminum, stainless steel and other common materials will be discussed.

WELD 162L Advanced SMAW Lab 4 Credits
Offered Fall Semester

Using the information from WELD 162, students will become proficient in advanced welding procedures of open root welding on plate, cast, aluminum, stainless steel and other common materials, as well as plasma arc cutting of non-ferrous materials. Students will receive one-on-one instruction to develop these skills. Welder certification testing is included.

WELD 163 GMAW Theory 1 Credit
Offered Spring Semester

Wire feeding is one of the fastest growing methods of welding. It is necessary for the welder to study set-up, adjustment, and manipulation of this process before actual welding starts. Many welding shops and manufacturers use this process of welding.
WELD 163L GMAW Lab 4 Credits Offered Spring Semester

Practice and use of WELD 163 theory will be used in this lab. Many welding jobs require welders to be certified in gas metal arc welding.

WELD 164 Welding Theory - GTAW and OAW 1 Credit Offered Spring Semester

Theory and uses of TIG are studied as well as oxyacetylene welding practices. Both of these processes use similar skills and are studied at the same time. A high degree of understanding of this welding process is necessary to set-up and obtain X-ray quality welds. This theory will enable students to obtain these skills.

TIG and gas welding are used in many industries where aluminum and stainless steel are used. It is a vital skill for professional welders, especially in the aircraft and pipe welding industry.

WELD 164L GTAW & OAW Lab 4 Credits Offered Spring Semester

Using information from WELD 164, students will become proficient in oxyacetylene welding skills and TIG welding. One-on-one instruction enables the student to gain a high degree of welding skill for the demanding procedure. X-ray quality welds are necessary in much of the welding industry. These processes provide that high quality weld and require a highly skilled welder to perform them. The pipe welding industry is only one of many employment areas that uses this process.

WELD 165 Introduction to Pipe Welding Theory 1 Credit Offered Summer Semester

This class will give students an introduction to the theory of procedures and methods of pipe welding using shielded metal arc welding process.

WELD 165L Introduction to Pipe Welding Lab 2 Credits Offered Summer Semester

Students will apply the knowledge from WELD 165 through practical lab exercises acquiring a rudimentary skill level in pipe welding.

WELD 235 Welding Blueprint II - Pipe Drawings 1.5 Credits Offered Fall Semester

This course provides the welding technologist with the skills necessary for reading and interpreting pipe drawings. Course content includes the AWS's adopted standards for welding symbols. Prior completion of Basic Blueprint reading or its equivalent with a passing grade on a competency test is required.

WELD 236 Fabrication Techniques - Layout & Fitting 2.5 Credits Offered Spring Semester

This course will enable the student to perform basic layout of pipe, figure offsets, runs, and travel distances, and aid students in understanding the variables that greatly affect welding fabrication.

WELD 241 Material Preparation 1 Credit Offered Fall Semester

This course provides students with the methods and procedures for preparing materials for various pipe welding operations.

WELD 269 Intermediate Pipe Welding Theory-Metallurgy 2.5 Credits Offered Fall Semester

Course concepts explain the metallurgical behaviors and determinations of the weldability of ferrous and non-ferrous metals; explanations of commonly used welding codes; requirements and preparations for certification in ASME and API pipe welding codes; and all related safety issues.

WELD 269L Intermediate Pipe Welding Lab 7.5 Credits Offered Fall Semester

Procedures are aimed at producing welds which will meet the requirements of the commonly used codes. Included is preparation for the certification of welding test in accordance with AWS and ASME codes. This course will enable the welding student to perform pipe welds using gas tungsten arc welding and shielded metal arc welding on ferrous metals.

WELD 270 Advanced Pipe Welding Theory 3 Credit Offered Spring Semester

This course is an introduction to the fundamentals of welding inspection, terminology, codes, standards and specifications, test methods, quality control and welder qualification. Students will also be introduced to automated welding processes to give them a good understanding of the trends toward automation in welding. The metallurgical behaviors of stainless steels and other exotic metals and their preparation for welding to established codes will also be covered.

WELD 270L Advanced Pipe Welding Lab 7 Credits Offered Spring Semester

Students will apply code quality procedures to develop a high quality and appearance using the gas tungsten arc welding process on both ferrous and non-ferrous metals. Students will also gain practical experience in fitting branches and lateral configurations. Practical application of methods and procedures for qualification tests for piping and tubing will also be covered.

GLOSSARY OF TERMS

Academic Load - Total number of credit hours taken in one semester.

Academic Probation - Students whose cumulative grade point average falls below 1.75 at the end of any semester are placed on academic probation, meaning they must either earn at least a 2.0 during their next semester or raise their cumulative GPA to 1.75 or above. Students who fall below the GPA requirements will be suspended from college for one semester.

Advisor - Faculty member or staff person trained to assist students in setting goals and educational goals.

Articulation Agreement - Agreement with another college or university whereby a student who has earned either an Associate of Arts Degree or an Associate of Science Degree at NIC will transfer with junior standing. Articulation agreements are in effect for recipients of either degree with all Idaho public colleges or universities. Articulation agreements are in effect for recipients of the Associate of Arts Degree with Eastern Washington University and Gonzaga University.

ASSET Test - An evaluation to determine the most appropriate level of math and English classes for which a student should enroll. The purpose of the ASSET is to help ensure student success in courses and to make the experience at NIC as beneficial and enjoyable as possible.

Auditing a class - Taking a class without receiving a grade or credit. Audited classes cost the same as credit courses.

Catalog - A book describing the college, listing its services, the programs available, and all course descriptions. This is not the same as the class schedule, which lists specific course offerings for a single semester.

Certificate Program - Prepares students for entry-level employment in specific career fields through completion of intensive technical training. Credits are often applicable toward the Associate of Applied Science Degree.

Concurrent Enrollment in Classes - Enrollment in one course requires enrollment in a second course, i.e., students who enroll for a biology course must also enroll for an accompanying laboratory course.

Concurrent Enrollment in Colleges - Refers to students who are enrolled at NIC and at either the University of Idaho or Lewis Clark State College. Both UI and LCSC offer upper division courses on the NIC campus and students working toward their baccalaureate degree may be completing a program at NIC and working on another at one of the other two schools. Students who are receiving financial aid from either UI or LCSC must provide information to NIC's financial aid office prior to enrollment or they will be expected to make full payment for their NIC courses.

Core Courses - General education courses with various disciplines which will satisfy the distribution requirements of the associate degrees. See pages 38-42 in the catalog.

Corequisite Course - A course that must be taken simultaneously with another course.

Counselor - A person trained to work with students to help them solve personal problems, become more knowledgeable about themselves, set goals, and make decisions relative to personal, social, educational, and employment concerns.

Curriculum - A specific program of study comprised of courses leading to a degree or certificate.

Elective - A course for which a student may choose to enroll because of interest or career-related, as distinguished from a required or core course.

Local Address - Address used by a student only while he/she is attending college.

Linked Courses - Enrollment in one course requires enrollment in the other, providing the opportunity for an enhanced learning experience taught by two instructors. The linked course concept allows students to gain the content of two distinct classes, but the academic experience is broadened and deepened through the exploration of connections across disciplines. The classes are usually offered "back-to-back" in the schedule, and separate credit is given for each course.

Major - A chosen academic field of study. Students may earn an A.A. or an A.S. degree without selecting a major.

Matriculated/Nonmatriculated - Terms indicating degree seeking status. Students who are matriculated are working toward a degree or certificate and have completed the admissions process which includes application, payment of application fee, and provision of high school and college transcripts. Matriculated students are eligible to apply for financial aid. Nonmatriculated students are not working for a degree from North Idaho College and are not eligible for financial aid from NIC.

Outreach Courses - Courses taught in off-campus locations, i.e., Sandpoint and Kellogg.

Noncredit Courses - Courses offered through the Workforce Training or Continuing Education office that carry no academic credit; they may offer continuing education units. Noncredit courses cannot be applied toward an academic degree or certificate.

Permanent Address - Address through which a student may always receive mail; this address is usually the address the student used at the time of application and the address upon which residency status is based.

Prerequisite Courses - Courses that are required prior to enrollment in another course; i.e., MATH 108 must be successfully completed prior to enrollment in MATH 130. There is a normal sequence in many courses and successful completion of a prerequisite course is necessary for the subsequent course.

Reciprocally - Agreement with other states whereby students from that state are eligible for reduced tuition rates on the out-of-state portion. Students must apply to receive this discount. It is available on a first-come, first-served basis.

Schedule of Classes - List of the course offerings with dates, times, and classroom location for a semester, summer session, or technical block.

Semester - Period of instruction into which an academic year is divided. NIC has both a fall semester and a spring semester that are approximately four months in duration.

Service Learning - Service learning combines academic studies with public service by linking the theory and content of a course with the practical application of the course concepts in a community setting. The service learning assignment, which is optional, requires 15-20 hours outside the classroom during the semester (in lieu of other course assignments comparable to 15-20 hours). Students report their learning is enriched by the service experience, and career exploration is an added benefit to this type of class.

Transcript - An accurate and complete record of a student's academic history showing college courses, grades, credits, grade point average, and notation of any program completion.

APPLICATION FOR UNDERGRADUATE ADMISSION
to Idaho's Public Colleges & Universities

Upon completion, mail this application along with the appropriate application fee to the institution to which you are applying. If you are applying to more than one of Idaho’s public institutions, send a photocopy with appropriate application fee to each additional college. Information on other Idaho institutions can be obtained by calling the phone numbers below, or by visiting the World Wide Web site: www.sde.state.id.us

Applying to:
☐ Boise State University
   Fee $20 Phone: (208) 884-7007
☐ College of Southern Idaho
   Fee $20 Phone: (208) 733-9554
☐ Eastern Idaho Technical College
   Fee: $10 Phone: (208) 882-0281
☐ Idaho State University
   Fee $20 Phone: (208) 259-2475
☐ Lewis-Clark State College
   Fee $20 Phone: (208) 882-0033
☐ North Idaho College
   Fee: $10 Phone: (208) 769-3311
☐ University of Idaho
   Fee $20 Phone: (208) 422-6033

Start Date: ☐ Fall 19 ☐ Spring 19 ☐ Summer 19 ☐ Summer/Fall 19 (beginning summer & continuing into fall)

General Information

Full Legal Name: ____________________________________________ __________ Name You Prefer: ____________________________________________

Other Names Appearing on Records: ____________________________________________

U.S. Social Security Number: __________________________ Date of Birth (mo/day/year): __/__/____

Permanent Home Address:

number & street/PO box: __________________________ city: __________________________ country: __________________________ state: __________________________ zip: __________ area code: __________ phone: __________

Current Mailing Address (Valid until the following date: __/__/____): __________________________

number & street/PO box: __________________________ city: __________________________ country: __________________________ state: __________________________ zip: __________ area code: __________ phone: __________

Emergency Contact:

(name) __________________________ relationship: __________________________

city: __________________________ country: __________________________ state: __________________________ zip: __________ area code: __________ phone: __________

Citizenship: ☐ USA ☐ Other

Native Language: ☐ English ☐ Other:

If citizenship is "other," answer the following questions. Country of citizenship: __________________________

Resident alien of U.S: ☐ Yes (resident alien number: __________________________ ) ☐ No (current visa type: __________________________)

Gender: (optional) ☐ Female ☐ Male

Ethnicity: (optional) ☐ American Indian/Alaska Native ☐ Asian American/Pacific Islander ☐ Black/African American ☐ Caucasian/White ☐ Hispanic/Latino ☐ Other: __________________________ ☐ No Response

Are you a U.S. veteran? ☐ Yes ☐ No If yes, military branch: __________________________ Dates of service __/__/____ to __/__/____

Highest level of education attained by either parent: ☐ Some High School ☐ High School Diploma

☐ Some College ☐ Associate’s Degree ☐ Bachelor’s Degree ☐ Other Degree: __________________________

Enrollment Information

Intended Degree Type: ☐ Certificate ☐ Associate ☐ Bachelor ☐ Not Seeking Degree or Certificate

Intended Major (Refer to an institutional publication for a list of majors available):

(first choice) __________________________ (second choice) __________________________ ☐ Undecided

Enrollment Status: ☐ New ☐ Transfer ☐ Returning (readmission) ☐ High School Student Seeking Dual Enrollment

Campus Location: If planning to take courses primarily at outreach locations, list these locations: __________________________

Complete Reverse Side
Schools Attended

List the last high school you attended and any schools since, including colleges, trade schools, correspondence, etc. Do not omit any schools. Attach a separate sheet if more space is needed. Failure to list all schools attended, or submission of inaccurate information, is considered fraud and is cause for refusal of admission or dismissal from the institution. Students seeking certificates or degrees must have official transcripts submitted from each school listed. To be considered official, transcripts must be mailed in a sealed envelope directly from the school to the institution’s admissions office.

Did you (or will you) graduate from high school?  □ Yes (month/year __/____)  □ No
High School __________________________________________  City ______________________ State ___________________________

If not a high school graduate, do you have a GED or High School Equivalency Diploma?  □ Yes (month/year __/____)  □ No
If yes, degree-seeking applicants are required to submit official GED test scores.

Residency

Idaho residency status MAY be determined by one or more of the following. Please check all boxes that are applicable if claiming Idaho residency for tuition purposes. Residency for community colleges is determined by county of residence.

State of Residence: ______ From __/____/____ to __/____/____ If less than 12 months, previous state: ______
County of Residence: ______ From __/____/____ to __/____/____ If less than 12 months, previous state: ______

☐ A. I received less than fifty percent of my support from parents or legal guardians who are not residents of the State for voting purposes. I have continuously resided in the State of Idaho for at least twelve months before the opening day of the school term at this institution.

☐ B. I am a graduate of an accredited high school in the State of Idaho or enrolled in the State of Idaho.

☐ C. I am a member of the Armed forces stationed in the State of Idaho on military orders. I am stationed in ______ County.

☐ D. I am married to an Idaho resident. My spouse is a resident of County.

☐ E. One of my parents/legal guardians, from whom I receive fifty percent or more of my support, is a member of the Armed forces stationed in the State of Idaho. They are stationed in ______ County.

☐ F. I have been separated under honorable conditions from the Armed Forces after at least two years of service. At the time of separation, I designated the State of Idaho as my intended domicile or indicated Idaho as my home of record, and I am entering this institution within one year of the date of separation.

☐ G. I have been an Idaho resident for a period of less than one calendar year. I have not established legal residence elsewhere. I was a resident of the State of Idaho for a continuous twelve month period immediately prior to departure.

☐ H. I am a member of one of the following Idaho American Indian tribes: Coeur d'Alene; Nez Perce; Shoshone-Bannock; Kootenai.

*These items may not be applicable to determine residency for community colleges.

Signature

In signing this form, I acknowledge that failure to disclose and submit accurate information may result in denial of admission or dismissal from the Institution. I certify that all information provided is complete and true.

Residency

Idaho residency status MAY be determined by one or more of the following. Please check all boxes that are applicable if claiming Idaho residency for tuition purposes. Residency for community colleges is determined by county of residence.

State of Residence: _____ From _____/_____ to _____/_____ If less than 12 months, previous state: _____
County of Residence: _____ From _____/_____ to _____/_____ If less than 12 months, previous state: _____

☐ A. One or more of my parents/legal guardians or spouse's parents is a resident of the State of Idaho and has maintained a bona fide domicile in Idaho for at least one year prior to the opening day of the school term during which I plan to enroll.

☐ B. I receive less than fifty percent of my support from parents or legal guardians who are not residents of the State for voting purposes. I have continuously resided in the State of Idaho for at least twelve months before the opening day of the school term at this institution.

☐ C. I am a graduate of an accredited high school in the State of Idaho and I will attend this institution during the term immediately following graduation.

☐ D. I am married to an Idaho resident. My spouse is a resident of ______________________County.

☐ E. I am a member of the Armed Forces stationed in the State of Idaho on military orders. I am stationed in ______________________County.

☐ F. One or more of my parents or legal guardians, from whom I receive fifty percent or more of my support, is a member of the Armed Forces stationed in the State of Idaho. They are stationed in ______________________County.

☐ G. I have been separated under honorable conditions from the Armed Forces after at least two years of service. At the time of separation, I designated the State of Idaho as my intended domicile or indicated Idaho as my home of record, and I am entering this institution within one year of the date of separation.

☐ H. I have been away from the State of Idaho for a period of less than one calendar year. I have not established legal residence elsewhere. I was a resident of the State of Idaho for a continuous twelve month period immediately prior to departure.

☐ I. I am a member of one of the following Idaho American Indian tribes: Coeur d'Alene tribe; Shoshone-Paiute tribe; Nez Perce tribe; Shoshone-Bannock tribe; Kootenai tribe.

* These items may not be applicable to determine residency for community colleges.

Signature

In signing this form, I acknowledge that failure to disclose and submit accurate information may result in denial of admission or dismissal from the institution. I certify that all information provided is complete and true.
