STATEMENT OF PURPOSE

The committee structure of North Idaho College exists to promote participative governance and collaborative management of specific college processes. Faculty, students, staff and administrators are chosen to serve on committees in order to promote the sharing of ideas and opinions from a variety of perspectives. In so doing, members share in collaborative decision-making and build consensus for positive change within the institution. The regulations governing committees are contained in NIC Policy and Procedure #2.03.01. Current versions of the policy and procedure and the current committee structure and membership document are available on the NIC website.

College Standing Committees

College wide standing committees deal with long-term issues that affect employee and student groups broadly and have no foreseeable end-date (e.g. governance committees, councils, curriculum committees, operational advisory committees, etc.). Standing committees focus on strategic issues and key processes vital to the operations of the college and its future direction. Through these committees, constituent groups perform research, exchange information, deliberate, reach consensus, and make recommendations to the college administration and through the president to the board of trustees. The establishment, and/or discontinuance of college standing committees require approval by the president and the Senate. In cases of disagreement, the board of trustees will make the final decision.
