INTRODUCTION

The personal safety and security of students, staff, visitors, and the protection of property are high priorities at North Idaho College.

Unless specifically identified all content and resources of the Annual Security Report are applicable to students and employees of the main campus in Coeur d'Alene and NIC separate campuses.

This information is provided to you as part of North Idaho College's commitment to safety and security and in compliance with the Federal Crime Awareness and Campus Security Act of 1990.

Creating and maintaining a healthy and safe campus environment requires the cooperation and involvement of everyone. All students, faculty, staff and visitors must assume responsibility for their personal health and safety, the safety of others, and the security of their belongings. Our institution is safer than most places, but is not crime free.

Theft, assaults, and other violations of the law can occur on North Idaho College properties.

A truly safe campus can be achieved only through awareness, shared knowledge and the cooperation of all the students, faculty, staff and visitors.

The Campus Security Department prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. The Clery Act is a federal law that requires colleges and universities to disclose information about crime on and around their campuses. The act is named in memory of Jeanne Clery, a 19-year-old Lehigh University freshman who was assaulted and murdered in her residence hall room on April 5, 1986. This report is prepared in cooperation with the local law enforcement agencies surrounding our main campus and outreach centers, Residence Life, Judicial Affairs in conjunction with Student Life, the Athletic Department and other campus security authorities (CSA). Each year notifications are sent to all enrolled students and employees that provide the web address to access this report. Printed copies of this report may also be obtained from the Campus Security Office located at 703 Military Drive or calling 208-769-3310.

The Campus Security Act requires colleges and universities to:

- Publish an annual report every year by October 1 that contains three years of campus crime statistics and certain campus security policy statements;
- Disclose crime statistics for the campuses, non-campus and separate campus facilities. The statistics are gathered from the NIC School Resource Officer (SRO), security, local law enforcement agencies, and other campus officials who have "significant responsibility for student and campus activities" (Campus Security Authorities – CSA).
- At a minimum, this information is to include statistics for crime categories, arrest categories, VAWA Offenses and disciplinary referral categories.
- Provide "timely warning" notices of those crimes that have occurred and pose an ongoing "threat to students and employees;" and
- Disclose in a public crime log "any crime that occurred on campuses" or within the patrol jurisdiction of the campus security, law enforcement and/or is reported to the security department. Public and non-campus properties adjacent or affiliated with NIC properties are also included.

The adjacent public streets of Rosenberry, Hubbard, W. Garden and River Ave. are monitored for criminal activity and included for emergency notifications, statistic reporting and providing security patrols and assistance.

The Student-Right-To-Know and Campus Security Act

Congress enacted The Student-Right-To-Know and Campus Security Act in 1990 as Public Law 101-542. This came about through the efforts of several families whose children were murdered on college campuses in the late 1980s. This law requires institutions of higher education which participate in federal programs to publish campus security information and crime statistics. At a minimum, this information is to include statistical crime categories for the three most recent calendar years, arrest/disciplinary referral categories for the most recent years, and statements of security policies. The law was most recently amended in 2000 to require Colleges in 2003 to notify the campus community as to where public “Meagan’s Law” information about registered sex offenders on campus could be obtained. This information may be obtained at www.isp.idaho.gov or by contacting the Campus Security Office. Registered sex offenders who may be attending NIC are required to meet with the Director of Student Development prior to class start date.

Notice of Availability of the Annual Security & Fire Report

Each year (prior to Oct. 1 and once again in February) notifications are sent to all students and employees that provides the web address to access this report. Notification of the Annual Security & Fire Reports availability is also provided to students seeking admission to NIC during the prospectus process, and to those seeking employment during recruitment and application. Printed copies of this report may also be obtained at the Campus Security Office located at 703 Military Drive and is published on the security web page, www.nic.edu/security please call to request a printed copy at (208) 769-3310.

This report includes statistics for the previous three years concerning reported crimes that occurred on-campus as well as separate campuses, off campus buildings or property owned or controlled by North Idaho College; and on public property within, or immediately adjacent to and accessible from the campus. This report also includes institutional policies concerning campus security, such as sexual assault/misconduct, crime reporting, awareness, Violence against Women’s Act (VAWA), etc.

North Idaho College is a state supported institution of higher education and located in Coeur D’Alene Idaho , Sandpoint Idaho, and the Workforce Training Center in Post Falls. The Career & Technical Education Center (PTEC) opened for the fall 2016 semester in Rathdrum ID. and will be considered a separate campus. The college has an enrollment of nearly 5000 students with approximately 200 students who live in the Coeur d’Alene on-campus Residence Hall. This security report contains policies and procedures, crime statistics and information for the primary and separate campuses.

Campus Security

North Idaho College Campus
Security; who we are:

Campus Security is located at 703 Military Drive Bldg. #30 (campus map). Security officers are available 24 hrs. a day, 7 days a week, 365 days a year (main campus) at ext. 3310 (On-Campus) and (208)-769-3310 (Off-Campus or cell). For immediate emergencies call 911 with a follow-up call (208) 769-3310 to Campus Security.

The department consists of professional campus security officers along with a School Resource Officer (SRO) dedicated to providing best-in-class service to the community. Officers patrol the main campus and adjacent public property on foot, bicycle, golf cart, and in vehicles 24/7/365.

Campus Security is the administrative unit responsible for campus security, policy and procedures. Officers are professionally trained in public safety methods, and provide proactive patrol of the campus, their authority is limited to the geographical boundaries of NIC's properties including land, structures, streets and parking areas. Local law enforcement is contacted for assistance with on & off campus disturbances as required.

NIC security officers do not carry firearms but are armed with the Taser Electronic Control Weapon (ECW), a non-lethal device. To carry this non-lethal weapon, officers complete training through the Coeur d'Alene Police Department, Spokane County Police Academy, and/or by certified instructors with campus security. Even though security officers are not sworn peace officers, they are authorized to make citizens arrests when necessary, as granted by Idaho Statute 19-604, and are responsible for enforcement of college rules and policies, and applicable federal, state, city, and county laws and ordinances on college property.

North Idaho College in addition to security officers provides a School Resource Officer (SRO) on the staff. The SRO can be contacted by calling (208) 769-3310. The SRO is an armed member of the Coeur d'Alene Police Dept. who is assigned to NIC and is a sworn law enforcement officer. The NIC SRO can investigate crimes that not only occur on the main campus, but also the public areas adjacent to the campus, as well as crimes that have both an off and on campus component (stalking, domestic/dating violence, hate crimes, etc.)

Campus security works closely with the Coeur d'Alene, Post Falls, Rathdrum Police and Kootenai Co. Sheriff's Office to assist in safeguarding the campus communities. City and county law enforcement officers patrol the public streets on campus and adjoining area. Campus security relies on these relationships for support on several levels.

Campus security coordinates various safety and security programs and is responsible for preparation and distribution of the annual security and fire report.

Reporting Criminal Incidents and other Emergencies

All students, employees, and guests should promptly report criminal incidents, accidents, and other emergencies to the campus security office by calling ext. 3310 from on campus phones, (208)-769-3310 from off-campus, or in person at the security office located at 703 Military Dr. Bldg. #30. Criminal activity or medical emergencies that are in progress should be reported by dialing 911, please provide as much information that is known. North Idaho College has installed emergency (Blue Light) phones throughout the main campus for use during emergencies or for assistance with vehicle jumpstarts/lockouts or escort service. By lifting the handset, users can communicate directly with the security office during business hours, or direct with the on-duty security officer after business hours and weekends. The NIC School Resource Officer (SRO) can be contacted by calling (208)769-3310.

Reporting of criminal incidents or emergencies for the separate campuses and non-campus buildings involves dialing 911 for local emergency response. After calling 911, NIC security must be called at (208) 769-3310 so notifications to the administrative staff - students may be conducted, and also for the possibility that emergency notifications or timely warnings may be issued. Prior to 2014, crime statistics for the non-main campus centers were listed under the main campus crime listings. These outreach centers are now listed separately with each crime category reflected individually for current and past years. The NIC Aerospace Center opened in 2013 with

data reflected from that time to when it closed in 2021. The LCSC was opened in 2022. The Parker Technical Education center (PTEC) facility in Rathdrum opened for the fall 2016 semester. The PTEC facility, Workforce Training and Aerospace locations also have an NIC security presence in the form of a roving security patrol (Monday – Friday) who can be contacted by calling (208) 769-3310. All separate campuses have been assigned Campus Security Authorities (CSA) with whom crimes and incidents may be reported in addition to electronic submittal forms found on the NIC security webpage. *The Graphic Design Center relocated to the main Coeur d’Alene campus in August of 2020 and will no longer be considered a Separate Campus for the compilation of crime statistics after 2020. The NIC Outreach Centers in Kellogg/Silver Valley and Bonners Ferry both closed in 2020 with crime data presented to this date.*

If a person is a victim/witness of a crime but does not wish to pursue action within the college’s judicial system or with law enforcement (or is unable to report), we still encourage them to report the incident and we will ensure their anonymity. This is a confidential report as opposed to an anonymous tip or report.

We encourage this for record keeping purposes so we can track potential threats and advise the campus community if there is a danger based on location or method of assault. These are kept and counted in the annual crime statistics for the institution. Victims would also be encouraged to talk with counseling services about the incident which is a confidential communication between victim/witness and counselor.

Secret Witness/Safe Campus: Anyone having knowledge of a crime or information that pertains to a crime but is reluctant to contact authorities may file a “Secret Witness” report. This electronic report can be found and completed from the NIC security web page and allows for anonymous reporting of crimes, tips or suspicious behavior. An additional reporting resource is the Safe Campus initiative & “Safe Campus” report. This tool provides information and reporting options on concerning behavior traits that could result in violence to self or others. Visit the security web page below for additional information, links and reporting forms.

Monitoring and recording of Criminal & Non-Criminal Activity

North Idaho College relies on its close working relationships with local law enforcement agencies to receive information about incidents involving students off and on-campus. North Idaho College Security will actively investigate any crime information it receives. If North Idaho College is notified of a situation in which a campus or community member is a victim of a crime, NIC may issue a Campus Safety Alert detailing the incident and providing tips so that other community members may avoid similar incidents. We will forward for disciplinary action any information regarding student misconduct occurring during school trips and activities regardless of location. The Security Dept. with the assistance of Campus Security Authorities monitor and record crime and incident data from the Outreach and Training Centers (separate campuses) as well as non-campus buildings. Criminal activity is also tracked from the local law enforcement agencies through alerts, reports, information requests, Nixle, Crimereports.com, etc. This information is gathered and entered into the Annual Security Report with timely notifications issued when warranted. Recent crime and non-crime incidents are updated monthly on the security web page, contact NIC security at (208) 769-3310 for immediate updates.

Access to Campus Facilities

North Idaho College has taken steps to improve accessibility for our disabled students. Most buildings in which students must enter have satisfied the Office of Civil Rights standards of accessibility. Many campus buildings are accessible to members of the campus community, guests and visitors during normal hours of business. Some buildings are open Saturday and Sunday for classes, labs and special events. Exterior doors and most interior doors to the college are locked when offices and buildings are closed at 10pm when classes are not in session. Keys or key access cards that are authorized and issued to faculty and staff are not to be duplicated or provided to unauthorized employees or students. Persons found in possession of unauthorized keys/cards will have the key immediately confiscated, and could face disciplinary action. Campus Security and Facilities personnel carry keys to all buildings and are responsible for locking and opening buildings and classrooms on the main campus, campus security makes building checks throughout the night. The NIC School Resource Officer (SRO) along with officers from the Coeur d’Alene, Post Falls and Rathdrum Police Departments are provided key cards for expedited facility entry should emergency situations dictate.

The exterior doors of the residence hall are locked at all times and emergency exit doors are equipped with alarms that signal when the doors are opened. The residence hall is equipped with an automated card access control system which provides unlimited access (exterior door/interior room) to residents and authorized staff. Guests and other visitors may visit the residence hall provided they are authorized and escorted at the door by a resident to grant admittance.

Visitors may be trespassed from the residence hall for violations of hall regulations or campus policy and can be subject to arrest for violation of the trespass restriction. *Those who possess entry privileges to the residence hall or any campus building via key control card must immediately report the loss or theft of the card to the residence hall manager or security for deactivation. The loss or theft of hard keys must also be reported to security immediately.*

Maintenance and Security of Campus Facilities

The College maintains a very strong commitment to campus safety and security. Exterior lighting is an important part of this commitment. Motor vehicle parking lots, pedestrian walkways and building exteriors are well lighted. Formal surveys of exterior lighting on campus are conducted routinely by the Security Department and work closely with the Physical Plant to have all lighting issues addressed in a timely manner. Members of the campus community are encouraged to report any lighting deficiencies to the Facilities Department via School Dude Online Maintenance Request, or by calling (208) 769-3413. Deficiencies that are found at the separate campuses need to be reported to campus security and/or Facilities for correction/repair.

Key Control is one factor of the Facilities Operations Department and Security Dept. responsibilities. All keys issued are signed out and should be returned to the Student Union Bldg., Suite 200 when no longer needed. Assigned keys are not to be given to any unauthorized persons. Keys found in possession of unauthorized personnel may be confiscated by Campus Security Officers or any facilities personnel. The Security Department works closely with Facilities Operations to ensure all doors and locks work properly.

Everyone is encouraged to report any malfunctions immediately to Campus Security or Facilities to help maintain security of the site. Each evening security officers check interior/exterior doors and windows when securing campus facilities.

Shrubbery, trees and other vegetation on campus are trimmed on a regular basis. Campus Security and Facilities personnel survey the grounds of the campus to ensure that shrubbery, trees and other vegetation have been properly trimmed to meet safety standards, within the guidelines of C.P.T.E.D. (Crime Prevention through Environmental Design).

The residence hall is equipped with surveillance cameras for the interior common areas as well as the exterior parking lot and walkways. Additional cameras are in place for various portions of the campus with additional installations scheduled.

Timely Warning Notices (Main & Separate Campuses)

In the event a situation arises that requires issuance of a warning, warnings will be provided to keep the campus community (faculty, staff, students, public.) informed about safety and security matters on an ongoing basis and in an effort to prevent similar crimes from occurring. The decision to issue a timely warning shall be decided on a case

by case basis in compliance with the act and considering all available facts surrounding the campus community, whether the crime is considered a serious or continuing threat to students or employees and the possible risk of compromising law enforcement efforts. Reference pg. 28 for additional information on Emergency Notifications.

Daily Crime Logs and Definitions

Daily Crime Log:

North Idaho College Security maintains a Daily Crime Log that lists all reportable crimes. The log outlines the logistics of the crime (date, time, and location), the nature of the crime and how the crime was handled. These logs are maintained and updated for 365 days. They are available at the Security Department during normal business hours and logs over 60 days are available within 24hrs. Monthly logs are also located on the NIC Security

webpage at www.nic.edu/security. North Idaho College reserves the right to exclude specific crime report information from the log in certain circumstances to maintain victim confidentiality or investigation compromise.

Pastoral and Professional Counselors:

Campus professional counselors are employees of the institution responsible for providing psychological counseling to members of the NIC community and who function within the scope of their license or certification. Campus counselors, when acting in that capacity, are not considered to be a campus security authority and are not required to report crimes for inclusion in the annual security report for crime statistic disclosure. Campus counselors who serve dual roles with one considered being a campus security authority (CSA); they then are required to report campus crimes as prescribed. They are encouraged should they deem it appropriate to inform individuals being counseled of the procedures to report crimes on a voluntary basis for inclusion in the annual crime statistics; this can be accomplished by calling (208)769-3310 or completing a “Secret Witness” filing from the NIC Security webpage. NIC presently does not offer Pastoral Counselors.

Drug Free & Alcohol Free Campus: (Drug Free Schools & Communities Act)

North Idaho College recognizes the risks and negative circumstances with the use of illicit drugs and the abuse of alcohol. NIC is committed to providing a drug and alcohol free environment which lends support to the educational mission of the institution. The use or possession of alcohol on the NIC campuses without prior approval, or the use or possession of illegal drugs on the NIC campuses is in violation of policy. Employees and students participate in the process of developing and reviewing the drug and alcohol policy and the implementation of educational and prevention programs. NIC assures compliance with the Drug Free Schools & Communities Act by regularly monitoring that its printed information is distributed, providing online anytime anywhere access to the NIC Drug & Alcohol Policy, offering preventative and educational programs regarding alcohol and drug use, and implementing appropriate training for employees. Find additional information at www.nic.edu/security, Drug and Alcohol Risks and Penalties tab. Call 208-769-5947 with questions or for additional information.

Crime Statistics/Unfounded Crimes:

The Office of Campus Security, under the direction of the director or their designee, gathers and compiles North Idaho College’s crime statistics. In addition to the crimes reported to Campus Security, the director also solicits information from various campus security authorities which includes, but is not limited to, Director of Residence Life, VP of Student Services, and the Athletic Director/coach’s. Crime statistics in this report for non-campus buildings, separate campuses, public property and adjacent streets were compiled in collaboration with the Outreach Center Coordinators (campus security authorities). We also request and receive crime statistics from the Coeur d’Alene Police, additional law enforcement agencies for adjoining property and campuses (Bonners Ferry, Sandpoint, Rathdrum etc.), plus updates from CrimeReports.com, Nixle, etc. There were no reported crimes that were later deemed to be unfounded by law enforcement from 2013 – 2017 & 2019/2023. For 2018 NIC had one unfounded sexual assault report. When questioned by Police the victim recanted the assault, surveillance of the area also verified the authenticity of the false report. This unfounded report was for the main Coeur d’Alene campus – non-Residence Hall area. The removal of any crime report by law enforcement would be limited to those that were determined to be reported falsely or could not be substantiated. Details on the reported crime and how this was determined to be unfounded would be explained per incident in the Annual Security Report.

Campus Security Authorities:

Campus Security Authorities (CSA) are those in the position of having responsibility for student activities, functions, athletics, residence halls, outreach centers, etc. CSA's will report all crime activity to the NIC Security Department via the electronic CSA incident form, Safe Campus Report, email message or in-person when known. Training for CSA's is available on the NIC Security web page as well as office meetings. CSA's are, but not limited to Resident Hall advisors, club leaders, athletic director & coaches, Director's, Manager's & Coordinators for the Outreach and Training Centers (Separate Campus), Title IX officers, Dean of Students, SRO, Victim Advocates, etc. CSA training material is also provided via campus wide announcements and emailed to CSA's.

Procedures for Sexual Offense Victims (also reference page 32)

Being the victim of a sexual offense can be very traumatic and confusing. The following is a list of options one may pursue subsequent to experiencing a sexual assault or other sexual offenses.

- It is important first to get to a safe place. If safety is not jeopardized, point out the perpetrator to other people.
- Call someone you trust for personal support and possible accompaniment to the hospital and/or Police station. NIC Security can be contacted as well and will assist with the reporting and the assistance process. The "Rape Crisis Line" (661-2522) can provide victim advocacy and support. Assistance can also be sought through the North Idaho Violence Prevention Center by calling 208-664-9303.
NIC can also provide support through Counseling and Health Services (208-769-7818).
- Seek immediate medical attention if you have been assaulted or injured in any way. Hospital emergency rooms are equipped to treat physical injuries, sexually transmitted diseases, and pregnancy, and to collect evidence. Hospital staff can also assist with notifying law enforcement if requested.
Evidence collection will take place only with consent, but it must be gathered within 72 hours of the attack. Consider not bathing, changing clothes, or douching before going to the emergency room because this will destroy evidence that would be helpful in a future prosecution or when seeking a protection order. The hospital will help by informing the Police if they were not already contacted.
- Call the Coeur d'Alene Police Department (911), NIC Security (208-769-3310) or the responsible Campus Security Authority (CSA) for assistance. Reporting a sexual offense does not mean one must prosecute. Reporting alerts the police which increases the chances of quick apprehension of the perpetrator and preventing other offenses. For cases that will be prosecuted, it is best to:
Avoid immediately bathing or changing clothes in order to preserve evidence.
Avoid disturbing the scene of the offense or touching objects that were touched by the perpetrator.
Try remembering as many details about the perpetrator as possible, such as age; height; weight; hair, eye, and skin color; clothing; scars and other distinguishing marks; brand of cigarettes; make of car and license plate number; and verbal or body language habits.
Keep a written record of what happened and add details as they are remembered.

Throughout the process, the victim's wishes will be of paramount importance and will be respected by all concerned. The victim may choose not to notify the Police or campus authorities, but is recommended that they seek assistance from one of the contacts listed below.

The victim may contact any of the Coeur d'Alene or NIC offices listed below to learn about options, receive personal support, or request assistance in notifying the proper authorities. NIC contacts may also provide support in pursuing adjustments in class schedules or the campus environment (if desired changes are reasonably available), or for help in coping with the emotional consequences of being a victim.

North Idaho College will notify the victim of their options and available assistance in changing academic and living situations after an alleged sexual assault incident, if so requested by the victim and such changes are reasonably available. NIC will assist the victim with instructions on attaining a protection or restraining order or similar lawful order from a criminal, civil or tribal court. The NIC School Resource Officer along with campus security and counsellors can provide assistance and information on filing a report, legal options or seeking help. Contact the NIC SRO, security or Title IX Office at 208-769-3310 or listed number below.

North Idaho College will notify both the accuser and the accused in writing that they are entitled to the same opportunities to have others present during a campus disciplinary proceeding; and that both the accuser and the accused shall be informed in writing of the outcome of any campus disciplinary proceeding brought alleging a sexual assault. (For additional information, see Reporting & Disciplinary Procedures further in this document)

**Emergency Response, Notification and Evacuation Procedures: (Main & Separate Campuses)
Call 911 first for immediate response then 208-769-3310**

North Idaho College's need to be prepared for emergencies is ongoing. Through proactive training, drills and involvement with organizations such as the International Association Campus Law Enforcement Administrators (IACLEA), Western Association of Campus Law Enforcement Administrators (WACLEA), Local Emergency Planning Committee (LEPC) and the Kootenai County Office of Emergency Management, Kootenai County training committee, we are continuing to build a community that is ready and willing to support and protect the campuses. Through the National Incident Management System (NIMS), we have developed techniques that support our requirements in emergency operations. Through Alerts Text Messaging/E-mail Notification, Cardinal Connect, a mass notification system has been implemented which allows authorized NIC Departments to send news and instructions simultaneously to individuals through cellphone text messaging, e-mails, Informacast desktop and stations within moments of the critical incident.

North Idaho College has developed a Crisis Response Manual that includes information about Incident Teams, the college operating status parameters, incident priorities and performance expectations; shelter in place and evacuation guidelines; and local contingency plans and continuity of operations plans for their staff and areas of responsibility. North Idaho College conducts exercises each year which have included table top exercises, field exercises, and tests of the emergency notification systems. These tests are designed to assess and evaluate the emergency plans and capabilities of the institution.

The North Idaho College security supervisors have received training in Incident Command and Response to critical incidents on campus. When a serious incident occurs that causes an immediate threat to the campuses, the first responders to the scene are usually security officers and Facilities Department staff who assess the incident and work together with the responding location police and fire agencies to manage the incident. Depending on the nature of the incident a number of other outside agencies could respond for incident containment.

General information about the emergency response and evacuation procedures for North Idaho College are publicized each year as part of the institutions Clery compliance efforts and that information is available on the Campus Security website. Detailed information about, and updates to the North Idaho College Crisis Response Manual are available on the security website at: <http://www.nic.edu/safety/>

Emergency Notifications to the NIC community about an immediate threat or circumstance (Main & Separate Campuses) Call 911 first for immediate response then 208-769-3310.

The Offices of Campus Security and Community Relations and Marketing receive information from the various offices/departments on campus or local/state agencies regarding an incident on campus or local off campus area. Campus Security or the School Resource Officer (SRO) would be the primary recipients on emergency information received from law enforcement for situations that may be off campus but geographically significant for NIC properties. If the Campus Security Department or emergency responders confirms that there is an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the North Idaho College Community, Campus Security and Community Relations and Marketing will collaborate to determine the content of the message and will use some or all of the systems described below to communicate the threat to the campus community, or to the appropriate segment of the community, if the threat is limited to a particular building, separate campus or segment of the population. Campus Security and Community Relations and Marketing will, without delay and taking into account the safety of the community, determine the context of the notification and initiate the notification system, unless issuing a notification will, in the judgment of the first responders compromise the efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

In the event of a serious incident which poses an immediate threat to members of the North Idaho College Community, the college has various systems in place for communicating information quickly to those individuals. Some or all of these methods of communication may be activated in an event of an immediate threat to the campus community. These methods of communication include network e-mails, emergency text messages to cell phones, NIC Alerts messaging system, Informacast, social media and general campus telephone system calls. Advisories are posted on the NIC Website homepage and portal, along with updated information as available. The Office of Community Relations and Marketing will be the sole contact and primary source for press releases and information dissemination to students, staff, and public news entities. NIC students upon enrollment are automatically assigned as recipients for emergency messaging. Visitors, etc. are informed that they may receive alert messages by instructions located on the NIC and security webpage. Evacuation, shelter in place or emergency specific instructions would be included with messages for the main as well as separate campuses. Primary evacuation routes for the main campus are Hubbard St., W. Garden Ave., River Ave. and Rosenberry Dr. Due to the incident type and location the preferred evacuation route would be included in communications along with posted emergency and security personnel. Those who may not be on the campuses, but in the vicinity would be advised to avoid entering the campus until further notice. Should an evacuation of the campus be warranted, instructions on best available departure route(s) would be included. Law enforcement and security staff would be utilized in directing the campus populace on the most direct and safest evacuation procedure – route. Circumstances that would warrant an emergency notification are armed intruder, bomb threat, health hazard, weather event, gas leak, etc. Should an emergency exist at one of the NIC separate campuses, a detail specific message may be tailored for them while a general emergency message drafted for the NIC community. Local law enforcement would provide information on evacuations and immediate pertinent safety measures for the separate campuses.

The NIC Alerts emergency messaging system will be tested at a minimum annually as a test message or in conjunction with an evacuation – Shelter in Place drill or campus exercise. Sign up for emergency messaging at www.nic.edu/security and verify that contact information is updated and correct.

Shelter-in-Place Procedures (Reference Emergency Handbooks located in classrooms and offices. Call 208-769-3310 if you require handbooks) Call 911 immediately to report hostile or life threatening incidents.

The term, **Shelter-in-Place** means to seek immediate shelter and remain there during an emergency rather than evacuate the area. **Shelter-in-Place should be used when an evacuation is not safe.** Certain events may necessitate the initiation of the college's Shelter-in-Place Protocol. The decision to Shelter-in-Place will be made by NIC officials, police or emergency responders using the most current information available. The requirement to shelter in place for separate campuses may initially be communicated by local law enforcement.

Once the decision has been made, officials will instruct the campus community to Shelter-in-Place. This notification will be made using all means of communication available. Providing assistance to those that may be disabled or in open areas should be accomplished if safe to do so.

Shelter-in-Place (Hazardous Material Incident) Recommendations

In the event of a critical incident where hazardous (including chemical, biological or radiological) materials may have been released into the atmosphere either accidentally or intentionally, a decision to Shelter-in-Place may be the preferred method of safely waiting out the release. The following recommendations should be considered:

- Move to rooms with no windows that can open or are open
- Rooms that have little or no ventilation are preferred
- Close any open windows and doors if you cannot move
- Only come out when you are told that it is safe by competent authority
- Note: The heating and ventilation system may be shut down or changed to recirculate air to prevent drawing in outside air for applicable emergencies.

Shelter-in-Place (Active Shooter/Violent Situation Procedures)

In the event of the presence of a person or persons deemed by North Idaho College to be a threat to the campus community, a decision to Shelter-in-Place would be made with the most current information and instructions disseminated. This is the preferred method of keeping people out of harm's way when evacuation is not possible or practical, controlling pedestrian traffic, and controlling access to buildings.

Upon receiving notification to Shelter-in-Place:

- Stay in your rooms/ offices/ classrooms.
- Notify those around you, and encourage others to remain in your room/ office rather than to try to leave the building, assist others if practical.
- Lock the doors, cover the door window if applicable, pull down the blinds, and turn off the lights.
- Stay away from the windows, remain out of sight.
- Monitor your email; computer and cell phone for emergency message updates (silence these devices).
- Report any suspicious activity, sounds or smells to law enforcement by calling 911 (use campus landline if possible, do not hang-up).
- Only come out when you recognize the authority directing you to do so and follow all instructions, secure firearm if you are armed and in possession of the ID. Enhanced Concealed Weapons Permit. Inform law enforcement that you possess a firearm and where it is located, follow LE directions.

Shelter-in-Place (Weather) Recommendation

A severe weather event such as high winds during normal operating hours of the college may necessitate you Shelter-in-Place until the threat of bad weather has passed. Relocating from your normal work area to a space that has no windows or to a lower floor may increase your chances of survival. It is recommended that you:

- Move to the basement of the building- they usually provide the best protection.
- Move to an interior room with no windows or a hallway on the lowest floor possible.
- Move to an interior stairwell if all rooms have windows.
- Stay in the center of the room away from doors and windows.
- Stay in place until the danger has passed.
- Possible building evacuation due to proximity of trees or other hazards.

Those that may not be within an office or classroom when the Shelter in Place notice is issued will need to assess the situation and make the best decision from the information provided. This decision may be based on your

location at that moment (hallway, parking lot, sidewalk, etc.) while avoiding the general area of the emergency. Returning to your vehicle may be your best action if you are within the parking lot and it is safe to do so.

When law enforcement arrives for an active shooter/hostile incident, they will not stop to help the injured, rescue teams will follow. Remain calm and follow instructions, drop items in your hand, raise hands and spread fingers. *If you are in possession of the Idaho Enhanced Concealed Weapons Permit and carrying a firearm, the weapon must be secured prior to law enforcement arrival. Do not make contact with law enforcement while displaying a firearm as it will be assumed that you are a threat and could be fired upon.*

Follow evacuation instructions from law enforcement, keep hands raised and remain in the safe location where you are directed. Law enforcement will identify and question witnesses as time permits.

Missing Student Notification:

If a member of the campus community has reason to believe that a student who resides in *on-campus housing* is missing, he or she should immediately notify the Residence Hall Manager at 208-769- 5988, or Dean of Students Office at 208- 769- 6176, or NIC Security at 208-769-3310. The Residence Hall manager will contact Campus Security (208-769-3310) and the Dean of Students Office and initiate an investigation. The investigating team or designated representative will meet with the individual(s) making such a report and gather the following information:

- Essential information about the missing person—description, clothes last worn, possible location including last known destination, individuals the missing person might be with, known associates, and vehicle description. A recent photograph should be secured.
- The investigating team will also gather information about the physical and mental wellbeing of the missing person. A current class schedule, class attendance information (assistance through the Registrar or Dean of Students Office) job information and work schedule, and residence hall information sheet will be obtained.
- Based on information gathered in steps one and two, appropriate campus staff will be contacted and either questioned or notified regarding the missing persons status.
- After the completion of steps one through three and it appears that the person is actually missing, parents or an emergency contact person will be notified by the Residence Hall Manager or Dean of Students office.
- After consultation with the family of the missing person, the family may contact the Coeur d’Alene Police (208-769-2320) or NIC SRO to file a missing person report, further investigatory measures will be taken or additional notifications made based on the circumstances of the individual case. Once the Police Department is notified, they will be the primary investigator and the college personnel will continue to work with them.

The Residence Hall Manager and Students Services office will keep the family or identified contact informed of the investigation status.

In addition to registering an emergency contact, students residing in on-campus housing have the option to identify confidentially, an individual to be contacted by NIC in the event the student is determined to be missing for more than 24 hrs. If a student has identified such an individual, NIC will notify that individual no later than 24 hrs. after the student is determined to be missing. This information shall be registered, remain confidential, accessible to only authorized NIC officials, and only disclosed to law enforcement for investigation purposes. Students under the age of 18 and not emancipated shall have parents and/or listed contact notified within 24 hours of being determined missing. NIC will notify local law enforcement within 24 hours once determined that a student is confirmed missing.

Students who wish to identify a confidential contact can do so through the Residence Life Manager.

Domestic Violence, Dating Violence, Stalking and Sexual Assault/Harassment (see pgs. 40-41)

North Idaho College is committed to maintaining learning and working environment that is free of discrimination, harassment and violence for all students, staff, and visitors.

Members of the NIC community who supervise employees or students, teach-coach or advise students or members of the public, or those that have authority to a college related or sponsored program, must engage in appropriate proactive measures to prevent violations of NIC policy. Anyone who may be a victim of or have knowledge of an instance of domestic violence, dating violence, stalking or sexual assault/ harassment should promptly report this to the NIC Title IX Coordinator at (208) 769-5970, (208) 676-7156, and to NIC Security at (208) 769-3310.

In order to implement and clarify changes to the Violence Against Women Reauthorization Act of 2013, the Higher Education Act defines these crime categories; **NIC prohibits the crimes of Domestic Violence, Dating Violence, Sexual Assault and Stalking** (also reference pg. 10)

“Sexual Harassment” means unwanted sex or gender based conduct that is sufficiently severe and persistent that it unreasonably interferes with, denies or limits a person’s ability to participate in or benefit from an educational program, activity, or creates a hostile environment. Additional forms of sexual misconduct can be identified as; indecent exposure, exhibitionism, indecent liberties, peeping or voyeurism, prostitution, “sexting”.

Retaliating or the perceived threat of retaliating, to include intimidation, to prevent or hinder the reporting or investigation of any crime or complaint will be investigated.

Risk reduction

The following are strategies that should be kept in mind to assist in reducing the possibility of sexual assaults. Be aware of your surroundings, avoid isolated areas, walk in the company of others, be mentally and physically prepared should you be confronted with a situation, carry a cell phone or have a means for requesting help, do not place yourself in a situation or location that you do not feel comfortable (trust your instincts), Do not leave food or drink unattended or accept food or drink from someone you don’t trust, park in areas that are well-lit and afford accessibility. Please reference the security webpage (www.nic.edu/security) sexual offense victims & online resources tab for information and videos on risk reduction, alcohol awareness, domestic/dating violence, stalking and sexual assault. Call security at 208-769-3310 for an escort on the NIC campus.

Victims of Domestic Violence, Dating Violence, Stalking, Rape, Incest or Sexual Assault/Harassment should report any and all instances to their supervisor, instructor, campus authority, Title IX Coordinator, law enforcement or NIC security immediately. Victims will be provided information and assistance on contacting law enforcement if

desired, reporting options, and procedures should the victim decline to notify authorities, confidentiality options, procedures for investigating and adjudicating their claim, be informed of campus and community medical, counseling and referral options. The victim can expect that personal information related to their claim will not be released or made available to the public. The victim can also request through the Student Development and Services Office (208)769-5970 options for changing academic, living, transportation or working accommodations. NIC security is available to provide escorts and assist with additional needs you may require, please call (208) 769-3310.

Victims should seek medical attention when needed, should contact law enforcement by dialing 911 when in danger. Preserving evidence when a crime is committed is vital. Police, medical professionals or advocates can recommend ways to preserve physical and electronic evidence and how to record behavior traits. NIC will provide assistance and guidance when requested. NIC can advise and assist those who may wish to proceed with protection, no contact or restraining orders that are issued by criminal, civil or tribal court. Please contact NIC security at (208) 769-3310 for assistance and additional information.

When NIC receives a report that an instance of Domestic Violence, Dating Violence, Stalking, Rape, Incest or Sexual Assault- Harassment exists, the Title IX Coordinator will be notified for investigative purposes. If the investigation results in the violation of law or policy through evidence collected, the findings will be sent through the required process for legal, disciplinary or referral resolution. The accuser and accused will be kept informed (in writing & simultaneous) throughout the process and made aware of all procedural and appeal options available. The accuser and accused are given timely notice of meetings at which one or the other or both may be present. The accuser, accused and officials will be given timely and equal access to information that will be used during informal and formal disciplinary meetings and hearings. Proceedings and investigations shall be prompt, fair, impartial, and be conducted by officials who have no conflict of interest, are unbiased, and are annually trained on these related issues. The student/employee will be provided with written notice of the investigation and the determining factors for any disciplinary action to follow. The complainant will also be advised of their rights (in writing) that pertain to no contact or protective orders, options for academic and housing accommodations and transportation, protective measures (escorts & classroom accessibility) when applicable.

Bystander Information & Intervention (Green Dot)

If you suspect that someone is in a potential high risk situation for becoming a sexual assault or misconduct victim, intervention could be the difference from someone becoming a victim.

“What you could do”;

Taking the initiative to help someone who may be impaired or not thinking clearly.

Prevent someone who may be intoxicated from going to a potential unsafe area or entering into an unsafe situation.

Remind those who may not be informed of what the definition of consent is.

Contact someone who will intervene (Security or Police).

For more information, please refer to the Sexual Offense Victims tab, Student Success videos for Bystander Intervention and other awareness topics at <http://www.nic.edu/safety/>

Consent for Sexual Activity

Consent is positive cooperation involving an act of free will, absent of coercion, intimidation, force or threat of force. Someone cannot consent when they are impaired by the influence of alcohol or drugs, by someone who has a disability that would impair their understanding of the act.

Consent must be understood by everyone and may have limitations, full consent to everything must not be assumed, honor limits that are set and that consent can be denied at any time. The legal age of consent for sexual activity for the State of Idaho is 18 years.

Definitions:

Awareness Programs: Community wide or audience specific programming, initiatives and strategies that increase audience knowledge, and share information and resources to prevent violence, promote safety and reduce perpetration.

Primary Prevention Programs: Programming, initiatives and strategies intended to stop dating violence, domestic violence, sexual assault and stalking before they occur through the promotion of positive and healthy behaviors that foster healthy, mutually respectful relationships and sexuality, encourage safe bystander intervention, and seek to change behavior and social norms in healthy and safe directions.

Ongoing Prevention and Awareness Campaigns: These are campaigns that are applied over time focusing on increasing awareness or understanding of topics relevant to Sexual Assault, Domestic Violence, Dating Violence and Stalking. These campaigns will occur throughout the year and may include awareness months, handouts, fliers, seminars, information tables, Campus Safety Week, emails, etc. Effective campaigns will address topics as consent, social behaviors, perpetrator tactics, awareness and reporting, any geographic or present trends.

Risk Reduction: This term refers to approaches that seek to mitigate risk factors that may increase the likelihood of perpetration, victimization or bystander inaction. Risk Reduction focuses on helping individuals and communities address the institutional structure or cultural conditions that facilitate Sexual Assault, Domestic Violence, Dating Violence or Stalking to increase safety. Examples of Risk Reduction may include crime prevention education, security escorts, safety plans, vehicle services, and bystander intervention programs that educate the campus on how to recognize, report and interrupt situations of harm, or implementing a communication system that can notify the campus of immediate threats to safety and security.

Annual Fire Report

North Idaho College in compliance with the Higher Education Act (HEOA) which is required of all Title IV institutions that maintain an on-campus student housing facility. An on-campus student housing facility is defined as any dormitory or other residential facility for students that are located on an institutions campus even if the building is owned or maintained by a student organization or another party.

Residential Facilities:

North Idaho College currently has one on-campus housing facility located at 518 College Drive which houses 202 students, Resident Advisors, and the Residence Hall Coordinator.

Fire System Description:

The Residence Hall has a monitored system that includes a sprinkler system, both in the student's rooms and common areas of the building. An alarm system which includes horns, strobes, smoke detectors, heat sensors, duct sensors, pull stations and a panel monitored 24/7 by Simplex Grinnell. The system for both fire alarm and sprinklers, and fire doors are tested annually by the licensed contractor. Any and all deficiencies or repair needs must be reported to the residence hall manager – staff, or security immediately.

Fire Drills

Participation in all fire drills and evacuations is mandatory and anyone causing a false alarm, tampering, damaging, or in any way using fire safety equipment for other than its intended use will be stringently penalized and/or immediately evicted from the residence hall. Violation of Idaho's Uniform Fire Code may also result in up to a \$1,000 fine and/or up to six months in jail.

Fire drills are scheduled a minimum of four times a year, once each semester (start of) and additional drills will be scheduled during summer camps when applicable.

Fire Safety Policies

For fire safety reasons, the only two appliances allowed in the rooms are a microwave and mini-fridge.

Smoking is prohibited within the building and on the NIC campus (only permitted at designated areas)

Any kind of an exposed heating or smoke bearing element is prohibited. This includes, but not limited to, hot plates, electric fry pans, and halogen lamps.

Propping entrances and suite doors open is a fire & safety consideration, please do not prop open doors.

Smoke detectors and sprinklers cannot be covered or obstructed in any way.

Overhead lights may not be manipulated in any way.

Live or cut Christmas trees and large amounts of dry vegetation (hay bales, corn stalks, leaves) are prohibited.

The use of open burning candles (no open flame) or incense is prohibited.

Do not use the elevators during a fire alarm. Elevators may not be tampered with in any way (unless there is an emergency), including pulling on the doors, ringing the alarm, or using the emergency telephone.

Routine inspection of student rooms once a month is necessary to verify that acceptable standards of safety are observed, residence hall regulations and public laws are followed, and for fire equipment and safety checks (smoke detectors, sprinklers, outlets).

Emergency Evacuation Procedures

In case of an emergency, call 911, provide as much detailed information as feasible. In case of a fire, the alarm will sound (if you see/smell a fire, pull an alarm). Walk out of the building quickly and do not use the elevators. Meet on the soccer field (south of the Residence Hall) unless directed otherwise by competent authority and wait for instructions. The Meyer Health & Sciences Bldg. west of the residence hall may be used during an evacuation due to inclement or dangerous weather. Evacuation routes are posted on the back of each student room door. Staff may enter rooms to check on evacuation if there is reason to believe that someone could not or did not evacuate. All residents must evacuate and failure to do so is a violation of state law and residence hall regulations.

Evacuation of persons with disabilities:

Persons with disabilities who may need assistance with evacuation should notify the Residence Hall coordinator at time of move-in and provide necessary documentation of disability and needs. When an evacuation occurs, those persons need to go to the area of rescue by the elevator and wait for assistance. The Hall coordinator and RA's should ensure that no one is waiting in an area of rescue prior to evacuating themselves and render necessary assistance to evacuate the disabled person.

Residence Hall students should contact the Residence Hall manager (208) 769-5988 or Student Union Operations (208) 769-7787 for additional fire safety or program information; initial training will be addressed during residence hall move in orientations and room assignments.

In May 2020, the U.S. Department of Education unveiled a final rule which changes how colleges and universities that receive federal funds must handle allegations of sexual assault and harassment under Title IX of the Education Amendments of 1972. The rule took effect Aug. 14, 2020. North Idaho College (NIC) is taking action to ensure full compliance with these new regulations. This includes revising policies to conform to the new regulations before the effective date and the start of the Fall 2020 semester.

Although Title IX rules are changing, NIC's outlook remains unchanged: Title IX is crucial to the health and wellness of the North Idaho College community overall. One of NIC's highest priorities is fostering a welcoming and inclusive campus for employees, students, and campus visitors. Student safety has always been and will remain our priority.

Key Changes to Title IX Law

A few of the important changes affected by the final rule include:

Definition of Sexual Harassment for Title IX Purposes - Pursuant to the new Title IX rules, the term "sexual harassment" will be broadly defined in the North Idaho College Title IX Policy on Sex Discrimination, Including Sexual Harassment to mean conduct on the basis of sex that satisfies one or more of the following: An employee of NIC conditioning education benefits on participation in unwelcome sexual conduct or unwelcome conduct that a reasonable person would determine is so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the North Idaho College education program or activity, or sexual assault (as defined in the Clery Act), dating violence, domestic violence, or stalking as defined in the Violence Against Women Act (VAWA).

Grievance Process- The new Title IX rules require the handling of formal complaints of sexual harassment through a formal grievance process only where the alleged sexual harassment occurs in a covered institution's education program or activity; against a person in the United States.

Live Hearings - The Title IX grievance process includes live hearings for formal complaints of sexual harassment. Such hearings will be conducted before a hearing officer and will feature witness testimony and questioning, including cross-examination. Complainants and respondents may select an advisor to represent them during the live hearings. NIC will appoint an advisor for a party that does not have one.

Appeals - Consistent with NIC's current policy concerning sexual misconduct, decisions rendered on a formal complaint of sexual harassment under the new Title IX rules will be subject to appeal under some circumstances.

Informal Resolution - Except in cases involving allegations that a NIC employee has sexually harassed a student, where a formal complaint of sexual harassment is filed, the parties may voluntarily and mutually agree in writing to engage in an informal resolution process (i.e., mediation) to try to resolve the formal complaint. Mediation, where available, can serve as an alternative to the live-hearing process.

About Title IX Law

Title IX is a comprehensive U.S. federal law that prohibits discrimination on the basis of sex in any federally funded education program or activity. The principal objective of Title IX is to avoid the use of federal money to support sex discrimination in education programs and to provide individual citizens effective protection against those practices. Title IX law prohibits sexual harassment as well as sexual violence such as rape, sexual assault, and sexual coercion; applies to all people regardless of gender; applies regardless of whether or not a criminal report is filed.
